Forward-looking statements provide our current expectations or forecasts of future events. Forward-looking statements include statements about our expectations, beliefs, plans, objectives, intentions, assumptions and other statements that are not historical facts or that are not present facts or conditions. Forward-looking statements and information can generally be identified by the use of forward-looking terminology or words, such as “anticipate,” “approximately,” “believe,” “continue,” “estimate,” “expect,” “forecast,” “intend,” “may,” “ongoing,” “pending,” “perceive,” “plan,” “potential,” “predict,” “project,” “seeks,” “should,” “views” or similar words or phrases or variations thereon, or the negatives of those words or phrases, or statements that events, conditions or results “can,” “will,” “may,” “must,” “would,” “could” or “should” occur or be achieved and similar expressions in connection with any discussion, expectation or projection of future operating or financial performance, costs, regulations, events or trends. The absence of these words does not necessarily mean that a statement is not forward-looking. Forward-looking statements and information are based on management’s current expectations and assumptions, which are inherently subject to uncertainties, risks and changes in circumstances that are difficult to predict.

Without limiting the generality of the foregoing, all statements in this annual report on Form 20-F concerning or relating to estimated and projected earnings, margins, costs, expenses, expenditures, cash flows, growth rates, future financial results and liquidity are forward-looking statements. In addition, we, through our senior management, from time to time may make forward-looking public statements concerning our expected future operations and performance and other developments. Such forward-looking statements are necessarily estimates reflecting our best judgment based upon current information and involve a number of risks and uncertainties. Other factors may affect the accuracy of these forward-looking statements and our actual results may differ materially from the results anticipated in these forward-looking statements. While it is impossible to identify all such factors, factors that could cause actual results to differ materially from those estimated by us may include, but are not limited to, those factors and conditions described under “Item 3.D. Risk Factors” as well as general conditions in the economy, dry bulk industry and capital markets and effects of pandemics and world conflicts. We undertake no obligation to revise any forward-looking statement to reflect circumstances or events after the date of this annual report on Form 20-F or to reflect the occurrence of unanticipated events or new information, other than any obligation to disclose material information under applicable securities laws. Forward-looking statements appear in a number of places in this annual report on Form 20-F including, without limitation, in the sections entitled “Item 5. Operating and Financial Review and Prospects,” “Item 4.A. History and Development of the Company” and “Item 8.A. Risks relating to Our Industry.

The international dry bulk shipping industry is cyclical and volatile.

The international seaborne transportation industry is cyclical and has high volatility in charter rates, vessel values and profitability. Fluctuations in charter rates result from changes in the supply and demand for vessel capacity and changes in the supply and demand for energy resources, commodities, semi-finished and finished consumer and industrial products internationally carried at sea. For more information see “—The dry bulk vessel charter market remains significantly below its high in 2008.” Currently all of our vessels are chartered on short-term time charters or on the spot market, and we are exposed, therefore, to changes in spot market and short-term charter rates for dry bulk vessels and such changes affect our earnings and the value of our dry bulk vessels at any given time. For more information, see “—We depend on short-term or spot charters in volatile shipping markets.” The supply of and demand for shipping capacity strongly influences freight rates. The factors affecting the supply and demand for vessels are outside of our control, and the nature, timing and degree of changes in industry conditions are unpredictable.

Factors that influence demand for vessel capacity include:

- supply of and demand for energy resources, commodities, and semi-finished consumer and industrial products and the location of consumption versus the location of their regional and global exploration production or manufacturing facilities;
- the globalization of production and manufacturing;
- port and canal congestion charges;
- general dry bulk shipping market conditions, including fluctuations in charter hire rates and vessel values and demand for and production of dry bulk products;
- global and regional economic and political conditions, including exchange rates, trade deals, trade disputes or the imposition of tariffs on various commodities or finished goods, conflicts and wars (including the Ukraine conflict, the war between Israel and Hamas or the Houthi crisis in the Red Sea), and the rate and geographic distributions of economic growth;

[Table of Contents](#)

- environmental and other regulatory developments;
- changes in seaborne and other transportation patterns, including the distance dry bulk cargoes are to be moved by sea;
- embargoes and strikes;
- natural disasters and weather; and
- public health threats, pandemics, such as COVID-19 (and various variants that may emerge), epidemics and other disease outbreaks and governmental responses thereto.

Factors that influence the supply of vessel capacity include:

- the size of the newbuilding orderbook;
- the price of steel and vessel equipment;
- technological advances in vessel design and capacity;
- the number of newbuild deliveries, which among other factors relates to the ability of shipyards to deliver newbuilds by contracted delivery dates and the ability of purchasers to finance such newbuilds;
- the scrapping rate of older vessels;
- the availability of financing for new vessels and shipping activity;
- vessel casualties; and
- the number of vessels that are out of service, namely those that are laid-up, dry docked, awaiting repairs, or otherwise not available for hire.
- port and canal congestion, speed of vessel operation and waiting times;
- the number of vessels that are in or out of service, including due to vessel casualties; and
- changes in national or international regulations (including, but not limited to, environmental regulations) that may limit the useful lives of vessels and effectively cause reductions in the carrying capacity of vessels.

In addition to the prevailing and anticipated freight rates, factors that affect the rate of newbuilding, scrapping and laying-up include newbuilding prices, secondhand vessel values in relation to scrap prices, costs of bunkers and other operating costs, costs associated with classification society surveys, normal maintenance costs, insurance coverage costs, the efficiency and age profile of the existing dry bulk fleet in the market, and government and industry regulation of maritime transportation practices, particularly environmental protection laws and regulations. These factors influencing the supply of and demand for shipping capacity are outside of our control, and we may not be able to correctly assess the nature, timing and degree of changes in industry conditions.

We anticipate that the future demand for our dry bulk vessels and charter rates will be dependent upon continued economic growth in the world's economies, seasonal and regional changes in demand and changes to the capacity of the global dry bulk vessel fleet and the sources and supply of dry bulk cargo to be transported by sea. Adverse economic, political, social or other developments could negatively impact charter rates and therefore have a material adverse effect on our business, results of operations and ability to pay dividends. We may also decide that it makes economic sense to lay up one or more vessels. While our vessels are laid up, we will pay lay-up costs, but those vessels will not be able to earn any hire.

The dry bulk vessel charter market remains significantly below its high in 2008.

The revenues, earnings and profitability of companies in our industry are affected by the charter rates that can be obtained in the market, which is volatile and has experienced significant declines since its highs in 2008. The Baltic Dry Index, or the BDI, which is published daily by the Baltic Exchange Limited, or the Baltic Exchange, a London-based membership organization that provides daily shipping market information to the global investing community, is an average of selected ship brokers' assessments of time charter rates paid by a customer to hire a dry bulk vessel to transport dry bulk cargoes by sea. The BDI has long been viewed as the main benchmark to monitor the movements of the dry bulk vessel charter market and the performance of the entire dry bulk shipping market. The BDI declined from an all-time high of 11,793 in May 2008 to a low of 663 in December 2008, which represents a decline of 94% within a single calendar year. Since 2009, the BDI has remained fairly depressed compared to historical numbers. The BDI reached a new all-time low of 290 on February 10, 2016. In the following years volatility was less extreme, although there were still multiple instances where the index decreased or increased by more than 50% in short periods of time. In 2023, the BDI ranged from a low of 530 on February 16, 2023 to a high of 3,346 on December 4, 2023. In 2024 through March 13, 2024, the BDI ranged from a high of 2,377 on March 11, 2024 to a low of 1,308 on January 17, 2024, but, due to its volatile nature, there can be no assurance of the future performance of the BDI.

The decline from historic highs and volatility in charter rates following 2008 is due to various factors, including the over-supply of dry bulk vessels, the lack of trade financing for purchases of commodities carried by sea, which resulted in a significant decline in cargo shipments, and trade disruptions caused by natural or other disasters, such as those that resulted from the dam collapse in Brazil in 2019 and the outbreak of the coronavirus infection in China. Following Russia's invasion of Ukraine in February 2022, the U.S., the EU, the UK, and other countries have imposed sanctions against Russia and certain disputed regions of Ukraine. The sanctions imposed by the U.S. and other countries against Russia include, among others, restrictions on selling or importing goods, services, or technology in or from affected regions, travel bans, and asset freezes impacting connected individuals and political, military, business, and financial organizations in Russia, severing large Russian banks from U.S. and/or other financial systems, and barring some Russian enterprises from raising money in the U.S. market. The U.S., the EU, and other countries could impose wider sanctions and take other actions. The war in Ukraine has resulted in higher freight market volatility and while the initial effect on the dry bulk freight market was positive, the long-term effects so far remain unclear. More recently, the war between Israel and Hamas has resulted in increased tensions in the Middle East region, including missile attacks by the Houthis on vessels in the Red Sea.

The decline and volatility in charter rates in the dry bulk market also affects the value of our dry bulk vessels, which generally follows the trends of dry bulk charter rates, and earnings on our charters, and similarly affects our cash flows, liquidity and compliance with the covenants contained in our loan arrangements.

The international shipping industry and dry bulk market are highly competitive.

The shipping industry and dry bulk market are capital intensive and highly fragmented with many charterers, owners and operators of vessels and are characterized by intense competition. Competition arises primarily from other independent and state-owned vessel owners, some of whom have substantially greater resources than we do. The trend towards consolidation in the industry is creating an increasing number of global enterprises capable of competing in multiple markets, which may result in a greater competitive threat to us. Our competitors may be better positioned to devote greater resources to the development, promotion and employment of their businesses than we are. Competition for the transportation of cargo by sea is intense and depends on customer relationships, operating expertise, professional reputation, price, location, size, age, environmental, social, and governance criteria, condition and the acceptability of the vessel and its operators to the charterers. Competition may increase in some or all of our principal markets, including with the entry of new competitors, who may operate larger fleets through consolidations or acquisitions and may be able to sustain lower charter rates and offer higher quality vessels than we are able to offer. We may not be able to continue to compete successfully or effectively with our competitors and our competitive position may be eroded in the future, which could have an adverse effect on our fleet utilization and, accordingly, business, financial condition, results of operations and ability to pay dividends.

We also face competition from companies with more modern vessels with more fuel-efficient designs than our current vessels. Competition from more technologically advanced vessels could adversely affect the chartering opportunities available to us and the charter rates we will be able to negotiate, therefore adversely affecting our business, operating results, cash flows, and financial condition, while also significantly decreasing the resale value of our vessels.

Political instability, terrorist or other attacks, war and international hostilities could affect our business, results of operations, cash flows and financial condition

Our business, operating results, cash flows, financial conditions, and available cash may be adversely affected by changing economic, political, and governmental conditions in the countries and regions in which our vessels or other vessels we may acquire are employed or registered. We operate in a sector of the economy that is likely to be adversely impacted by the effects of political conflicts, including the war between Ukraine and Russia and between Israel and Hamas, Russia and NATO tensions, China and Taiwan disputes, United States and China trade relations, instability between Iran and the West, hostilities between the United States and North Korea, political unrest and conflicts in the Middle East, the South China Sea region, the Red Sea region (including missile attacks controlled by the Houthis on vessels transiting the Red Sea), and other countries and geographic areas, geopolitical events, such as Brexit, terrorist or other attacks (or threats thereof) around the world, and war (or threatened war) or international hostilities.

[Table of Contents](#)

The continuing war and recent developments in Ukraine, the Middle East, including tensions between the U.S. and Iran, the war between Israel and Hamas and the conflict in the Red Sea, as well as other geographic countries and areas, terrorist or other attacks, and war (or threatened war) or international hostilities, such as the ones currently in progress between Russia and Ukraine, Israel and Hamas, China and Taiwan, or the U.S. and North Korea, have recently and may in the future lead to armed conflict or acts of terrorism around the world continue to cause uncertainty and volatility in the world financial markets and may affect our business, results of operations and financial condition. These uncertainties could also adversely affect our ability to obtain additional financing on terms acceptable to us or at all.

The conflict between Russia and Ukraine, which commenced in February 2022 and the length and breadth of which remains highly unpredictable, may lead to further regional and international conflicts or armed action. This conflict has disrupted supply chains and caused instability and significant volatility in the global economy, with effects on shipping freight rates, which have experienced volatility. Much uncertainty remains regarding the global impact of the conflict in Ukraine, and it is possible that such instability, uncertainty and resulting volatility could significantly increase our costs and adversely affect our business, including our ability to secure charters and financing on attractive terms, and as a result, adversely affect our business, financial condition, results of operation and cash flows.

As a result of the conflict between Russia and Ukraine, Switzerland, the United States, the European Union, the United Kingdom and others have announced unprecedented levels of sanctions and other measures against Russia and certain Russian entities and nationals, including removing Russian-based financial institutions from the Society for Worldwide Interbank Financial Telecommunication payment system and restricting imports of Russian oil, liquefied natural gas, and coal. Such sanctions against Russia may adversely affect our business, financial condition, results of operation and cash flows. For example, apart from the immediate commercial disruptions caused in the conflict zone, escalating tensions and fears of potential shortages in the supply of Russian crude have caused the price of oil to trade above historical pricing. The ongoing conflict could result in the imposition of further economic sanctions against Russia, with uncertain impacts on the dry bulk market and the world economy. While we currently do not have any Ukrainian or Russian crew and our vessels currently do not sail in the Black Sea, it is possible that the conflict in Ukraine, including any increased shipping costs, disruptions of global shipping routes, any impact on the global supply chain and any impact on current or potential customers caused by the events in Russia and Ukraine, could adversely affect our operations or financial performance. Due to the recent nature of these activities, the full impact on our business is not yet known.

The ongoing conflict between Russia and Ukraine could result in the imposition of further economic sanctions by the United States, the United Kingdom, the European Union, or other countries against Russia, trade tariffs, or embargoes with uncertain impacts on the markets in which we operate. In addition, the U.S. and certain other North Atlantic Treaty Organization (NATO) countries have been supplying Ukraine with military aid. U.S. officials have also warned of the increased possibility of Russian cyberattacks, which could disrupt the operations of businesses involved in the dry bulk industry, including ours, and could create economic uncertainty particularly if such attacks spread to a broad array of countries and networks. Although Ukraine and Russia reached an agreement to extend an arrangement allowing shipment of grain from Ukrainian ports through a humanitarian corridor in the Black Sea in November 2022, Russia terminated this agreement in July 2023. While much uncertainty remains regarding the global impact of the war in Ukraine, it is possible that such tensions could adversely affect our business, financial condition, operating results, and cash flows.

Furthermore, the intensity and duration of the recently declared war between Israel and Hamas is difficult to predict and its impact on the world economy and our industry is uncertain. While much uncertainty remains regarding the global impact of the war between Israel and Hamas, it is possible that such tensions could result in the eruption of further hostilities in other regions, including the Red Sea, and could adversely affect our business, financial conditions, operating results, and cash flows.

In the past, political conflicts have also resulted in attacks on vessels, mining of waterways and other efforts to disrupt international shipping, particularly in the Arabian Gulf region. These types of attacks have also affected vessels trading in regions such as the Black Sea, South China Sea and the Gulf of Aden off the coast of Somalia. The ongoing war in Ukraine has previously resulted in missile attacks on commercial vessels in the Black Sea and the recent outbreak of conflict in the Red Sea has also resulted in missile attacks on vessels. Acts of terrorism and piracy have also affected vessels trading in regions such as the Gulf of Guinea, the Red Sea, the Gulf of Aden off the coast of Somalia, and the Indian Ocean. The International Maritime Organization's ("IMO") extraordinary council session held on March 10-11, 2022 addressed the impacts on shipping and seafarers, as a result of the war in Ukraine. The IMO called for the need to preserve the integrity of maritime supply chains and the safety and welfare of seafarers and any spillover effects of the military action on global shipping, logistics and supply chains, in particular the impacts on the delivery of commodities and food to developing nations and the impacts on energy supplies. Any of these occurrences could have a material adverse impact on our operating results, revenues and costs.

The current state of the world financial market and current economic conditions could have a material adverse impact on our results of operations, financial condition and cash flows, and could cause the market price of our common shares to decline.

Various macroeconomic factors, including rising inflation, higher interest rates, global supply chain constraints, and the effects of overall economic conditions and uncertainties, such as those resulting from the current and future conditions in the global financial markets, could adversely affect our business, results of operations, financial condition, and ability to pay dividends. Inflation and rising interest rates may negatively impact us by increasing our operating costs and our cost of borrowing. Interest rates, the liquidity of the credit markets, and the volatility of the capital markets could also affect the operation of our business and our ability to raise capital on favorable terms, or at all. Adverse economic conditions also affect demand for goods and oil. Reduced demand for these or other products could result in significant decreases in rates we obtain for chartering our vessels and other vessels we may acquire. In addition, the cost for crew members, oils and bunkers, and other supplies may increase. Furthermore, we may experience losses on our holdings of cash and investments due to failures of financial institutions and other parties. Difficult economic conditions may also result in a higher rate of losses on our accounts receivable due to credit defaults. As a result, downturns in the worldwide economy could have a material adverse effect on our business, results of operations, financial condition, and ability to pay dividends.

The world economy continues to face a number of actual and potential challenges, including the war between Ukraine and Russia and between Israel and Hamas, tensions in the Red Sea or Russia and NATO tensions, China and Taiwan disputes, the United States and China trade relations, instability between Iran and the West, hostilities between the United States and North Korea, political unrest and conflict in the Middle East, the South China Sea region, and other geographic countries and areas, terrorist or other attacks (including threats thereof) around the world, war (or threatened war) or international hostilities, and epidemics or pandemics, such as COVID-19 and its variants, and banking crises or failures, such as the recent Silicon Valley Bank, Signature Bank, and First Republic Bank failures. See also “—Pandemics such as the coronavirus (COVID-19) may make it very difficult for us to operate in the short-term and have unpredictable long-term consequences, all of which could decrease the supply of and demand for the raw materials we transport, the rates that we are paid to carry our cargo, and our financial outlook.” In addition, the continuing war in Ukraine, the length and breadth of which remains highly unpredictable, has led to increased economic uncertainty amidst fears of a more generalized military conflict or significant inflationary pressures, due to the increases in fuel and grain prices following the sanctions imposed on Russia. Furthermore, it is difficult to predict the intensity and duration of the war between Israel and Hamas or the Houthi rebel attacks on shipping in the Red Sea and their impact on the world economy is uncertain. If such conditions are sustained, the longer-term net impact on the dry bulk market and our business would be difficult to predict with any degree of accuracy. Such events may have unpredictable consequences and contribute to instability in the global economy or cause a decrease in worldwide demand for certain goods and, thus, shipping.

In Europe, concerns regarding the possibility of sovereign debt defaults by European Union, or EU, member countries, although generally alleviated, have in the past disrupted financial markets throughout the world, and may lead to weaker consumer demand in the EU, the U.S., and other parts of the world. The withdrawal of the UK from the EU, or Brexit, further increases the risk of additional trade protectionism. Brexit, or similar events in other jurisdictions, could continue to impact global markets, including foreign exchange and securities markets; any resulting changes in currency exchange rates, tariffs, treaties and other regulatory matters could in turn adversely impact our business, cash flows and operations.

Further, as a result of the economic situation in Greece, which has been slowly recovering from the sovereign crisis and the related austerity measures implemented by the Greek government and the influx of refugees from Syria and other areas, the operations of our Manager located in Greece may be subjected to new regulations and potential shift in government policies that may require us to incur new or additional compliance or other administrative costs and may require the payment of new taxes or other fees. We also face the risk that strikes, work stoppages, civil unrest and violence within Greece could disrupt the shoreside operations of our Manager located in Greece.

In addition, the recent economic slowdown in the Asia Pacific region, particularly in China, may exacerbate the effect of the weak economic trends in the rest of the world. Before the global economic financial crisis that began in 2008, China had one of the world's fastest growing economies in terms of gross domestic product, or GDP, which had a significant impact on shipping demand. China's GDP growth rate for the year ended December 31, 2022, was approximately 3.0%, one of its lowest rates in 50 years, thought to be mainly caused by the country's zero-COVID policy and strict lockdowns. For the year ended December 31, 2023, China's GDP growth rate was claimed by China to have recovered to 5.2%, but the economy continues to be weighed down by the ongoing crisis in the property market. It is possible that China and other countries in the Asia Pacific region will continue to experience volatile, slowed, or even negative economic growth in the near future. Changes in the economic conditions of China, and changes in laws or policies adopted by its government or the implementation of these laws and policies by local authorities, including with regards to tax matters and environmental concerns (such as achieving carbon neutrality), could affect vessels that are either chartered to Chinese customers or that call to Chinese ports, vessels that undergo drydocking at Chinese shipyards and Chinese financial institutions that are generally active in ship financing, and could have a material adverse effect on our business, operating results, cash flows, and financial condition.

Furthermore, governments may turn to trade barriers to protect their domestic industries against foreign imports, thereby depressing shipping demand. There is significant uncertainty about the future relationship between the United States, China, and other exporting countries, including with respect to trade policies, treaties, government regulations, and tariffs. Protectionist developments, or the perception that they may occur, may have a material adverse effect on global economic conditions, and may significantly reduce global trade. Moreover, increasing trade protectionism may cause an increase in (i) the cost of goods exported from regions globally, particularly from the Asia-Pacific region, (ii) the length of time required to transport goods, and (iii) the risks associated with exporting goods. Such increases may further reduce the quantity of goods to be shipped, shipping time schedules, voyage costs, and other associated costs, which could have an adverse impact on our charterers' business, operating results, and financial condition and could thereby affect their ability to make timely charter hire payments to us and to employ our vessels. This could have a material adverse effect on our business, operating results, and financial condition.

Credit markets in the United States and Europe have in the past experienced significant contraction, deleveraging, and reduced liquidity, and there is a risk that the U.S. federal government and state governments and European authorities may continue to implement a broad variety of governmental action and/or introduce new financial market regulations. Global financial markets and economic conditions have been, and continue to be, volatile and we face risks associated with the trends in the global economy, such as changes in interest rates, instability in the banking and securities markets around the world, the risk of sovereign defaults, and reduced levels of growth, among other factors. Major market disruptions and the current adverse changes in market conditions and regulatory climate worldwide may adversely affect our business and operating results or impair our ability to borrow under our current financial arrangements or future financial arrangements we may enter into contemplating borrowing from the public and/or private equity and debt markets. Many lenders have increased interest rates, enacted tighter lending standards, refused to refinance existing debt at all or on terms similar to current debt and reduced (or in some cases ceased to provide) funding to borrowers and other market participants, including equity and debt investors and, in some cases, have been unwilling to provide financing on attractive terms or even at all. Due to these factors, we cannot be certain that financing will be available if needed and to the extent required, on acceptable terms or at all. In the absence of available financing or financing on favorable terms, we may be unable to complete vessel acquisitions, take advantage of business opportunities, or respond to competitive pressures.

An over-supply of dry bulk carrier capacity may depress charter rates.

The market supply of vessels generally increases with deliveries of new vessels and decreases with the recycling of older vessels, conversion of vessels to other uses, such as floating production and storage facilities, and loss of tonnage as a result of casualties. An oversupply of dry bulk vessel capacity, particularly during a period of economic recession, may result in a reduction of charter hire rates. If we cannot enter into charters on acceptable terms, we may have to secure charters on the short-term or spot market, where charter rates are more volatile and revenues are, therefore, less predictable, or we may not be able to charter our vessels at all. In recent years, the market supply of dry bulk vessels had increased due to the high level of new deliveries. Dry bulk newbuildings were delivered in significant numbers starting at the beginning of 2006 and continued to be delivered in significant numbers through 2017. In addition, the dry bulk newbuilding orderbook, extending up to 2028, was approximately 8.66% of the existing world dry bulk fleet as of December 31, 2023, according to Clarksons Research, and the orderbook may increase further in proportion to the existing fleet. A material increase in the net supply of dry bulk vessel capacity without corresponding growth in dry bulk vessel demand could have a material adverse effect on our fleet utilization (including ballast days) and our charter rates generally, and could, accordingly, materially adversely affect our business, financial condition, results of operations and ability to pay dividends. An uptick in charter rates generally discourages scrapping older vessels, but recent regulatory actions have increased the economic incentive to scrap certain older vessels. Accordingly, it remains to be seen in the coming year whether the number of worldwide dry bulk carrying capacity, net of scrapped vessels, will increase.

We may also decide that it makes economic sense to lay up one or more vessels. While our vessels are laid up, we will pay lay-up costs, but those vessels will not be able to earn any hire.

Our industry is subject to complex laws and regulations.

Our operations are subject to numerous laws and regulations in the form of international conventions and treaties, national, state and local laws and national and international regulations in force in the jurisdictions in which our vessels operate or are registered, which can significantly affect the ownership and operation of our vessels. These requirements include but are not limited to: U.S. Oil Pollution Act 1990, as amended, which we refer to as OPA; International Convention for the Safety of Life at Sea, 1974, as amended, which we refer to as SOLAS; International Convention on Load Lines, 1966; International Convention for the Prevention of Pollution from Ships, 1973, as amended by the 1978 Protocol, which we refer to as MARPOL; International Convention on Civil Liability for Bunker Oil Pollution Damage, 2001, which we refer to as the Bunker Convention; International Convention on Liability and Compensation for Damage in Connection with the Carriage of Hazardous and Noxious Substances by Sea, 1996, as superseded by the 2010 Protocol, which we refer to as the HNS Convention; International Convention on Civil Liability for Oil Pollution Damage of 1969, as amended by the 1992 Protocol and further amended in 2000, which we refer to as the CLC; International Convention on the Establishment of an International Fund for Compensation for Oil Pollution Damage, 1971, as amended, which we refer to as the Fund Convention; and Marine Transportation Security Act of 2002, which we refer to as the MTSA.

Government regulation of vessels, particularly in the area of environmental requirements, can be expected to become more stringent in the future and could require us to incur significant capital expenditures on our vessels to keep them in compliance, or even to scrap or sell certain vessels altogether. Compliance with such laws, regulations and standards, where applicable, may require installation of costly equipment or operational changes and increased management costs and may affect the resale value or useful lives of our vessels. We may also incur additional costs in order to comply with other existing and future regulatory obligations, including, but not limited to, costs relating to air emissions, the management of ballast water, recycling of vessels, maintenance and inspection, elimination of tin-based paint, development and implementation of safety and emergency procedures and insurance coverage or other financial assurance of our ability to address pollution incidents. For instance, the IMO's global 0.5% sulphur cap on marine fuels came into force on January 1, 2020, as stipulated in 2008 amendments to Annex VI to the International Convention for the Prevention of Pollution from ships ("MARPOL"). Our vessels require pricier low-sulphur fuel, which may reduce the amount charterers are willing to pay to charter our vessels. In addition, on January 1, 2023, regulations came into force that aim to reduce carbon emissions from both new and existing ships as measured by two main energy efficiency indicators. Ships that fail to comply with these 2023 regulations may be subject to penalties and require modifications to the ship to ensure compliance. It is difficult to determine the cost, if any, until our ships' performance is measured in accordance with these new regulations. If our ships fail to comply with the IMO 2023 regulations or otherwise do not have good performance, this can result in penalties and require modifications to the ship to ensure compliance. Any such modifications may be costly and those ships will be off hire during any period of modification. These and other costs could have a material adverse effect on our business, results of operations, cash flows and financial condition and our ability to pay dividends.

These requirements can also affect the resale prices or useful lives of our vessels or require reductions in capacity, vessel modifications or operational changes or restrictions. Failure to comply with these requirements could lead to decreased availability of or more costly insurance coverage for environmental matters or result in the denial of access to certain jurisdictional waters or ports, or detention in certain ports. Under local, national and foreign laws, as well as international treaties and conventions, we could incur material liabilities, including cleanup obligations and claims for impairment of the environment, personal injury and property damages in the event that there is a release of petroleum or other hazardous materials from our vessels or otherwise in connection with our operations. Violations of, or liabilities under, environmental regulations can result in substantial penalties, fines and other sanctions, including, in certain instances, seizure or detention of our vessels. Events of this nature would have a material adverse effect on our business, financial condition and results of operations.

The operation of our vessels is affected by the requirements set forth in the International Management Code for the Safe Operation of Ships and for Pollution Prevention, or ISM Code. The ISM Code requires the party with operational control of the vessel to develop, implement and maintain an extensive "Safety Management System" that includes, among other things, the adoption of a safety and environmental protection policy setting forth instructions and procedures for safe vessel operation and protection of the environment and describing procedures for dealing with emergencies. Further details in relation to the ISM Code are set out below in the section headed "Environmental and Other Regulations." The failure of a shipowner or bareboat charterer to comply with the ISM Code may subject it to increased liability, and, if the implementing legislation so provides, to criminal sanctions, may invalidate or result in the loss of existing insurance or decrease available insurance coverage for the affected vessels and may result in a denial of access to, or detention in, certain ports. In addition, if we fail to maintain ISM Code certification for our vessels, we may also breach covenants in our financial arrangements that require that our vessels be ISM-Code certified. If we breach such covenants due to failure to maintain ISM Code certification and are unable to remedy the relevant breach, our lenders could accelerate our indebtedness and foreclose on the vessels in our fleet securing our financial arrangements or otherwise terminate charters for any sale and leaseback transaction to which we are a party. As of the date of this annual report on Form 20-F, each of our vessels is ISM Code-certified.

Reactions to climate change may impose additional requirements.

Due to concern over the risk of climate change, a number of countries and the IMO have adopted, or are considering the adoption of, regulatory frameworks to reduce greenhouse gas emissions. These regulatory measures may include, among others, adoption of cap and trade regimes, carbon taxes, increased efficiency standards and incentives or mandates for renewable energy. For instance, the IMO imposed a global 0.5% sulphur cap on marine fuels which came into force on January 1, 2020. Our vessels do not have scrubbers and use low-sulphur fuel instead, and now may require pricier low-sulphur fuel, which may reduce the amount charterers are willing to pay to charter our vessels. In addition, charterers may focus on how environmentally friendly our vessels are, generally, and our rates may be adjusted downwards accordingly.

We discuss this further in this annual report on Form 20-F. See “Item 4.B. Business Overview—Environmental and Other Regulations—Regulations to Prevent Pollution from Ships” and “Item 3.D. Risk Factors—Risks Relating to our Industry—Our industry is subject to complex laws and regulations.”

In addition, although the emissions of greenhouse gases from international shipping currently are not subject to the Kyoto Protocol to the United Nations Framework Convention on Climate Change (this task was delegated under the Kyoto Protocol to the IMO for action), which required adopting countries to implement national programs to reduce emissions of certain gases, a new treaty may be adopted in the future that includes restrictions on shipping emissions.

Furthermore, on January 1, 2024 the EU Emissions Trading Scheme, or the ETS, for ships sailing into and out of EU ports came into effect, and the FuelEU Maritime Regulation is expected to come into effect on January 1, 2025. The ETS is to apply gradually over the period from 2024 to 2026. 40% of allowances would have to be surrendered in 2025 for the year 2024; 70% of allowances would have to be surrendered in 2026 for the year 2025; and 100% of allowances would have to be surrendered in 2027 for the year 2026. Compliance is to be on a companywide (rather than per ship) basis and “shipping company” is defined widely to capture both the ship owner and any contractually appointed commercial operator/ship manager/bareboat charterer who not only assume full compliance for ETS but also under the ISM Code. If the latter contractual arrangement is entered into this needs to be reflected in a certified mandate signed by both parties and presented to the administrator of the scheme. The cap under the ETS would be set by taking into account EU MRV system emissions data for the years 2018 and 2019, adjusted, from year 2021 and is to capture 100% of the emissions from intra-EU maritime voyages; 100% of emissions from ships at berth in EU ports and 50% of emissions from voyages which start or end at EU ports (but the other destination is outside the EU). Furthermore, the newly passed EU Emissions Trading Directive 2023/959/EC makes clear that all maritime allowances would be auctioned and there will be no free allocation. 78.4 million emissions allowances are to be allocated specifically to maritime. If we do not have allowances, we will be forced to purchase allowances from the market, which can be costly, especially if other shipping companies are similarly looking to do the same. New systems, personnel, data management systems, costs recovery mechanisms, revised service agreement terms and emissions reporting procedures will have to be put in place, at significant cost, to prepare for and manage the administrative aspect of ETS compliance. The cost of compliance, and of our future EU emissions and costs to purchase an allowance for emissions (if we must purchase in order to comply) are unknown and difficult to predict, and are based on a number of factors, including the size of our fleet, our trips within and to and from the EU, and the prevailing cost of allowances.

Compliance with changes in laws, regulations and obligations relating to climate change could increase our costs related to operating and maintaining our vessels and require us to install new emission controls, acquire allowances or pay taxes related to our greenhouse gas emissions, or administer and manage a greenhouse gas emissions program. Revenue generation and strategic growth opportunities may also be adversely affected, which could have a material adverse effect on our business, results of operations, cash flows and financial condition and our ability to pay dividends.

Our operations may be adversely impacted by severe weather, including as a result of climate change.

Tropical storms, hurricanes, typhoons, and other severe maritime weather events could result in the suspension of operations at the planned ports of call for our vessels and other vessels we may acquire and require significant deviations from planned routes. In addition, climate change could result in an increase in the frequency and severity of these extreme weather events. The closure of ports, rerouting of vessels, damage of production facilities, as well as other delays caused by increasing frequency of severe weather, could stop operations or shipments for indeterminate periods and have a material adverse effect on our business, operating results, and financial condition.

Pending and future tax law changes may result in significant additional taxes to us.

Pending and future tax law changes may result in significant additional taxes to us. For example, the Organization for Economic Cooperation and Development published a “Programme of Work,” which was divided into two pillars. Pillar One focused on the allocation of group profits among taxing jurisdictions based on a market-based concept rather than the historical “permanent establishment” concept. Pillar Two, among other things, introduced a global minimum tax. The foregoing proposals (in the event international consensus is achieved and implementing laws are adopted) and other possible future tax changes may have an adverse impact on us. Any requirement or legislation that requires us to pay more tax could have a material adverse effect on our business, results of operations, cash flows and financial condition and our ability to pay dividends.

We are dependent on our charterers and other counterparties fulfilling their obligations under agreements with us, and their inability or unwillingness to honor these obligations could significantly reduce our revenues and cash flow.

Payments to us by our charterers under time charters are and will be our sole source of operating cash flow. Weaknesses in demand for shipping services, increased operating costs due to changes in environmental or other regulations and the oversupply of large vessels as well as the oversupply of smaller size vessels due to a cascading effect would place certain of our customers under financial pressure. Any declines in demand could result in worsening financial challenges to our customers and may increase the likelihood of one or more of our customers being unable or unwilling to pay us contracted charter rates or going bankrupt.

Our charters provide the charterer the right to terminate the charter on the occurrence of stated events or the existence of specified conditions. In addition, the ability and willingness of each of our charterers to perform its obligations under its charter with us will depend on a number of factors that are beyond our control. These factors may include general economic conditions, the condition of the dry bulk shipping industry and the overall financial condition of the counterparties, and the supply and demand for dry bulk commodities. The costs and delays associated with the default of a charterer of a vessel may be considerable and may adversely affect our business, results of operations, cash flows, financial condition and ability to pay dividends.

In the recent depressed dry bulk market conditions, there have been numerous reports of charterers renegotiating their charters or defaulting on their obligations under their charters. If a current or future charterer defaults on a charter, we will seek the remedies available to us, which may include arbitration or litigation to enforce the contract, although such efforts may not be successful and for short-term charters may cost more to enforce than the potential recovery. We cannot predict whether our charterers will, upon the expiration of their charters, re-charter our vessels on favorable terms or at all.

If we lose a time charter because the charterer is unable to pay us or for any other reason, we may be unable to re-deploy the related vessel on similarly favorable terms or at all. Also, we will not receive any revenues from such a vessel while it is un-chartered, but we will be required to pay expenses necessary to maintain and insure the vessel and service any indebtedness on it. The combination of any surplus of dry bulk vessel capacity, the expected entry into service of new technologically advanced ships, and the expected increase in the size of the world dry bulk fleet over the next few years may make it difficult to secure substitute employment for any of our vessels if our counterparties fail to perform their obligations under the currently arranged time charters, and any new charter arrangements we are able to secure may be at lower rates. Furthermore, the surplus of dry bulk vessels available at lower charter rates could negatively affect our charterers’ willingness to perform their obligations under our time charters, particularly if the charter rates in such time charters are significantly above the prevailing market rates. Accordingly, we may have to grant concessions to our charterers in the form of lower charter rates for the remaining duration of the relevant charter or part thereof, or to agree to re-charter vessels coming off charter at reduced rates compared to the charter then ended. Because we enter into short-term and medium-term time charters from time-to-time, we may need to re-charter vessels coming off charter more frequently than some of our competitors, which may have a material adverse effect on business, results of operations and financial condition, as well as our cash flows, including cash available for distributions to our shareholders.

The loss of any of our charterers, time charters or vessels, or a decline in payments under our time charters, could have a material adverse effect on our business, results of operations and financial condition, as well as our cash flows, including cash available for distributions to our shareholders.

[Table of Contents](#)

In addition to charter parties, we may, among other things, enter into contracts for the sale or purchase of secondhand dry bulk vessels or shipbuilding contracts for newbuildings, provide performance guarantees relating to shipbuilding contracts to sale and purchase contracts or to charters, enter into credit facilities or other financing arrangements, accept commitment letters from banks, or enter into insurance contracts and interest or exchange rate swaps or enter into joint ventures. Such agreements expose us to counterparty credit risk. The ability and willingness of each of our counterparties to perform its obligations under a contract with us will depend upon a number of factors that are beyond our control and may include, among other things, general economic conditions, the state of the capital markets, the condition of the ocean-going dry bulk shipping industry and charter hire rates. Should a counterparty fail to honor its obligations under agreements with us, we could sustain significant losses, which in turn could have a material adverse effect on our business, results of operations and financial condition, as well as our cash flows, including cash available for distributions to our shareholders.

Capital expenditure and other costs necessary to operate and maintain our vessels may increase.

Changes in safety or other equipment standards, as well as compliance with standards imposed by maritime self-regulatory organizations and customer requirements or competition, may require us to make additional expenditure. In order to satisfy these requirements, we may, from time to time, be required to take our vessels out of service for extended periods of time, with corresponding losses of revenues. In the future, market conditions may not justify these expenditures or enable us to operate some or all of our vessels profitably during the remainder of their economic lives.

Seasonal fluctuations in industry demand could affect us.

We operate our vessels in markets that have historically exhibited seasonal variations in demand and, as a result, in charter rates. This seasonality may result in quarter-to-quarter volatility in our results of operations, which could affect the amount of dividends, if any, that we pay to our shareholders. The market for marine dry bulk transportation services is typically stronger in the fall and winter months in anticipation of increased consumption of coal and other raw materials in the northern hemisphere during the winter months. In addition, unpredictable weather patterns in these months tend to disrupt vessel scheduling and supplies of certain commodities. This seasonality could have a material adverse effect on our business, financial condition and results of operations.

We may also decide that it makes economic sense to lay up one or more vessels. While our vessels are laid up, we will pay lay-up costs, but those vessels will not be able to earn any hire.

Our insurance may not be adequate to cover our losses that may result from our operations.

We carry insurance to protect us against most of the accident-related risks involved in the conduct of our business, including marine hull and machinery insurance, war risk insurance, protection and indemnity insurance, which includes pollution risks, crew insurance and war risk insurance. However, we may not be adequately insured to cover losses from our operational risks, which could have a material adverse effect on us. Additionally, our insurers may refuse to pay particular claims and our insurance may be voidable by the insurers if we take, or fail to take, certain action, such as failing to maintain certification of our vessels with applicable maritime regulatory organizations. Any significant uninsured or underinsured loss or liability could have a material adverse effect on our business, results of operations, cash flows and financial condition and our ability to pay dividends. It may also result in protracted legal litigation. In addition, we may not be able to obtain adequate insurance coverage at reasonable rates in the future during adverse insurance market conditions. We maintain, for each of our vessels, pollution liability coverage insurance for \$1.0 billion per event. If damages from a catastrophic spill exceed our insurance coverage, it would have a materially adverse effect on our business, results of operations and financial condition and our ability to pay dividends to our shareholders.

Moreover, insurers have over the last few years increased premiums and reduced or restricted coverage for losses caused by terrorist acts generally.

In addition, we do not currently carry and may not carry loss-of-hire insurance, which covers the loss of revenue during extended vessel off-hire periods, such as those that occur during an unscheduled drydocking due to damage to the vessel from accidents. Accordingly, any loss of a vessel or extended vessel off-hire, due to an accident or otherwise, could have a material adverse effect on our business, results of operations, financial condition and our ability to pay dividends.

Our vessels are exposed to operational risks.

The operation of any vessel includes risks such as weather conditions, mechanical failure, collision, fire, contact with floating objects, cargo or property loss or damage and business interruption due to political circumstances in countries, piracy, terrorist attacks, armed hostilities and labor strikes. Such occurrences could result in death or injury to persons, loss, damage or destruction of property or environmental damage, delays in the delivery of cargo, loss of revenues from or termination of charter contracts, governmental fines, penalties or restrictions on conducting business, higher insurance rates and damage to our reputation and customer relationships, generally, market disruptions, delays, and rerouting and could also subject us to litigation. Epidemics and other public health incidents may also lead to crew member illness, which can disrupt the operations of our vessels or other vessels we may acquire, or result in the imposition of public health measures, which may prevent our vessels or other vessels we may acquire from calling on ports or discharging cargo in the affected areas or in other locations after having visited the affected areas.

In the past, political conflicts have also resulted in attacks on vessels, mining of waterways and other efforts to disrupt international shipping, particularly in the Arabian Gulf region. The ongoing conflict in Ukraine has previously resulted in missile attacks on commercial vessels in the Black Sea and the recent outbreak of conflict in the Red Sea has also resulted in missile attacks on vessels. Acts of terrorism and piracy have also affected vessels trading in regions such as the South China Sea, the Gulf of Guinea region off the coast of Nigeria, which has experienced increased incidents of piracy in recent years, the Red Sea, the Gulf of Aden off the Coast of Somalia and parts of the Indian Ocean and West Africa. Continuing conflicts and recent developments in the Middle East and North Africa, including Egypt, Syria, Iran, Iraq and Libya, the recent conflict in Ukraine and between Israel and Hamas, and the presence of United States and other armed forces in the Middle East and Asia could produce armed conflict or be the target of terrorist attacks, and lead to civil disturbance and uncertainty in financial markets. If these attacks and other disruptions result in areas where our vessels are deployed being characterized by insurers as “war risk” zones or Joint War Committee “war, strikes, terrorism and related perils” listed areas, premiums payable for such coverage could increase significantly and such insurance coverage may be more difficult or impossible to obtain. In addition, we face the risk of a marine disaster, which could include an oil spill and other environmental damage. Although our vessels carry a relatively small amount of oil used for fuel (“bunkers”), a spill of oil from one of our vessels or losses as a result of fire or explosion could be catastrophic under certain circumstances.

The operation of certain vessel types, such as dry bulk vessels, also carry certain unique risks. With a dry bulk vessel, the cargo itself and its interaction with the vessel can be a risk factor. By their nature, dry bulk cargoes are often heavy, dense, easily shifted and react badly to water exposure. In addition, dry bulk vessels are often subjected to battering during unloading operations with grabs, jackhammers (to pry encrusted cargoes out of the hold) and small bulldozers. This may cause damage to the vessel. Vessels damaged due to treatment during unloading procedures may be more susceptible to breach while at sea. Hull breaches in dry bulk vessels may lead to the flooding of the vessels holds. If a dry bulk vessel suffers flooding in its forward holds, the bulk cargo may become so dense and waterlogged that its pressure may buckle the vessels bulkheads leading to the loss of a vessel. If we are unable to adequately maintain our vessels, we may be unable to prevent these events. Any of these circumstances or events could negatively impact our business, financial condition, results of operations and ability to pay dividends. In addition, the loss of any of our vessels could harm our reputation as a safe and reliable vessel owner and operator.

If our vessels or other vessels we may acquire suffer damage, they may need to be repaired at a drydocking facility. The time and costs of repairs are unpredictable and may be substantial. We may have to pay repair costs that our insurance does not cover in full. The loss of earnings while our vessels or other vessels we may acquire are being repaired and repositioned, as well as the actual cost of these repairs and repositioning, would decrease our earnings. In addition, space at drydocking facilities is sometimes limited and not all drydocking facilities are conveniently located. We may be unable to find space at a suitable drydocking facility and be forced to travel to a drydocking facility that is not conveniently located to our vessels’ positions. The loss of earnings while these vessels are forced to wait for space or to travel to more distant drydocking facilities, or both, would decrease our earnings.

We may not be adequately insured against all risks, and our insurers may not pay particular claims. With respect to war risks insurance, which we usually obtain for certain of our vessels making port calls in designated war zone areas, such insurance may not be obtained prior to one of our vessels entering into an actual war zone, which could result in that vessel not being insured. Even if our insurance coverage is adequate to cover our losses, we may not be able to timely obtain a replacement vessel in the event of a loss. Under the terms of our financial arrangements, we will be subject to restrictions on the use of any proceeds we may receive from claims under our insurance policies. Furthermore, in the future, we may not be able to maintain or obtain adequate insurance coverage at reasonable rates for our fleet. We may also be subject to calls, or premiums, in amounts based not only on our own claim records but also the claim records of all other members of the protection and indemnity associations through which we receive indemnity insurance coverage for tort liability. Our insurance policies also contain deductibles, limitations and exclusions which may increase our costs in the event of a claim or decrease any recovery in the event of a loss. If the damages from a catastrophic oil spill or other marine disaster exceeded our insurance coverage, the payment of those damages could have a material adverse effect on our business and could possibly result in our insolvency.

[Table of Contents](#)

In general, we do not carry loss of hire insurance. Occasionally, we may decide to carry loss of hire insurance when our vessels are trading in areas where a history of piracy has been reported. Loss of hire insurance covers the loss of revenue during extended vessel off-hire periods, such as those that could occur during an unscheduled drydocking, unscheduled repairs due to damage to the vessel, or as a result of acts of piracy. Accordingly, any loss of a vessel or any extended period of vessel off-hire, due to an incident, accident or otherwise, could have a material adverse effect on our business, financial condition and results of operations.

We may also decide that it makes economic sense to lay up one or more vessels. While our vessels are laid up, we will pay lay-up costs, but those vessels will not be able to earn any hire.

We may be subject to funding calls by our protection and indemnity clubs, and our clubs may not have enough resources to cover claims made against them.

We are indemnified for legal liabilities incurred while operating our vessels through membership of protection and indemnity, or P&I, associations, otherwise known as P&I clubs. P&I clubs are mutual insurance clubs whose members must contribute to cover losses sustained by other club members. The objective of a P&I club is to provide mutual insurance based on the aggregate tonnage of a member's vessels entered into the club. Claims are paid through the aggregate premiums of all members of the club, although members remain subject to calls for additional funds if the aggregate premiums are insufficient to cover claims submitted to the club. Claims submitted to the club may include those incurred by members of the club, as well as claims submitted by other P&I clubs with which our club has entered into interclub agreements. We cannot assure you that the P&I club to which we belong will remain viable or that we will not become subject to additional funding calls, which could adversely affect us.

We may be subject to increased inspection procedures, tighter import and export controls and new security regulations.

International shipping is subject to various security and customs inspection and related procedures in countries of origin and destination and trans-shipment points. Inspection procedures can result in the seizure of the cargo and contents of our vessels, delays in the loading, offloading or delivery and the levying of customs duties, fines or other penalties against us. It is possible that changes to inspection procedures could impose additional financial and legal obligations on us. Furthermore, changes to inspection procedures could also impose additional costs and obligations on our customers and may, in certain cases, render the shipment of certain types of cargo impractical. Any such changes or developments may have a material adverse effect on our business, financial condition, results of operations and our ability to pay dividends.

Rising fuel prices may adversely affect our profits.

Fuel is a significant, if not the largest, expense if vessels are under voyage charter or if consumed during ballast days. Moreover, the cost of fuel will affect the profit we can earn on the short-term or spot market. Upon redelivery of vessels at the end of a time charter, we may be obliged to repurchase the fuel on board at prevailing market prices, which could be materially higher than fuel prices at the inception of the time charter period. As a result, an increase in the price of fuel may adversely affect our profitability. The price and supply of fuel is unpredictable and fluctuates based on events outside our control, including geopolitical events, supply and demand for oil and gas, actions by the Organization of the Petroleum Exporting Countries and other oil and gas producers, the imposition of new regulations adopted by the IMO, war and unrest in oil producing countries and regions, regional production patterns and environmental concerns. While fuel prices remained generally lower in 2023 as compared to 2022, fuel has or may become much more expensive in the future, including as a result of the developments in Ukraine and the sanctions against Russia, the imposition of sulfur oxide emissions limits in January 2020 and reductions of carbon emissions from January 2023 under new regulations adopted by the International Maritime Organization, or the IMO, which may reduce the profitability and competitiveness of our business versus other forms of transportation, such as truck or rail.

As a result of the sulfur oxide emissions limits, because we do not have scrubbers on our vessels, our vessels require pricier low-sulfur fuel, which may reduce the amount charterers are willing to pay to charter our vessels. This could have a material adverse effect on our business, results of operations, cash flows and financial condition and our ability to pay dividends.

Increases in crew costs may adversely affect our profits.

Crew costs are a significant expense for us under our charters. There is a limited supply of well-qualified crew. We generally bear crewing costs under our charters. Increases in crew costs may adversely affect our profitability. In addition, labor disputes or unrest, including work stoppages, strikes and/or work disruptions or increases imposed by collective bargaining agreements covering the majority of our officers on board our vessels could result in higher personnel costs and significantly affect our financial performance. Furthermore, while we do not have any Ukrainian or Russian crew and the Company's vessels currently do not sail in the Black Sea, the extent to which this will impact the Company's future results of operations and financial condition will depend on future developments, which are highly uncertain and cannot be predicted. Changes in labor laws and regulations, collective bargaining negotiations and labor disputes, and potential shortage of crew due to the conflict between Russia and Ukraine, could increase our crew costs and have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

Maritime claimants could arrest our vessels.

Crew members, suppliers of goods and services to a vessel, shippers of cargo and other parties may be entitled to a maritime lien against a vessel, or other assets of the relevant vessel-owning company, for unsatisfied debts, claims or damages even if we are not at fault, for example, if we pay a supplier for bunkers who subcontracts the supply and does not pay such subcontractor. In many jurisdictions, a claimant may seek to obtain security for its claim by arresting a vessel through foreclosure proceedings. The arrest or attachment of one or more of our vessels, could cause us to default on a charter, breach covenants in our financial arrangements, interrupt our cash flow and require us to pay large sums of money to have the arrest or attachment lifted. Please see "Item 5.B. Liquidity and Capital Resources—Indebtedness" for further information.

In addition, in some jurisdictions, such as South Africa, under the "sister ship" theory of liability, a claimant may arrest both the vessel that is subject to the claimant's maritime lien and any "associated" vessel, which is any vessel owned or controlled by the same owner. Claimants could attempt to assert "sister ship" liability against one vessel in our fleet for claims relating to another of our vessels.

Governments could requisition our vessels during a period of war or emergency.

A government could requisition one or more of our vessels for title or for hire. Requisition for title occurs when a government takes control of a vessel and becomes the owner. Requisition for hire occurs when a government takes control of a vessel and effectively becomes the charterer at dictated charter rates. Generally, requisitions occur during a period of war or emergency, although governments may elect to requisition vessels in other circumstances. Although we would be entitled to compensation in the event of a requisition of one or more of our vessels, the amount and timing of payment of such compensation would be uncertain. Government requisition of one or more of our vessels may negatively impact our business, financial condition, results of operations and ability to pay dividends.

Compliance with safety and other vessel requirements imposed by classification societies may be costly.

The hull and machinery of every commercial vessel must be certified as safe and seaworthy in accordance with applicable rules and regulations, and accordingly vessels must undergo regular surveys. All of the vessels that we operate or manage are classed by one of the major classification societies, for example Nippon Kaiji Kyokai (Class NK), DNV GL, Lloyds and ABS. Vessels must undergo annual surveys, immediate surveys and special surveys. In lieu of a special survey, a vessel's machinery may be on a continuous survey cycle, under which the machinery would be surveyed over a five-year period. Our vessels are on special survey cycles for hull inspection and continuous survey cycles for machinery inspection. Every vessel is also required to be drydocked every two to three years for inspection of its underwater parts. If any vessel does not maintain its class and/or fails any annual, intermediate or special survey, certain covenants in our existing financial arrangements or future credit arrangements may be triggered, including as a result of the vessel being unable to trade between ports and being unemployable. Such an occurrence could have a material adverse impact on our business, financial condition, results of operations and ability to pay dividends. Please see "Item 5.B. Liquidity and Capital Resources—Indebtedness" for further information.

A further economic slowdown or changes in the economic, regulatory and political environment in the Asia Pacific region could reduce dry bulk trade demand.

A significant number of the port calls made by our vessels involve the transportation of dry bulk products to ports in the Asia Pacific region. As a result, continued economic slowdown in the region or changes in the regulatory environment, and particularly in China or Japan, could have an adverse effect on our business, results of operations, cash flows and financial condition. Before the global economic financial crisis that began in 2008, China had one of the world's fastest growing economies as measured by gross domestic product, or GDP, which had a significant impact on shipping demand. China's GDP growth rate for the year ended December 31, 2023 was approximately 5.2% according to China. In addition, China previously imposed measures to restrain lending, which may further contribute to a slowdown in its economic growth. China and other countries in the Asia Pacific region may continue to experience slowed or even negative economic growth in the future.

Many of the economic and political reforms adopted by the Chinese government are unprecedented or experimental and may be subject to revision, change or abolition based upon the outcome of such experiments. If the Chinese government does not continue to pursue a policy of economic reform, the level of imports of exports of dry bulk products to and from China could be adversely affected by changes to these economic reforms by the Chinese government, as well as by changes in political, economic and social conditions or other relevant policies of the Chinese government, such as changes in laws, regulations or restrictions on importing commodities into the country. Notwithstanding economic reform, the Chinese government may adopt policies that favor domestic shipping companies and may hinder our ability to compete with them effectively. Moreover, a significant or protracted slowdown in the economies of the United States, the European Union or various Asian countries or changes in the regulatory environment may adversely affect economic growth in China and elsewhere. Our business, results of operations, cash flows and financial condition could be materially and adversely affected by an economic downturn or changes in the regulatory environment in any of these countries.

Pandemics such as the coronavirus (COVID-19) may make it very difficult for us to operate in the short-term and have unpredictable long-term consequences, all of which could decrease the supply of and demand for the raw materials we transport, the rates that we are paid to carry our cargo, and our financial outlook.

Global public health threats, such as the COVID-19 outbreak, and its variants, influenza, and other highly communicable diseases or viruses, outbreaks of which have from time to time occurred in various parts of the world in which we operate, including China, could disrupt global financial markets and economic conditions and adversely impact our operations, the timing of completion of any outstanding or future newbuilding projects, as well as the operations of our charterers and other customers. For example, the outbreak of COVID-19 caused severe global disruptions, with governments in affected countries imposing travel bans, quarantines, and other emergency public health measures. Companies have also taken precautions, such as requiring employees to work remotely, imposing travel restrictions, and temporarily closing businesses.

Our business may be adversely affected by the lingering effects of COVID-19 and the reimposition of governmental responses to the virus, which has introduced uncertainty into our operational and financial activities and has negatively impacted, and may continue to impact negatively, global economic activity. Average charter rates for dry bulk vessels, as measured by the Baltic Dry Index, improved significantly in 2021 and part of 2022 since the second quarter of 2020, reduced in the beginning of 2023 and rebounded towards the end of 2023; the underlying reasons for this improvement, such as tight supply lines, increased demand for bulk commodities on the back of firmly rebounding industrial activity, increased demand for containerized cargo due to increased consumption mainly from developed countries, and newbuild construction being put on hold due to the pandemic, has somewhat reversed, which could negatively impact our business. Although the incidence and severity of COVID-19 and its variants have diminished over time, periodic spikes in incidence occur and similar restrictions, and future prevention and mitigation measures against outbreaks of epidemic and pandemic diseases, are likely to have an adverse impact on global economic conditions, which could materially and adversely affect our future operations. As a result of such measures, our vessels and other vessels we may acquire may not be able to call on or disembark from ports located in regions affected by the outbreak. In addition, we may experience severe operational disruptions and delays, unavailability of normal port infrastructure and services including limited access to equipment, critical goods and personnel, disruptions to crew changes, quarantine of ships or crew, counterparty solidity, closure of ports and custom offices, as well as disruptions in the supply chain and industrial production, which may lead to reduced cargo demand, among other potential consequences attendant to epidemic and pandemic diseases. Continued uncertainties associated with the COVID-19 pandemic worldwide may cause an adverse impact on the global economy and the rate environment for tanker and other cargo vessels may deteriorate and our operations and cash flows may be negatively impacted.

The extent to which our business, operating results, cash flows, financial condition, financings, value of our vessels or other vessels we may acquire, and ability to pay dividends may be negatively affected by a resurgence of COVID-19 or future pandemics, epidemics, or other outbreaks of infectious diseases is highly uncertain and will depend on numerous evolving factors that we cannot predict, including, but not limited to, (i) the duration and severity of the infectious disease outbreak; (ii) the imposition of restrictive measures to combat the outbreak and slow disease transmission; (iii) the introduction of financial support measures to reduce the impact of the outbreak on the economy; (iv) shortages or reductions in the supply of essential goods, services, or labor; and (v) fluctuations in general economic or financial conditions tied to the outbreak, such as a sharp increase in interest rates or reduction in the availability of credit. We cannot predict the effect that an outbreak of a new COVID-19 variant or strain, or any future infectious disease outbreak, pandemic, or epidemic may have on our business, operating results, cash flows, and financial condition, which could be material and adverse.

Sulphur regulations to reduce air pollution from ships may require retrofitting of vessels and may cause us to incur significant costs.

Since January 1, 2020 the IMO regulations have required vessels to comply with a global cap on the sulphur in fuel oil used on board of 0.5%, down from the previous 3.5%. The interpretation of “fuel oil used on board” includes use in main engine, auxiliary engines and boilers. Shipowners may comply with this regulation by (i) using 0.5% sulphur fuels on board, which costs more than higher sulphur fuel; (ii) installing scrubbers for cleaning of the exhaust gas (which we have not done to any of our vessels); or (iii) by retrofitting vessels to be powered by liquefied natural gas (which we have not done to any of our vessels), which may not be a viable option due to the lack of supply network and high costs involved in this process. Additionally, in July 2023, IMO adopted the 2023 IMO Strategy on Reduction of GHG Emissions from Ships, which identifies a number of levels of ambition, including (1) decreasing the carbon intensity from ships through the implementation of further phases of EEDI for new ships; (2) reducing carbon dioxide emissions per transport work, as an average across international shipping, by at least 40% by 2030, and (3) pursuing net-zero GHG emission by or around 2050. Costs of compliance with these regulatory changes may be significant and may have a material adverse effect on our future performance, results of operations, cash flows and financial position. It is unclear how the new emissions standard will affect the employment of our vessels, given that the cost of fuel is borne by our charterers when our vessels are on time charter employment. Over time, however, it is possible that ships not retrofitted to comply with the new emissions standard may become less competitive (compared with ships equipped with exhaust gas scrubbers that can utilize less expensive high sulphur fuel), may have difficulty finding employment, may command lower charter hire and/or may need to be scrapped.

Worldwide inflationary pressures could negatively impact our results of operations and cash flows.

It has been recently observed that worldwide economies have experienced inflationary pressures, with price increases seen across many sectors globally. For example, the U.S. consumer price index, an inflation gauge that measures costs across dozens of items, rose 3.4% percent from December 2022 to December 2023. It remains to be seen whether inflationary pressures will continue, and to what degree, as central banks begin to respond to price increases. In the event that inflation becomes a significant factor in the global economy generally and in the shipping industry more specifically, inflationary pressures would result in increased operating, voyage and administrative costs. Furthermore, the effects of inflation on the supply and demand of the products we transport could alter demand for our services. During an inflationary period, such as one we are currently experiencing, the SOFR or similar reference rate will generally be increased, thus costing us more money to service our debt obligations and reducing our net revenues. Interventions in the economy by central banks in response to inflationary pressures may slow down economic activity, including by altering consumer purchasing habits and reducing demand for the commodities and products we carry, and cause a reduction in trade. As a result, the volumes of goods we deliver and/or charter rates for our vessels may be affected. Any of these factors could have an adverse effect on our business, financial condition, cash flows and operating results.

Environmental, social and governance matters may impact our business and reputation.

In addition to the importance of their financial performance, companies are increasingly being judged by their performance on a variety of environmental, social and governance matters, or ESG, which are considered to contribute to the long-term sustainability of a company's performance.

A variety of organizations measure the performance of companies on such ESG topics, and the results of these assessments are widely publicized. In addition, investment in funds that specialize in companies that perform well in such assessments are increasingly popular, and major institutional investors have publicly emphasized the importance of such ESG measures to their investment decisions. Topics taken into account in such assessments include, among others, the company's efforts and impact on climate change and human rights, ethics and compliance with laws, and the role of the company's board of directors in supervising various sustainability issues.

We actively manage a broad range of such ESG matters, taking into consideration their expected impact on the sustainability of our business over time, and the potential impact of our business on society and the environment. However, in light of investors' increased focus on ESG matters, there can be no certainty that we will manage such issues successfully, or that we will successfully meet societal expectations as to our proper role. Any failure or perceived failure by us in this regard could have a material adverse effect on our reputation and on our business, share price, financial condition, or results of operations, including the sustainability of our business over time.

On December 31, 2018, EU-flagged vessels became subject to Regulation (EU) No. 1257/2013 of the European Parliament and of the Council of 20 November 2013 on ship recycling (the "EU Ship Recycling Regulation" or "ESRR") and exempt from the Regulation (EC) No. 1013/2006 of the European Parliament and of the Council of 14 June 2006 on shipments of waste (the "European Waste Shipment Regulation" or "EWSR"), which had previously governed their disposal and recycling. The EWSR continues to be applicable to Non-European Union Member State-flagged ("non-EU-flagged") vessels.

Under the ESRR, commercial EU-flagged vessels of 500 gross tonnage and above may be recycled only at shipyards included on the European List of Authorised Ship Recycling Facilities (the "European List"). The European List presently includes eight facilities in Turkey, but no facilities in the major ship recycling countries in Asia. The combined capacity of the European List facilities may prove insufficient to absorb the total recycling volume of EU-flagged vessels. This circumstance, taken in tandem with the possible decrease in cash sales, may result in longer wait times for divestment of recyclable vessels as well as downward pressure on the purchase prices offered by European List shipyards. We currently don't have any vessels flagged in the EU, but in the future we may have vessels flagged in EU jurisdictions.

In addition, the EWSR requires that non-EU-flagged ships departing from European Union ports be recycled only in Organisation for Economic Cooperation and Development (OECD) member countries. In March 2018, the Rotterdam District Court ruled that the sale of four recyclable vessels by third-party Dutch ship owner Seatrade to cash buyers, who then reflagged and resold the vessels to non-OECD country recycling yards, were effectively indirect sales to non-OECD country yards, in violation of the EWSR. If European Union Member State courts widely adopt this analysis, it may negatively impact revenue from the residual values of our vessels and we may be subject to a heightened risk of non-compliance, due diligence obligations and costs in instances where we sell older ships to cash buyers.

On March 6, 2024, the SEC adopted final rules to enhance and standardize climate-related disclosures by public companies and in public offerings. The final rules will become effective 60 days following publication of the adopting release in the Federal Register. As a non-accelerated filer, we will be required to provide the enhanced climate-related disclosures in our annual reports for the year ending December 31, 2027. Costs of compliance with these new rules may be significant and may have a material adverse effect on our future performance, results of operations, cash flows and financial position.

The smuggling of drugs or other contraband onto our vessels may lead to governmental claims against us.

We expect that our vessels will call at ports where smugglers may attempt to hide drugs and other contraband on vessels, with or without the knowledge of crew members. To the extent that our vessels are found with contraband, whether inside or attached to the hull of our vessel, and whether with or without the knowledge of any of our crew, we may face governmental or other regulatory claims that could have an adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends.

Labor interruptions could disrupt our business.

Our vessels are manned by masters, officers and crews (totaling 135 as of December 31, 2023). Seafarers manning the vessels in our fleet are covered by industry-wide collective bargaining agreements that set basic standards. Any labor interruptions or employment disagreements with our crew members could disrupt our operations and could have a material adverse effect on our business, results of operations, cash flows, financial condition and ability to pay dividends. We cannot assure you that collective bargaining agreements will prevent labor interruptions.

Company-Specific Risk Factors

The market values of our vessels have fluctuated and have from time to time triggered certain financial covenants under our existing and potentially future financing arrangements.

The fair market values of our vessels and other vessels we may acquire are related to prevailing freight charter rates. While the fair market value of vessels and the freight charter market have a very close relationship as the charter market moves from trough to peak, the time lag between the effect of charter rates on market values of ships can vary. A decrease in the market value of our vessels and other vessels we may acquire could require us to raise additional capital in order to remain compliant with our loan covenants or the covenants in the other financing agreements and could result in the loss of our vessels and other vessels we may acquire (including, through foreclosure by our lenders and lessors) and adversely affect our earnings and financial condition.

The market value of dry bulk vessels has generally experienced high volatility. The market prices for secondhand and newbuilding dry bulk vessels in the recent past have declined from historically high levels to low levels within a short period of time.

The market value of our vessels may increase and decrease depending on a number of factors including:

- prevailing level of charter rates;
- the environmental friendliness of our vessels;
- general economic and market conditions affecting the shipping industry, including relating to COVID-19 and the Ukraine conflict and related sanctions;
- competition from other shipping companies;
- configurations, sizes and ages of vessels;
- sophistication and condition of vessels;
- advances in efficiency, such as introduction of autonomous vessels;
- supply and demand for vessels;
- other modes of transportation;
- cost and number of newbuildings;

[Table of Contents](#)

- ability of buyers to access financing and capital;
- number of vessels scrapped or otherwise removed from the world fleet;
- lifetime maintenance record;
- the cost of retrofitting or modifying existing ships to respond to technological advances in vessel design or equipment, changes in applicable environmental or other regulations or standards, or otherwise;
- governmental or other regulations; and
- technological advances.

In addition, as vessels grow older, they generally decline in value. Our loan agreement with First Citizens Bank & Trust Company (formerly known as CIT Bank N.A.), which we refer to as our CIT Loan Facility, is secured by mortgages on six of our vessels, and requires us to maintain specified collateral coverage ratios and to satisfy financial covenants, including requirements based on the market value of our vessels and our liquidity. Our previous loan facilities had similar requirements, and any financing arrangements may have similar collateral requirements and provisions. Since the middle of 2008 through part of 2021, the prevailing conditions in the dry bulk charter market coupled with the general difficulty in obtaining financing for vessel purchases led to a decline in the market values of our vessels, which have increased since that time. However, we cannot predict when and if vessel values will again start to decline.

As of December 31, 2023, we were in compliance with the covenants included in our CIT Loan Facility. For a more detailed discussion see “Item 5.B Liquidity and Capital Resources—Indebtedness” and Note 11 in the Consolidated Financial Statements included herewith.

Further declines of market values of our vessels may affect our ability to comply with various covenants and could also limit the amount of funds we are permitted to borrow under our current CIT Loan Facility or future financing arrangements we may enter into. If we breach the financial and other covenants under our financial arrangements, our lenders or capital providers could accelerate our indebtedness, or require us to pay down our indebtedness to a level where we regain compliance with such covenants, and/or foreclose on vessels in our fleet or terminate a bareboat charter in the case where we have a sale and leaseback transaction, which would significantly impair our ability to continue to conduct our business. If our indebtedness were accelerated in full or in part, it would be very difficult in the current financing environment for us to refinance our debt or obtain additional financing and we could lose our vessels if our lenders foreclose upon their liens, which would adversely affect our business, financial condition, ability to continue our business and for Globus Maritime to pay dividends.

For a more detailed discussion on our loan covenants and cross-default provisions, see “Item 5.B Liquidity and Capital Resources—Indebtedness—CIT Loan Facility.”

If we sell any vessel at a time when vessel prices have fallen and before we have recorded an impairment adjustment to our consolidated financial statements, the sale price may be agreed at a value lower than the vessel’s depreciated book value as in our consolidated financial statements at that time, resulting in a loss and a respective reduction in earnings. If the market values of our vessels decrease, such decrease and its effects could have a material adverse effect on our business, financial condition, results of operations and ability for Globus Maritime to pay dividends.

If a determination is made that a vessel’s future useful life is limited or its future earnings capacity is reduced, it could result in an impairment of its value on our consolidated financial statements that would result in a charge against our earnings and the reduction of our stockholders’ equity. These impairment costs could be very substantial.

We may not be able to attract and retain key management personnel and other employees in the shipping industry.

Our success will depend to a significant extent upon the abilities and efforts of our management team consisting of our Chief Executive Officer, including our ability to retain our management team and the ability of our management to recruit and hire suitable employees. The loss of our Chief Executive Officer or other key employees could adversely affect our business prospects and financial condition. Difficulty in hiring and retaining personnel could adversely affect our results of operations.

Our financial arrangements contain, and we expect that future loan agreements and financing arrangements will contain, restrictive covenants that may limit our liquidity and corporate activities, which could limit our operational flexibility and have an adverse effect on our financial condition and results of operations. In addition, because of the presence of cross-default provisions in our existing loan agreement and the expectation that such may exist in any future financing arrangements, a default by us under one loan could lead to defaults under multiple loans.

Our CIT Loan Facility contains, and future financing arrangements may contain, customary covenants and event of default clauses, financial covenants, restrictive covenants and performance requirements, which may affect operational and financial flexibility. Such restrictions could affect, and in many respects limit or prohibit, among other things, our ability to pay dividends, incur additional indebtedness, create liens, sell assets, change our chief executive officer or chairman or ship manager, or engage in mergers or acquisitions. These restrictions could limit our ability to plan for or react to market conditions or meet extraordinary capital needs or otherwise restrict corporate activities. There can be no assurance that such restrictions will not adversely affect our ability to finance our future operations or capital needs.

As a result of these restrictions, we may need to seek permission from our lenders and other financing counterparties in order to engage in some corporate actions. Our lenders' and other financing counterparties' interests may be different from ours and we may not be able to obtain their permission when needed. This may prevent us from taking actions that we believe are in our best interests, which may adversely impact our revenues, results of operations and financial condition.

If we fail to meet our payment and other obligations, including our financial covenants and any security coverage requirements, could lead to defaults under our financing arrangements. Likewise, a decrease in vessel values or adverse market conditions could cause us to breach our financial covenants or security requirements (the market values of dry bulk vessels have generally experienced high volatility), which are currently present in our CIT Loan Facility. In the event of a default that we cannot remedy, our lenders and other financing counterparties could then accelerate their indebtedness and foreclose on the respective vessels in our fleet. The loss of any of our vessels could have a material adverse effect on our business, results of operations and financial condition.

Our CIT Loan Facility contains, and any financing agreements we may enter into in the future may contain, cross-default provisions, pursuant to which a default by us under a loan and the refusal of any one lender to grant or extend a waiver could result in the acceleration of our indebtedness under any other loans and financing agreements we have entered into.

There can be no assurance that we will obtain waivers and deferrals from our lenders in the future, if needed, as we have obtained in the past. We are currently in compliance with all applicable financial covenants under our financing arrangements. For more information regarding our current financing arrangements, see please see "Item 5.B. Liquidity and Capital Resources—Indebtedness."

We cannot assure you that we will be able to refinance our existing indebtedness or obtain additional financing.

We currently have secured indebtedness under one loan agreement and are also party to one sale and leaseback transaction. For more information on our existing financing arrangements, please see "Item 5.B. Liquidity and Capital Resources—Indebtedness." We may finance future fleet expansion with additional secured indebtedness or sale and leaseback arrangement or similar structures. Our ability to obtain bank financing or to access the capital markets for future offerings may be limited by our financial condition at the time of any such financing or offering, including the actual or perceived credit quality of our charterers and the market value of our fleet, as well as by adverse market conditions resulting from, among other things, general economic conditions, weakness in the financial markets and contingencies and uncertainties that are beyond our control. Significant contraction, de-leveraging and reduced liquidity in credit markets worldwide is reducing the availability and increasing the cost of credit.

If we are not able to obtain new debt financing on terms acceptable to us or refinance our existing debt, we will have to dedicate a portion of our cash flow from operations to pay the principal and interest of this indebtedness. If we are not able to satisfy these obligations, we may have to undertake alternative financing plans. In addition, debt service payments under our loan agreements or alternative financing may limit funds otherwise available for working capital, capital expenditures, the payment of dividends and other purposes. Our inability to obtain additional or replacement financing at anticipated costs or at all may materially affect our results of operation, our ability to implement our business strategy, our payment of dividends and our ability to continue as a going concern.

We depend on short-term or spot charters in volatile shipping markets.

We currently charter most of the vessels in our fleet on the short-term charter market. The short-term or spot charter market is highly competitive and short-term or spot charter rates may fluctuate significantly based upon available charters and the supply of and demand for seaborne shipping capacity. While our focus on the short-term or spot market may enable us to benefit if industry conditions strengthen, we must consistently procure short-term or spot charter business. Conversely, such dependence makes us vulnerable to declining market rates for short-term or spot charters and to the off-hire periods including ballast passages. Rates within the short-term or spot charter market are subject to volatile fluctuations while longer-term time charters provide income at pre-determined rates over more extended periods of time. There can be no assurance that we will be successful in keeping our vessels fully employed in these short-term markets or that future short-term or spot rates will be sufficient to enable the vessels to be operated profitably. A significant decrease in charter rates would affect value and further adversely affect our profitability, cash flows and ability to pay dividends. Furthermore, we have in the past, and may in the future, employ our vessels on index-linked time charters. Index-linked charters, regardless of the length of charter, reflect similar rate volatility as spot/voyage rates, as they are usually dependent on market conditions that may be volatile, although the index-linked hire rate may enable us to capture increased profit margins during periods of improvements in vessel charter rates. We cannot give assurances that future available short-term spot charters or index-linked charters will enable us to operate our vessels profitably.

We may also decide that it makes economic sense to lay up one or more vessels. While our vessels are laid up, we will pay lay-up costs, but those vessels will not be able to earn any hire.

We may be unable to successfully employ our vessels on long-term time charters or take advantage of favorable opportunities involving short-term or spot market charter rates.

Our long-term strategy to maximize the value of our fleet is to employ our vessels on a mix of all types of charter contracts, including in the short-term or spot market and on bareboat charters and long-term or fixed-hire or index-linked hire time charters. We believe this strategy provides the cash flow stability, reduced exposure to market downturns and high utilization rates of the charter market, while at the same time enabling us to benefit from periods of increasing short-term or spot market rates. But our short-term strategy at any given point in time is dictated by a multitude of factors and the chartering opportunities before us. We may, for example, seek to employ a greater portion of our fleet on the short-term, spot market or index-linked time charters or on fixed-hire time charters with longer durations, should we believe it to be in our best interests. We generally prefer spot or short-term contracts in order to be versatile, to be able to move quickly to capture a market upswing, and to be more selective with the cargos we carry. Long-term charters, however, provide desirable cash flow stability, albeit at the cost of missing upswings in cargo rates. Index-linked charters, regardless of the length of charter, reflect similar rate volatility as spot/voyage rates, as the hire changes depending on then existing market conditions that may be volatile, although the index-linked hire rate may enable us to capture increased profit margins during periods of improvements in vessel charter rates. Accordingly, our mix between short-term or spot charters, longer-term charters and index-linked charters changes from time-to-time. When our ships are not all on the short-term or spot market, we generally seek to stagger the expiration dates of our charters to reduce exposure to volatility in the shipping cycle when our vessels come off of charter. We also continually monitor developments in the dry bulk shipping industry and, subject to market demand, will adjust the number of vessels on charters and the charter periods for our vessels according to market conditions.

We and our Manager have developed relationships with a number of international charterers, vessel brokers, financial institutions, insurers and shipbuilders. We have also developed a network of relationships with vessel brokers who help facilitate vessel charters and acquisitions.

Although time charters with durations of one to five years may provide relatively steady streams of revenue, if our vessels were committed to such charters they may not be available for re-chartering or for short-term or spot market voyages when such employment would allow us to realize the benefits of comparably more favorable charter rates. In addition, in the future, we may not be able to enter into new time charters on favorable terms. The dry bulk market is volatile. While charter rates are presently generally above our operating expenses, in the past charter rates have declined below operating costs of vessels. If we are required to enter into a charter when charter rates are low, employ our vessels on the short-term or spot market during periods when charter rates have fallen, have index linked charters when rates are low, or we are unable to take advantage of short-term opportunities on the spot or charter market, our earnings and profitability could be adversely affected. We cannot assure you that future charter rates will enable us to cover our costs, operate our vessels profitably or to pay dividends, or all of them.

We may also decide that it makes economic sense to lay up one or more vessels. While our vessels are laid up, we will pay lay-up costs, but those vessels will not be able to earn any hire.

We conduct a substantial amount of business in China.

The Chinese legal system is based on written statutes and their legal interpretation by the Standing Committee of the National People's Congress. Prior court decisions may be cited for reference but have limited precedential value. Since 1979, the Chinese government has been developing a comprehensive system of commercial laws, and considerable progress has been made in introducing laws and regulations dealing with economic matters such as foreign investment, corporate organization and governance, commerce, taxation and trade. However, because these laws and regulations are relatively new, there is a general lack of internal guidelines or authoritative interpretive guidance and because of the limited number of published cases and their non-binding nature interpretation and enforcement of these laws and regulations involve uncertainties. We conduct a substantial portion of our business in China or with Chinese counterparties. For example, we enter into charters with Chinese customers, which charters may be subject to new regulations in China. We may, therefore, be required to incur new or additional compliance or other administrative costs, and pay new taxes or other fees to the Chinese government. Although the charters we enter into with Chinese counterparties are not governed by Chinese law, we may have difficulties enforcing a judgment rendered by an arbitration tribunal or by an English or U.S. court (or other non-Chinese court) in China. In addition, China enacted a tax for non-resident international transportation enterprises engaged in the provision of services to passengers or cargo, among other items, in and out of China using their own, chartered or leased vessels, including any stevedore, warehousing and other services connected with the transportation. The law and relevant regulations broaden the range of international transportation companies which may find themselves liable for Chinese enterprise income tax on profits generated from international transportation services passing through Chinese ports. This tax or similar regulations by China may reduce our operating results and may also result in an increase in the cost of goods exported from China and the risks associated with exporting goods from China, as well as a decrease in the quantity of goods to be shipped from or through China, which would have an adverse impact on our charterers' business, operating results and financial condition and could thereby affect their ability to make timely charter hire payments to us and to renew and increase the number of their time charters with us. Changes in laws and regulations, including with regards to tax matters, and their implementation by local authorities could affect our vessels that are either chartered to Chinese customers or that call to Chinese ports and could have a material adverse effect on our business, results of operations and financial condition and our ability to pay dividends.

The Chinese economy differs from the economies of western countries in such respects as structure, government involvement, level of development, growth rate, capital reinvestment, allocation of resources, bank regulation, currency and monetary policy, rate of inflation and balance of payments position. Although state-owned enterprises still account for a substantial portion of the Chinese industrial output, in general, the Chinese government is reducing the level of direct control that it exercises over the economy. There is an increasing level of freedom and autonomy in areas such as allocation of resources, production, pricing and management and a gradual shift in emphasis to a "market economy" and enterprise reform, although it still acts with greater control than a truly free-market economy. Many of the Chinese government's reforms are unprecedented or experimental and may be subject to revision, change or abolition based upon the outcome of such experiments. The level of imports to and exports from China could be adversely affected by the failure to continue market reforms or changes to existing pro-export economic policies. The level of imports to and exports from China may also be adversely affected by changes in political, economic and social conditions (including a slowing of economic growth), the coronavirus, or other relevant policies of the Chinese government, such as changes in laws, regulations or export and import restrictions, internal political instability, changes in currency policies, changes in trade policies and territorial or trade disputes. A decrease in the level of imports to and exports from China could adversely affect our business, operating results and financial condition.

Contracts for newbuilding vessels present certain economic and other risks.

Four of our subsidiaries have contracts for the construction of four Ultramaxs for anticipated delivery in 2024-2026. We may also order additional newbuildings. During the course of construction of a vessel, we are typically required to make progress payments. While two of those four contracts have refund guarantees from banks to cover defaults by the shipyards and our construction contracts would be saleable in the event of our payment default, we can still incur economic losses in the event that we or the shipyards are unable to perform our respective obligations. Shipyards may periodically experience financial difficulties.

Delays in the delivery of these vessels, or any newbuilding or secondhand vessels our subsidiaries may agree to acquire, could delay our receipt of revenues generated by these vessels and, to the extent we have arranged charter employment for these vessels, could possibly result in the cancellation of those charters, and therefore adversely affect our anticipated results of operations. The delivery of newbuilding vessels could be delayed because of, among other things: work stoppages or other labor disturbances; bankruptcy or other financial crisis of the shipyard building the vessel; hostilities or political or economic disturbances in the countries where the vessels are being built, including any escalation of tensions involving countries in east Asia; weather interference or catastrophic events, such as a major earthquake, tsunami or fire; our requests for changes to the original vessel specifications; requests from our customers, with whom our commercial managers arrange charters for such vessels, to delay construction and delivery of such vessels due to weak economic conditions and shipping demand or a dispute with the shipyard building the vessel.

The aging of our fleet may result in increased operating costs in the future.

In general, the cost of maintaining a vessel in good operating condition increases with the age of the vessel. As of December 31, 2023 and 2022, the weighted average age of the vessels in our fleet was 11.2 years. Our oldest vessel was built in 2007, and our youngest vessel was built in 2024. As our fleet ages, we will incur increased costs to operate and maintain the vessels. Older vessels are typically less fuel efficient and cost more to maintain than more recently constructed vessels due to improvements in engine technology. Cargo insurance rates, paid by charterers, increase with the age of a vessel, making older vessels less desirable to charterers, which could result in lower utilization and, therefore, lower revenues. Governmental regulations, safety or other equipment standards related to the age of vessels may require expenditures for alterations or the addition of new equipment, to our vessels and may restrict the type of activities in which our vessels may engage. We cannot assure you that, as our vessels age, further market conditions will justify those expenditures or enable us to operate our vessels profitably during the remainder of their useful lives. We may also decide that it makes economic sense to lay up one or more vessels. While our vessels are laid up, we will pay lay-up costs, but those vessels will not be able to earn any hire.

We may have difficulty managing our planned growth properly.

Our recent vessel acquisitions have imposed additional responsibilities on our management and staff, as will any further acquisition of vessels, which may require us to add more personnel and find new customers. Attracting qualified staff and customers are difficult tasks, and we might struggle to do so on attractive terms.

We intend to continue to stabilize and then to try to grow our business through disciplined acquisitions of vessels that meet our selection criteria and newly built vessels if we can negotiate attractive purchase prices. Our ability to manage our planned growth will primarily depend on our ability to:

- generate excess cash flow so that we can invest without jeopardizing our ability to cover current and foreseeable working capital needs;
- finance our operations;
- identify opportunities to enter other seaborne transportation sectors;
- locate and acquire suitable vessels;
- identify and consummate acquisitions and/or joint ventures;
- enhance our customer base;
- integrate any acquired businesses or vessels, including those operating in sectors in which we do not currently operate, successfully with our existing operations;
- hire, train, and retain qualified personnel and crew to manage and operate our growing business and fleet; and
- obtain required financing on acceptable terms.

A delay in the delivery to us of any new vessel, or the failure of the shipyard to deliver a vessel at all, could cause us to breach our obligations under a related charter and could adversely affect our earnings. In addition, the delivery of any of these vessels with substantial defects could have similar consequences. A shipyard could fail to deliver a newbuilding on time or at all because of:

[Table of Contents](#)

- work stoppages or other hostilities or political or economic disturbances that disrupt the operations of the shipyard;
- quality or engineering problems;
- bankruptcy or other financial crisis of the shipyard;
- a backlog of orders at the shipyard;
- weather interference or catastrophic events, such as major earthquakes or fires;
- our requests for changes to the original vessel specifications or disputes with the shipyard;
- shortages of or delays in the receipt of necessary construction materials, such as steel; or
- shortages of or delays in the receipt of necessary equipment, such as main engines, electricity generators and propellers.

In addition, if we enter a newbuilding or secondhand purchase contract, we may seek to terminate the contract due to market conditions, financing limitations or other reasons. The outcome of contract termination negotiations may require us to forego deposits on construction or purchase and pay additional cancellation fees. In addition, where we have already arranged a future charter with respect to the terminated newbuilding contract, we would need to provide an acceptable substitute vessel to the charterer to avoid breaching our charter agreement.

During periods in which charter rates are high, vessel values generally are high as well, and it may be difficult to consummate vessel acquisitions or enter into newbuilding contracts at favorable prices. During periods when charter rates are low, we may be unable to fund the acquisition of newbuildings, whether through lending or cash on hand. For these reasons, we may be unable to execute our growth plans or avoid significant expenses and losses in connection with our future growth efforts.

Furthermore, our current operating and financial systems may not be adequate if we expand the size of our fleet, and our attempts to improve those systems may be ineffective. In addition, as we seek to expand our internal technical management capabilities and our fleet, we or our crewing agents may need to recruit suitable additional seafarers and shore based administrative and management personnel. We cannot guarantee that we or our crewing agents will be able to hire suitable employees or a sufficient number of employees if and as we expand our fleet. If we or our crewing agent encounter business or financial difficulties, we may not be able to adequately staff our vessels. If we are unable to develop and maintain effective financial and operating systems or to recruit suitable employees as we expand our fleet, our financial performance may be adversely affected and, among other things, the amount of cash available for distribution as dividends to our shareholders may be reduced or eliminated.

Growing any business by acquisition presents numerous risks, such as undisclosed liabilities and obligations, the possibility that indemnification agreements will be unenforceable or insufficient to cover potential losses and difficulties associated with imposing common standards, controls, procedures and policies, obtaining additional qualified personnel, managing relationships with customers and integrating newly acquired assets and operations into existing infrastructure. Recently, the limited supply of and increased demand for well-qualified crew, due to the increase in the size of the global shipping fleet, has created upward pressure on crewing costs, which we generally bear under our time and spot charters. Increases in crew costs may adversely affect our profitability, results of operations, cash flows, financial condition and ability to pay dividends. We cannot give any assurance that we will be successful in executing our growth plans or that we will not incur significant expenses and losses in connection with our future growth.

To the extent we scrap or sell vessels, we may decide to terminate the employment of some of our staff.

Legislative or regulatory changes in Greece may adversely affect our results from operations.

Globus Shipmanagement Corp., our ship management subsidiary, who we refer to as our Manager, is regulated under Greek Law 89/67, and conducts its operations and those on our behalf primarily in Greece. Greece has been implementing new legislative measures to address financial difficulties, several of which as a response from oversight by the International Monetary Fund and by European regulatory bodies such as the European Central Bank. Such legislative actions may impose new regulations on our operations in Greece that will require us to incur new or additional compliance or other administrative costs and may require that our Manager or we pay to the Greek government new taxes or other fees. Any such taxes, fees or costs we incur could be in amounts that are significantly greater than those in the past and could adversely affect our results from operations.

For example, in 2013, tax law 4110/2013 amended the long-standing provisions of art. 26 of law 27/1975 by imposing a fixed annual tonnage tax on vessels flying a foreign (i.e., non-Greek) flag which are managed by a Law 89 company, establishing an identical tonnage tax regime as the one already in force for vessels flying the Greek flag. This tax varies depending on the size of the vessel, calculated in gross registered tonnage, as well as on the age of each vessel. Payment of this tonnage tax completely satisfies all income tax obligations of both the shipowning company and of all its shareholders up to the ultimate beneficial owners. Any tax payable to the state of the flag of each vessel as a result of its registration with a foreign flag registry (including the Marshall Islands) is subtracted from the amount of tonnage tax due to the Greek tax authorities.

The tax residents of Greece who receive dividends from such shipowning or their holding companies are taxed at 5% on the dividends which they receive and which they import into Greece, not being liable to any other taxation for these, which include those dividends which either remain with the holding company or are paid to the individual Greek tax resident abroad.

Changing laws and evolving reporting requirements could have an adverse effect on our business.

Changing laws, regulations, and standards relating to reporting requirements, including the EU General Data Protection Regulation, or GDPR, may create additional compliance requirements for us.

GDPR broadens the scope of personal privacy laws to protect the rights of EU citizens and requires organizations to report on data breaches within 72 hours and be bound by more stringent rules for obtaining the consent of individuals on how their data can be used. GDPR was enforced on May 25, 2018, and non-compliance exposes entities to significant fines or other regulatory claims which could have an adverse effect on our business, financial condition, and operations.

A cyber-attack or our information systems otherwise not properly working could materially disrupt our business.

We rely on information technology systems and networks in our operations and administration of our business. Information systems are vulnerable to security breaches by computer hackers and cyber terrorists. The safety and security of our vessels or other vessels we may acquire as well as our business operations could be targeted by individuals or groups seeking to sabotage or disrupt our information technology systems and networks, or to steal data. Despite our cybersecurity measures, a successful cyber-attack, including as a result of spam, targeted phishing-type emails, and ransomware attacks, or other breach of or significant interruption or failure of our information technology systems, could materially disrupt our operations, including the safety of our operations, or lead to unauthorized release of information or alteration of information in our systems. Any such attack or other breach of our information technology systems could have a material adverse effect on our business and results of operations. In addition, the unavailability of the information systems or the failure of these systems to perform as anticipated for any reason could disrupt our business and could result in decreased performance and increased operating costs, causing our business and results of operations to suffer. Any significant interruption or failure of our information systems or any significant breach of security could adversely affect our business and results of operations.

Additionally, any changes in the nature of cyber threats might require us to adopt additional procedures for monitoring cybersecurity, which could require additional expenses and/or capital expenditures. Most recently, the escalation in conflict between Russia and Ukraine has been accompanied by cyber-attacks against the Ukrainian government and other countries in the region. It is possible that these attacks could have collateral effects on additional critical infrastructure and financial institutions globally, which could adversely affect our operations. It is difficult to assess the likelihood of such a threat and any potential impact at this time.

We expect that a limited number of financial institutions will hold our cash including financial institutions that may be located in Greece and the United States.

We expect that a limited number of financial institutions will hold all of our cash, including some institutions located in Greece and the U.S. Our bank accounts are with banks in Switzerland, the U.S. and Greece. Of the financial institutions located in Greece, none are subsidiaries of international banks. Depending on our cash balance in any of our accounts at any given point in time, our balances may not be covered by government-backed deposit insurance programs in the event of default by these financial institutions.

For example, a substantial amount of cash is currently held in U.S. banking institutions. While the U.S. Federal Deposit Insurance Corporation provides deposit insurance of \$250,000 per depositor, per insured bank, the amounts that we have in U.S. banks far exceeds that insurance amount, and therefore if the U.S. government does not impose measures to protect depositors, in the event the bank in which our funds are located fails, we may lose all or a substantial portion of our deposits. In addition, our bank accounts held in Swiss banking institutions are used for daily commercial transactions. Esisuisse, a self-regulatory organisation for banks in Switzerland, guarantees that it will cover protected deposits as part of the self-regulation of Swiss banks and securities firms which provides deposit insurance against loss up to the amount of CHF 100,000. The deposits we have in Swiss banks exceeds that insurance amount and therefore if the Swiss government does not impose measures to protect depositors, in the event the bank in which our funds are located fails, we may lose all or a substantial portion of our deposits. In addition, in the event any of our banks do not allow us to withdraw funds in the time and amounts that we want, we may not timely comply with contractual provisions in any of our contracts or our salary obligations, among other things.

The occurrence of any default of any of our banks could have a material adverse effect on our business, financial condition, results of operations and cash flows, and we may lose part or all of our cash that we deposit with such banks.

Purchasing and operating secondhand vessels may result in increased operating costs and reduced fleet utilization.

While we have the right to inspect previously owned vessels prior to our purchase of them, such an inspection does not provide us with the same knowledge about their condition that we would have if these vessels had been built for and operated exclusively by us. A secondhand vessel may have conditions or defects that we are not aware of when we buy the vessel and which may require us to incur costly repairs to the vessel. These repairs may require us to put a vessel into drydocking, which would increase cash outflows and related expenses, while reducing our fleet utilization. Furthermore, we usually do not receive the benefit of warranties on secondhand vessels.

Management may be unable to provide reports as to the effectiveness of our internal control over financial reporting or, when applicable, our independent registered public accounting firm may be unable to provide us with unqualified attestation reports as to the effectiveness of our internal control over financial reporting when required.

Under Section 404 of the Sarbanes-Oxley Act of 2002, which we refer to as Sarbanes-Oxley, we are required to include in each of our annual reports on Form 20-F a report containing our management's assessment of the effectiveness of our internal control over financial reporting. In addition, management may not conclude that our internal control over financial reporting is effective if a material weakness exists in our internal control over financial reporting. If in such annual reports on Form 20-F our management cannot provide a report as to the effectiveness of our internal control over financial reporting or, when applicable, our independent registered public accounting firm is unable to provide us with an unqualified attestation report as to the effectiveness of our internal control over financial reporting as required by Section 404, investors could lose confidence in the reliability of our consolidated financial statements, which could result in a decrease in the value of our common shares.

Unless we set aside reserves or are able to raise or borrow funds for vessel replacement, at the end of a vessel's useful life our revenues will decline.

As of December 31, 2023 and December 31, 2022, the vessels in our fleet had a weighted average age of 11.2 years, for both years. Our oldest vessel was built in 2007, and our youngest vessel was built in 2024. Unless we maintain reserves or are able to raise or borrow or raise funds for vessel replacement, we will be unable to replace the vessels in our fleet upon the expiration of their remaining useful lives, which we expect to be 25 years from the date of their construction. Our cash flows and income are dependent on the revenues earned by the chartering of our vessels to customers. If we are unable to replace the vessels in our fleet upon the expiration of their useful lives, our business, results of operations, financial condition and ability to pay dividends will be materially adversely affected. Any reserves set aside for vessel replacement may not be available for dividends.

We depend upon a few significant customers for a large part of our revenues.

We may derive a significant part of our revenue from a small number of customers. During the years ended December 31, 2023, 2022 and 2021, we derived substantially all of our revenues from approximately 28, 37 and 23 customers, respectively, and approximately 55%, 39% and 47%, respectively, of our revenues during those years were derived from four customers. If one or more of our major customers defaults under a charter with us and we are not able to find a replacement charter, or if such a customer exercises certain rights to terminate the charter, we could suffer a loss of revenues that could materially adversely affect our business, financial condition, results of operations and cash available for distribution as dividends to our shareholders.

[Table of Contents](#)

We could lose a customer or the benefits of a time charter if, among other things:

- the customer fails to make charter payments because of its financial inability, disagreements with us or otherwise;
- the customer terminates the charter because of our non-performance, including failure to deliver the vessel within a fixed period of time, the vessel is lost or damaged beyond repair, serious deficiencies in the vessel, prolonged periods of off-hire or our default under the charter; or
- the customer terminates the charter because the vessel has been subject to seizure for more than 30 days.

If we lose a key customer, we may be unable to obtain charters on comparable terms with charterers of comparable standing or we may have increased exposure to the volatile short-term or spot market, which is highly competitive and subject to significant price fluctuations. We would not receive any revenues from such a vessel while it remained unchartered, but we may be required to pay expenses necessary to maintain the vessel in proper operating condition, insure it and service any indebtedness secured by such vessel. The loss of any of our customers, time charters or vessels or a decline in payments under our charters could have a material adverse effect on our business, results of operations and financial condition and our ability to pay dividends.

We generate revenues from the trading of our vessels in U.S. dollars but incur a portion of our expenses in other currencies.

We generate substantially all of our revenues from the trading of our vessels in U.S. dollars, but during the years ended December 31, 2023, 2022 and 2021 we incurred approximately 30%, 30% and 31%, respectively, of our vessel operating expenses, and certain administrative expenses, in currencies other than the U.S. dollar. This difference could lead to fluctuations in net profit due to changes in the value of the U.S. dollar relative to the other currencies. Expenses incurred in foreign currencies against which the U.S. dollar falls in value can increase, decreasing our results from operations. We have not hedged our currency exposure, and, as a result, our results of operations and financial condition, denominated in U.S. dollars, and our ability to pay dividends could suffer.

If volatility in the Secured Overnight Financing Rate, or SOFR, occurs, it could affect our profitability, earnings and cash flow.

The interest rates borne by our financing arrangements fluctuate with changes in SOFR (which replaced the previously used LIBOR), which fluctuations would affect the amount of interest payable on those debts, which, in turn, could have an adverse effect on our profitability, earnings and cash flow. In particular, the interest provisions in our CIT Loan Facility and our sale and leaseback arrangement are based on Term SOFR.

An increase in SOFR, including as a result of the interest rate increases effected by the United States Federal Reserve and the United States Federal Reserve's recent hike of U.S. interest rates in response to rising inflation, would affect the amount of interest payable under our existing financing arrangement, which, in turn, could have an adverse effect on our profitability, earnings, cash flow and ability to pay dividends. Furthermore, as a secured rate backed by government securities, SOFR may be less likely to correlate with the funding costs of financial institutions. As a result, parties may seek to adjust spreads relative to SOFR in underlying contractual arrangements. Therefore, the use of SOFR-based rates may result in interest rates and/or payments that are higher or lower than the rates and payments that were expected when interest was based on LIBOR. If SOFR performs differently than expected or if our lenders insist on a different reference rate to replace SOFR in the future, that could increase our borrowing costs (and administrative costs to reflect the transaction), which would have an adverse effect on our profitability, earnings, and cash flows.

In order to manage our exposure to interest rate fluctuations under SOFR, or any other alternative rate, we have and may from time to time use interest rate derivatives to effectively fix some of our floating rate debt obligations. No assurance can however be given that the use of these derivative instruments, if any, may effectively protect us from adverse interest rate movements. The use of interest rate derivatives may affect our results through mark to market valuation of these derivatives. Also, adverse movements in interest rate derivatives may require us to post cash as collateral, which may impact our free cash position and have the potential to cause us to breach covenants in our financing arrangements that require maintenance of certain financial positions and ratios.

We may have to pay tax on U.S. source shipping income.

Under the U.S. Internal Revenue Code of 1986, as amended, or the Code, 50% of the gross shipping income of a vessel-owning or chartering corporation that is attributable to transportation that begins or ends, but that does not both begin and end, in the United States is characterized as U.S. source shipping income and such income is subject to a 4% U.S. federal income tax without allowance for deductions, unless that corporation qualifies for exemption from tax under section 883 of the Code and the U.S. Treasury regulations promulgated thereunder, which we refer to as the Section 883 Exemption, or through the application of a comprehensive income tax treaty between the United States and the corporation's country of residence. The eligibility of Globus Maritime and our subsidiaries to qualify for the Section 883 Exemption is determined each taxable year and is dependent on certain circumstances related to the ownership of our shares and on interpretations of existing U.S. Treasury regulations, each of which could change. We can therefore give no assurance that we will in fact be eligible to qualify for the Section 883 Exemption for all taxable years. In addition, changes to the Code, the U.S. Treasury regulations or the interpretation thereof by the U.S. Internal Revenue Service, or IRS, or the courts could adversely affect the ability of Globus Maritime and our subsidiaries to take advantage of the Section 883 Exemption.

If we are not entitled to the Section 883 Exemption or an exemption under a tax treaty for any taxable year in which any company in the group earns U.S. source shipping income, any company earning such U.S. source shipping income, would be subject to a 4% U.S. federal income tax on the gross amount of the U.S. source shipping income for the year (or an effective rate of 2% on shipping income attributable to the transportation of freight to or from the United States). The imposition of this taxation could have a negative effect on our business and revenues and would result in decreased earnings available for distribution to our shareholders.

For a more complete discussion, please read the section entitled "Item 10.E. Taxation— United States Tax Considerations— United States Federal Income Taxation of the Company."

U.S. tax authorities could treat us as a "passive foreign investment company," which could result in adverse U.S. federal income tax consequences to U.S. shareholders.

A foreign corporation will be treated as a "passive foreign investment company," or PFIC, for U.S. federal income tax purposes if either at least 75% of its gross income for any taxable year consists of certain types of "passive income" or at least 50% of the average value of the corporation's assets produce or are held for the production of those types of "passive income." For purposes of these tests, "passive income" includes dividends, interest and gains from the sale or exchange of investment property, and rents and royalties other than rents and royalties that are received from unrelated parties in connection with the active conduct of a trade or business. For purposes of these tests, income derived from the performance of services does not constitute "passive income."

U.S. shareholders of a PFIC are subject to a disadvantageous U.S. federal income tax regime with respect to the income derived by the PFIC, the distributions they receive from the PFIC, and the gain, if any, they derive from the sale or other disposition of their shares in the PFIC, unless those shareholders make an election available under the Code (which election could itself have adverse consequences for such shareholders). In particular, U.S. shareholders who are individuals would not be eligible for the preferential tax rate on qualified dividends. Please read "Item 10.E. Taxation—United States Tax Considerations— United States Federal Income Taxation of United States Holders" for a more comprehensive discussion of the U.S. federal income tax consequences to U.S. shareholders if we are treated as a PFIC.

Based on our current operations and anticipated future operations, we believe we should not be treated as a PFIC. In this regard, we intend to treat gross income we derive or are deemed to derive from our time chartering activities as services income, rather than rental income. Accordingly, we believe that our income from our time chartering activities should not constitute "passive income," and that vessels that we operate in connection with the production of that income do not constitute assets that produce or are held for the production of "passive income."

There are legal uncertainties involved in this determination because there is no direct legal authority under the PFIC rules addressing our current and projected future operations. Moreover, a case decided in 2009 by the U.S. Court of Appeals for the Fifth Circuit held that, contrary to the position of the IRS in that case, and for purposes of a different set of rules under the Code, income received under a time charter of vessels should be treated as rental income rather than services income. If the reasoning of this case were extended to the PFIC context, the gross income we derive or are deemed to derive from our time chartering activities would be treated as rental income, and we would be a PFIC unless an active leasing exception applies. Although the IRS has announced that it will not follow the reasoning of this case, and that it intends to treat the income from standard industry time charters as services income, no assurance can be given that a U.S. court will not follow the aforementioned case. Moreover, no assurance can be given that we would not constitute a PFIC for any future taxable year if there were to be changes in our assets, income or operations.

If the IRS were to find that we are or have been a PFIC for any taxable year, our U.S. shareholders will face adverse U.S. tax consequences and information reporting obligations, as more fully described under "Item 10.E. Taxation—United States Tax Considerations—United States Federal Income Taxation of United States Holders."

We could face penalties under European Union, United States or other economic sanctions.

Our business could be adversely impacted if we are found to have violated economic sanctions under the applicable laws of the European Union, the United States or another applicable jurisdiction against countries such as Iran, Syria, North Korea, Russia, and Cuba. U.S. economic sanctions, for example, prohibit a wide scope of conduct, target numerous countries and individuals, are frequently updated or changed and have vague application in many situations.

Many economic sanctions relate to our business, including prohibitions on certain kinds of trade with countries, such as exportation or re-exportation of commodities, or prohibitions against certain transactions with designated nationals who may be operating under aliases or through non-designated companies. The imposition of economic sanctions on Russian persons, first imposed in March 2014 and further in 2022, is an example of economic sanctions with a potentially widespread and unpredictable impact on shipping. Certain of our charterers or other parties with whom we have entered into contracts regarding our vessels may be affiliated with persons or entities that are the subject of sanctions imposed by the U.S. government, the European Union and/or other international bodies relating to the annexation of Crimea by Russia in 2014 and the current conflict in Ukraine. If we determine that such sanctions require us to terminate existing contracts or if we are found to be in violation of such applicable sanctions, our results of operations may be adversely affected or we may suffer reputational harm.

Additionally, the U.S. Iran Threat Reduction Act (which was signed into law in 2012) amended the Securities Exchange Act of 1934, as amended, or the Exchange Act, to require issuers that file annual or quarterly reports under Section 13(a) of the Exchange Act to include disclosure in their annual and quarterly reports as to whether the issuer or its affiliates have knowingly engaged in certain activities prohibited by sanctions against Iran or transactions or dealings with certain identified persons. We are subject to this disclosure requirement.

There can be no assurance that we will be in compliance with all applicable sanctions and embargo laws and regulations in the future, particularly as the scope of certain laws may be unclear and may be subject to changing interpretations. Any such violation could result in fines or other penalties and could severely impact our ability to access U.S. capital markets and conduct our business, and could result in some investors deciding, or being required, to divest their interest, or not to invest, in us. Even inadvertent violations of economic sanctions can result in the imposition of material fines and restrictions and could adversely affect our business, financial condition and results of operations, our reputation, and the market price of our common shares.

Our vessels may call on ports subject to economic sanctions or embargoes.

From time to time on charterers' instructions, our vessels may call on ports located in countries subject to sanctions and embargoes imposed by the United States government and countries identified by the U.S. government as state sponsors of terrorism, such as Iran, Cuba, North Korea, and Syria. It is also possible for us to call on a port in Russia, which is subject to substantial U.S. sanctions, although not a comprehensive embargo. The U.S. sanctions and embargo laws and regulations vary in their application, as they do not all apply to the same covered persons or proscribe the same activities, and such sanctions and embargo laws and regulations may be amended or strengthened over time.

Although we believe that we have been in compliance with all applicable sanctions and embargo laws and regulations, and intend to maintain such compliance, there can be no assurance that we will be in compliance in the future as such regulations and sanctions may be amended over time. Any such violation could result in fines, penalties or other sanctions that could severely impact our ability to access U.S. capital markets and conduct our business, and could result in some investors deciding, or being required, to divest their interest, or not to invest, in us. In addition, certain institutional investors may have investment policies or restrictions that prevent them from holding securities of companies that have contracts with countries identified by the U.S. government as state sponsors of terrorism. The determination by these investors not to invest in, or to divest from, our common shares may adversely affect the price at which our common shares trade. Moreover, our charterers may violate applicable sanctions and embargo laws and regulations as a result of actions that do not involve us or our vessels, and those violations could in turn negatively affect our reputation. In addition, our reputation and the market for our securities may be adversely affected if we engage in certain other activities, such as entering into charters with individuals or entities in countries subject to U.S. sanctions and embargo laws that are not controlled by the governments of those countries, or engaging in operations associated with those countries pursuant to contracts with third parties that are unrelated to those countries or entities controlled by their governments. Investor perception of the value of our common shares may be adversely affected by the consequences of war, the effects of terrorism, civil unrest and governmental actions in these and surrounding countries.

As a Marshall Islands corporation with principal executive offices in Greece, and also having subsidiaries in the Marshall Islands and other offshore jurisdictions such as Malta, our operations may be subject to economic substance requirements.

On March 12, 2019, the Council of the European Union published a list of “non-cooperative jurisdictions” for tax purposes in which the Republic of the Marshall Islands, among others, was placed by the E.U. on this list for failing to implement certain commitments previously made to the E.U. by the agreed deadline. However, it was announced by the Council of the European Union on October 10, 2019 that the Marshall Islands had been removed from that list, but was put back on the list in February 2023 and removed again in October 2023. E.U. member states have agreed upon a set of measures, which they can choose to apply against the listed countries, including increased monitoring and audits, withholding taxes and non-deductibility of costs. The European Commission has stated it will continue to support member states’ efforts to develop a more coordinated approach to sanctions for the listed countries in 2019. E.U. legislation prohibits certain E.U. funds from being channeled or transited through entities in non-cooperative jurisdictions.

We are a Marshall Islands corporation with principal executive offices in Greece. Our management company is also a Marshall Islands entity. Most of our subsidiaries are Marshall Islands entities, and one of our subsidiaries is organized in Malta. The Marshall Islands has enacted economic substance regulations with which we may be obligated to comply. Those regulations require certain entities that carry out particular activities to comply with an economic substance test whereby the entity must show that it (i) is directed and managed in the Marshall Islands in relation to that relevant activity, (ii) carries out core income-generating activity in relation to that relevant activity in the Marshall Islands (although it is being understood and acknowledged by the regulators that income-generated activities for shipping companies will generally occur in international waters) and (iii) having regard to the level of relevant activity carried out in the Marshall Islands has (a) an adequate amount of expenditures in the Marshall Islands, (b) adequate physical presence in the Marshall Islands and (c) an adequate number of qualified employees in the Marshall Islands.

If we fail to comply with our obligations under this legislation or any similar law applicable to us in any other jurisdictions, we could be subject to financial penalties and spontaneous disclosure of information to foreign tax officials, or with respect to Marshall Islands Economic substance requirements, revocation of the formation documents and dissolution of the applicable non-compliance Marshall Islands entity or struck from the register of companies in related jurisdictions. Any of the foregoing could be disruptive to our business and could have a material adverse effect on our business, financial conditions and operating results. Accordingly, any implementation of, or changes to, any of the economic substance regulations that impact us could increase the complexity and costs of carrying on business in these jurisdictions, and thus could adversely affect our business, financial condition or results of operations.

We do not know (i) if the E.U. will once again add the Marshall Islands from the list of non-cooperative jurisdictions, or add Malta to that list; (ii) what actions the Marshall Islands or Malta may take, if any, to remove itself from such list if it should be placed on the list of non-cooperative jurisdictions; (iii) how quickly the E.U. would react to any changes in legislation of the Marshall Islands or Malta; or (iv) how E.U. banks or other counterparties will react while we or any of our subsidiaries remain as entities organized and existing under the laws of listed countries. The effect of the E.U. list of non-cooperative jurisdictions, and any noncompliance by us with any legislation adopted by applicable countries to achieve removal from the list, including economic substance regulations, could have a material adverse effect on our business, financial conditions and operating results.

It may be difficult to serve us with legal process or enforce judgments against us, our directors or our management.

Our business is operated primarily from our offices in Greece. In addition, a majority of our directors and officers are non-residents of the United States, and all of our assets and a substantial portion of the assets of these non-residents are located outside the United States. As a result, it may be difficult or impossible for you to bring an action against us or against these individuals in the United States if you believe that your rights have been infringed under securities laws or otherwise. You may also have difficulty enforcing, both within and outside of the United States, judgments you may obtain in the United States courts against us or these persons in any action, including actions based upon the civil liability provisions of United States federal or state securities laws. There is also substantial doubt that the courts of the Marshall Islands or Greece would enter judgments in original actions brought in those courts predicated on United States federal or state securities laws.

The international nature of our operations may make the outcome of any bankruptcy proceedings difficult to predict.

We redomiciled into the Marshall Islands and our subsidiaries are incorporated under the laws of the Marshall Islands or Malta, we have limited operations in the United States, and we maintain limited assets, if any, in the United States. Consequently, in the event of any bankruptcy, insolvency, liquidation, dissolution, reorganization or similar proceeding involving us or any of our subsidiaries, bankruptcy laws other than those of the United States could apply. The Marshall Islands does not have a bankruptcy statute or general statutory mechanism for insolvency proceedings. If we become a debtor under U.S. bankruptcy law, bankruptcy courts in the United States may seek to assert jurisdiction over all of our assets, wherever located, including property situated in other countries. There can be no assurance, however, that we would become a debtor in the United States, or that a U.S. bankruptcy court would accept, or be entitled to accept, jurisdiction over such a bankruptcy case, or that courts in other countries that have jurisdiction over us and our operations would recognize a U.S. bankruptcy court's jurisdiction if any other bankruptcy court would determine it had jurisdiction. These factors may delay or prevent us from entering bankruptcy in the United States and may affect the ability of our shareholders to receive any recovery following our bankruptcy.

Risks Relating to our Common Shares

Our stock price has been volatile and no assurance can be made that it will not substantially depreciate.

Our stock price has been volatile recently. The closing price of our common shares within 2023 has ranged from a peak of \$2.97 on December 22, 2023 to a low of \$0.85 on September 5, 2023, representing a 71% difference. We can offer no comfort or assurance that our stock price will stop being volatile or not substantially depreciate. Our stock price was \$2.33 on March 13, 2024.

We may continue to incur rapid and substantial increases or decreases in our stock price in the foreseeable future that may not coincide in timing with the disclosure of news or developments by or affecting us. Accordingly, the market price of our common shares may decline or fluctuate rapidly, regardless of any developments in our business. Overall, there are various factors, many of which are beyond our control, that could negatively affect the market price of our common shares or result in fluctuations in the price or trading volume of our common shares, which include but are not limited to:

- investor reaction to our business strategy;
- the sentiment of the significant number of retail investors whom we believe to hold our common shares, in part due to direct access by retail investors to broadly available trading platforms, and whose investment thesis may be influenced by views expressed on financial trading and other social media sites and online forums;
- the amount and status of short interest in our common shares, access to margin debt, trading in options and other derivatives on our common shares and any related hedging and other trading factors;
- our continued compliance with the listing standards of the Nasdaq Capital Market;
- regulatory or legal developments in the United States and other countries, especially changes in laws or regulations applicable to our industry;
- variations in our financial results or those of companies that are perceived to be similar to us;
- our ability or inability to raise additional capital and the terms on which we raise it;
- our dividend strategy;
- our continued compliance with our debt covenants;
- variations in the value of our fleet;

[Table of Contents](#)

- declines in the market prices of stocks generally;
- trading volume of our common shares;
- sales of our common shares by us or our shareholders;
- speculation in the press or investment community about our Company or industry;
- general economic, industry and market conditions; and
- other events or factors, including those resulting from such events, or the prospect of such events, including war, terrorism and other international conflicts, public health issues including health epidemics or pandemics, including worldwide pandemics similar to the COVID-19 pandemic, and natural disasters such as fire, hurricanes, earthquakes, tornados or other adverse weather and climate conditions, whether occurring in the United States or elsewhere, could disrupt our operations or result in political or economic instability.

In addition, some companies that have experienced volatility in the market price of their common shares have been subject to securities class-action litigation. If instituted against us, such litigation could result in substantial costs and diversion of management's attention and resources, which could materially and adversely affect our business, financial condition, operating results and growth prospects. There can be no guarantee that the price of our common shares will remain at its current level or that future sales of our common shares will not be at prices lower than those sold to investors.

We may issue additional common shares or other equity securities without shareholder approval, which would dilute our existing shareholders' ownership interests and may depress the market price of our common shares.

We may issue additional common shares or other equity securities of equal or senior rank in the future without shareholder approval for cash or in connection with, among other things, future vessel acquisitions, the repayment of outstanding indebtedness, and the conversion of convertible financial instruments.

Our issuance of additional common shares or other equity securities of equal or senior rank in these situations would have the following effects:

- our existing shareholders' proportionate ownership interest in us would decrease;
- the proportionate amount of cash available for dividends payable on our common shares could decrease;
- the relative voting strength of each previously outstanding common share could be diminished; and
- the market price of our common shares could decline.

In addition, we may be obligated to issue, upon exercise or conversion of outstanding warrants pursuant to the terms thereof:

- 388,700 common shares issuable upon the exercise of outstanding Class A Warrants (at an exercise price of \$35.00 per share) which expire in June 2025;
- 458,500 common shares issuable upon exercise of outstanding June private placement warrants (at an exercise price of \$18.00 per share) issued in a private placement that closed on June 30, 2020 and expire in December 2025;
- 833,333 common shares issuable upon exercise of outstanding July private placement warrants (at an exercise price of at \$18.00 per share) issued in a private placement that closed on July 21, 2020 and expire in January 2026;
- 1,270,587 common shares issuable upon exercise of the December 2020 Warrants (at an exercise price of \$6.25 per share) which expire in June 2026;
- 1,950,000 common shares issuable upon the exercise of the January 2021 Warrants (at an exercise price of \$6.25 per share) which expire in July 2026; and

[Table of Contents](#)

- 4,800,000 common shares issuable upon the exercise of the February 2021 Warrants (at an exercise price of \$6.25 per share) which expire in August 2026.
- 10,000,000 common shares issuable upon the exercise of the June 2021 Warrants (at an exercise price of \$5.00 per share) which expire in December 2026.

In addition:

- We historically issued, on a quarterly basis, common shares to certain of our directors, although we have changed our compensation arrangements with directors to pay only cash.
- We have issued an aggregate of 10,300 of our Series B preferred shares, par value \$0.001 per share, to Goldenmare Limited, which shares have 25,000 votes per share, subject to maximum voting rights of 49.99%.

Our issuance of additional common shares upon the exercise of such warrants and agreements would cause the proportionate ownership interest in us of our existing shareholders, other than the exercising warrant or agreement holder, to decrease; the relative voting strength of each previously outstanding common share held by our existing shareholders to decrease; and, depending on our share price when and if these warrants are exercised, may result in dilution to our shareholders. Because we are a foreign private issuer, we are not bound by Nasdaq rules that require shareholder approval for issuances of our securities. We therefore can issue securities in such amounts and at such times as we feel appropriate, all without shareholder approval. See “Item 16G. Corporate Governance.”

Future issuances or sales, or the potential for future issuances or sales, of our common shares may cause the trading price of our securities to decline and could impair our ability to raise capital through subsequent equity offerings.

We have issued a significant number of our common shares and may do so in the future. Shares to be issued pursuant to the exercise of our outstanding warrants could cause the market price of our common shares to decline and could have an adverse effect on our earnings per share. In addition, future sales of our common shares or other securities in the public or private markets, or the perception that these sales may occur, could cause the market price of our common shares to decline, and could materially impair our ability to raise capital through the sale of additional securities.

The market price of our common shares could decline due to sales, or the announcements of proposed sales, of a large number of common shares in the market, including sales of common shares by our large shareholders, or the perception that these sales could occur. These sales or the perception that these sales could occur could also depress the market price of our common shares and impair our ability to raise capital through the sale of additional equity securities or make it more difficult or impossible for us to sell equity securities in the future at a time and price that we deem appropriate. We cannot predict the effect that future sales of common shares or other equity-related securities would have on the market price of our common shares.

The market price of our common shares may be volatile, which could result in substantial losses for investors who purchase our shares; and the volatility in the stock prices of other companies may contribute to volatility in our stock price.

Our common shares have experienced price and volume fluctuations and may continue to experience volatility in the future. The closing price of our common shares within 2023 has ranged from a peak of \$2.97 on December 22, 2023 to a low of \$0.85 on September 5, 2023, representing a 71% change. You may not be able to sell your shares quickly or at the latest market price if trading in our stock is not active or the volume is low. Some of the factors that may cause the market price of our common shares to fluctuate include:

- the trading of our ships, and whether one or more ships are not trading or otherwise off hire;
- regulatory or legal developments in the United States and other countries;
- the recruitment or departure of key personnel;
- the level of expenses related to our business or to comply with changing laws, including in relation to environmental laws;

[Table of Contents](#)

- actual or anticipated changes in estimates as to financial results or recommendations by securities analysts;
- announcement or expectation of additional financing efforts;
- sales of our securities by us, our insiders, or other shareholders, and the exercise of our warrants and other convertible securities and instruments;
- variations in our financial results or those of companies that are perceived to be similar to us;
- changes in estimates or recommendations by securities analysts, if any, that cover our stock;
- market conditions in the shipping industry and dry bulk sector; and
- general economic, industry, and market conditions.

The closing price of our common shares was \$2.97 on December 22, 2023 to and \$0.85 on September 5, 2023. In addition, there has been volatility for our intra-day common share price. For example, the high and low intra-day prices on October 19, 2023 were \$2.29 and \$1.63, respectively, and the high and low intra-day prices on December 1, 2023 were \$2.50 and \$1.96, respectively. As a result, there is a potential for rapid and substantial decreases in the price of our common shares, including decreases unrelated to our operating performance or prospects.

In recent years, the stock market in general, Nasdaq, and the markets for shipping companies, has experienced significant price and volume fluctuations and depressions that have often been unrelated or disproportionate to changes in the operating performance of the companies whose stock is experiencing those price and volume fluctuations. Broad market and industry factors may seriously affect the market price of our common shares, regardless of our actual operating performance. Following periods of such volatility in the market price of a company's securities, securities class action litigation has often been brought against that company. Because of the potential volatility of our stock price, we may become the target of securities litigation in the future. Securities litigation could result in substantial costs and divert management's attention and resources from our business.

A possible "short squeeze" due to a sudden increase in demand of our common shares that largely exceeds supply may lead to further price volatility in our common shares.

Investors may purchase our common shares to hedge existing exposure in our common shares or to speculate on the price of our common shares. Speculation on the price of our common shares may involve long and short exposures. To the extent aggregate short exposure exceeds the number of common shares available for purchase in the open market, investors with short exposure may have to pay a premium to repurchase our common shares for delivery to lenders of our common shares. Those repurchases may in turn, dramatically increase the price of our common shares until investors with short exposure are able to purchase additional common shares to cover their short position. This is often referred to as a "short squeeze." A short squeeze could lead to volatile price movements in common shares that are not directly correlated to the performance or prospects of our company and once investors purchase the common shares necessary to cover their short position the price of our common shares may decline.

Our common shares could be delisted from Nasdaq, which could affect their market price and liquidity.

We are required to meet certain qualitative and financial tests (including a minimum bid price for our common shares of \$1.00 per share, at least 500,000 publicly held shares, at least 300 public holders, a market value of publicly held securities of \$1 million and net income from continuing operations of \$500,000), as well as other corporate governance standards, to maintain the listing of our common shares on the Nasdaq Capital Market, or Nasdaq. It is possible that we could fail to satisfy one or more of these requirements. There can be no assurance that we will be able to maintain compliance with the minimum bid price, shareholders' equity, number of publicly held shares, net income requirements or other listing standards in the future. We may receive notices from Nasdaq that we have failed to meet its requirements, and proceedings to delist our stock could be commenced. We have received in the past (most recently on July 12, 2023), a written notification from Nasdaq, indicating that because the closing bid price of our common shares for the last 30 consecutive business days was below \$1.00 per share, we no longer meet the minimum bid price continued listing requirement for Nasdaq, as set forth in Nasdaq Listing Rule 5450(a)(1). On some occasions we were able to regain compliance within the grace period prescribed by Nasdaq pursuant to a reverse stock split. We discuss this reverse stock split and others further in this annual report on Form 20-F. See "Item 4.A. History and Development of the Company— History relating to our shares." In such event, Nasdaq rules permit us to appeal any delisting determination to a Nasdaq Hearings Panel. If we are unable to maintain or regain compliance in a timely manner and our common shares are delisted, it could be more difficult to buy or sell our common shares and obtain accurate quotations, and the price of our shares could suffer a material decline. Delisting may also impair our ability to raise capital. Delisting of our shares may breach our financing arrangements, which contain cross default provisions, and the purchase agreement pursuant to which we sold some of our outstanding warrants. There could also be adverse tax consequences—please read "Item 10.E Taxation – United States Tax Considerations - United States Federal Income Taxation of United States Holders – Distributions" for further information.

[Table of Contents](#)

In addition, if we, within a two year period, conduct reverse stock splits with a cumulative ratio of 250:1 or more, or if the closing bid price of our common shares is \$0.10 or less for a period of ten consecutive trading days during any bid compliance period, then Nasdaq will immediately initiate delisting procedures.

There can be no assurance that we will be able to maintain compliance with the minimum bid price, shareholders' equity, number of publicly held shares or other listing standards in the future. We may receive notices from Nasdaq that we have failed to meet its requirements, and proceedings to delist our stock could be commenced. If we are unable to maintain or regain compliance in a timely manner and our common shares are delisted, it could be more difficult to buy or sell our common shares and obtain accurate quotations, and the price of our shares could suffer a material decline. The Company agreed, in its securities purchase agreements relating to share and warrant issuances in 2020 and 2021, to use commercially reasonable efforts to maintain the listing or quotation of the common shares on Nasdaq, and to take all action reasonably necessary to continue the listing and trading of our common shares on Nasdaq.

Our ability to declare and pay dividends to holders of our common shares will depend on a number of factors and will always be subject to the discretion of our board of directors.

If we are not in compliance with our loan covenants and received a notice of default and were unable to cure it under the terms of our loan covenants, we may be forbidden from issuing dividends. There can be no assurance that dividends will be paid to holders of our shares in any anticipated amounts and frequency at all. We may incur other expenses or liabilities that would reduce or eliminate the cash available for distribution as dividends, including as a result of the risks described in this section of this annual report on Form 20-F.

For instance, the CIT Loan Facility presently prohibits our declaration and payment of dividends under certain circumstances. Please read "Item 5.B. Liquidity and Capital Resources—Indebtedness" for further information.

We may also enter into new financing or other agreements that may restrict our ability to pay dividends even without an event of default or make it less desirable for us to do so. In addition, we may pay dividends to the holders of our preferred shares prior to the holders of our common shares, depending on the terms of the preferred shares.

If we pay a dividend, the terms of our outstanding warrants provide that the exercise price shall be decreased by the amount of cash and/or the fair market value of any securities or other assets paid on each common share in respect of such dividend in order that subsequent thereto upon exercise of the warrants the holder of the warrants may obtain the equivalent benefit of such dividend.

The declaration and payment of dividends to holders of our shares will be subject at all times to the discretion of our board of directors, and will be paid equally on a per-share basis between our common shares and our Class B shares, to the extent any are issued and outstanding. We can provide no assurance that dividends will be paid in the future.

There may be a high degree of variability from period to period in the amount of cash, if any, that is available for the payment of dividends based upon, among other things:

- the rates we obtain from our charters as well as the rates obtained upon the expiration of our existing charters;
- the level of our operating costs;
- the number of unscheduled off-hire days and the timing of, and number of days required for, scheduled drydocking of our vessels;

[Table of Contents](#)

- vessel acquisitions and related financings;
- restrictions in our current and future debt arrangements;
- our ability to obtain debt and equity financing on acceptable terms as contemplated by our growth strategy;
- prevailing global and regional economic and political conditions;
- the effect of governmental regulations and maritime self-regulatory organization standards on the conduct of our business;
- our overall financial condition;
- our cash requirements and availability;
- the amount of cash reserves established by our board of directors; and
- restrictions under Marshall Islands law.

Marshall Islands law generally prohibits the payment of dividends other than from surplus or certain net profits, or while a company is insolvent or would be rendered insolvent by the payment of such a dividend. We may not have sufficient funds, surplus, or net profits to make distributions.

We may incur expenses or liabilities or be subject to other circumstances in the future that reduce or eliminate the amount of cash that we have available for distribution as dividends, if any. Our growth strategy contemplates that we will finance the acquisition of our newbuildings or selective acquisitions of vessels through a combination of our operating cash flow and debt financing through our subsidiaries or equity financing. If financing is not available to us on acceptable terms, our board of directors may decide to finance or refinance acquisitions with a greater percentage of cash from operations to the extent available, which would reduce or even eliminate the amount of cash available for the payment of dividends. We may also enter into other agreements that will restrict our ability to pay dividends or make it less desirable for us to do so.

The amount of cash we generate from our operations may differ materially from our net income or loss for the period, which will be affected by non-cash items. We may incur other expenses or liabilities that could reduce or eliminate the cash available for distribution as dividends. As a result of these and the other factors mentioned above, we may pay dividends during periods when we record losses and may not pay dividends during periods when we record net income, if we pay dividends at all.

We are a holding company, and we will depend on the ability of our subsidiaries to distribute funds to us in order to satisfy our financial obligations or to make dividend payments.

We are a holding company and our subsidiaries, which are all directly and wholly owned by us, will conduct all of our operations and own or charter through financing arrangements all of our operating assets. We have no significant assets other than the equity interests in our wholly owned subsidiaries. As a result, our ability to make dividend payments depends on our subsidiaries and their ability to distribute funds to us. If we are unable to obtain funds from our subsidiaries, our board of directors may exercise its discretion not to declare or pay dividends. In addition, our subsidiaries are subject to limitations on the payment of dividends under Marshall Islands or Maltese law.

Provisions of our articles of incorporation and bylaws may have anti-takeover effects, which could depress the trading price of our common shares.

Several provisions of our articles of incorporation and bylaws, which are summarized below, may have anti-takeover effects. These provisions are intended to avoid costly takeover battles, lessen our vulnerability to a hostile change of control and enhance the ability of our board of directors to maximize shareholder value in connection with any unsolicited offer to acquire our company. However, these anti-takeover provisions could also discourage, delay or prevent the merger or acquisition of our company by means of a tender offer, a proxy contest or otherwise that a shareholder may consider in its best interest and the removal of incumbent officers and directors, which could affect the desirability of our shares and, consequently, our share price.

[Table of Contents](#)

Multi Class Stock.

Our multi-class stock structure, which consists of common shares, Class B common shares, and preferred shares, can provide holders of our Class B common shares or preferred shares a significant degree of control over all matters requiring shareholder approval, including the election of directors and significant corporate transactions, such as a merger or other sale of our company or its assets, because our different classes of shares can have different numbers of votes.

For instance, while our common shares have one vote on matters before the shareholders, each of our 10,300 outstanding Series B preferred shares has 25,000 votes on matters before the shareholders; *provided however*, that no holder of Series B preferred shares may exercise voting rights pursuant to any Series B preferred shares that would result in the total number of votes a holder is entitled to vote on any matter submitted to a vote of shareholders of the Company to exceed 49.99% of the total number of votes eligible to be cast on such matter. No Class B common shares are presently outstanding, but if and when we issue any, each Class B common share will have 20 votes on matters before the shareholders.

At present, and until a substantial number of additional securities are issued, our holder of Series B preferred shares exerts substantial control of the Company's votes and is able to exert substantial control over our management and all matters requiring shareholder approval, including electing directors and significant corporate transactions, such as a merger. In addition, the current holder of our Series B stock is not subject to the limitations of our shareholders rights agreement, so it is able to acquire common shares. Such holder's interest could differ from other shareholders' interests.

Blank Check Preferred Shares.

Under the terms of our articles of incorporation, our board of directors has authority, without any further vote or action by our shareholders, to issue up to 100 million "blank check" preferred shares, almost all of which currently remain available for issuance. Our board could authorize the issuance of preferred shares with voting or conversion rights that could dilute the voting power or rights of the holders of common shares, in addition to preferred shares that are already outstanding. The issuance of preferred shares, while providing flexibility in connection with possible acquisitions and other corporate purposes, could, among other things, have the effect of delaying, deferring or preventing a change in control of us or the removal of our management and may harm the market price of our common shares.

Classified Board of Directors.

Our articles of incorporation provide for the division of our board of directors into three classes of directors, with each class as nearly equal in number as possible, serving staggered, three-year terms beginning upon the expiration of the initial term for each class. Approximately one-third of our board of directors is elected each year. This classified board provision could discourage a third party from making a tender offer for our shares or attempting to obtain control of us. It could also delay shareholders who do not agree with the policies of our board of directors from removing a majority of our board of directors for up to two years.

Election of Directors.

Our articles of incorporation do not provide for cumulative voting in the election of directors. Our bylaws require parties, other than the chairman of the board of directors, board of directors and shareholders holding 30% or more of the voting power of the aggregate number of our shares issued and outstanding and entitled to vote, to provide advance written notice of nominations for the election of directors. These provisions may discourage, delay or prevent the removal of incumbent officers and directors.

Advance Notice Requirements for Shareholder Proposals and Director Nominations.

Our bylaws provide that shareholders, other than shareholders holding 30% or more of the voting power of the aggregate number of our shares issued and outstanding and entitled to vote, seeking to nominate candidates for election as directors or to bring business before an annual meeting of shareholders must provide timely notice of their proposal in writing to the corporate secretary.

Generally, to be timely, a shareholder's notice must be received at our principal executive offices not less than 150 days or more than 180 days prior to the first anniversary date of the immediately preceding annual meeting of shareholders. Our bylaws also specify requirements as to the form and content of a shareholder's notice. These provisions may impede a shareholder's ability to bring matters before an annual meeting of shareholders or make nominations for directors at an annual meeting of shareholders.

Calling of Special Meetings of Shareholders

Our bylaws provide that special meetings of our shareholders may be called only by the chairman of our board of directors, by resolution of our board of directors or by holders of 30% or more of the voting power of the aggregate number of our shares issued and outstanding and entitled to vote at such meeting.

Action by Written Consent in Lieu of a Meeting

Our articles permit any action which may or is required by the Marshall Islands Business Corporations Act, or BCA, to be taken at a meeting of the shareholders to be authorized by consents in writing signed by the holders of outstanding shares having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted. Presently and until and unless we issue a significant number of securities, Goldenmare Limited, a company affiliated with our Chief Executive Officer, holds Series B preferred shares controlling a significant portion of the voting power of our outstanding capital stock. Goldenmare could, together with shareholders possessing a relatively small number of shares, act by written consent in lieu of a meeting and authorize major transactions on behalf of the Company, all without calling a meeting of shareholders.

Business Combinations

Our articles prohibit us from engaging in a business combination with an interested shareholder for a period of three years following the date of the transaction in which the person became an interested shareholder, subject to certain exceptions. Please see “Anti-Takeover Effects of Certain Provisions of our Articles of Incorporation and Bylaws—Business Combinations” within the “Description of Securities” filed as Exhibit 2.1 hereto.

In addition, we have entered into a shareholders rights agreement that makes it more difficult for a third party, subject to certain exceptions, to acquire us without the support of our board of directors. See “Description of Securities” filed as Exhibit 2.1 hereto for a description of our shareholders rights agreement. These anti-takeover provisions, along with provisions of our shareholders rights agreement, could substantially impede the ability of our shareholders to impose a change in control and, as a result, may adversely affect the market price of our common shares and your ability to realize any potential change of control premium.

We are subject to Marshall Islands corporate law, which is not well-developed.

Our corporate affairs are governed by our articles of incorporation, our bylaws and by the BCA. The provisions of the BCA resemble provisions of the corporation laws of a number of states in the United States. However, there have been few judicial cases in the Marshall Islands interpreting the BCA. The rights and fiduciary responsibilities of directors under the laws of the Marshall Islands are not as clearly established as the rights and fiduciary responsibilities of directors under statutes or judicial precedent in existence in certain United States jurisdictions. The rights of shareholders of corporations incorporated in or redomiciled into the Marshall Islands may differ from the rights of shareholders of corporations incorporated in the United States. While the BCA provides that it is to be applied and construed to make the laws of the Marshall Islands, for non-resident entities such as us, with respect of the subject matter of the BCA, uniform with the laws of the State of Delaware and other states with substantially similar legislative provisions (and adopts their case law to the extent it does not conflict with the BCA), there have been few court cases interpreting the BCA in the Marshall Islands and we cannot predict whether Marshall Islands courts would reach the same conclusions as United States courts. Thus, you may have more difficulty in protecting your interests in the face of actions by our management, directors or controlling shareholders than would shareholders of a corporation incorporated in a United States jurisdiction that has developed a more substantial body of case law in the corporate law area.

Increases in interest rates may cause the market price of our shares to decline.

An increase in interest rates may cause a corresponding decline in demand for equity investments in general. Any such increase in interest rates or reduction in demand for our shares resulting from other relatively more attractive investment opportunities may cause the trading price of our shares to decline. If the relevant SOFR increases, then our payments pursuant to certain existing loan will increase. See “Item 11. Quantitative and Qualitative Disclosures About Market Risk.”

The public market may not continue to be active and liquid enough for our shareholders to resell our common shares in the future.

The price of our common shares may be volatile and may fluctuate due to factors such as:

- actual or anticipated fluctuations in our quarterly and annual results and those of other public companies in our industry;
- mergers and strategic alliances in the dry bulk shipping industry;
- market conditions in the dry bulk shipping industry;
- changes in government regulation;
- shortfalls in our operating results from levels forecast by securities analysts;
- announcements concerning us or our competitors; and
- the general state of the securities market.

The dry bulk shipping industry has been highly unpredictable and volatile. The market for our common shares may be equally volatile.

Item 4. Information on the Company

A. History and Development of the Company

History relating to our shares and certain financings

We originally incorporated as Globus Maritime Limited on July 26, 2006 pursuant to the Companies (Jersey) Law 1991 (as amended) and began operations in September 2006. Following the conclusion of our initial public offering on June 1, 2007, our common shares were listed on the London Stock Exchange’s Alternative Investment Market, or AIM, under the ticker “GLBS.L.” On July 29, 2010, we effected a 1-4 reverse stock split, with our issued share capital resulting in 7,240,852 common shares of \$0.004 each. (These figures do not reflect the 1-4 reverse stock split which occurred in October 2016, the 1-10 reverse stock split which occurred in October 2018 or the 1-100 reverse stock split which occurred in October 2020.)

On November 24, 2010, we redomiciled into the Marshall Islands pursuant to the BCA and a resale registration statement for our common shares was declared effective by the SEC. Once the resale registration statement was declared effective by the SEC, our common shares began trading on the Nasdaq Global Market under the ticker “GLBS.” Our common shares were suspended from trading on the AIM on November 24, 2010 and were delisted from the AIM on November 26, 2010.

On April 11, 2016, our common shares began trading on the Nasdaq Capital Market and ceased trading on the Nasdaq Global Market.

On October 20, 2016, we effected a 1-4 reverse stock split which reduced the number of outstanding common shares from 10,510,741 to 2,627,674 shares (adjustments were made based on fractional shares). (These figures do not reflect the 1-10 reverse stock split which occurred in October 2018 or the 1-100 reverse stock split which occurred in October 2020.)

On October 15, 2018, we effected a 1-10 reverse stock split which reduced the number of outstanding common shares from 32,065,077 to 3,206,495 shares (adjustments were made based on fractional shares). (These figures do not reflect the 1-100 reverse stock split which occurred in October 2020.)

In November 2018, we entered into a credit facility for up to \$15 million with Firment Shipping Inc., a related party to us, for the purpose of financing our general working capital needs, which facility was amended and restated on May 8, 2020. The Firment Shipping Credit Facility was unsecured and remained available until its final maturity date at October 31, 2021, as amended. We had the right to drawdown any amount up to \$15 million or prepay any amount in multiples of \$100,000. Any prepaid amount could have been re-borrowed. Interest on drawn and outstanding amounts was charged at 3.5% per annum until December 31, 2020, and thereafter at 7% per annum. No commitment fee was charged on the amounts remaining available and undrawn. Interest was payable the last day of a period of three months after the drawdown date, after this period in case of failure to pay any sum due a default interest of 2% per annum above the regular interest was charged. We had also the right, in our sole option, to convert in whole or in part the outstanding unpaid principal amount and accrued but unpaid interest under this Agreement into common shares. The conversion price would have equaled the higher of (i) the average of the daily dollar volume-weighted average sale price for the common shares on the Principal Market on any trading day during the period beginning at 9.30 a.m. New York City time and ending at 4.00 p.m. over the Pricing Period multiplied by 80%, where the “Pricing Period” equals the ten consecutive trading days immediately preceding the date on which the conversion notice was executed or (ii) \$280.00. On July 27, 2020, the Company repaid the total outstanding principal and interest of the Firment Shipping Credit Facility of approximately \$863,000. This facility expired by its terms on October 31, 2021.

[Table of Contents](#)

On March 13, 2019, the Company signed a securities purchase agreement with a private investor and on March 13, 2019 issued, for gross proceeds of \$5 million, a senior convertible note (the “Convertible Note”) that was convertible into shares of the Company’s common shares, par value \$0.004 per share. If not converted or redeemed beforehand pursuant to the terms of the Convertible Note, the Convertible Note was scheduled to mature on March 13, 2020, the first anniversary of its issue, but its holder waived the Convertible Note’s maturity until March 13, 2021. The Convertible Note was issued in a transaction exempt from registration under the Securities Act of 1933, as amended, or the Securities Act. The Convertible Note provided for interest to accrue at 10% annually, to be paid at maturity unless the Convertible Note was converted or redeemed pursuant to its terms beforehand. The interest could have been paid in common shares of the Company, if certain conditions described within the Convertible Note were met. The outstanding balance of the Convertible Note not previously converted into shares was fully repaid in June 2020.

On June 22, 2020, we completed a public offering of 342,857 units of the Company. Each unit consisted of one common share and one Class A Warrant to purchase one common share (a “Class A Warrant”), for \$35 per unit. At the time of the closing, the underwriters exercised and closed a part of their over-allotment option, and purchased an additional 51,393 common shares and Class A Warrants to purchase 51,393 common shares.

The exercise price of the Class A Warrants is \$35 per whole share at any time after their original issuance up to the date that is five years after their original issuance. If a registration statement registering the issuance of the common shares underlying the warrants under the Securities Act is not effective or available, the holder may, in its sole discretion, elect to exercise the warrant through a cashless exercise, in which case the holder would receive upon such exercise the net number of common shares determined according to the formula set forth in the warrant. We may be required to pay certain amounts as liquidated damages as specified in the warrants in the event we do not deliver common shares upon exercise of the warrants within the time periods specified in the warrants.

On June 30, 2020, we issued 458,500 of our common shares in a registered direct offering and 458,500 of June Private Placement (“PP”) Warrants in a concurrent private placement for a purchase price of \$27 per common share and June PP Warrant. The exercise price of each June PP Warrant was initially \$30 per share but in July 2020 was reduced to \$18 per share.

On July 21, 2020, we issued 833,333 of our common shares in a registered direct offering and 833,333 of July PP Warrants to purchase common shares in a concurrent private placement for a purchase price of \$18 per common share and July PP Warrant. The exercise price of each July PP Warrant is \$18 per share.

On December 9, 2020, we issued (a) 1,256,765 common shares, (b) pre-funded warrants to purchase 155,000 common shares, and (c) warrants (the “December 2020 Warrants”) to purchase 1,270,587 common shares. The pre-funded warrants have all been exercised. No December 2020 Warrants have been exercised as of the date hereof, and may be exercised at any time prior to 5:00 PM New York time on June 9, 2026. The exercise price of the December 2020 Warrants was reduced from \$8.50 per share to \$6.25 per share on January 29, 2021.

On January 29, 2021, we issued (a) 2,155,000 common shares, (b) pre-funded warrants to purchase 445,000 common shares, and (c) warrants (the “January 2021 Warrants”) to purchase 1,950,000 common shares at an exercise price of \$6.25 per share, which may be exercised at any time prior to 5:00 PM New York time on July 29, 2026. The pre-funded warrants were all exercised prior to the date of this annual report. No January 2021 Warrants have been exercised as of the date hereof.

On February 17, 2021, we issued (a) 3,850,000 common shares, (b) pre-funded warrants to purchase 950,000 common shares, and (c) warrants (the “February 2021 Warrants”) to purchase 4,800,000 common shares at an exercise price of \$6.25 per share, which may be exercised at any time prior to 5:00 PM New York time on August 17, 2026. The pre-funded warrants have all been exercised. No February 2021 Warrants have been exercised as of the date hereof.

On June 29, 2021, we issued (a) 8,900,000 common shares, (b) pre-funded warrants to purchase 1,100,000 common shares, and (c) warrants (the “June 2021 Warrants”) to purchase 10,000,000 common shares at an exercise price of \$5.00 per share, which may be exercised at any time prior to 5:00 PM New York time on December 29, 2026. The pre-funded warrants have all been exercised. No June 2021 Warrants have been exercised as the date hereof.

Each of the June PP Warrants, July PP Warrants, December 2020 Warrants, January 2021 Warrants, February 2021 Warrants and June 2021 Warrants is exercisable for a period of five and one-half years commencing on the date of issuance. The warrants are exercisable at the option of each holder, in whole or in part by delivering to us a duly executed exercise notice with payment in full in immediately available funds for the number of common shares purchased upon such exercise. If a registration statement registering the resale of the common shares underlying the private placement warrants under the Securities Act is not effective or available at any time after the six month anniversary of the date of issuance of the private placement warrants, the holder may, in its sole discretion, elect to exercise the private placement warrant through a cashless exercise, in which case the holder would receive upon such exercise the net number of common shares determined according to the formula set forth in the warrant. If a registration statement covering the issuance of the shares under the Securities Act is not effective or available at any time after the issuance of the December 2020 Warrants, January 2021 Warrants, February 2021 Warrants and June 2021 Warrants, the holder may, in its sole discretion, elect to exercise the such warrants through a cashless exercise, in which case the holder would receive upon such exercise the net number of common shares determined according to the formula set forth in the warrant. If we do not issue the shares in a timely fashion, each warrant contains certain liquidated damages provisions.

Each of the warrants described above, other than the Class A Warrants, were issued pursuant to a securities purchase agreement and a placement agency agreement.

From June 22, 2020 to the date hereof, we have issued 5,550 common shares pursuant to exercises of outstanding Class A Warrants. As of the date of this annual report, no June PP Warrants, July PP Warrants, December 2020 Warrants, January 2021 Warrants, February 2021 Warrants or June 2021 Warrants have been exercised.

On October 21, 2020, we effected a 1-100 reverse stock split which reduced the number of shares outstanding from 175,675,651 to 1,756,720 (adjustments were made based on fractional shares). Unless otherwise noted, all historical share numbers, per share amounts, including common share, preferred shares and warrants, have been adjusted to give effect to this reverse stock split.

On June 12, 2020, we entered into a stock purchase agreement and issued 50 of our newly designated Series B preferred shares, par value \$0.001 per share, to Goldenmare Limited, a company controlled by our Chief Executive Officer, Athanasios Feidakis, in return for \$150,000, which amount was settled by reducing, on a dollar for dollar basis, the amount payable by the Company to Goldenmare Limited pursuant to a consultancy agreement.

In July 2020, we issued an additional 250 of our Series B preferred shares to Goldenmare Limited in return for \$150,000. The \$150,000 was paid by reducing, on a dollar-for-dollar basis, the amount payable by the Company to Goldenmare Limited pursuant to a consultancy agreement. In addition, we increased the maximum voting rights under the Series B preferred shares from 49.0% to 49.99%.

In March 2021, we issued an additional 10,000 of our Series B preferred shares to Goldenmare Limited in return for \$130,000, which was settled by reducing, on a dollar-for-dollar basis, the amount payable by the Company to Goldenmare Limited pursuant to a consultancy agreement.

Each Series B preferred share entitles the holder thereof to 25,000 votes per share on all matters submitted to a vote of the shareholders of the Company, provided however, that no holder of Series B preferred shares may exercise voting rights pursuant to Series B preferred shares that would result in the aggregate voting power of any beneficial owner of such shares and its affiliates (whether pursuant to ownership of Series B preferred shares, common shares or otherwise) to exceed 49.99% of the total number of votes eligible to be cast on any matter submitted to a vote of shareholders of the Company. To the fullest extent permitted by law, the holders of Series B preferred shares shall have no special voting or consent rights and shall vote together as one class with the holders of the common shares on all matters put before the shareholders. The Series B preferred shares are not convertible into common shares or any other security. They are not redeemable and have no dividend rights. Upon any liquidation, dissolution or winding up of the Company, the Series B preferred shares are entitled to receive a payment with priority over the common shareholders equal to the par value of \$0.001 per share. The Series B preferred shareholder has no other rights to distributions upon any liquidation, dissolution or winding up of the Company. All issued and outstanding Series B preferred shares must be held of record by one holder, and the Series B preferred shares shall not be transferred without the prior approval of our Board of Directors. Finally, in the event the Company (i) declares any dividend on its common shares, payable in common shares, (ii) subdivides the outstanding common shares or (iii) combines the outstanding common shares into a smaller number of shares, there shall be a proportional adjustment to the number of outstanding Series B preferred shares.

Each issuance of Series B preferred shares to Goldenmare Limited was approved by an independent committee of the Board of Directors of the Company, which (in each instance) received a fairness opinion from an independent financial advisor that the transaction was for a fair value.

In March 2021, the Company prepaid \$6.0 million of the EnTrust loan facility, which represented all amounts that would otherwise come due during calendar year 2021. As a result, after this pre-payment we had an aggregate debt outstanding of \$31 million, gross of unamortized debt costs, from the EnTrust Loan Facility.

On May 10, 2021, we reached an agreement with First Citizens Bank & Trust Company (formerly known as CIT Bank N.A.) for a loan facility of \$34.25 million bearing interest at LIBOR plus a margin of 3.75% per annum. This loan facility is referred to as the CIT Loan Facility. The proceeds of this financing were used to repay the outstanding balance of the EnTrust Loan Facility. In August 2022, we entered into a deed of accession, amendment and restatement of the CIT Loan Facility with First Citizens Bank & Trust Company (formerly known as CIT Bank N.A.), whereby the CIT Loan Facility was amended and restated and an additional borrower, Salamina Maritime Limited, acceded to the CIT Loan Facility. The CIT Loan Facility principal amount was increased to \$52.25 million, by a top up loan amount of \$18 million for the purpose of financing our vessel *Orion Globe* and for general corporate and working capital purposes. The CIT Loan Facility (including the new top up loan amount) became further secured by a first preferred mortgage over the vessel *Orion Globe*. Furthermore, the LIBOR interest provisions of the CIT Loan Facility were replaced with Term SOFR plus a margin of 3.35% (or 5.35% default interest). In August 2023, we entered into a second deed of accession, amendment and restatement of the CIT Loan Facility with First Citizens Bank & Trust Company (formerly known as CIT Bank N.A.), whereby the CIT Loan Facility was further amended and restated and two additional borrowers, Argo Maritime Limited and Talisman Maritime Limited, acceded to the CIT Loan Facility. The CIT Loan Facility was further increased to \$72.25 million, by a top up loan amount of \$25 million for the purpose of financing our vessels *Diamond Globe* and *Power Globe* and for general corporate and working capital purposes. The CIT Loan Facility (including the new top up loan amount) became further secured by first preferred mortgages over the vessels *Diamond Globe* and *Power Globe*. The CIT Loan Facility currently bears interest at Term SOFR together with an adjustment of 0.1% per annum plus a margin of 2.70% (or 4.70% default interest) per annum. For more information regarding the terms of the CIT Loan Facility, see “Item 5.B. Liquidity and Capital Resources — Indebtedness.”

On August 3, 2023, we entered into a Shareholders Rights Agreement between the Company and Computershare Trust Company, N.A., as rights agent, and our board of directors authorized and declared a dividend distribution of one right for each outstanding common share to shareholders of record as of the close of business on August 21, 2023. Each right entitles the registered holder to purchase from us one one-thousandth of a share of Series C Participating Preferred Stock at an exercise price of \$5.00 per one one-thousandth of a preferred share, subject to adjustment. For additional information, please see “Description of Securities” filed as Exhibit 2.1 hereto.

As of December 31, 2023, our issued and outstanding capital stock consisted of 20,582,301 common shares and 10,300 Series B preferred shares.

Recent history relating to our ships

In October 2020, we purchased a 2015-built Kamsarmax dry bulk carrier for \$18.4 million. The vessel was delivered on October 29, 2020 and was named *Galaxy Globe*. *Galaxy Globe* was built at the Hudong-Zhonghua Shipyard in China and has a carrying capacity of 81,167 dwt.

On June 9, 2021, we took delivery of the m/v “Diamond Globe”, a 2018-built Kamsarmax dry bulk carrier, through its subsidiary, Argo Maritime Limited, for a purchase price of \$27 million financed with available cash. The m/v “Diamond Globe” was built at Jiangsu New Yangzi Shipbuilding Co., Ltd and has a carrying capacity of 82,027 dwt.

On July 20, 2021, we took delivery of the m/v “Power Globe”, a 2011-built Kamsarmax dry bulk carrier, through its subsidiary, Talisman Maritime Limited, for a purchase price of \$16.2 million financed with available cash. The m/v “Power Globe” was built at Universal Shipbuilding Corporation in Japan and has a carrying capacity of 80,655 dwt.

[Table of Contents](#)

On November 29, 2021, we took delivery of the m/v “Orion Globe”, a 2015-built Kamsarmax dry bulk carrier, through its subsidiary, Salamina Maritime Limited, for a purchase price of \$28.4 million financed with available cash. The m/v “Orion Globe” was built at Tsuneishi Zosen in Japan and has a carrying capacity of 81,837 dwt.

On April 29, 2022, we entered into a contract, through our subsidiary Calypso Shipholding S.A., for the construction and purchase of one fuel efficient dry bulk carrier with a carrying capacity of approximately 64,000 dwt. The vessel was built at Nihon Shipyard Co. in Japan. The total consideration for the construction of the vessel was approximately \$37.5 million. On January 22, 2024, we paid the final installment to Nihon Shipyard Co. in Japan and took delivery of the new Ultramax with carrying capacity of approximately 64,000 dwt that was named m/v “GLBS Hero”.

On May 13, 2022, we signed two contracts, through our subsidiaries Daxos Maritime Limited and Paralus Shipholding S.A., for the construction and purchase of two fuel efficient bulk carriers of approximately 64,000 dwt each. The sister vessels will be built at Nantong COSCO KHI Ship Engineering Co. in China, with the first one scheduled to be delivered during the third quarter of 2024 and to be named m/v “GLBS MIGHT” and the second one scheduled to be delivered during the fourth quarter of 2024. The total consideration for the construction of both vessels is approximately \$70.3 million, which we intend to finance with a combination of debt and equity. In May 2022, we paid the first installment of \$13.8 million and in November 2022 paid the second installment of \$6.9 million for both vessels under construction. For more information regarding the sale and leaseback agreement that we entered into in February 2024 in respect of the vessel GLBS MIGHT, see “—Recent developments (post-2023).”

On March 6, 2023, we, through a wholly owned subsidiary, entered into an agreement to sell the 2007-built Sun Globe for a gross price of \$14.1 million, before commissions, to an unaffiliated third party.

Following the agreement to sell Sun Globe and given the significant increase in the vessel’s market value, we assessed that there were indications that impairment losses recognized in the previous periods with respect to this vessel had decreased. Therefore, the carrying amount of the vessel was increased to its recoverable amount, determined based on its selling price less cost to sell, and we recorded a reversal of impairment in the amount of \$4.4 million during the first quarter of 2023. The vessel was delivered to its new owners on June 5, 2023 and we recorded a gain of \$71,000.

On August 11, 2023, we, through a wholly owned subsidiary, entered into an agreement to sell the 2009-built Sky Globe for a gross price of \$10.7 million, before commissions, to an unaffiliated third party. On August 16, 2023, we through a wholly owned subsidiary, entered into an agreement to sell the 2010-built Star Globe for a gross price of \$11.2 million, before commissions, to an unaffiliated third party. The vessel was delivered to its new owners on September 13, 2023. We recognized a gain of approximately \$1.6 million as a result of the sale.

On August 18, 2023, we, through Thalia Shipholding S.A. and Olympia Shipholding S.A., signed two contracts for the construction and purchase of two fuel efficient bulk carriers of approximately 64,000 dwt each. The two vessels are expected be built at Nihon Shipyard Co. in Japan and are scheduled to be delivered during the second half of 2026. The total consideration for the construction of both vessels is approximately \$75.5 million, which the Company intends to finance with a combination of debt and equity. In August 2023, we paid the first installment of \$7.5 million for both vessels under construction.

As of December 31, 2023, our fleet was comprised of a total of six dry bulk vessels consisting of four Kamsarmaxes, one Panamax and one Supramax, and we had contracted for the construction of five additional Ultramax (one of which was delivered in January 2024). The weighted average age of the vessels in our fleet as of December 31, 2023 was 11.2 years, and their carrying capacity was 453,745 dwt. The weighted average age of the vessels in our fleet as of February 29, 2024 was 9.9 years, and their carrying capacity was 517,487 dwt.

Recent developments (post-2023)

On February 23, 2024, we, through our subsidiary Daxos Maritime Limited, entered into a \$28 million sale and leaseback agreement with SK Shipholding S.A., a subsidiary of Shinken Bussan Co., Ltd. of Japan (“Shinken”), with respect to the approximately 64,000 dwt bulk carrier to be named “GLBS MIGHT,” which is scheduled to be delivered from the relevant shipyard during the third quarter of 2024. For more information regarding the terms of the sale and leaseback agreement, see “Item 5.B. Liquidity and Capital Resources — Indebtedness.”

B. Business Overview

We are an integrated dry bulk shipping company, providing marine transportation services on a worldwide basis. We own (or charter through finance leases), operate and manage a fleet of dry bulk vessels that transport iron ore, coal, grain, steel products, cement, alumina and other dry bulk cargoes internationally. We intend to grow our fleet through timely and selective acquisitions of modern vessels or acquisition through construction of new vessels in a manner that we believe will provide an attractive return on equity and will be accretive to our earnings and cash flow based on anticipated market rates at the time of purchase. There is no guarantee however, that we will be able to find suitable vessels to purchase or build or that such vessels will provide an attractive return on equity or be accretive to our earnings and cash flow.

Our operations are managed by our Glyfada, Greece-based wholly owned subsidiary, Globus Shipmanagement Corp., which we refer to as our Manager, which provides in-house commercial and technical management for our vessels and provided consulting services for an affiliated ship-management company. Our Manager has entered into a ship management agreement with each of our wholly owned vessel-owning (or bareboat chartering in through financial arrangements) subsidiaries to provide services that include managing day-to-day vessel operations, such as supervising the crewing, supplying, maintaining of vessels and other services.

The following table presents information concerning the vessels in our fleet as of March 14, 2024:

We own or charter in each of our vessels through separate, wholly owned subsidiaries, all of which are incorporated in the Marshall Islands. Our Supramax vessel is geared. Geared vessels can operate in ports with minimal shore-side infrastructure. Due to the ability to switch between various dry bulk cargo types and to service a wider variety of ports, the day rates for geared vessels tend to have a premium.

On January 22, 2024, we paid the final installment to Nihon Shipyard Co. in Japan and on January 25, 2024 we took delivery of a new Ultramax with carrying capacity of approximately 64,000 dwt that was named m/v “GLBS Hero”.

In addition to the above vessels, we have contracted for the construction of four additional Ultramax. See “Item 4.A. History and Development of the Company.”

Employment of our Vessels

Our long-term strategy to maximize the value of our fleet is to employ our vessels on a mix of all types of charter contracts, including in the short-term or spot market and on long-term charters and index-linked charters. We believe this strategy provides the cash flow stability, reduced exposure to market downturns and high utilization rates of the charter market, while at the same time enabling us to benefit from periods of increasing short-term or spot market rates. But our short-term strategy at any given point in time is dictated by a multitude of factors and the chartering opportunities before us. We may, for example, seek to employ a greater portion of our fleet on the short-term or spot market or on time charters with longer durations, should we believe it to be in our best interests. We generally prefer spot or short-term contracts in order to be versatile, to be able to move quickly to capture a market upswing, and to be more selective with the cargos we carry. Long-term charters, however, provide desirable cash flow stability, albeit at the cost of missing upswings in cargo rates. Finally, the index-linked charters reflect similar rate volatility as spot/voyage rates, although the index-linked hire rate may enable us to capture increased profit margins during periods of improvements in vessel charter rates. Accordingly, our mix between short-term or spot charters, longer-term charters and index-linked charters changes from time-to-time. When our ships are not all on the short-term or spot market, we generally seek to stagger the expiration dates of our charters to reduce exposure to volatility in the shipping cycle when our vessels come off of charter. We also continually monitor developments in the dry bulk shipping industry and, subject to market demand, will adjust the number of vessels on charters and the charter periods for our vessels according to market conditions.

We and our Manager have developed relationships with a number of international charterers, vessel brokers, financial institutions, insurers and shipbuilders. We have also developed a network of relationships with vessel brokers who help facilitate vessel charters and acquisitions.

On the date of the filing of this annual report on 20-F, all of our vessels were employed on short-term time charters, of which three are index-linked.

Each of our vessels travels across the world and not on any particular route. The charterers of our vessels, whether time, bareboat or on the spot market, select the locations to which our vessels travel, subject to any restrictions under terms of employment.

Time Charter

A time charter is a contract for the use of a vessel for a fixed period of time at a specified daily rate. Under a time charter, the vessel owner provides crewing, insuring, repairing and maintenance and other services related to the vessel's operation, the cost of which is included in the daily rate, and the customer is responsible for substantially all of the vessel voyage costs, including the cost of bunkers (fuel oil) and canal and port charges. The owner also pays commissions typically ranging from 0% to 6.25% of the total daily charter hire rate of each charter to unaffiliated ship brokers and to in-house brokers associated with the charterer, depending on the number of brokers involved with arranging the charter.

Basic Hire Rate and Term

"Basic hire rate" refers to the basic payment from the customer for the use of the vessel. The hire rate is generally payable semi-monthly or 15 days, in advance, in U.S. dollars as specified in the charter. A hire rate can be fixed or index-linked, with the latter reflecting similar rate volatility as spot/voyage rates, although the index-linked hire rate may enable us to capture increased profit margins during periods of improvements in vessel charter rates.

Off-hire

When the vessel is "off-hire," the charterer generally is not required to pay the basic hire rate, and we are responsible for all costs. Prolonged off-hire may lead to vessel substitution or termination of the time charter. A vessel generally will be deemed off-hire if there is a loss of time due to, among other things, operational deficiencies; drydocking for examination or painting the bottom; equipment breakdowns; damages to the hull; or similar problems.

[Table of Contents](#)

Ship Management and Maintenance

We are responsible for the technical management of the vessel and for maintaining the vessel, periodic drydocking, cleaning and painting and performing work required by regulations. Globus Shipmanagement provides the technical, commercial and day-to-day operational management of our vessels. Technical management includes crewing, maintenance, repair and drydockings. During 2023, we paid Globus Shipmanagement \$700 per vessel per day. All fees payable to Globus Shipmanagement for vessels that we own or charter in are eliminated upon consolidation of our accounts.

Termination

We are generally entitled to suspend performance under the time charter if the customer defaults in its payment obligations. Either party may terminate the charter in the event of war in specified countries.

Commissions

During the year ended December 31, 2023, we paid commissions of 5% to each time charter agreement then in effect.

Bareboat Charter

A bareboat charter is a contract pursuant to which the vessel owner provides the vessel to the charterer for a fixed period of time at a specified daily rate, and the charterer provides for all of the vessel's operating expenses. The charterer undertakes to maintain the vessel in a good state of repair and efficient operating condition and drydock the vessel during this period as per the classification society requirements.

Redelivery

Upon the expiration of a bareboat charter, typically the charterer must redeliver the vessel in as good structure, state, condition and class as that in which the vessel was delivered.

Ship Management and Maintenance

Under a bareboat charter, the charterer is responsible for all of the vessel's operating expenses, including crewing, insuring, maintaining and repairing the vessel, any drydocking costs, and the stores, lube oils and communication expenses. Under a bareboat charter, the charterer is also responsible for the voyage costs, and generally assumes all risk of operation. The charterer covers the costs associated with the vessel's special surveys and related drydocking falling within the charter period.

Commissions

Commissions on bareboat charters typically range from 0% to 3.75%.

Our Customers

We seek to charter our vessels to customers who we perceive as creditworthy thereby minimizing the risk of default by our charterers. We also try to select charterers depending on the type of product they want to carry and the geographical areas in which they tend to trade.

Our assessment of a charterer's financial condition and reliability is an important factor in negotiating employment for our vessels. We generally charter our vessels to operators, trading houses (including commodities traders), shipping companies and producers and government-owned entities and generally avoid chartering our vessels to companies we believe to be speculative or undercapitalized entities. Since our operations began in September 2006, our customers have included Hyundai Glovis Co. Ltd., Dampskibsselskabet NORDEN A/S, NYK Bulk & Projects Carriers Ltd. and Olam Global Agri Pte Ltd. In addition, during the periods when some of our vessels were trading on the spot market, they have been chartered to charterers such as Cargill International SA, Oldendorff GmbH & Co KG, Western Bulk Pte. Ltd., Ausca Shipping HK Limited and others, thus expanding our customer base.

Competition

Our business fluctuates in line with the main patterns of trade of the major dry bulk cargoes and varies according to changes in the supply and demand for these items. We operate in markets that are highly competitive and based primarily on supply and demand. We compete for charters on the basis of price, vessel location, size, age and condition of the vessel, as well as on our reputation as an owner and operator. We compete with other owners of dry bulk vessels in the Panamax, Supramax and Kamsarmax dry bulk vessels, but we also compete with owners for the purchase and sale of vessels of all sizes. Those competitors may be better capitalized or have more liquidity than we do. In this period of significantly depressed pricing and over capacity, better liquidity may be a major competitive advantage, and we believe that some of our competitors may be better capitalized than we are.

Ownership of dry bulk vessels is highly fragmented. It is likely that we will face substantial competition for long-term charter business from a number of experienced companies. Many of these competitors will have larger dry bulk vessel fleets and greater financial resources than us, which may make them more competitive. It is also likely that we will face increased numbers of competitors entering into our transportation sectors, including in the dry bulk sector. Many of these competitors have strong reputations and extensive resources and experience. Increased competition may cause greater price competition, especially for long-term charters. We believe that no single competitor has a dominant position in the markets in which we compete.

The process for obtaining longer term time charters generally involves a lengthy and intensive screening and vetting process and the submission of competitive bids. In addition to the quality and suitability of the vessel, longer term shipping contracts may be awarded based upon a variety of other factors relating to the vessel operator, including:

- environmental, health and safety record;
- compliance with regulatory industry standards;
- reputation for customer service, technical and operating expertise;
- shipping experience and quality of vessel operations, including cost-effectiveness;
- quality, experience and technical capability of crews;
- the ability to finance vessels at competitive rates and overall financial stability;
- environmental, social, and governance criteria;
- relationships with shipyards and the ability to obtain suitable berths;
- construction management experience, including the ability to procure on-time delivery of new vessels according to customer specifications;
- willingness to accept operational risks pursuant to the charter, such as allowing termination of the charter for force majeure events; and
- competitiveness of the bid in terms of overall price.

As a result of these factors, we may be unable to expand our relationships with existing customers or obtain new customers for long-term time charters on a profitable basis, if at all. However, even if we are successful in employing our vessels under longer term charters, our vessels will not be available for trading on the short-term or spot market during an upturn in the market cycle, when short-term or spot trading may be more profitable. If we cannot successfully employ our vessels in profitable charters, our results of operations and operating cash flow could be materially adversely affected.

The Dry Bulk Shipping Industry

The world dry bulk fleet is generally divided into seven major categories, based on a vessel's cargo carrying capacity. These categories consist of: Handysize, Handymax/Supramax, Panamax, Kamsarmax, Capesize and Very Large Ore Carrier.

➤ *Handysize.* Handysize vessels have a carrying capacity of up to 39,999 dwt. These vessels are primarily involved in carrying minor bulk cargoes. Increasingly, vessels of this type operate on regional trading routes, and may serve as trans-shipment feeders for larger vessels. Handysize vessels are well suited for small ports with length and draft restrictions. Their cargo gear enables them to service ports lacking the infrastructure for cargo loading and unloading.

➤ *Handymax/Supramax.* Handymax vessels have a carrying capacity of between 40,000 and 59,999 dwt. These vessels operate on a large number of geographically dispersed global trade routes, carrying primarily iron ore, coal, grains and minor bulks. Within the Handymax category there is also a sub-sector known as *Supramax*. Supramax bulk vessels are vessels between 50,000 to 59,999 dwt, normally offering cargo loading and unloading flexibility with on-board cranes, while at the same time possessing the cargo carrying capability approaching conventional Panamax bulk vessels. Hence, the earnings potential of a Supramax dry bulk vessel, when compared to a conventional Handymax vessel of 45,000 dwt, is greater.

➤ *Ultramax.* Ultramax vessels are medium-sized vessels. Larger than Supramax vessels, they have a carrying capacity generally between 60,000 to 65,000 dwt.

➤ *Panamax.* Panamax vessels have a carrying capacity of between 60,000 and 79,999 dwt. These vessels carry coal, grains, and, to a lesser extent, minor bulks, including steel products, forest products and fertilizers. The term "Panamax" refers to vessels that were able to pass through the Panama Canal before the Panama Canal was expanded in June 2016 (to allow vessels of up to 120,000 dwt, a size sometimes referred to as New Panamax). Panamax vessels are more versatile than larger vessels.

➤ *Kamsarmax.* Kamsarmax vessels typically have a carrying capacity of between 80,000 and 109,999 dwt. These vessels tend to be shallower and have a larger beam than a standard Panamax vessel with a higher cubic capacity. They have been designed specifically for loading high cubic cargoes from draught restricted ports. The term Kamsarmax stems from Port Kamsar in Guinea, where large quantities of bauxite are exported from a port with only 13.5 meter draught and a 229 meter length overall restriction, but no beam restriction.

➤ *Capesize.* Capesize vessels have carrying capacities of between 110,000 and 199,999 dwt. Only the largest ports around the world possess the infrastructure to accommodate vessels of this size. Capesize vessels are mainly used to transport iron ore or coal and, to a lesser extent, grains, primarily on long-haul routes.

➤ *VLOC.* Very large ore carriers are in excess of 200,000 dwt. VLOCs are built to exploit economies of scale on long-haul iron ore routes.

The supply of dry bulk shipping capacity, measured by the amount of suitable vessel tonnage available to carry cargo, is determined by the size of the existing worldwide dry bulk fleet, the number of new vessels on order, the scrapping of older vessels and the number of vessels out of active service (i.e., laid up or otherwise not available for hire). In addition to prevailing and anticipated freight rates, factors that affect the rate of newbuilding, scrapping and laying-up include newbuilding prices, secondhand vessel values in relation to scrap prices, costs of bunkers and other voyage expenses, costs associated with classification society surveys, normal maintenance and insurance coverage, the efficiency and age profile of the existing fleets in the market and government and industry regulation of marine transportation practices. The supply of dry bulk vessels is not only a result of the number of vessels in service, but also the operating efficiency of the fleet. Dry bulk trade is influenced by the underlying demand for the dry bulk commodities which, in turn, is influenced by the level of worldwide economic activity. Generally, growth in gross domestic product and industrial production correlate with peaks in demand for marine dry bulk transportation services.

Dry bulk vessels are one of the most versatile elements of the global shipping fleet in terms of employment alternatives. They seldom operate on round trip voyages with high ballasting times. Rather, they often participate in triangular or multi-leg voyages.

Charter Rates

In the time charter market, rates vary depending on the length of the charter period and vessel specific factors such as age, speed, size and fuel consumption. In the voyage charter market, rates are influenced by cargo size, commodity, port dues and canal transit fees, as well as delivery and redelivery regions. In general, a larger cargo size is quoted at a lower rate per ton than a smaller cargo size. Routes with costly ports or canals generally command higher rates. Voyages loading from a port where vessels usually discharge cargo, or discharging from a port where vessels usually load cargo, are generally quoted at lower rates. This is because such voyages generally increase vessel efficiency by reducing the unloaded portion (or ballast leg) that is included in the calculation of the return charter to a loading area.

Within the dry bulk shipping industry, the freight rate indices issued by the Baltic Exchange in London are the references most likely to be monitored. These references are based on actual charter hire rates under charters entered into by market participants as well as daily assessments provided to the Baltic Exchange by a panel of major shipbrokers. The Baltic Exchange, an independent organization comprised of shipbrokers, shipping companies and other shipping players, provides daily independent shipping market information and has created freight rate indices reflecting the average freight rates (that incorporate actual business concluded as well as daily assessments provided to the exchange by a panel of independent shipbrokers) for the major bulk vessel trading routes. These indices include the Baltic Panamax Index, the index with the longest history and, more recently, the Baltic Capesize Index.

Charter (or hire) rates paid for dry bulk vessels are generally a function of the underlying balance between vessel supply and demand. Over the past 25 years, dry bulk cargo charter rates have passed through cyclical phases and changes in vessel supply and demand have created a pattern of rate “peaks” and “troughs.” Generally, spot/voyage charter rates will be more volatile than time charter rates, as they reflect short-term movements in demand and market sentiment. The BDI remained significantly depressed from 2008-2020. In 2021, the BDI rose to a high of 5,650 on October 7, 2021 and had a low of 1,303 on February 10, 2021. In 2022, the BDI ranged from a low of 965 on August 31, 2022 to a high of 3,369 on May 23, 2022. In 2023, the BDI ranged from a high of 3,346 on December 4, 2023 to a low of 530 on February 16, 2023. In 2024 through March 13, 2024, the BDI ranged from a high of 2,377 on March 11, 2024 to a low of 1,308 on January 17, 2024.

Vessel Prices

Newbuilding vessel prices generally fell as part of the sudden and steep decline in freight rates after August 2008, and continued to gradually decline, but started to increase in 2021 (although not at the 2008 levels) although they declined in the latter half of 2022 and in the beginning of 2023. Since the beginning of 2023, they have been on an increasing trend with normal fluctuations.

In broad terms, the secondhand market is affected by both the newbuilding prices as well as the overall freight expectations and sentiment observed at any given time. As with newbuild prices, secondhand vessel values have continued to gradually decline since August 2008 until 2021, when they started to increase, although they declined in the latter half of 2022 and in the beginning of 2023. Price declines were observed until the fourth quarter of 2023 when values rebounded to levels noted at the beginning of the year. Since then, dry bulk vessels’ prices have been following an upward pattern due to resilient ton-mile demand, limited effective supply of vessels and modest orderbook.

Seasonality

Our fleet consists of dry bulk vessels that operate in markets that have historically exhibited seasonal variations in demand and, as a result, in charter rates. The dry bulk sector is typically stronger in the fall and winter months in anticipation of increased consumption of coal and other raw materials in the northern hemisphere during the winter months. Such seasonality will affect the rates we obtain on the vessels in our fleet that operate on the short-term or spot market.

Permits and Authorizations

We are required by various governmental and quasi-governmental agencies to obtain certain permits, licenses and certificates with respect to our vessels. The kinds of permits, licenses and certificates required depend upon several factors, including the commodity transported, the waters in which the vessel operates, the nationality of the vessel’s crew and the age of a vessel. We have been able to obtain all permits, licenses and certificates currently required to permit our vessels to operate. Additional laws and regulations, environmental or otherwise, may be adopted which could limit our ability to do business or increase our cost of doing business.

Disclosure of Activities pursuant to Section 13(r) of the U.S. Securities Exchange Act of 1934

Section 219 of the Iran Threat Reduction and Syria Human Rights Act of 2012 added Section 13(r) to the Exchange Act. Section 13(r), as amended, requires an issuer to disclose whether it or any of its affiliates knowingly engaged in certain activities, transactions or dealings relating to Iran or certain other sanctioned parties. Disclosure is required even where the activities, transactions or dealings are conducted in compliance with applicable law. Provided in this section is information concerning the activities of us and our affiliates that occurred in 2023 and which we believe may be required to be disclosed pursuant to Section 13(r) of the Exchange Act.

In 2023, our vessels did not complete any port call in Iran, and we are not aware of any vessels owned or controlled by our affiliates completing any port call in Iran.

Our charter party agreements for our vessels restrict the charterers from calling in Iran in violation of U.S. sanctions, or carrying any cargo to Iran which is subject to U.S. sanctions. However, there can be no assurance that our vessels will not, from time to time in the future on charterer's instructions, perform voyages which would require disclosure pursuant to Exchange Act Section 13(r).

We currently have no intention to charter our vessels to charterers and sub-charterers, including, as the case may be, Iran-related parties, who may make, or may sub-let the vessels to sub-charterers who may make, port calls to Iran, but we always evaluate and reevaluate our legally available options.

Inspection by Classification Societies

Every oceangoing vessel must be "classed" by a classification society. The classification society certifies that the vessel is "in class," signifying that the vessel has been built and maintained in accordance with the rules of the classification society and complies with applicable rules and regulations of the vessel's country of registry and the international conventions of which that country is a member. In addition, where surveys are required by international conventions and corresponding laws and ordinances of a flag state, the classification society will undertake them on application or by official order, acting on behalf of the authorities concerned.

The classification society also undertakes on request other surveys and checks that are required by regulations and requirements of the flag state. These surveys are subject to agreements made in each individual case and/or to the regulations of the country concerned. For maintenance of the class certification, regular and extraordinary surveys of hull, machinery, including the electrical plant, and any special equipment classed are required to be performed as follows:

- *Annual Surveys.* For seagoing vessels, annual surveys are conducted for the hull and the machinery, including the electrical plant and where applicable for special equipment classed, at intervals of 12 months from the date of commencement of the class period indicated in the certificate.
- *Intermediate Surveys.* Extended annual surveys are referred to as intermediate surveys and typically are conducted two and one-half years after commissioning and each class renewal. Intermediate surveys may be carried out on the occasion of the second or third annual survey.
- *Class Renewal Surveys.* Class renewal surveys, also known as special surveys, are carried out for the vessel's hull, machinery, including the electrical plant, and for any special equipment classed, at the intervals indicated by the character of classification for the hull. At the special survey the vessel is thoroughly examined, including audio-gauging to determine the thickness of the steel structures. Should the thickness be found to be less than class requirements, the classification society would prescribe steel renewals. The classification society may grant a one-year grace period for completion of the special survey. Substantial amounts of money may have to be spent for steel renewals to pass a special survey if the vessel experiences excessive wear and tear. In lieu of the special survey every four or five years, depending on whether a grace period was granted, a shipowner has the option of arranging with the classification society for the vessel's hull or machinery to be on a continuous survey cycle, in which every part of the vessel would be surveyed within a five-year cycle. At an owner's application, the surveys required for class renewal may be split according to an agreed schedule to extend over the entire period of class. This process is referred to as continuous class renewal.

[Table of Contents](#)

All areas subject to survey as defined by the classification society are required to be surveyed at least once per class period, unless shorter intervals between surveys are prescribed elsewhere. The period between two subsequent surveys of each area must not exceed five years.

Most insurance underwriters make it a condition for insurance coverage that a vessel be certified as “in class” by a classification society that is a member of the International Association of Classification Societies. All the vessels in our fleet are certified as being “in class” by Nippon Kaiji Kyokai (Class NK) or Lloyds. Typically, all new and secondhand vessels that we purchase must be certified “in class” prior to their delivery under our standard purchase contracts and memoranda of agreement. Under our standard purchase contracts, unless negotiated otherwise, if the vessel is not certified on the date of closing, we would have no obligation to take delivery of the vessel. Although we may not have an obligation to accept any vessel that is not certified on the date of closing, we may determine nonetheless to purchase the vessel, should we determine it to be in our best interests. If we do so, we may be unable to charter such vessel after we purchase it until it obtains such certification, which could increase our costs and affect the earnings we anticipate from the employment of the vessel.

Vessels are drydocked during intermediate and special surveys for repairs of their underwater parts. If “in water survey” notation is assigned, there is an option of carrying out an underwater inspection of the vessel in lieu of drydocking, subject to certain conditions. In the event that an “in water survey” notation is assigned and other requirements as stipulated by class rules permit, dry docking required as part of an Intermediate Survey may be carried out “in lieu” thereby achieving a higher utilization for the relevant vessel. As per rules each vessel must dry dock twice within a five year cycle. One drydock must coincide with the special survey while the time distance between two dry docks must not exceed 36 months. We budget 30 days per drydocking per vessel. Actual length will vary based on the condition of each vessel, shipyard schedules and other factors.

The following table lists the dates by which we expect to carry out the next drydockings and special surveys for the vessels in our fleet:

Vessel Name	Drydocking	Special Survey	Classification Society
<i>m/v River Globe</i>	June 2025	August 2027	Class NK
<i>m/v Moon Globe</i>	November 2025	November 2025	Class NK
<i>m/v Galaxy Globe</i>	October 2025	October 2025	Class NK
<i>m/v Diamond Globe</i>	May 2026	May 2028	Lloyds
<i>m/v Power Globe</i>	October 2024	June 2026	Class NK
<i>m/v Orion Globe</i>	March 2025	March 2025	Class NK
<i>m/v GLBS Hero</i>	January 2027	January 2029	Class NK

Following an incident or a scheduled survey, if any defects are found, the classification surveyor will issue a “recommendation” or “condition of class” which must be rectified within the prescribed time limits.

Risk Management and Insurance

General

The operation of any cargo vessel embraces a wide variety of risks, including the following:

- mechanical failure or damage, for example by reason of the seizure of a main engine crankshaft;
- cargo loss, for example arising from hull damage;
- personal injury, for example arising from collision or piracy;
- losses due to piracy, terrorist or war-like action between countries;
- environmental damage, for example arising from marine disasters such as oil spills and other environmental mishaps;
- physical damage to the vessel, for example by reason of collision;
- damage to other property, for example by reason of cargo damage or oil pollution; and
- business interruption, for example arising from strikes and political or regulatory change.

The value of such losses or damages may vary from modest sums, for example for a small cargo shortage damage claim, to catastrophic liabilities, for example arising out of a marine disaster, such as a serious oil or chemical spill, which may be virtually unlimited. While we maintain the traditional range of marine and liability insurance coverage for our fleet (hull and machinery insurance, war risks insurance and protection and indemnity coverage) in amounts and to extents that we believe are prudent to cover normal risks in our operations, we cannot insure against all risks, and we cannot be assured that all covered risks are adequately insured against. Furthermore, there can be no guarantee that any specific claim will be paid by the insurer or that it will always be possible to obtain insurance coverage at reasonable rates. Any uninsured or under-insured loss could harm our business and financial condition.

[Table of Contents](#)

Hull and Machinery and War Risks

The principal coverages for marine risks (covering loss or damage to the vessels, rather than liabilities to third parties) are hull and machinery insurance and war risk insurance. These address the risks of the actual or constructive total loss of a vessel and accidental damage to a vessel's hull and machinery, for example from running aground or colliding with another ship. These insurances provide coverage which is limited to an agreed "insured value" which, as a matter of policy, is never less than the particular vessel's fair market value. Reimbursement of loss under such coverage is subject to policy deductibles that vary according to the nature of the coverage. The hull and machinery deductible is \$100,000 per incident, whereas the collision deductible is \$50,000 per incident. In case that a Particular Average and a Collision Liability Claim arise from the same casualty, the total deductible shall not exceed USD 100,000. The war risk insurance has no deductible for hull and machinery and increased value, however loss of hire is subject to a 7 days deductible.

Protection and Indemnity Insurance

Protection and indemnity insurance is a form of mutual indemnity insurance provided by mutual marine protection and indemnity associations, or "P&I Clubs," formed by vessel owners to provide protection from large financial loss to one club member by contribution towards that loss by all members.

Each of the vessels that we operate is entered in the Gard P&I (Bermuda) Ltd. which we refer to as the Club, for third party liability marine insurance coverage. The Club is a mutual insurance vehicle. As a member of the Club, we are insured, subject to agreed deductibles and our terms of entry, for our legal liabilities and expenses arising out of our interest in an entered ship, out of events occurring during the period of entry of the ship in the Club and in connection with the operation of the ship, against specified risks. These risks include liabilities arising from death of crew and passengers, loss or damage to cargo, collisions, property damage, oil pollution and wreck removal.

The Club benefits from its membership in the International Group of P&I Clubs, or the International Group, for its main reinsurance program, and maintains a separate complementary insurance program for additional risks.

The Club's policy year commences each February. The mutual calls are levied by way of Estimated Total Premiums, or ETP, and the amount of the final installment of the ETP varies in accordance with the actual total premium ultimately required by the Club for a particular policy year. Members have a liability to pay supplementary calls which may be levied by the Club if the ETP is insufficient to cover the Club's outgoings in a policy year.

Cover per claim is generally limited to an unspecified sum, being the amount available from reinsurance plus the maximum amount collectable from members of the International Group by way of overspill calls. Certain exceptions apply, including a \$1.0 billion limit on each incident or occurrence each Owner's Entry on claims in respect of oil pollution, a \$3.0 billion limit each Ship any one event on cover for passengers and seamen/crew combined and a sub-limit of \$2.0 billion for passenger claims each ship and any one event.

To the extent that we experience either a supplementary or an overspill call, our policy is to expense such amounts. To the extent that the Club depends on funds paid in calls from other members in our industry, if there were an industry-wide slow-down, other members might not be able to meet the call and we might not receive a payout in the event we made a claim on a policy.

Uninsured Risks

Not all risks are insured and not all risks are insurable. The principal insurable risk which nevertheless remains uninsured across our fleet is the "loss of hire" due to strikes and/or delays arising from H&M and/or P&I perils. We generally do not insure the risk of loss of hire because we regard the cost as disproportionate. This insurance provides, subject to a deductible, a limited indemnity for hire that is not receivable by the shipowner for reasons set forth in the policy. An example of a "strike and delay insurance policy" would cover the loss of hire on a 10 or 17 days basis for delays arising from H&M perils such as collision, stranding or machinery damage. For a 17 days cover the premium per annum pro rata would be calculated on the 120% of the daily hire.

Delays arising from P&I perils such as illness, injury or saving life at sea, can also be covered by this policy. In the case of loss of hire deriving from P&I perils, the annual premium per vessel for a 17 days cover would be the 25% of the daily hire per annum pro rata however this is not a standalone cover and can only be combined with the aforementioned H&M perils cover.

This kind of a "strike and delay insurance policy" would have an annual aggregate claims limit of USD 1,500,000 per annum pro rata and its purpose would be to secure the hire income during periods described above.

Environmental and Other Regulations

Sources of Applicable Rules and Standards

Shipping is one of the world's most heavily regulated industries, and it is subject to many industry standards. Government regulation significantly affects the ownership and operation of vessels. These regulations consist mainly of rules and standards established by international conventions, but they also include national, state and local laws and regulations in force in jurisdictions where vessels may operate or are registered, and which may be more stringent than international rules and standards. This is the case particularly in the United States and, increasingly, in Europe.

A variety of governmental and private entities subject vessels to both scheduled and unscheduled inspections. These entities include local port authorities (the U.S. Coast Guard, harbor masters or equivalent entities), classification societies, flag state administration (country vessel of registry), port state control, charterers and particularly terminal operators. Certain of these entities require vessel owners to obtain permits, licenses and certificates for the operation of their vessels. Failure to maintain necessary permits or approvals could require a vessel owner to incur substantial costs or temporarily suspend operation of one or more of its vessels.

Heightened levels of environmental and quality concerns among insurance underwriters, regulators and charterers continue to lead to greater inspection and safety requirements on all vessels and may accelerate the scrapping of older vessels throughout the industry. Increasing environmental concerns have created a demand for vessels that conform to stricter environmental standards. Vessel owners are required to maintain operating standards for all vessels that will emphasize operational safety, quality maintenance, continuous training of officers and crews and compliance with U.S. and international regulations. Because laws and regulations are frequently changed and may impose increasingly stricter requirements, we cannot predict the ultimate cost of complying with these requirements, or the impact of these requirements on the resale value or useful lives of our vessels. In addition, a future serious marine incident that causes significant adverse environmental impact could result in additional legislation or regulation that could negatively affect our profitability.

The following is a non-exhaustive overview of certain material conventions, laws and regulations that affect our business and the operation of our vessels. It is not a comprehensive summary of all the conventions, laws and regulations to which we are subject.

The IMO is a United Nations agency setting standards and creating a regulatory framework for the shipping industry and has negotiated and adopted a number of international conventions. These fall into two main categories, consisting firstly of those concerned generally with vessel safety and security standards, and secondly of those specifically concerned with measures to prevent pollution from vessels.

Ship Safety Regulation

A primary international safety convention is the Safety of Life at Sea Convention of 1974, as amended, or SOLAS, including the regulations and codes of practice that form part of its regime. Much of SOLAS is not directly concerned with preventing pollution, but some of its safety provisions are intended to prevent pollution as well as promote safety of life and preservation of property. These regulations have been and continue to be regularly amended as new and higher safety standards are introduced with which we are required to comply.

[Table of Contents](#)

Under Chapter IX of the SOLAS Convention, or the International Safety Management Code for the Safe Operation of Ships and for Pollution Prevention, or the ISM Code, our operations are also subject to environmental standards and requirements. The purpose of the ISM Code is to provide an international standard for the safe management and operation of vessels and for pollution prevention. Under the ISM Code, the party with operational control of a vessel is required to develop, implement and maintain an extensive safety management system that includes, among other things, the adoption of a safety and environmental protection policy setting forth instructions and procedures for operating its vessels safely and protecting the environment and describing procedures for responding to emergencies. The ISM Code requires that vessel operators obtain a Safety Management Certificate for each vessel they operate. This certificate issued after verification that the vessel's operator and its shipboard management operate in accordance with the approved safety management system and evidence that the vessel complies with the requirements of the ISM Code. No vessel can obtain a Safety Management Certificate unless its operator has been awarded a document of compliance, issued by the respective flag state for the vessel, under the ISM Code.

Effective July 1, 2024, amendments to the International Code on the Enhanced Programme of Inspections during Surveys of Bulk Carriers and Oil Tankers, 2011 will become effective, addressing inconsistencies on examination of ballast tanks at annual surveys for bulk carriers and oil tankers.

Amendments to SOLAS chapter II-2, intended to prevent the supply of oil fuel not complying SOLAS flashpoint requirements, requiring that ships carrying oil fuel must, prior to bunkering, be provided with a declaration certifying that the oil fuel supplied is in conformity with regulation SOLAS II.2/4.2.1, will enter into effect January 1, 2026.

Another amendment of SOLAS, made after the terrorist attacks in the United States on September 11, 2001, introduced special measures to enhance maritime security, including the International Ship and Port Facility Security Code, or ISPS Code, which sets out measures for the enhancement of security of vessels and port facilities. To trade internationally, a vessel must attain an International Ship Security Certificate, or ISSC, from a recognized security organization approved by the vessel's flag state.

The vessels that we operate maintain ISM and ISPS certifications for safety and security of operations.

Regulations to Prevent Pollution from Ships

In the second main category of international regulation which deals with prevention of pollution, the primary convention is the International Convention for the Prevention of Pollution from Ships 1973 as amended by the 1978 Protocol, or MARPOL, which is applicable to dry bulk, tanker and LNG carriers, among other vessels, and imposes environmental standards on the shipping industry set out in its Annexes I-VI. These contain regulations for the prevention of pollution by oil (Annex I), by noxious liquid substances in bulk (Annex II), by harmful substances in packaged forms within the scope of the International Maritime Dangerous Goods Code (Annex III), by sewage (Annex IV), by garbage (Annex V) and by air emissions (Annex VI).

These regulations have been and continue to be regularly amended and supplemented as new and higher standards of pollution prevention are introduced with which we are required to comply.

For example, MARPOL Annex VI sets limits on Sulphur Oxides (SO_x) and Nitrogen Oxides (NO_x) and particulate matter emissions from vessel exhausts and prohibits deliberate emissions of ozone depleting substances. It also regulates the emission of volatile organic compounds (VOC) from cargo tankers and certain gas carriers, as well as shipboard incineration of specific substances. Annex VI also includes a global cap on the sulphur content of fuel oil with a lower cap on the sulphur content applicable inside special areas, the "Emission Control Areas" or ECAs. Already established ECAs include the Baltic Sea, the North Sea, including the English Channel, the North American area and the US Caribbean Sea area. Recently the IMO approved a proposal for a new ECA for the Mediterranean Sea as a whole to apply from July 1, 2025 such that the sulphur content of marine fuels does not exceed 0.1%. The global cap on the sulphur content of fuel oil was reduced to 0.5% as of January 1, 2020, regardless of whether a ship is operating outside a designated ECA. From January 1, 2015 the cap on the sulphur content of fuel oil for vessels operating in ECAs has been 0.1%; however ships operating in this ECA will be exempted from compliance with the 0.1% m/m sulfur content standard for fuel oil until July 1, 2025. Additional amendments to Annex VI revising, among other terms, the definition of "Sulphur content of fuel oil" and "low-flashpoint fuel", and pertaining to the sampling and testing of onboard fuel oil, which became effective in 2022. Amendments to Annex VI requiring bunker delivery notes to include a flashpoint of fuel oil or a statement that the flashpoint has been measured at or above 70°C as mandatory information, will become effective May 1, 2024. These regulations subject ocean-going vessels to stringent emissions controls and may cause us to incur substantial costs.

Annex VI also provides for progressive reductions in NO_x emissions from marine diesel engines installed in vessels. Limiting NO_x emissions is set on a three tier reduction, the final tier ("Tier III") applying to engines installed on vessels constructed on or after January 1, 2016 and which operate in the North American ECA or the US Caribbean Sea ECA, and to engines installed on vessels constructed on or after January 1, 2021 and which operate in the Baltic Sea ECA or the North Sea ECA. The Tier III requirements would also apply to engines of vessels operating in other ECAs as may be designated in the future by the IMO's Marine Environment Protection Committee (or MEPC) for Tier III NO_x control. The Tier III requirements do not apply to engines installed on vessels constructed prior to January 1, 2021, if they are of less than 500 gross tons, of 24 meters or over in length, and have been designed and used solely for recreational purposes. We anticipate incurring costs at each stage of implementation on all these areas. Currently we are compliant in all our vessels. Additionally, amendments to Annex II, which strengthen discharge requirements for cargo residues and tank washings in specified sea areas (including North West European waters, Baltic Sea area, Western European waters and Norwegian Sea), came into effect in January 2021.

Greenhouse Gas Emissions

In February 2005, the Kyoto Protocol to the United Nations Framework Convention on Climate Change entered into force. Pursuant to the Kyoto Protocol, adopting countries are required to implement national programs to reduce emissions of certain gases, generally referred to as greenhouse gases, which are suspected of contributing to global warming. Currently, the greenhouse gas emissions from international shipping do not come under the Kyoto Protocol (this task having been delegated to the IMO). In December 2009, more than 27 nations, including the United States, entered into the Copenhagen Accord. The Copenhagen Accord is non-binding, but is intended to pave the way for a comprehensive, international treaty on climate change. On December 12, 2015 the Paris Agreement was adopted by 195 countries. The Paris Agreement deals with greenhouse gas emission reduction measures and targets from 2020 in order to limit the global temperature increases above pre-industrial levels to well below 2° Celsius. Although shipping was ultimately not included in the Paris Agreement, it is expected that the adoption of the Paris Agreement may lead to regulatory changes in relation to curbing greenhouse gas emissions from shipping. The Paris Agreement has been ratified by a large number of countries and entered into force on November 4, 2016. The United States rejoined the Paris Agreement in February 2021.

In July 2011 the IMO adopted regulations imposing technical and operational measures for the reduction of greenhouse gas emissions. These new regulations formed a new chapter in Annex VI of MARPOL and became effective on January 1, 2013. The new technical and operational measures include the “Energy Efficiency Design Index,” which is mandatory for newbuilding vessels, and the “Ship Energy Efficiency Management Plan,” which is mandatory for all vessels. In October 2016 the MEPC adopted updated guidelines for the calculation of the Energy-Efficiency Design Index. In addition, the IMO is evaluating various mandatory measures to reduce greenhouse gas emissions from international shipping, which may include market-based instruments or a carbon tax. In October 2016, the IMO adopted a mandatory data collection system under which vessels of 5,000 gross tonnage and above are to collect fuel consumption data and to report the aggregated data to their flag state at the end of each calendar year. The new requirements entered into force on March 1, 2018. In April 2018, the MEPC adopted an initial strategy on the reduction of greenhouse gas emissions from ships. In July 2023, the IMO adopted the 2023 IMO Strategy on Reduction of GHG Emissions from Ships, which identifies a number of levels of ambition, including (1) decreasing the carbon intensity from ships through implementation of further phases of energy efficiency for new ships; (2) reducing carbon dioxide emissions per transport work, as an average across international shipping, by at least 40% by 2030; and (3) pursuing net-zero GHG emissions by or around 2050. These regulations could cause us to incur additional substantial expenses.

IMO’s MEPC 76 adopted amendments to Annex VI that will require ships to reduce their greenhouse gas emissions; effective January 2023, the Revised MARPOL Annex VI includes requirements for ships to calculate their Energy Efficiency Existing Ship Index, or “EEXI,” following technical means to improve their energy efficiency and to establish their annual operational carbon intensity indicator and rating, or “CII,” and are expected to become effective on May 1, 2024. Beginning in January 2023, MARPOL Annex VI requires EEXI and CII certification. MEPC 76 also adopted guidelines to support implementation of the amendments. The EEXI measures apply to newbuild ships and all existing ships above 400 GT and CII requirements apply to all ships of 5000 GT or above. This means that the first annual reporting was to be completed in 2023, with the first rating awarded in 2024. With respect to the CII, taking effect from January 1, 2023, ships of 5,000 gross tonnage are required to document and verify their actual annual operational CII achieved against a determined required annual operational CII. The CII regulations state that a ship rated D for three consecutive years, or E for one year, will be required to submit a corrective action plan showing how C or above will be achieved.

The EU adopted Regulation (EU) 2015/757 on the monitoring, reporting and verification of carbon dioxide emissions from vessels (or the MRV Regulation), which was published in the Official Journal on May 19, 2015 and entered into force on July 1, 2015 (as amended by Regulation (EU) 2016/2071). The MRV Regulation applies to all vessels over 5,000 gross tonnage (except for a few types, such as, amongst others, warships and fish catching or fish processing vessels), irrespective of flag, in respect of carbon dioxide emissions released during intra-EU voyages and EU incoming and outgoing voyages. The first reporting period commenced on January 1, 2018. The monitoring, reporting and verification system adopted by the MRV Regulation was the precursor to a market-based mechanism to be adopted in the future (see below).

[Table of Contents](#)

Furthermore, the 70th MEPC meeting in October 2016 adopted a mandatory data collection system (DCS) which requires ships above 5,000 gross tonnes to report consumption data for fuel oil, hours under way and distance travelled. Unlike the EU MRV (see below), the IMO DCS covers any maritime activity carried out by ships, including dredging, pipeline laying, ice-breaking, fish-catching and off-shore installations. The system, adopted by resolution MEPC.278(70), entered into force on 1 March 2018. Reporting commenced with the year 2019. The Ship Energy Efficiency Management Plans of all ships covered by the IMO DCS must include a description of the methodology for data collection and reporting. After each calendar year, the aggregated data are reported to the flag state. If the data have been reported in accordance with the requirements, the flag state issues a statement of compliance to the ship. Flag states subsequently transfer this data to an IMO ship fuel oil consumption database, which is part of the Global Integrated Shipping Information System (GISIS) platform. IMO will then produce annual reports, summarising the data collected. Thus, currently, data related to the GHG emissions of ships above 5 000 gross tonnes calling at ports in the European Economic Area (EEA) must be reported in two separate, but largely overlapping, systems: the EU MRV – which applies since 2018 – and the IMO DCS – which applies since 2019. The proposed revision of Regulation (EU) 2015/757 adopted on 4 February 2019 aims to align and facilitate the simultaneous implementation of the two systems.

MEPC 79 adopted amendments to Annex VI on the reporting of mandatory values related to the implementation of the IMO short-term GHG reduction measure, including attained EEXI, CII and rating values to the IMO DCS, which will become effective May 1, 2024. MEPC 80 adopted the 2023 IMO Strategy on Reduction of GHG Emissions from Ships with enhanced targets to mitigate harmful emissions. The revised IMO GHG Strategy comprises a common ambition to ensure an uptake of alternative zero and near-zero GHG fuels by 2030 and to achieve net-zero emissions from international shipping by 2050. MEPC 81 will take place in spring 2024 in which the IMO will decide on the market-based mechanism to reach the emission reduction targets– either through a global emissions trading scheme for shipping or a global carbon levy.

MEPC 77 adopted a non-binding resolution which urges Member States and ship operators to voluntarily use distillate or other cleaner alternative fuels or methods of propulsion that are safe for ships and could contribute to the reduction of black carbon emissions from ships when operating in or near the Arctic.

MEPC 79 adopted amendments to Annex VI on the reporting of mandatory values related to the implementation of the IMO short-term GHG reduction measure, including attained EEXI, CII and rating values to the IMO DCS, which will become effective May 1, 2024. MEPC 80 adopted the 2023 IMO Strategy on Reduction of GHG Emissions from Ships with enhanced targets to mitigate harmful emissions. The revised IMO GHG Strategy comprises a common ambition to ensure an uptake of alternative zero and near-zero GHG fuels by 2030 and to achieve net-zero emissions from international shipping by 2050. MEPC 81 will take place in spring 2024 in which the IMO will decide on the market-based mechanism to reach the emission reduction targets– either through a global emissions trading scheme for shipping or a global carbon levy.

In the United States, the U.S. Environmental Protection Agency, or EPA, issued an “endangerment finding” regarding greenhouse gases under the Clean Air Act. While this finding in itself does not impose any requirements on our industry, it authorizes the EPA to regulate directly greenhouse gas emissions through a rule-making process. Any passage of new climate control legislation or other regulatory initiatives by the IMO, EU, the United States or other countries or states where we operate that restrict emissions of greenhouse gases could have a significant financial and operational impact on our business through increased compliance costs or additional operational restrictions that we cannot predict with certainty at this time.

Anti-Fouling Requirements

In 2001, the IMO adopted the International Convention on the Control of Harmful Anti-fouling Systems on Ships, or the Anti-fouling Convention. The Anti-fouling Convention, which entered into force in September 2008, prohibits and/or restricts the use of organotin compound coatings to prevent the attachment of mollusks and other sea life to the hulls of vessels. Vessels of over 400 gross tons engaged in international voyages must obtain an International Anti-Fouling System Certificate and undergo a survey before the vessel is put into service or before the Anti-fouling System Certificate is issued for the first time and when the anti-fouling systems are altered or replaced. In 2023, amendments to the Anti-fouling Convention came into effect and will include controls on the biocide cybutryne; ships shall not apply or re-apply anti-fouling systems containing this substance from January 1, 2023. MEPC 76 adopted amendments to the Anti-fouling Convention to include controls on the biocide cybutryne; ships shall not apply or re-apply anti-fouling systems containing that substance starting January 1, 2023. The amendments require ships to remove this substance, or apply a coating to anti-fouling systems with this substance, at the next scheduled renewal of the anti-fouling system after January 1, 2023.

Other International Regulations to Prevent Pollution

In addition to MARPOL, other more specialized international instruments have been adopted to prevent different types of pollution or environmental harm from vessels.

In February 2004, the IMO adopted an International Convention for the Control and Management of Ships' Ballast Water and Sediments, or the BWM Convention. The BWM Convention, which entered into force globally on September 8, 2017, aims to prevent the spread of harmful aquatic organisms from one region to another, by establishing standards and procedures for the management and control of vessels' ballast water and sediments. The BWM Convention's implementing regulations require vessels to conduct ballast water management in accordance with the standards set out in the convention, which include performance of ballast water exchange in accordance with the requirements set out in the relevant regulation and the gradual phasing in of a ballast water performance standard which requires ballast water treatment and the installation of ballast water treatment systems on board the vessels. Under the BWM Convention, vessels are required to implement a Ballast Water and Sediments Management Plan, carry a Ballast Water Record Book and an International Ballast Water Management Certificate. Pursuant to the BWM Convention, ballast water management systems ("BWMSs") installed on or after October 28, 2020 shall be approved in accordance with BWMS Code, while BWMSs installed before October 23, 2020 must be approved taking into account guidelines developed by the IMO or the BWMS Code. Additionally, many countries already regulate the discharge of ballast water carried by vessels from country to country to prevent the introduction of invasive and harmful species via such discharges. The U.S., for example, requires vessels entering its waters from another country to conduct mid-ocean ballast exchange, or undertake some alternate measure, and to comply with certain reporting requirements. Ships sailing in U.S. waters are required to employ a type-approved BWMS which is compliant with USCG regulations. The U.S. Coast Guard has approved a number of BWMS. Amendments to the BWM Convention concerning commissioning testing of BWMS became effective in June 2022.

The Hong Kong International Convention for the Safe and Environmentally Sound Recycling of Ships adopted by the IMO in 2009, or the Recycling Convention, deals with issues relating to ship recycling and aims to address the occupational health and safety, as well as environmental risks relating to ship recycling. It contains regulations regarding the design, construction, operation, maintenance and recycling of vessels, as well as regarding their survey and certification to verify compliance with the requirements of the Recycling Convention. The Recycling Convention, amongst other things, prohibits and/or restricts the installation or use of hazardous materials on vessels and requires vessels to have on board an inventory of hazardous materials specific to each vessel. It also requires ship recycling facilities to develop a ship-recycling plan for each vessel prior to its recycling. Parties to the Recycling Convention are to ensure that ship-recycling facilities are designed, constructed and operated in a safe and environmentally sound manner and that they are authorized by competent authorities after verification of compliance with the requirements of the Recycling Convention. The Recycling Convention (which is not effective yet) is to enter into force 24 months after a specified minimum number of states with a combined gross tonnage and maximum annual recycling volume during the preceding 10 years have ratified it.

A MARPOL regulation and the International Convention on Oil Pollution Preparedness, Response and Co-operation, 1990 also require owners and operators of vessels to adopt Shipboard Oil Pollution Emergency Plans. Another MARPOL regulation sets out similar requirements for the adoption of shipboard marine pollution emergency plans for noxious liquid substances with respect to vessels carrying such substances in bulk. Periodic training and drills for response personnel and for vessels and their crews are required.

European Union Regulations

European regulations in the maritime sector are in general based on international law most of which were promulgated by the IMO and then adopted by the Member States. However, since the *Erika* incident in 1999, when the *Erika* broke in two off the coast of France while carrying heavy fuel oil, the European Union (or EU) has become increasingly active in the field of regulation of maritime safety and protection of the environment. It has been the driving force behind a number of amendments of MARPOL (including, for example, changes to accelerate the timetable for the phase-out of single hull tankers, and prohibiting the carriage in such tankers of heavy grades of oil), and if dissatisfied either with the extent of such amendments or with the timetable for their introduction it has been prepared to legislate on a unilateral basis. In some instances where it has done so, international regulations have subsequently been amended to the same level of stringency as that introduced in the EU, but the risk is well established that EU regulations (and other jurisdictions) may from time to time impose burdens and costs on shipowners and operators which are additional to those involved in complying with international rules and standards.

[Table of Contents](#)

In some areas of regulation the EU has introduced new laws without attempting to procure a corresponding amendment of international law. Notably, it adopted in 2005 a directive on ship-source pollution (which was amended in 2009), imposing criminal sanctions for discharges of oil and other noxious substances from vessels sailing in its waters, irrespective of their flag not only where such pollution is caused by intent or recklessness (which would be an offense under MARPOL), but also where it is caused by “serious negligence.” The directive could therefore result in criminal liability being incurred in circumstances where it would not be incurred under international law. Experience has shown that in the emotive atmosphere often associated with pollution incidents, retributive attitudes towards vessel interests have found expression in negligence being alleged by prosecutors and found by courts on grounds which the international maritime community has found hard to understand. Moreover, there is skepticism that the notion of “serious negligence” is likely to prove any narrower in practice than ordinary negligence. Criminal liability for a pollution incident could not only result in us incurring substantial penalties or fines but may also, in some jurisdictions, facilitate civil liability claims for greater compensation than would otherwise have been payable.

The EU has also adopted legislation (Directive 2009/16/EC on Port State Control, as subsequently amended) which requires the Member States to refuse access to their ports to certain sub-standard vessels according to various factors, such as the vessel’s condition, flag and number of previous detentions within certain preceding periods; creates obligations on the part of EU member port states to inspect minimum percentages of vessels using their ports annually; and provides for increased surveillance of vessels posing a high risk to maritime safety or the marine environment. If deficiencies are found that are clearly hazardous to safety, health or the environment, the state is required to detain the vessel or stop loading or unloading until the deficiencies are addressed. Member states are also required to implement their own separate systems of proportionate penalties for breaches of these standards.

Commission Regulation (EU) No 802/2010, which was adopted by the European Commission in September 2010, as part of the implementation of the Port State Control Directive and came into force on January 1, 2011, as subsequently amended by Regulation 1205/2012 of December 14, 2012, introduced a ranking system (published on a public website and updated daily) displaying shipping companies operating in the EU with the worst safety records. The ranking is judged upon the results of the technical inspections carried out on the vessels owned by a particular shipping company. Those shipping companies that have the most positive safety records are rewarded by being subjected to fewer inspections, whilst those with the most safety shortcomings or technical failings recorded upon inspection are to be subjected to a greater frequency of official inspections of their vessels.

By Directive 2009/15/EC of April 23, 2009 (on common rules and standards for ship inspection and survey organizations and for the relevant activities of maritime administrations) as amended by Directive 2014/111/EU of December 17, 2014, the European Union has established measures to be followed by the Member States for the exercise of authority and control over classification societies, including the ability to seek to suspend or revoke the authority of classification societies that are negligent in their duties.

The EU has also adopted legislation requiring the use of low sulphur fuel. Under Council Directive 1999/32/EC as subsequently amended, from January 1, 2015, vessels have been required to burn fuel with a sulphur content not exceeding 0.1% while within EU member states’ territorial seas, exclusive economic zones and pollution control zones falling within sulphur oxide (SO_x) Emission Control Areas (or SECAs), such as the Baltic Sea and the North Sea, including the English Channel. Further sea areas may be designated as SECAs in the future by the IMO in accordance with MARPOL Annex VI. Directive 1999/32/EC was repealed and codified by 2016/802/EU to align with the revised Annex VI.

Regulation (EU) 2015/757 of the European Parliament and of the Council of 29 April 2015 (amended by Regulation (EU) 2016/2071 with respect to methods of calculating, inter alia, emission and consumption) governs the monitoring, reporting and verification of carbon dioxide emissions from maritime transport, and, subject to some exclusions, requires companies with ships over 5,000 gross tonnage to monitor and report carbon dioxide emissions annually, which may cause us to incur additional expenses. As of January 2019, large ships calling at EU ports have been required to collect and publish data on carbon dioxide emissions and other information. The system entered into force on 1 March 2018.

July 2020 saw the European Parliament’s Committee on Environment, Public Health and Food Safety vote in favor of the inclusion of vessels of 5000 gross tons and above in the EU Emissions Trading System (in addition to voting for a revision to the monitoring, reporting and verification of CO₂ emissions). In April 2023, the European Parliament adopted the proposal from the European Commission to amend the regulation on monitoring carbon dioxide emissions from maritime transport.

On July 14, 2021, the European Commission published a package of draft proposals as part of its ‘Fit for 55’ environmental legislative agenda and as part of the wider EU Green Deal growth strategy. There are two key initiatives relevant to maritime arising from the Proposals: (a) a bespoke emissions trading scheme for maritime (Maritime ETS) which is due to commence in 2024 and which is to apply to all ships above a gross tonnage of 5000; and (b) a FuelEU draft regulation which seeks to require all ships above a gross tonnage of 5000 to carry on board a ‘FuelEU certificate of compliance’ from 30 June 2025 as evidence of compliance with the limits on the greenhouse gas intensity of the energy used on-board by a ship and with the requirements on the use of on-shore power supply (OPS) at berth. More specifically, Maritime ETS is to apply gradually over the period from 2024-2026. The cap under the ETS would be set by taking into account EU MRV system emissions data for the years 2018 and 2019, adjusted, from year 2021 and is to capture 100% of the emissions from intra-EU maritime voyages; 100% of emissions from ships at berth in EU ports; and 50% of emissions from voyages which start or end at EU ports (but the other destination is outside the EU). More recent proposed amendments signal that 100% of non-EU emissions may be caught if the IMO does not introduce a global market-based measure by 2028. Furthermore, the proposals envisage that all maritime allowances would be auctioned and there will be no free allocation. From a risk management perspective, new systems, personnel, data management systems, costs recovery mechanisms, revised service agreement terms and emissions reporting procedures may have to be put in place, which may be at a significant cost, to prepare for and manage the administrative aspect of ETS compliance. FuelEU was passed into law on July 25, 2023 and will apply from January 1, 2025.

Concerned at the lack of progress in satisfying the conditions needed to bring the Hong Kong Convention into force, the EU published its own Ship Recycling Regulation 1257/2013 (SRR) in 2013, with a view to facilitating early ratification of the Hong Kong Convention both within the EU and in other countries outside the EU. The 2013 regulations are vital to responsible ship recycling in the EU. The SRR Regulation applies to vessels flying the flag of a Member State and certain of its provisions apply to vessels flying the flag of a third country calling at a port or anchorage of a Member State. For example, when calling at a port or anchorage of a Member State, the vessels flying the flag of a third country will be required, amongst other things, to have on board an inventory of hazardous materials which complies with the requirements of the Regulation and to be able to submit to the relevant authorities of that Member State a copy of a statement of compliance issued by the relevant authorities of the country of their flag and verifying the inventory. Pursuant to the Regulation, the EU Commission publishes from time to time a European List of approved ship recycling facilities meeting the requirements of the Regulation. On November 11, 2020 the EU Commission published an implementing decision which included an updated version of the European List. Furthermore, the SRR requires that, from 31 December 2020, all existing ships sailing under the flag of EU member states and non-EU flagged ships calling at an EU port or anchorage must carry on-board an Inventory of Hazardous Materials (IHM) with a certificate or statement of compliance, as appropriate. For EU-flagged vessels, a certificate (either an Inventory Certificate or Ready for Recycling Certificate) will be necessary, while non-EU flagged vessels will need a Statement of Compliance. Now that the HKC has been ratified and will enter into force on June 26, 2025, it is expected that the EU Ship Recycling Regulation will be reviewed in light of this.

Compliance Enforcement

The flag state, as defined by the United Nations Convention on the Law of the Sea, has overall responsibility for the implementation and enforcement of international maritime regulations for all vessels granted the right to fly its flag. The “Shipping Industry Guidelines on Flag State Performance” issued by the International Chamber of Shipping in cooperation with other international shipping associations evaluates flag states based on factors such as port state control record, ratification of major international maritime treaties, use of recognized organizations conducting survey work on their behalf which comply with the IMO guidelines, age of fleet, compliance with reporting requirements and participation at IMO meetings. The vessels that we operate are flagged in the Marshall Islands. Marshall Islands-flagged vessels have historically received a good assessment in the shipping industry.

Noncompliance with the ISM Code or other IMO regulations may subject the shipowner or bareboat charterer to increased liability and, if the implementing legislation so provides, to criminal sanctions, may lead to decreases in available insurance coverage for affected vessels or may invalidate or result in the loss of existing insurance cover and may result in the denial of access to, or detention in, some ports. The U.S. Coast Guard and European Union authorities have, for example, indicated that vessels not in compliance with the ISM Code will be prohibited from trading in U.S. and European Union ports, respectively. As of the date of this annual report on Form 20-F, each of our vessels is ISM Code certified. However, there can be no assurance that such certificate will be maintained.

The IMO, the EU and other regulatory authorities continue to review and introduce new regulations. It is impossible to predict what additional regulations, if any, may be passed by the IMO, the EU and/or other regulatory authorities and what effect, if any, such regulations may have on our operations.

European Mandatory Non-Financial Reporting Regulations

On November 28, 2022, the EU Parliament adopted the Corporate Sustainability Reporting Directive (“CSRD”). EU member states have 18 months from this date (by July 6, 2024) to integrate it into national law. The CSRD will create new, detailed sustainability reporting requirements and will significantly expand the number of EU and non-EU companies subject to the EU sustainability reporting framework. The required disclosures will go beyond environmental and climate change reporting to include social and governance matters (for example, respect for employee and human rights, anti-corruption and bribery, corporate governance and diversity and inclusion). In addition, it will require disclosure regarding the due diligence processes implemented by a company in relation to sustainability matters and the actual and potential adverse sustainability impacts of an in-scope company’s operations and value chain. The CSRD will begin to apply on a phased basis starting from financial year 2024 through to 2028, applicable to large EU and non-EU undertakings with substantial presence in the EU, subject to certain financial and employee thresholds being met. New systems, personnel, data management systems and reporting procedures will have to be put in place, at significant cost, to prepare for and manage the administrative aspect of CSRD compliance.

United States Environmental Regulations and Laws Governing Civil Liability for Pollution

Environmental legislation in the United States merits particular mention as it is in many respects more onerous than international laws, representing a high-water mark of regulation with which shipowners and operators must comply, and of liability likely to be incurred in the event of non-compliance or an incident causing pollution.

U.S. federal legislation, including notably the OPA, establishes an extensive regulatory and liability regime for the protection and cleanup of the environment from oil spills, including bunker oil spills from dry bulk vessels as well as cargo or bunker oil spills from tankers. The OPA affects all owners and operators whose vessels trade in the United States, its territories and possessions or whose vessels operate in United States waters, which includes the United States' territorial sea and its 200 nautical mile exclusive economic zone. Under OPA, vessel owners, operators and bareboat charterers are "responsible parties" and are jointly, severally and strictly liable without regard to fault (unless the spill results solely from the act or omission of a third party, an act of God or an act of war) for all containment and clean-up costs and other damages arising from discharges or substantial threats of discharges of oil from their vessels. The OPA expressly allows the individual states of the United States to impose their own liability regimes for the discharge of petroleum products. In addition to potential liability under the OPA as the relevant federal legislation, vessel owners may in some instances incur liability on an even more stringent basis under state law in the particular state where the spillage occurred.

The OPA requires the owner or operator of any non-tank vessel of 400 gross tons or more that carries oil of any kind as a fuel for main propulsion, including bunkers, to prepare and submit a response plan for each vessel. The vessel response plans must include detailed information on actions to be taken by vessel personnel to prevent or mitigate any discharge or substantial threat of such a discharge of oil from the vessel.

The OPA contains statutory caps on liability and damages; such caps do not apply to direct clean-up costs. On December 23, 2022, the USCG adjusted the limits of OPA liability for a non-tank vessel, to the greater of \$1,300 per gross ton or \$1,076,000 (subject to periodic adjustment for inflation). However, these limits of liability do not apply if an incident was proximately caused by violation of applicable United States federal safety, construction or operating regulations or by a responsible party's gross negligence or willful misconduct, or if the responsible party fails or refuses to report the incident or to cooperate and assist in connection with oil removal activities.

In addition, the Comprehensive Environmental Response, Compensation, and Liability Act, or CERCLA, which applies to the discharge of hazardous substances (other than oil) whether on land or at sea, contains a similar liability regime and provides for cleanup, removal and natural resource damages. Liability under CERCLA is limited to the greater of \$300 per gross ton or \$0.5 million for vessels not carrying hazardous substances as cargo or residue (or the greater of \$300 per gross ton or \$5.0 million for vessels carrying hazardous substances) unless the incident is caused by gross negligence, willful misconduct or a violation of certain regulations, in which case liability is unlimited.

We maintain, for each of our vessels, protection and indemnity coverage against pollution liability risks in the amount of \$1.0 billion per event. This insurance coverage is subject to exclusions, deductibles and other terms and conditions. If any liabilities or expenses fall within an exclusion from coverage, or if damages from a catastrophic incident exceed the \$1.0 billion limitation of coverage per event, our cash flow, profitability and financial position could be adversely impacted.

We believe our insurance and protection and indemnity coverage as described above meets the requirements of the OPA.

The OPA requires owners and operators of all vessels over 300 gross tons, even those that do not carry petroleum or hazardous substances as cargo, to establish and maintain with the U.S. Coast Guard evidence of financial responsibility sufficient to meet their potential liabilities under the OPA. Under the regulations, vessel owners and operators may evidence their financial responsibility by showing proof of insurance, surety bond, self-insurance or guaranty.

Under the OPA, an owner or operator of a fleet of vessels is required only to demonstrate evidence of financial responsibility in an amount sufficient to cover the vessel in the fleet having the greatest limited liability under the OPA.

[Table of Contents](#)

The U.S. Coast Guard's regulations concerning certificates of financial responsibility provide, in accordance with the OPA, that claimants may bring suit directly against an insurer or guarantor that furnishes the guaranty that supports the certificates of financial responsibility. In the event that such insurer or guarantor is sued directly, it is prohibited from asserting any contractual defense that it may have had against the responsible party and is limited to asserting those defenses available to the responsible party and the defense that the incident was caused by the willful misconduct of the responsible party.

The OPA specifically permits individual states to impose their own liability regimes with regard to oil pollution incidents occurring within their boundaries, and some states have enacted legislation providing for unlimited liability for oil spills. In some cases, states that have enacted such legislation have not yet issued implementing regulations defining vessels owners' responsibilities under these laws. We intend to comply with all applicable state regulations in the ports where our vessels call.

The United States Clean Water Act, or CWA, prohibits the discharge of oil or hazardous substances in U.S. navigable waters and imposes strict liability in the form of penalties for unauthorized discharges. The CWA also imposes substantial liability for the costs of removal, remediation and damages and complements the remedies available under CERCLA. In 2015, the EPA expanded the definition of "waters of the United States," or WOTUS, thereby expanding federal authority under the CWA. On December 30, 2022, the EPA and U.S. Army Corps of Engineers announced the final revised WOTUS rule, which was published on January 18, 2023. In August 2023, the EPA and Department of the Army issued a final rule to amend the revised WOTUS definition to conform the definition of WOTUS to the U.S. Supreme Court's interpretation of the Clean Water Act in its decision dated May 25, 2023. The final rule became effective September 8, 2023 and operates to limit the Clean Water Act.

The EPA enacted rules governing the regulation of ballast water discharges and other discharges incidental to the normal operation of vessels within U.S. waters. Under the rules, commercial vessels 79 feet in length or longer (other than commercial fishing vessels), or Regulated Vessels, are required to obtain a CWA permit regulating and authorizing such normal discharges. This permit, which the EPA had designated as the Vessel General Permit for Discharges Incidental to the Normal Operation of Vessels, or VGP, incorporated the then current U.S. Coast Guard requirements for ballast water management as well as supplemental ballast water requirements, including limits applicable to specific discharge streams, such as deck runoff, bilge water and gray water. Several U.S. states have added specific requirements to the VGP, including submission of a Notice of Intent, or NOI, or retention of a PARI form and submission of annual reports. The Vessel Incidental Discharge Act (or VIDA) was signed into law on December 4, 2018, and establishes a new framework for the regulation of vessel incidental discharges under the CWA. On October 26, 2020, the EPA published a Notice of Proposed Rulemaking for Vessel Incidental Discharge National Standards of Performance under VIDA, and in November 2020, held virtual public meetings. On October 18, 2023, the EPA published a Supplemental Notice to the Vessel Incidental Discharge National Standards of Performance, which shares new ballast water information that the EPA received from the USCG. Comments to the Supplemental Notice were due by December 18, 2023. Under VIDA, all provisions of the VGP 2018 and the USCG ballast water regulations remain in force and effect as currently written until the EPA publishes standard. The new regulations could require the installation of new equipment.

Vessels that are constructed after December 1, 2013, are subject to the ballast water numeric effluent limitations. Several U.S. states, including California, have added specific requirements to the VGP and, in some cases, may require vessels to install ballast water treatment technology to meet biological performance standards.

Security Regulations

Since the terrorist attacks of September 11, 2001, there have been a variety of initiatives intended to enhance vessel security. In November 2002, the MTSA came into effect. To implement certain portions of the MTSA, in July 2003, the U.S. Coast Guard issued regulations requiring the implementation of certain security requirements aboard vessels operating in waters subject to the jurisdiction of the United States. Similarly, in December 2002, amendments to SOLAS created a new chapter of the convention dealing specifically with maritime security. The chapter imposes various detailed security obligations on vessels and port authorities, most of which are contained in the newly created ISPS Code. Among the various requirements are:

- on-board installation of automatic information systems to enhance vessel-to-vessel and vessel-to-shore communications;
- on-board installation of ship security alert systems;
- the development of vessel security plans; and
- compliance with flag state security certification requirements.

The U.S. Coast Guard regulations, intended to be aligned with international maritime security standards, exempt non-U.S. vessels from MTSA vessel security measures, provided such vessels have on board a valid International Ship Security Certificate that attests to the vessel's compliance with SOLAS security requirements and the ISPS Code. The vessels in our fleet that we operate have on board valid International Ship Security Certificates and, therefore, will comply with the requirements of the MTSA.

International Laws Governing Civil Liability to Pay Compensation or Damages

Although the United States is not a party to the International Convention on Civil Liability for Oil Pollution Damage of 1969, as amended by the 1992 Protocol and further amended in 2000, or the CLC (which has been adopted by the IMO and sets out a liability regime in relation to oil pollution damage), many countries are parties and have ratified either the original CLC or its 1992 Protocol. Under the CLC, a vessel's registered owner is strictly liable for pollution damage caused in the territorial waters or, under the 1992 Protocol, in the exclusive economic zone or equivalent area, of a contracting state by discharge of persistent oil, subject to certain defenses and subject to the right to limit liability. The original CLC applies to vessels carrying oil as cargo and not in ballast, whereas the CLC as amended by the 1992 Protocol applies to tanker vessels and combination carriers (i.e., vessels which sometimes carry oil in bulk and sometimes other cargoes) but only when the latter carry oil in bulk as cargo and during any voyage following such carriage (to the extent they have oil residues on board). Vessels trading with states that are parties to these conventions must provide evidence of insurance covering the liability of the owner. In jurisdictions where the CLC has not been adopted, various legislative schemes or common law govern, and liability is imposed either on the basis of fault or in a manner similar to that of the convention. We believe that our protection and indemnity insurance will cover the liability under the regime adopted by the IMO.

The CLC is supplemented by the International Convention on the Establishment of an International Fund for Compensation for Oil Pollution Damage 1971, as amended (or the Fund Convention). The purpose of the Fund Convention was the creation of a supplementary compensation fund (the International Oil Pollution Compensation Fund, or IOPC Fund) which provides additional compensation to victims of a pollution incident who are unable to obtain adequate or any compensation under the CLC.

In 2001, the IMO adopted the International Convention on Civil Liability for Bunker Oil Pollution Damage, or the Bunker Convention, which covers liability and compensation for pollution damage caused in the territorial waters or the exclusive economic zone or equivalent area of ratifying states by discharges of "bunker oil." The Bunker Convention defines "bunker oil" as "any hydrocarbon mineral oil, including lubricating oil, used or intended to be used for the operation or propulsion of the ship, and any residues of such oil." The Bunker Convention imposes strict liability (subject to certain defenses) on the shipowner (which term includes the registered owner, bareboat charterer, manager and operator of the vessel). It also requires registered owners of vessels over a certain size to maintain insurance for pollution damage in an amount equal to the limits of liability under the applicable national or international limitation regime (but not exceeding the amount calculated in accordance with the Convention on Limitation of Liability for Maritime Claims of 1976, as amended by the 1996 Protocol to it, or the 1976 Convention). The Bunker Convention entered into force in November 2008. In other jurisdictions, liability for spills or releases of oil from vessels' bunkers continues to be determined by the national or other domestic laws in the jurisdiction where the events or damages occur.

The IMO's International Convention on Liability and Compensation for Damage in Connection with the Carriage of Hazardous and Noxious Substances by Sea 1996, as superseded by the 2010 Protocol, or the HNS Convention, sets out a liability regime for loss or damage caused by hazardous or noxious substances carried on board a vessel. These substances are listed in the convention itself or defined by reference to lists of substances included in various IMO conventions and codes. The HNS Convention covers loss or damage by contamination to the environment, costs of preventive measures and further damage caused by such measures, loss or damage to property outside the ship and loss of life or personal injury caused by such substances on board or outside the ship. It imposes strict liability (subject to certain defenses) on the registered owner of the vessel and provides for limitation of liability and compulsory insurance. The owner's right to limit liability is lost if it is proved that the damage resulted from the owner's personal act or omission, committed with the intent to cause such damage, or recklessly and with knowledge that such damage would probably result. The HNS Convention has not entered into force yet.

[Table of Contents](#)

Outside the United States, national laws generally provide for the owner to bear strict liability for pollution, subject to a right to limit liability under applicable national or international regimes for limitation of liability. The most widely applicable international regime limiting maritime pollution liability is the 1976 Convention. However, claims for oil pollution damage within the meaning of the CLC or any Protocol or amendment to it are expressly excepted from the limitation regime set out in the 1976 Convention. Rights to limit liability under the 1976 Convention are forfeited where it is proved that the loss resulted from the shipowner's personal act or omissions, committed with the intent to cause such loss, or recklessly and with knowledge that such loss would probably result. Some states have ratified the 1996 Protocol to the 1976 Convention, which provides for liability limits substantially higher than those set forth in the original 1976 Convention to apply in such states. Finally, some jurisdictions are not a party to either the 1976 Convention or the 1996 Protocol, and some are parties to other earlier limitation of liability conventions and, therefore, shipowners' rights to limit liability for maritime pollution in such jurisdictions may be different or uncertain.

The Maritime Labour Convention

The International Labour Organization's Maritime Labour Convention was adopted in 2006 ("MLC 2006"). The basic aims of the MLC 2006 are to ensure comprehensive worldwide protection of the rights of seafarers and to establish a level playing field for countries and ship owners committed to providing decent working and living conditions for seafarers, protecting them from unfair competition on the part of substandard ships. The Convention was ratified on August 20, 2012, and all our vessels have been certified, as required. The MLC 2006 requirements have not had a material effect on our operations.

C. Organizational Structure

Globus Maritime Limited is a holding company. As of the date of this annual report, Globus wholly owns 12 operational subsidiaries, all of which are Marshall Islands corporations seven of our operational subsidiaries each own one vessel, four of our operational subsidiaries each are a counterparty to a ship building contract (one of which is also the counterparty to the bareboat charterer under a sale and leaseback) and one of our operational subsidiaries is our Manager and does not own any vessels. Our Manager provides the technical and day-to-day commercial management of our fleet and our financial reporting. Our Manager provides consultancy services to an affiliated ship management company. Our Manager maintains ship management agreements with each of our vessel-owning or bareboat chartering subsidiaries. In addition, four additional Marshall Islands subsidiaries have each entered into a shipbuilding contract for the construction of a new vessel. See "Item 4.A. History and Development of the Company." We also own a number of entities that used to own our ships that we sold. Those subsidiaries are formed in the Marshall Islands and Malta.

D. Property, Plants and Equipment

In 2016 our Manager entered into a rental agreement for 350 square meters of office space for our operations within a building owned by Cyberonica S.A., a related party to us at a monthly rate of €10,360 with a lease period ending January 2, 2025. However, in August 2021, our Manager entered into a new rental agreement for 902 square metres of office space for its operations within a building owned by Cyberonica S.A. (a company controlled by our chairman of the board) at a monthly rate of €26,000 with a lease period ending August 2024, and the 2016 rental agreement was terminated. In June 2022, we entered into a new rental agreement with F.G. Europe (an affiliate of our chairman) for the same office space, at the same rate of Euro 26,000 and with the same lease period ending of August 4, 2024. The previous rental agreement with Cyberonica was terminated. We do not presently own any real estate. As of December 31, 2023, we did not owe any amount of back rent to F.G. Europe.

As of December 31, 2023 and 2022 our fleet consisted of six and nine vessels, respectively, with an aggregate carrying value of \$100.6 and \$129.5 million, respectively.

A. Operating Results

Overview and History

We are an integrated dry bulk shipping company, which began operations in September 2006, providing marine transportation services on a worldwide basis. We own, operate and manage a fleet of dry bulk vessels that transport iron ore, coal, grain, steel products, cement, alumina and other dry bulk cargoes internationally. Following the conclusion of our initial public offering on June 1, 2007, our common shares were listed on the AIM under the ticker “GLBS.L.” On November 24, 2010, we redomiciled into the Marshall Islands pursuant to the BCA and a resale registration statement for our common shares was declared effective by the SEC. Once the resale registration statement was declared effective by the SEC, our common shares began trading on the Nasdaq Global Market under the ticker “GLBS.” We delisted our common shares from the AIM on November 26, 2010.

[Table of Contents](#)

On April 11, 2016 our common shares began trading on the Nasdaq Capital Market and ceased trading on the Nasdaq Global Market, without a change in our ticker.

On July 29, 2010, we effected a 1-4 reverse stock split, with our issued share capital resulting in 7,240,852 common shares of \$0.004 each. On October 20, 2016, we effected a 1-4 reverse stock split which reduced the number of outstanding common shares from 10,510,741 to 2,627,674 shares (adjustments were made based on fractional shares). (These figures do not reflect the 1-10 reverse stock split which occurred in October 2018 or the 1-100 reverse stock split occurred in October 2020.) On October 15, 2018, we effected a 1-10 reverse stock split which reduced the number of outstanding common shares from 32,065,077 to 3,206,495 shares (adjustments were made based on fractional shares). (These figures do not reflect the 1-100 reverse stock split occurred in October 2020.)

In November 2018, we entered into a credit facility for up to \$15 million with Firment Shipping Inc., a related party to us, for the purpose of financing our general working capital needs, which facility was amended and restated on May 8, 2020. The Firment Shipping Credit Facility was unsecured and remained available until its final maturity date at October 31, 2021, as amended. We have the right to drawdown any amount up to \$15 million or prepay any amount in multiples of \$100,000. Any prepaid amount cannot be re-borrowed. Interest on drawn and outstanding amounts is charged at 3.5% per annum until December 31, 2020, and thereafter at 7% per annum. No commitment fee is charged on the amounts remaining available and undrawn. Interest is payable the last day of a period of three months after the drawdown date, after this period in case of failure to pay any sum due a default interest of 2% per annum above the regular interest is charged. We have also the right, in our sole option, to convert in whole or in part the outstanding unpaid principal amount and accrued but unpaid interest under this Agreement into common shares. The conversion price shall equal the higher of (i) the average of the daily dollar volume-weighted average sale price for the common shares on the Principal Market on any trading day during the period beginning at 9.30 a.m. New York City time and ending at 4.00 p.m. over the Pricing Period multiplied by 80%, where the "Pricing Period" equals the ten consecutive trading days immediately preceding the date on which the conversion notice was executed or (ii) \$280.00. The outstanding amount under the Firment Shipping Credit Facility was fully repaid on July 27, 2020. This facility expired on its terms on October 31, 2021.

On April 23, 2019, the Company converted the outstanding principal amount of \$3.1 million plus the accrued interest of \$0.1 million with a conversion price of \$2.80 per share and issued 1,132,191 new common shares on behalf of Firment Shipping Inc. in accordance with the provisions of the Firment Shipping Credit Facility. This conversion resulted in a gain of \$0.1 million. As of December 31, 2020, \$14.2 million was available to be drawn under the Firment Shipping Credit Facility. (These figures do not reflect the 1-100 reverse stock split occurred in October 2020.)

On June 22, 2020, we completed a public offering of 342,857 units of the Company. Each unit consisted of one common share and one Class A Warrant to purchase one common share (a "Class A Warrant"), for \$35 per unit. At the time of the closing, the underwriters exercised and closed a part of their over-allotment option, and purchased an additional 51,393 common shares and Class A Warrants to purchase 51,393 common shares.

The exercise price of the Class A Warrants is \$35 per whole share at any time after their original issuance up to the date that is five years after their original issuance. If a registration statement registering the issuance of the common shares underlying the warrants under the Securities Act is not effective or available, the holder may, in its sole discretion, elect to exercise the warrant through a cashless exercise, in which case the holder would receive upon such exercise the net number of common shares determined according to the formula set forth in the warrant. We may be required to pay certain amounts as liquidated damages as specified in the warrants in the event it does not deliver common shares upon exercise of the warrants within the time periods specified in the warrants.

On June 30, 2020, we issued 458,500 of our common shares in a registered direct offering and 458,500 of our June PP Warrants in a concurrent private placement for a purchase price of \$27 per common share and June PP Warrant. No June PP Warrants have been exercised as of the date hereof, and may be exercised at any time prior to 5:00 PM New York time on December 30, 2025. The exercise price of each June PP Warrant was originally \$30 per share, but in July 2020 was reduced to \$18 per share.

On July 21, 2020, we issued 833,333 of our common shares in a registered direct offering and 833,333 of our July PP Warrants to purchase common shares in a concurrent private placement for a purchase price of \$18 per common share and July PP Warrant. No July PP Warrants have been exercised as of the date hereof, and may be exercised at any time prior to 5:00 PM New York time on January 21, 2026. The exercise price of each July PP Warrant is \$18 per share.

The pre-funded warrants have all been exercised. No December 2020 Warrants have been exercised as of the date hereof, and may be exercised at any time prior to 5:00 PM New York time on June 9, 2026. On January 29, 2021, we issued (a) 2,155,000 common shares, (b) pre-funded warrants to purchase 445,000 common shares, and (c) warrants (the “January 2021 Warrants”) to purchase 1,950,000 common shares at an exercise price of \$6.25 per share, which may be exercised at any time prior to 5:00 PM New York time on July 29, 2026. The pre-funded warrants were all exercised. No January 2021 Warrants have been exercised as of the date hereof.

On February 17, 2021, we issued (a) 3,850,000 common shares, (b) pre-funded warrants to purchase 950,000 common shares, and (c) warrants (the “February 2021 Warrants”) to purchase 4,800,000 common shares at an exercise price of \$6.25 per share, which may be exercised at any time prior to 5:00 PM New York time on August 17, 2026. The pre-funded warrants have all been exercised. No February 2021 Warrants have been exercised as of the date hereof.

On June 29, 2021, we issued (a) 8,900,000 common shares, (b) pre-funded warrants to purchase 1,100,000 common shares, and (c) warrants (the “June 2021 Warrants”) to purchase 10,000,000 common shares at an exercise price of \$5.00 per share, which may be exercised at any time prior to 5:00 PM New York time on December 29, 2026. The pre-funded warrants have all been exercised. No June 2021 Warrants have been exercised as the date hereof.

Each of the June PP Warrants, July PP Warrants, December 2020 Warrants, January 2021 Warrants, February 2021 Warrants and June 2021 Warrants is exercisable for a period of five and one-half years commencing on the date of issuance. The warrants are exercisable at the option of each holder, in whole or in part by delivering to us a duly executed exercise notice with payment in full in immediately available funds for the number of common shares purchased upon such exercise. If a registration statement registering the resale of the common shares underlying the private placement warrants under the Securities Act is not effective or available at any time after the six month anniversary of the date of issuance of the private placement warrants, the holder may, in its sole discretion, elect to exercise the private placement warrant through a cashless exercise, in which case the holder would receive upon such exercise the net number of common shares determined according to the formula set forth in the warrant. If a registration statement covering the issuance of the shares under the Securities Act is not effective or available at any time after the issuance of the December 2020 Warrants, January 2021 Warrants, February 2021 Warrants and June 2021 Warrants, the holder may, in its sole discretion, elect to exercise the such warrants through a cashless exercise, in which case the holder would receive upon such exercise the net number of common shares determined according to the formula set forth in the warrant. If we do not issue the shares in a timely fashion, each warrant contains certain liquidated damages provisions.

From June 22, 2020 through the date hereof, we have issued 5,550 common shares pursuant to exercises of outstanding Class A Warrants. As of the date of this annual report, no June PP Warrants, July PP Warrants, December 2020 Warrants, January 2021 Warrants, February 2021 Warrants or June 2021 Warrants have been exercised.

On October 21, 2020, we effected a 1-100 reverse stock split which reduced the number of shares outstanding from 175,675,651 to 1,756,720 (adjustments were made based on fractional shares). Unless otherwise noted, all historical share numbers, per share amounts, including common share, preferred shares and warrants, have been adjusted to give effect to this reverse stock split.

As of December 31, 2023, our issued and outstanding capital stock consisted of 20,582,301 common shares and 10,300 Series Preferred Shares.

On June 12, 2020, we entered into a stock purchase agreement and issued 50 of our newly-designated Series B preferred shares, par value \$0.001 per share, to Goldenmare Limited, a company controlled by our Chief Executive Officer, Athanasios Feidakis, in return for \$150,000, which amount was settled by reducing, on a dollar-for-dollar basis, the amount payable by the Company to Goldenmare Limited pursuant to the consultancy agreement.

In July 2020, we issued an additional 250 of our Series B preferred shares to Goldenmare Limited in return for \$150,000. The \$150,000 was paid by reducing, on a dollar-for-dollar basis, the amount payable by the Company to Goldenmare Limited pursuant to a consultancy agreement. In addition, we increased the maximum voting rights under the Series B preferred shares from 49.0% to 49.99%.

In March 2021, we issued an additional 10,000 of our Series B preferred shares to Goldenmare Limited in return for \$130,000, which was settled by reducing, on a dollar-for-dollar basis, the amount payable by the Company to Goldenmare Limited pursuant to a consultancy agreement.

Each Series B preferred share entitles the holder thereof to 25,000 votes per share on all matters submitted to a vote of the shareholders of the Company, provided however, that no holder of Series B preferred shares may exercise voting rights pursuant to Series B preferred shares that would result in the aggregate voting power of any beneficial owner of such shares and its affiliates (whether pursuant to ownership of Series B preferred shares, common shares or otherwise) to exceed 49.99% of the total number of votes eligible to be cast on any matter submitted to a vote of shareholders of the Company. To the fullest extent permitted by law, the holders of Series B preferred shares shall have no special voting or consent rights and shall vote together as one class with the holders of the common shares on all matters put before the shareholders. The Series B preferred shares are not convertible into common shares or any other security. They are not redeemable and have no dividend rights. Upon any liquidation, dissolution or winding up of the Company, the Series B preferred shares are entitled to receive a payment with priority over the common shareholders equal to the par value of \$0.001 per share. The Series B preferred shareholder has no other rights to distributions upon any liquidation, dissolution or winding up of the Company. All issued and outstanding Series B preferred shares must be held of record by one holder, and the Series B preferred shares shall not be transferred without the prior approval of our Board of Directors. Finally, in the event the Company (i) declares any dividend on its common shares, payable in common shares, (ii) subdivides the outstanding common shares or (iii) combines the outstanding common shares into a smaller number of shares, there shall be a proportional adjustment to the number of outstanding Series B preferred shares.

Each issuance of the Series B preferred shares to Goldenmare Limited was approved by an independent committee of the Board of Directors of the Company, which (in each instance) received a fairness opinion from an independent financial advisor that the transaction was for a fair value.

In May 2021, we entered into an agreement with First Citizens Bank & Trust Company (formerly known as CIT Bank N.A.) for a loan facility of \$34.25 million bearing interest at LIBOR plus a margin of 3.75% per annum. On May 10, 2021, we fully drew \$34.25 million under this facility. The proceeds of this financing were used to repay the outstanding balance of the EnTrust Loan Facility.

In August 2022, we entered into a deed of accession, amendment and restatement of the CIT Loan Facility with First Citizens Bank & Trust Company (formerly known as CIT Bank N.A.), whereby the CIT Loan Facility was amended and restated and an additional borrower, Salamina Maritime Limited, acceded to the CIT Loan Facility. The CIT Loan Facility principal amount was increased to \$52.25 million, by a top up loan amount of \$18 million for the purpose of financing our vessel *Orion Globe* and for general corporate and working capital purposes. The CIT Loan Facility (including the new top up loan amount) became further secured by a first preferred mortgage over the vessel *Orion Globe*. Furthermore, the LIBOR interest provisions of the CIT Loan Facility were replaced with Term SOFR plus a margin of 3.35% (or 5.35% default interest) per annum. On August 10, 2022, we fully drew the top up amount of \$18 million.

On April 29, 2022, we entered into a contract, through our subsidiary Calypso Shipholding S.A., for the construction and purchase of one fuel efficient bulk carrier with a carrying capacity of approximately 64,000 dwt. The vessel was built at Nihon Shipyard Co. in Japan and was delivered on January 25, 2024. The total consideration for the construction of the vessel was approximately \$37.5 million, which we financed with equity. In May 2022 we paid the first installment of \$7.4 million, in March 2023 paid the second installment of \$3.8 million, in September 2023 paid the third installment of \$3.7 million and in November 2023 paid the fourth installment of \$3.7 million. On January 22, 2024, we paid the final installment of \$18.5 million and on January 25, 2024 we took delivery of the new vessel which was named m/v GLBS Hero.

On May 13, 2022, we entered into two contracts, through our subsidiaries Daxos Maritime Limited and Paralus Shipholding S.A., for the construction and purchase of two fuel efficient bulk carriers with a carrying capacity of approximately 64,000 dwt each. The sister vessels will be built at Nantong COSCO KHI Ship Engineering Co. in China with the first one scheduled to be delivered during the third quarter of 2024 and to be named m/v "GLBS MIGHT" and the second one scheduled during the fourth quarter of 2024. The total consideration for the construction of both vessels is approximately \$70.3 million, which we intend to finance with a combination of debt and equity. In May 2022 we paid the first installment of \$13.8 million and in November 2022 we paid the second installment of \$6.9 million for both vessels under construction. For more information regarding the sale and leaseback agreement that we entered into in February 2024 in respect of the vessel GLBS MIGHT, see "—Recent developments (post-2023)."

On March 6, 2023, we, through a wholly owned subsidiary, entered into an agreement to sell the 2007-built Sun Globe for a gross price of \$14.1 million, before commissions, to an unaffiliated third party. Following the agreement to sell Sun Globe and given the significant increase in the vessel's market value, we assessed that there were indications that impairment losses recognized in the previous periods with respect to this vessel had decreased. Therefore, the carrying amount of the vessel was increased to its recoverable amount, determined based on its selling price less cost to sell, and we recorded a reversal of impairment in the amount of \$4.4 million during the first quarter of 2023. The vessel was delivered to its new owners on June 5, 2023 and we recorded a gain of \$71,000.

In August 2023, we entered into a second deed of accession, amendment and restatement of the CIT Loan Facility with First Citizens Bank & Trust Company (formerly known as CIT Bank N.A.), whereby the CIT Loan Facility was further amended and restated and two additional borrowers, Argo Maritime Limited and Talisman Maritime Limited, acceded to the CIT Loan Facility. The CIT Loan Facility was further increased to \$72.25 million, by a top up loan amount of \$25 million for the purpose of financing our vessels *Diamond Globe* and *Power Globe* and for general corporate and working capital purposes. The CIT Loan Facility (including the new top up loan amount) became further secured by first preferred mortgages over the vessels *Diamond Globe* and *Power Globe*. The CIT Loan Facility currently bears interest at Term SOFR together with an adjustment of 0.1% per annum plus a margin of 2.70% (or 4.70% default interest) per annum. On August 10, 2023, we fully drew the top up amount of \$25 million.

On August 11, 2023, we, through a wholly owned subsidiary, entered into an agreement to sell the 2009-built Sky Globe for a gross price of \$10.7 million, before commissions, to an unaffiliated third party. The vessel was delivered to its new owners on September 7, 2023. We recognized a gain of approximately \$2.2 million as a result of the sale.

On August 16, 2023, we, through a wholly owned subsidiary, entered into an agreement to sell the 2010-built Star Globe for a gross price of \$11.2 million, before commissions, to an unaffiliated third party. The vessel was delivered to its new owners on September 13, 2023. We recognized a gain of approximately \$1.6 million as a result of the sale.

On August 18, 2023, we, through Thalia Shipholding S.A. and Olympia Shipholding S.A., signed two contracts for the construction and purchase of two fuel efficient bulk carrier of approximately 64,000 dwt each. The two vessels will be built at Nihon Shipyard Co. in Japan and are scheduled to be delivered during the second half of 2026. The total consideration for the construction of both vessels is approximately \$75.5 million, which we intend to finance with a combination of debt and equity. In August 2023, we paid the first installment of \$7.5 million for both vessels under construction.

Recent Developments (post-2023)

On February 23, 2024, we, through our subsidiary Daxos Maritime Limited, entered into a \$28 million sale and leaseback agreement with SK Shipholding S.A., a subsidiary of Shinken, with respect to the approximately 64,000 dwt bulk carrier to be named "GLBS MIGHT," which is scheduled to be delivered during the third quarter of 2024. For more information regarding the terms of the sale and leaseback agreement, see "Item 5.B. Liquidity and Capital Resources — Indebtedness."

We intend to grow our fleet through timely and selective acquisitions of modern vessels or acquisition through construction of new vessels in a manner that we believe will provide an attractive return on equity and will be accretive to our earnings and cash flow based on anticipated market rates at the time of purchase. There is no guarantee however, that we will be able to find suitable vessels to purchase or that such vessels will provide an attractive return on equity or be accretive to our earnings and cash flow.

Our strategy is to generally employ our vessels on a mix of all types of charter contracts, including bareboat charters, time charters and spot charters. We may, from time to time, enter into charters with longer durations depending on our assessment of market conditions.

We seek to manage our fleet in a manner that allows us to maintain profitability across the shipping cycle and thus maximize returns for our shareholders. To accomplish this objective we have historically deployed our vessels primarily on a mix of bareboat and time charters (with terms of between one month and five years). According to our assessment of market conditions, we have historically adjusted the mix of these charters to take advantage of the relatively stable cash flow and high utilization rates associated with time charters or to profit from attractive spot charter rates during periods of strong charter market conditions.

The average number of vessels in our fleet for the year ended December 31, 2023 was 7.8, for the year ended December 31, 2022 was 9.0, and for the year ended December 31, 2021 was 7.1.

Our operations are managed by our Glyfada, Greece-based wholly owned subsidiary, Globus Shipmanagement Corp., our Manager, who provides in-house commercial and technical management services to our vessels and consultancy services to an affiliated ship-management company. Our Manager enters into a ship management agreement with each of our wholly owned vessel-owning or bareboat chartering subsidiaries to provide such services and also entered into a consultancy agreement with an affiliated ship-management company.

Conflicts

The conflict between Russia and Ukraine, which commenced in February 2022, has disrupted supply chains and caused instability and significant volatility in the global economy. Much uncertainty remains regarding the global impact of the conflict in Ukraine, and it is possible that such instability, uncertainty and resulting volatility could significantly increase our costs and adversely affect our business, including our ability to secure charters and financing on attractive terms, and as a result, adversely affect our business, financial condition, results of operation and cash flows.

As a result of the conflict between Russia and Ukraine, Switzerland, the United States, the European Union, the United Kingdom and others have announced unprecedented levels of sanctions and other measures against Russia and certain Russian entities and nationals, including removing Russian-based financial institutions from the Society for Worldwide Interbank Financial Telecommunication payment system and restricting imports of Russian oil, liquefied natural gas, and coal. Such sanctions against Russia may adversely affect our business, financial condition, results of operation and cash flows. For example, apart from the immediate commercial disruptions caused in the conflict zone, escalating tensions and fears of potential shortages in the supply of Russian crude caused the price of oil to trade above \$100 per barrel in March 2022. The ongoing conflict could result in the imposition of further economic sanctions against Russia, with uncertain impacts on the dry bulk market and the world economy. While we do not have any Ukrainian or Russian crew and our vessels currently do not sail in the Black Sea, it is possible that the conflict in Ukraine, including any increased shipping costs, disruptions of global shipping routes, any impact on the global supply chain and any impact on current or potential customers caused by the events in Russia and Ukraine, could adversely affect our operations or financial performance. Due to the recent nature of these activities, the full impact on our business is not yet known.

The ongoing conflict between Russia and Ukraine could result in the imposition of further economic sanctions by the United States, the United Kingdom, the European Union, or other countries against Russia, trade tariffs, or embargoes with uncertain impacts on the markets in which we operate. In addition, the U.S. and certain other North Atlantic Treaty Organization (NATO) countries have been supplying Ukraine with military aid. U.S. officials have also warned of the increased possibility of Russian cyberattacks, which could disrupt the operations of businesses involved in the dry bulk industry, including ours, and could create economic uncertainty particularly if such attacks spread to a broad array of countries and networks. Although Ukraine and Russia reached an agreement to extend an arrangement allowing shipment of grain from Ukrainian ports through a humanitarian corridor in the Black Sea in November 2022, Russia terminated this agreement in July 2023. While much uncertainty remains regarding the global impact of the war in Ukraine, it is possible that such tensions could adversely affect our business, financial condition, operating results, and cash flows.

Furthermore, the intensity and duration of the recently declared war between Israel and Hamas is difficult to predict and its impact on the world economy and our industry is uncertain. While much uncertainty remains regarding the global impact of the war between Israel and Hamas, it is possible that such tensions could result in the eruption of further hostilities in other regions, including the Red Sea, and could adversely affect our business, financial conditions, operating results, and cash flows.

In the past, political conflicts have also resulted in attacks on vessels, mining of waterways and other efforts to disrupt international shipping, particularly in the Arabian Gulf region. These types of attacks have also affected vessels trading in regions such as the Black Sea, South China Sea and the Gulf of Aden off the coast of Somalia. The ongoing war in Ukraine has previously resulted in missile attacks on commercial vessels in the Black Sea and the recent outbreak of conflict in the Red Sea has also resulted in missile attacks on vessels. Acts of terrorism and piracy have also affected vessels trading in regions such as the Gulf of Guinea, the Red Sea, the Gulf of Aden off the coast of Somalia, and the Indian Ocean. The IMO's extraordinary council session held on March 10-11, 2022 addressed the impacts on shipping and seafarers, as a result of the war in Ukraine. The IMO called for the need to preserve the integrity of maritime supply chains and the safety and welfare of seafarers and any spillover effects of the military action on global shipping, logistics and supply chains, in particular the impacts on the delivery of commodities and food to developing nations and the impacts on energy supplies. Any of these occurrences could have a material adverse impact on our operating results, revenues and costs.

IMO 2020 Compliance

On October 27, 2016, the Marine Environment Protection Committee (“MEPC”) of the International Maritime Organization (“IMO”) announced the ratification of regulations mandating reduction in sulfur emissions from 3.5% currently to 0.5% as of the beginning of 2020 rather than pushing the deadline back to 2025. Accordingly, ships now have to reduce sulfur emissions, for which the principal solutions are the use of exhaust gas cleaning systems (“scrubbers”) or buying fuel with low sulfur content. If a vessel is not retrofitted with a scrubber, it will need to use low sulfur fuel, which is currently more expensive than standard marine fuel containing 3.5% sulfur content. This increased demand for low sulfur fuel resulted in an increase in prices for such fuel during the beginning of 2020. Until September 2023 bunker prices increased and then started decreasing again.

None of our vessels currently have scrubbers. We will continue to evaluate all options to comply with IMO regulations. Our fuel costs and fuel inventories may increase as a result of these sulfur emission regulations. Low sulfur fuel is more expensive than standard marine fuel containing 3.5% sulfur content and may become more expensive or difficult to obtain as a result of increased demand. If the cost differential between low sulfur fuel and high sulfur fuel is significantly higher than anticipated, or if low sulfur fuel is not available at ports on certain trading routes, it may not be feasible or competitive to operate vessels on certain trading routes without installing scrubbers or without incurring deviation time to obtain compliant fuel.

Lack of Historical Operating Data for Vessels Before their Acquisition

Consistent with shipping industry practice, we were not and have not been able obtain the historical operating data for the secondhand vessels we purchase, in part because that information is not material to our decision to acquire such vessels, nor do we believe such information would be helpful to potential investors in our common shares in assessing our business or profitability. We generally purchase our vessels under a standardized agreement commonly used in shipping practice, which, among other things, provides us with the right to inspect the vessel and the vessel’s classification society records. The standard agreement does not provide us the right to inspect, or receive copies of, the historical operating data of the vessel. Accordingly, such information was not available to us. Prior to the delivery of a purchased vessel, the seller typically removes from the vessel all records, including past financial records and accounts related to the vessel. Typically, the technical management agreement between a seller’s technical manager and the seller is automatically terminated and the vessel’s trading certificates are revoked by its flag state following a change in ownership.

In addition, and consistent with shipping industry practice, we treat the acquisition of vessels from unaffiliated third parties as the acquisition of an asset rather than a business. We believe that, under the applicable provisions of Rule 11-01(d) of Regulation S-X under the Securities Act, the acquisition of our vessels does not constitute the acquisition of a “business” for which historical or pro forma financial information would be provided pursuant to Rules 3-05 and 11-01 of Regulation S-X.

Although vessels are generally acquired free of charter, we may in the future acquire some vessels with charters. Where a vessel has been under a voyage charter, the vessel is usually delivered to the buyer free of charter. It is rare in the shipping industry for the last charterer of the vessel in the hands of the seller to continue as the first charterer of the vessel in the hands of the buyer. In most cases, when a vessel is under time charter and the buyer wishes to assume that charter, the vessel cannot be acquired without the charterer’s consent and the buyer entering into a separate direct agreement, called a novation agreement, with the charterer to assume the charter. The purchase of a vessel itself does not transfer the charter because it is a separate service agreement between the vessel owner and the charterer.

If the Company acquires a vessel subject to a time charter, it amortizes the amount of the component that is attributable to favorable or unfavorable terms relative to market terms and is included in the cost of that vessel, over the remaining term of the lease. The amortization is included in line “amortization of fair value of time charter attached to vessels” in the income statement component of the consolidated statement of comprehensive income.

If we purchase a vessel and assume or renegotiate a related time charter, we must take the following steps before the vessel will be ready to commence operations:

- obtain the charterer’s consent to us as the new owner;
- obtain the charterer’s consent to a new technical manager;
- in some cases, obtain the charterer’s consent to a new flag for the vessel;
- arrange for a new crew for the vessel, and where the vessel is on charter, in some cases, the crew must be approved by the charterer;

[Table of Contents](#)

- replace all hired equipment on board, such as gas cylinders and communication equipment;
- negotiate and enter into new insurance contracts for the vessel through our own insurance brokers;
- register the vessel under a flag state and perform the related inspections in order to obtain new trading certificates from the flag state;
- implement a new planned maintenance program for the vessel; and
- ensure that the new technical manager obtains new certificates for compliance with the safety and vessel security regulations of the flag state.

The following discussion is intended to help you understand how acquisitions of vessels affect our business and results of operations.

Our business is comprised of the following main elements:

- employment and operation of our dry bulk vessels and management of a vessel owned by a third party; and
- management of the financial, general and administrative elements involved in the conduct of our business and ownership of our dry bulk vessels.

The employment and operation of our vessels and the vessel we manage require the following main components:

- vessel maintenance and repair;
- crew selection and training;
- vessel spares and stores supply;
- contingency response planning;
- onboard safety procedures auditing;
- accounting;
- vessel insurance arrangement;
- vessel chartering;
- vessel security training and security response plans (ISPS);
- obtaining ISM certification and audit for each vessel within the six months of taking over a vessel;
- vessel hire management;
- vessel surveying; and
- vessel performance monitoring.

The management of financial, general and administrative elements involved in the conduct of our business and ownership of our vessels requires the following main components:

- management of our financial resources, including banking relationships, i.e., administration of bank loans and bank accounts;
- management of our accounting system and records and financial reporting;

[Table of Contents](#)

- administration of the legal and regulatory requirements affecting our business and assets; and
- management of the relationships with our service providers and customers.

The principal factors that affect our profitability, cash flows and shareholders' return on investment include:

- rates and periods of hire;
- levels of vessel operating expenses, including repairs and drydocking;
- purchase and sale of vessels;
- management fees for any third party ships that we manage;
- depreciation expenses;
- financing costs; and
- fluctuations in foreign exchange rates.

Revenue

Overview

We generate revenues by charging our customers for the use of our vessels to transport their dry bulk commodities. Under a time charter, the charterer pays us a fixed daily charter hire rate and bears all voyage expenses, including the cost of bunkers (fuel oil) and port and canal charges. We remain responsible for paying the chartered vessel's operating expenses, including the cost of crewing, insuring, repairing and maintaining the vessel, the costs of spares and consumable stores, tonnage taxes and other miscellaneous expenses. Under a bareboat charter, the charterer pays us a fixed daily charter hire rate and bears all voyage expenses, as well as the vessel's operating expenses.

Spot charters can be spot voyage charters or spot time charters. Spot voyage charters involve the carriage of a specific amount and type of cargo on a load-port to discharge-port basis, subject to various cargo handling terms, and the vessel owner is paid on a per-ton basis. Under a spot voyage charter, the vessel owner is responsible for the payment of all expenses including capital costs, voyage expenses, such as port, canal and bunker costs. A spot time charter is a contract to charter a vessel for an agreed period of time at a set daily rate. Under spot time charters, the charterer pays the voyage expenses.

Voyage revenues and management & consulting fee income

Our voyage revenues are driven primarily by the number of vessels in our fleet, the number of days during which our vessels operate and the amount of daily hire rates that our vessels earn under charters or on the spot market, which, in turn, are affected by a number of factors, including:

- the duration of our charters;
- the number of days our vessels are hired to operate on the short-term or spot market;
- our decisions relating to vessel acquisitions and disposals;
- the amount of time that we spend positioning our vessels for employment;
- the amount of time that our vessels spend in drydocking undergoing repairs;
- maintenance and upgrade work;
- the age, condition and specifications of our vessels;

[Table of Contents](#)

- levels of supply and demand in the dry bulk shipping industry; and
- other factors affecting short-term or spot market charter rates for dry bulk vessels.

Our voyage revenues decreased in 2023 compared to 2022, mainly due to lower short-term daily time charter rates earned on average from our vessels on a year-on-year basis and the decrease of our fleet from an average of 9.0 vessels in 2022 to 7.8 vessels in 2023. Our voyage revenues increased in 2022 compared to 2021, mainly due to the increase of our fleet from an average of 7.1 vessels in 2021 to 9.0 vessels in 2022.

Employment of our Vessels

As of the date of this annual report on Form 20-F, we employed our vessels as follows:

- *m/v River Globe* – on a time charter that began in March 2024 and is expected to expire in April 2024, at a gross rate of \$12,500 per day;
- *m/v Moon Globe* – on a time charter that began in January 2024 and is expected to expire in March 2024, at a gross rate of \$8,500 per day;
- *m/v Galaxy Globe* on a time charter that began in November 2023 and is expected to expire in August 2024, at a gross rate of 104% of the average BKI-82 5TC INDEX as quoted by the Baltic Exchange per day;
- *m/v Diamond Globe* – on a time charter that began in October 2023 and is expected to expire in July 2024, at a gross rate of \$18,705.44 per day until May 2024 and subsequently at a gross rate of 104% of the average BKI-82 5TC INDEX as quoted by the Baltic Exchange per day;
- *m/v Power Globe* – on a time charter that began in November 2023 and is expected to expire in April 2024, at a gross rate of \$10,650 per day;
- *m/v Orion Globe* – on a time charter that began in June 2023 and is expected to expire in April 2024, at a gross rate of 104.5% of the average BKI-82 5TC INDEX as quoted by the Baltic Exchange per day; and
- *m/v GLBS Hero* – on a time charter that began in January 2024 and is expected to expire in October 2024, at a gross rate of 122% of the average BSI-58 INDEX as quoted by the Baltic Exchange per day.

Our charter agreements subject us to counterparty risk. In depressed market conditions, charterers may seek to renegotiate the terms of their existing charter parties or avoid their obligations under those contracts. Should counterparties to one or more of our charters fail to honor their obligations under their agreements with us, we could sustain significant losses which could have a material adverse effect on our business, financial condition, results of operations, cash flows and ability to pay dividends.

Critical Accounting Policies

Critical accounting policies are those that are both most important to the portrayal of the company's financial condition and results, and require management's most difficult, subjective, or complex judgments, often as a result of the need to make estimates about the effects of matters that are inherently uncertain. For a description of all our significant accounting policies, see Note 2 to our annual audited financial statements included in this annual report on Form 20-F.

Voyage Expenses

We charter our vessels primarily through time charters under which the charterer is responsible for most voyage expenses, such as the cost of bunkers (fuel oil), port expenses, agents' fees, canal dues, extra war risks insurance and any other expenses related to the cargo.

Whenever we employ our vessels on a voyage basis (such as trips for the purpose of geographically repositioning a vessel or trip(s) after the end of one-time charter and up to the beginning of the next charter), we incur voyage expenses that include port expenses and canal charges and bunker (fuel oil) expenses.

[Table of Contents](#)

If we charter our vessels on bareboat charters, the charterer will pay for most of the voyage expenses and operating expenses.

As is common in the shipping industry, we have historically paid commissions ranging from 1.25% to 2.50% of the total daily charter hire rate of each charter to unaffiliated ship brokers and in-house brokers associated with the charterers, depending on the number of brokers involved with arranging the charter.

For the year ended December 31, 2023, commissions amounted to \$0.4 million. For the year ended December 31, 2022, commissions amounted to \$0.9 million. For the year ended December 31, 2021, commissions amounted to \$0.6 million.

We believe that the amounts and the structures of our commissions are consistent with industry practices.

These commissions are directly related to our revenues. We therefore expect that the amount of total commissions will increase if the size of our fleet grows as a result of additional vessel acquisitions and employment of those vessels or if charter rates increase.

Vessel Operating Expenses

Vessel operating expenses include costs for crewing, insurance, repairs and maintenance, lubricants, spare parts and consumable stores, statutory and classification tonnage taxes and other miscellaneous expenses. We calculate daily vessel operating expenses by dividing vessel operating expenses by ownership days for the relevant time period excluding bareboat charter days.

Our vessel operating expenses have historically fluctuated as a result of changes in the size of our fleet. In addition, a portion of our vessel operating expenses is in currencies other than the U.S. dollar, such as costs related to repairs, spare parts and consumables. These expenses may increase or decrease as a result of fluctuation of the U.S. dollar against these currencies.

We expect that crewing costs will increase in the future due to the shortage in the supply of qualified sea-going personnel. In addition, we expect that maintenance costs will increase as our vessels age. Other factors that may affect the shipping industry in general, such as the cost of insurance, may also cause our expenses to increase. To the extent that we purchase additional vessels, we expect our vessel operating expenses to increase accordingly. Other factors beyond our control, some of which may affect the shipping industry in general, including, for instance, developments relating to market prices for crewing, lubes, and insurance, may also cause these expenses to increase. In 2023, operating expenses were lower due to the decrease of the fleet from nine to six vessels by the end of 2023; however, our per vessel operating expenses increased by approximately 3%. If industry-wide inflationary pressures continue during 2024 combined with higher regulatory-related costs, we expect higher costs in relation to crew, spares and parts.

Depreciation

The cost of each of the Company's vessels is depreciated on a straight-line basis over each vessel's remaining useful economic life, after considering the estimated residual value of each vessel, beginning when the vessel is ready for its intended use. Management estimates that the useful life of new vessels is 25 years, which is consistent with industry practice. The residual value of a vessel is the product of its lightweight tonnage and estimated scrap value per lightweight ton. The residual values and useful lives are reviewed at each reporting date and adjusted prospectively, if appropriate. During the fourth quarter of 2021, we adjusted the scrap rate from \$300/ton to \$380/ton due to the increased scrap rates worldwide. This resulted to a decrease of approximately \$145,000 of the depreciation charge included in the consolidated statement of comprehensive income for 2021. During the fourth quarter of 2022, we adjusted the scrap rate from \$380/ton to \$440/ton due to the increased scrap rates worldwide. This resulted in a decrease of approximately \$118,000 to the depreciation charge included in the consolidated statement of comprehensive income for 2022. During the fourth quarter of 2023, we adjusted the scrap rate from \$440/ton to \$480/ton, due to the increased scrap rates worldwide. This resulted in a decrease of approximately \$62,000 to the depreciation charge included in the consolidated statement of comprehensive income for 2023.

We do not expect these assumptions to change significantly in the near future. We expect that these depreciation charges will increase if we acquire additional vessels.

Depreciation of Drydocking Costs

Approximately every 2.5 years, our vessels are required to be taken out of service and removed from water (known as “drydocking”) for major repairs and maintenance that cannot be performed while the vessels are operating. The costs associated with the drydockings are capitalized and depreciated on a straight-line basis over the period between drydockings, to a maximum of 2.5 years. At the date of acquisition of a vessel, we estimate the component of the cost that corresponds to the economic benefit to be derived until the first scheduled drydocking of the vessel under our ownership or bareboat charter and this component is depreciated on a straight-line basis over the remaining period through the estimated drydocking date. We expect that drydocking costs will increase as our vessels age and if we acquire additional vessels.

Administrative Expenses

Our administrative expenses include payroll expenses, traveling, promotional and other expenses associated with us being a public company, which include the preparation of disclosure documents, legal and accounting costs, director and officer liability insurance costs and costs related to compliance. We expect that our administrative expenses will increase as we enlarge our fleet.

Administrative Expenses Payable to Related Parties

Our administrative expenses payable to related parties include cash remuneration of our executive officers and directors.

Share Based Payments

Until 2021, we operated an equity-settled, share based compensation plan. The value of the service received in exchange of the grant of shares is recognized as an expense. The total amount to be expensed over the vesting period, if any, was determined by reference to the fair value of the share awards at the grant date. The relevant expense was recognized in the income statement component of the consolidated statement of comprehensive income, with a corresponding impact in equity. On March 13, 2024, we adopted a new equity incentive program. For more information, see “Item 6.E. Share Ownership—Equity Incentive Plan.”

Impairment Loss and Reversal of Previously Recognized Impairment Losses

We assess at each reporting date whether there is an indication that a vessel in our fleet may be impaired. Such indicators are:

- Observable indications that the vessel’s value has declined/ increased significantly
- Significant adverse / favorable changes in the technological, economic or legal environment incurred or are expected to be incurred and negatively / positively affect vessel’s value or decrease / increase its revenue generating ability
- Market interest rates of return on investments have increased / decreased during the period, which will result in increase /decrease of the discount rate.

The vessel’s recoverable amount is estimated when events or changes in circumstances indicate the carrying value may not be recoverable. If such indication exists and where the carrying value exceeds the estimated recoverable amounts, the vessel is written down to its recoverable amount. The recoverable amount is the greater of fair value less costs to sell and value-in-use. In assessing value-in-use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the vessel. Impairment losses are recognized in the consolidated statement of comprehensive income. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset’s recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the consolidated statement of comprehensive income. After such a reversal, the depreciation charge is adjusted in future periods to allocate the asset’s revised carrying amount, less any residual value, on a systematic basis over its remaining useful life. As of December 31, 2023 and 2022, no impairment indicators were identified for the Company’s vessels as the vessels’ recoverable amounts exceeded their carrying amounts.

[Table of Contents](#)

We also assess at each reporting date whether there is any indication that an impairment loss recognized in prior periods for a vessel may no longer exist or may have decreased. As of December 31, 2022, no indicators for reversal of impairment were present and no reversal of previously recognized impairment losses was required for the financial year ended December 31, 2022. Following the agreement to sell Sun Globe and given the significant increase in the vessel's market value, we assessed that there were indications that impairment losses recognized in the previous periods with respect to this vessel had decreased. Therefore, the carrying amount of the vessel was increased to its recoverable amount, determined based on selling price less cost to sell, and we recorded a reversal of impairment in the amount of \$4.4 million during the first quarter of 2023. No indicators for reversal of impairment were present and no reversal of previously recognized impairment losses was required for the remaining financial year ended December 31, 2023.

Gain/(Loss) on Sale of Vessels

Gain or loss on the sale of vessels is the residual value remaining after deducting from the vessels' sale proceeds, the carrying value of the vessels at the respective date of delivery to their new owners and the total expenses associated with the sale.

On March 6, 2023, we, through a wholly owned subsidiary, entered into an agreement to sell the 2007-built Sun Globe for a gross price of \$14.1 million, before commissions, to an unaffiliated third party. The vessel was delivered to its new owners on June 5, 2023. We recognized a gain of \$71,000 as a result of the sale, which is included in the consolidated statement of comprehensive income for 2023.

On August 11, 2023, we through a wholly owned subsidiary, entered into an agreement to sell the 2009-built Sky Globe for a gross price of \$10.7 million, before commissions, to an unaffiliated third party. The vessel was delivered to its new owners on September 7, 2023. We recognized a gain of approximately \$2.2 million as a result of the sale, which is included in the income statement component of the consolidated statement of comprehensive income for 2023.

On August 16, 2023, we, through a wholly owned subsidiary, entered into an agreement to sell the 2010-built Star Globe for a gross price of \$11.2 million, before commissions, to an unaffiliated third party. The vessel was delivered to its new owners on September 13, 2023. We recognized a gain of approximately \$1.6 million as a result of the sale, which is included in the income statement component of the consolidated statement of comprehensive income for 2023.

Other (Expenses)/Income, Net

We include other operating expenses or income that is not classified otherwise. It mainly consists of provisions for insurance claims deductibles and refunds from insurance claims.

Interest Income from Bank Balances & Bank Deposits

We earn interest on the funds we have deposited with certain banks as well as from short-term certificates of deposit.

Interest Expense and Finance Costs

We incur interest expense and financing costs in connection with the indebtedness under our credit arrangements. We also incurred financing costs in connection with establishing those arrangements, which is included in our finance costs and amortization and write-off of deferred finance charges. As of December 31, 2023 and 2022, we had \$52.6 million and \$44.4 million of indebtedness outstanding under our then existing credit arrangements, respectively. We incurred interest expense and financing costs relating to our outstanding debt. We will incur additional interest expense in the future on our outstanding borrowings and under future borrowings to finance future acquisitions. Please see "Item 5.B. Liquidity and Capital Resources—Indebtedness" for further information.

Gain/(Loss) on Derivative Financial Instruments

Derivative financial instruments, including embedded derivative financial instruments, are initially recognized at fair value on the date a derivative contract is entered into and are subsequently remeasured at fair value. Changes in the fair value of these derivative instruments are recognized immediately in the income statement component of the consolidated statement of comprehensive income. These instruments are not designated for hedge accounting.

Foreign Exchange Gains/(Losses), Net

We generate all our revenues from the trading of our vessels in U.S. dollars but incur a portion of our expenses in currencies other than the U.S. dollar. We convert U.S. dollars into foreign currencies to pay for our non-U.S. dollar expenses, which we then hold on deposit until the date of each transaction. Fluctuations in foreign exchange rates create foreign exchange gains or losses when we mark-to-market these non-U.S. dollar deposits. Because a portion of our expenses is payable in currencies other than the U.S. dollar, our expenses may from time to time increase relative to our revenues as a result of fluctuations in exchange rates, which could affect the amount of net income that we report in future periods.

Factors Affecting Our Results of Operations

We believe that the important measures for analyzing trends in our results of operations consist of the following:

- *Ownership days.* We define ownership days as the aggregate number of days in a period during which each vessel in our fleet has been owned or bareboat chartered in by us. Ownership days are an indicator of the size of our fleet over a period and affect both the amount of revenues and the amount of expenses that we record during a period.
- *Available days.* We define available days as the number of our ownership days less the aggregate number of days that our vessels are off-hire due to scheduled repairs or repairs under guarantee, vessel upgrades or special surveys. The shipping industry uses available days to measure the number of days in a period during which vessels should be capable of generating revenues.
- *Operating days.* Operating days are the number of available days in a period less the aggregate number of days that the vessels are off-hire due to any reason, including unforeseen circumstances but excluding days during which vessels are seeking employment. The shipping industry uses operating days to measure the aggregate number of days in a period during which vessels generate revenues.
- *Fleet utilization.* We calculate fleet utilization by dividing the number of our operating days during a period by the number of our available days during the period. The shipping industry uses fleet utilization to measure a company’s efficiency in finding suitable employment for its vessels and minimizing the amount of days that its vessels are off-hire for reasons other than scheduled repairs or repairs under guarantee, vessel upgrades and special surveys.
- *Average number of vessels.* We measure average number of vessels by the sum of the number of days each vessel was part of our fleet during a relevant period divided by the number of calendar days in such period.
- *TCE rates.* We define TCE rates as our revenue less net revenue from our bareboat charters less voyage expenses during a period divided by the number of our available days during the period excluding bareboat charter days, which is consistent with industry standards. TCE is a non-GAAP measure. TCE rate is a standard shipping industry performance measure used primarily to compare daily earnings generated by vessels on time charters with daily earnings generated by vessels on voyage charters, because charter hire rates for vessels on voyage charters are generally not expressed in per day amounts while charter hire rates for vessels on time charters generally are expressed in such amounts.

The following table reflects our ownership days, available days, operating days, average number of vessels and fleet utilization for the periods indicated.

	Year Ended December 31,				
	2023	2022	2021	2020	2019

[Table of Contents](#)

We utilize TCE because we believe it is a meaningful measure to compare period-to-period changes in our performance despite changes in the mix of charter types (i.e., voyage charters, spot charters and time charters) under which our vessels may be employed between the periods. Our management also utilizes TCE to assist them in making decisions regarding employment of our vessels. We believe that our method of calculating TCE is consistent with industry standards and is determined by dividing revenue after deducting voyage expenses, and net revenue from our bareboat charters, by available days for the relevant period excluding bareboat charter days. Voyage expenses primarily consist of brokerage commissions and port, canal and fuel costs that are unique to a particular voyage, which would otherwise be paid by the charter under a time charter contract.

The following table reflects the Voyage Revenues to Daily Time Charter Equivalent (“TCE”) Reconciliation for the periods presented.

	Year Ended December 31,

Results of Operations

The following is a discussion of our operating results for the year ended December 31, 2023 compared to the year ended December 31, 2022. Variances are calculated on the numbers presented in the discussion over operating results.

Year ended December 31, 2023 compared to the year ended December 31, 2022

As of December 31, 2023 and 2022, our fleet consisted of six vessels (one Supramax, four Kamsarmaxes and one Panamax) and nine vessels (four Supramaxes, four Kamsarmaxes and one Panamax), respectively, with an aggregate carrying capacity of 453,745 dwt and 626,257 dwt, respectively. During the years ended December 31, 2023 and 2022 we had an average of 7.8 and 9.0 dry bulk vessels in our fleet, respectively.

For the year ended December 31, 2023, we had an operating income of \$6.3 million, while for the year ended December 31, 2022, we had an operating income of \$23.6 million.

Voyage revenues. Voyage revenues decreased by \$30.6 million, or 50%, to \$30.8 million in 2023, compared to \$61.4 million in 2022. The decrease is attributable to the decrease of the average number of vessels from 9.0 in 2022 to 7.8 in 2023 and the decrease of TCE from \$18,227 in 2022 to \$9,768 in 2023. In 2023, we had total operating days of 2,710 and fleet utilization of 98.4%, compared to 3,029 operating days and a fleet utilization of 98.5% in 2022. The foregoing fleet utilization percentages are based upon the available days of each vessel, being the number of our ownership days less the aggregate number of days that our vessels are off-hire due to scheduled repairs or repairs under guarantee, vessel upgrades or special surveys. We also had 2,850 and 3,285 ownership days in 2023 and 2022, respectively, which decrease is due to the sale of three of our vessels within 2023.

Voyage expenses. Voyage expenses decreased by \$1.5 million, or 28%, to \$3.9 million in 2023, compared to \$5.4 million in 2022. This decrease is attributed to the lower TCE rates achieved within 2023 which led to fewer commission expense and the substantially more days of dry-docking repairs in 2022 compared to 2023, which led to a higher bunker expense in 2022 compared to 2023.

Vessel operating expenses. Vessel operating expenses decreased by \$1.9 million, or 11%, to \$16.1 million in 2023, compared to \$18 million in 2022. The breakdown of our operating expenses for the year ended December 31, 2023 was as follows:

Crew expenses	51%
Repairs and spares	19%
Insurance	7%
Stores	14%
Lubricants	6%
Other	3%

[Table of Contents](#)

The decrease is mainly attributed to the decrease of the fleet from 9.0 vessels on average for 2022 to 7.8 vessels on average for 2023. Daily vessel operating expenses increased from \$5,483 in 2022 to \$5,645 in 2023, representing an increase of 3%, mainly due to industry-wide inflationary pressures.

Depreciation. Depreciation charge during the year ended December 31, 2023 reached \$4.7 million compared to \$5.6 million during 2022. This is mainly attributed to the decrease of the fleet from 9.0 vessels on average for 2022 to 7.8 vessels on average for 2023. During the fourth quarter of 2022, we adjusted the scrap rate from \$380/ton to \$440/ton due to the increased scrap rates worldwide. This resulted in a decrease of approximately \$118,000 to the depreciation charge included in the consolidated statement of comprehensive income for 2022. During the fourth quarter of 2023, we adjusted the scrap rate from \$440/ton to \$480/ton due to the increased scrap rates worldwide. This resulted in a decrease of approximately \$62,000 to the depreciation charge included in the consolidated statement of comprehensive income for 2023.

Depreciation of dry-docking costs. Depreciation of dry-docking costs decreased by \$0.4 million, or 9%, to \$4.2 million in 2023, compared to \$4.6 million in 2022. The decrease is mainly attributed to the decrease of the fleet from 9.0 vessels on average for 2022 to 7.8 vessels on average for 2023.

Administrative expenses. Administrative expenses increased by \$0.6 million or 21% to \$3.5 million in 2023, from \$2.9 million in 2022. This is mainly attributed to the increased personnel expenses in 2023 amounting to \$2 million compared to \$1.5 million in 2022.

Administrative expenses payable to related parties. Administrative expenses payable to related parties amounted to \$0.7 million in 2023, compared to \$1.4 million in 2022. In December 2021, we agreed to pay a one-time cash bonus of \$1.5 million to Goldenmare Limited pursuant to the consultancy agreement, half of which was to be paid immediately and the other half during 2022, although this amount was paid in 2023. There was no such agreement for 2023.

Interest expense and finance costs. Interest expense and finance costs increased by \$2.1 million, or 91%, to \$4.4 million in 2023, compared to \$2.3 million in 2022. Our weighted average interest rate for 2023 was 8.19% compared to 5.58% during 2022. Total borrowings outstanding as of December 31, 2023 amounted to \$52.6 million, compared to \$44.4 million as of December 31, 2022. Our sole credit facility that was in place as of December 31, 2023 and 2022, the CIT Loan Facility, is denominated in U.S. dollars.

Gain on derivative financial instruments. Following the entry into the CIT Loan Facility, we entered into an Interest Rate Swap agreement on May 10, 2021. Following the deed of accession, amendment and restatement of the CIT Loan Facility in August 2022, we also entered into a new swap agreement in order for the additional borrower to enter into hedging transactions (separately from those entered by the other borrowers) with First-Citizens Bank & Trust Company (formerly known as CIT Bank N.A.).

For the year ended December 31, 2023, the Company recognized a total gain of \$0.4 million. The \$0.2 million gain was in relation with the initial swap agreement entered in 2021, approximately \$1.1 million was the interest for the interest rate swap during the year ended December 31, 2023, minus \$0.9 million loss is according to the interest rate swap valuation and is included in the consolidated statement of comprehensive income.

For the year ended December 31, 2023, the Company recognized a gain of approximately \$0.2 million in relation with the new swap agreement entered in 2022, approximately \$0.4 million was the interest for the interest rate swap during the year ended December 31, 2023, minus approximately \$0.2 million loss is according to the interest rate swap valuation and is included in the consolidated statement of comprehensive income.

For the year ended December 31, 2022, the Company recognized a total gain of \$2.5 million. The \$2 million gain was in relation with the initial swap agreement entered in 2021, approximately \$1.6 million gain is according to the Interest Rate Swap valuation minus approximately \$0.4 million was the interest for the Interest Rate Swap during the year ended December 31, 2022, and is included in the consolidated statement of comprehensive income.

[Table of Contents](#)

For the year ended December 31, 2022, the Company recognized a gain of approximately \$514,000 in relation with the new swap agreement entered in 2022, approximately \$493,000 of the gain is according to the Interest Rate Swap valuation and approximately \$21,000 was the interest for the Interest Rate Swap during the year ended December 31, 2022, and is included in the consolidated statement of comprehensive income.

Reversal of Impairment. On March 6, 2023, we, through a wholly owned subsidiary, entered into an agreement to sell the 2007-built *Sun Globe* for a gross price of \$14.1 million, before commissions, to an unaffiliated third party. Following the agreement to sell *Sun Globe* and given the significant increase in the vessel's market value, we assessed that there were indications that impairment losses recognized in the previous periods with respect to this vessel have decreased. Therefore, the carrying amount of the vessel was increased to its recoverable amount, determined based on selling price less cost to sell, and we recorded reversal of impairment amounting \$4.4 million, and is included in the consolidated statement of comprehensive income.

Gain from the sale of vessels. Gain from sale of vessels amounted to \$3.8 million for the year ended December 31, 2023. As a result of the sale of *Sky Globe* and *Star Globe* we recognized a gain of approximately \$2.2 million and \$1.6 million, respectively. Both vessels were delivered to their new owners in September 2023.

Interest Income. During the year ended December 31, 2023, interest income reached approximately \$2.6 million compared to \$0.4 million for the year ended December 31, 2022. This is mainly attributed to the increase of interest rates worldwide during 2023 and the fact that the Company has proceeded to secure short-term time deposits.

Gain from loan modification. Following the amendment and restatement of the CIT Loan Facility reached in August 2023 we recognized a gain on modification amounted to approximately \$0.4 million that had adjusted the carrying value of the loan and classified under Gain from the modification of the Loan in the consolidated statement of comprehensive income.

Inflation

Although inflation has had a moderate impact on our vessel operating expenses and corporate overheads, management does not consider inflation to be a significant risk to direct costs in the current and foreseeable economic environment. It is anticipated that insurance costs, which have risen over the last three years, may well continue to rise over the next few years. Maritime transportation is a specialized area and the number of vessels is increasing. There will therefore be an increased demand for qualified crew and this has and will continue to put inflationary pressure on crew costs. However, in a shipping downturn, costs subject to inflation can usually be controlled because shipping companies typically monitor costs to preserve liquidity and encourage suppliers and service providers to lower rates and prices in the event of a downturn.

B. Liquidity and Capital Resources

Our primary sources of liquidity are cash flow from operations, cash on hand, equity offerings and long-term borrowings. We currently use our funds primarily for the acquisition of vessels generally, fleet renewal and repairs, drydocking for our vessels, payment of dividends (if any), debt repayments and satisfying working capital requirements as may be needed to support our business. Our ability to continue to meet our liquidity needs is subject to and will be affected by cash generated from operations, the economic or business environment in which we operate, shipping industry conditions, the financial condition of our customers, vendors and service providers, our ability to comply with the financial and other covenants of our indebtedness, and other factors.

We believe, given our current cash holdings, if dry bulk shipping rates do not decline significantly from current levels, our capital resources, including cash anticipated to be generated within the year, are sufficient to fund our operations for at least the next twelve months. Such resources include unrestricted cash and cash equivalents of \$74.2 million as of December 31, 2023, which compares to a minimum liquidity requirement under our CIT Loan Facility of \$900,000 and a minimum cash reserve of \$3 million as of December 31, 2023. Given the anticipated capital expenditures related to commitments under shipbuilding contracts and drydockings during 2024-2026, we anticipate continuing to have significant cash expenditures. Refer to "—Capital Expenditures" below for further details. However, if market conditions were to worsen significantly, then our cash resources may decline to a level that may put at risk our ability to pay our lender and other creditors. In May 2021, we entered into an agreement with First Citizens Bank & Trust Company (formerly known as CIT Bank N.A.) for a loan facility of up to \$34.25 million bearing interest at LIBOR plus a margin of 3.75% per annum. The proceeds of this financing were used to repay the outstanding balance of the EnTrust Loan Facility. In August 2022, we entered into a deed of accession, amendment and restatement of the CIT Loan Facility with First Citizens Bank & Trust Company (formerly known as CIT Bank N.A.), whereby the CIT Loan Facility was amended and restated and an additional borrower, Salamina Maritime Limited, acceded to the CIT Loan Facility. The CIT Loan Facility principal amount was increased to \$52.25 million, by a top up loan amount of \$18 million for the purpose of financing our vessel *Orion Globe* and for general corporate and working capital purposes. The CIT Loan Facility (including the new top up loan amount) became further secured by a first preferred mortgage over the vessel *Orion Globe*. Furthermore, the LIBOR interest provisions of the CIT Loan Facility were replaced with Term SOFR plus a margin of 3.35% (or 5.35% default interest) per annum. In August 2023, we entered into a second deed of accession, amendment and restatement of the CIT Loan Facility with First Citizens Bank & Trust Company (formerly known as CIT Bank N.A.), whereby the CIT Loan Facility was further amended and restated and two additional borrowers, Argo Maritime Limited and Talisman Maritime Limited, acceded to the CIT Loan Facility. The CIT Loan Facility was further increased to \$72.25 million, by a top up loan amount of \$25 million for the purpose of financing our vessels *Diamond Globe* and *Power Globe* and for general corporate and working capital purposes. The CIT Loan Facility (including the new top up loan amount) became further secured by first preferred mortgages over the vessels *Diamond Globe* and *Power Globe*. The CIT Loan Facility currently bears interest at Term SOFR together with an adjustment of 0.1% per annum plus a margin of 2.70% (or 4.70% default interest) per annum.

[Table of Contents](#)

The mandatory debt repayments in 2024 under the CIT Loan Facility are \$6.3 million, and we have already paid \$1.6 million of such amount.

As of December 31, 2023, our CIT Loan Facility contained covenants that require (1) a minimum loan (including any exposure under a related swap agreement) to value ratio of 70% until May 2024, and thereafter 65% and (2) a maximum leverage ratio of 0.75:1.00. If the values of our vessels were to decline as a result of COVID-19 or otherwise, we may not satisfy these requirements. If we do not satisfy these requirements, we will need to post additional collateral or prepay outstanding loans to bring us back into compliance, or we will need to seek waivers, which may not be available or may be subject to conditions.

In the future, we may require capital to fund acquisitions or to improve or support our ongoing operations and debt structure, particularly in light of economic conditions resulting from the Russian/Ukraine conflict and the Israel/Hamas war, and general conditions in the dry bulk market. We may from time to time seek to raise additional capital through equity or debt offerings, including sale and leaseback transactions, selling vessels or other assets, pursuing strategic opportunities, or otherwise. We may also from time to time seek to incur additional debt financing from private or public sector sources, refinance our indebtedness or obtain waivers or modifications to our credit agreements to obtain more favorable terms, enhance flexibility in conducting our business, or otherwise. We may also seek to manage our interest rate exposure through hedging transactions. We may seek to accomplish any of these independently or in conjunction with one or more of these actions. However, if market conditions are unfavorable, we may be unable to accomplish any of the foregoing on acceptable terms or at all.

As of December 31, 2023, we were in compliance with all financial covenants under the CIT Loan Facility.

As of December 31, 2023, we had approximately \$3.6 million in “restricted cash.” As of December 31, 2023, we had an aggregate debt outstanding of \$52.6 million, from the CIT Loan Facility. Please see “—Cash Flows” below to see our cash position at December 31, 2023.

On February 23, 2024, we, through our subsidiary Daxos Maritime Limited, entered into a \$28 million sale and leaseback agreement with SK Shipholding S.A., a subsidiary of Shinken, with respect to the approximately 64,000 dwt bulk carrier to be named “GLBS MIGHT,” which is scheduled to be delivered during the third quarter of 2024. For more information regarding the terms of the sale and leaseback agreement and our other financing arrangements, see “—Indebtedness.”

Our primary uses of funds have been vessel operating expenses, general and administrative expenses, expenditures incurred in connection with ensuring that our vessels comply with international and regulatory standards, financing expenses, installments under construction contracts and repayments of bank loans.

Working capital, which is current assets, minus current liabilities, amounted to approximately \$69.8 million as of December 31, 2023 and to \$45.4 million as of December 31, 2022. If we are unable to satisfy our liquidity requirements, we may not be able to continue as a going concern. Six of our vessels are pledged as collateral to the banks, and therefore if we were to sell one or more of those vessels, the net proceeds of such sale would be used first to repay the outstanding debt to which the vessel collateralized, and the remainder, if any, would be for our use, subject to the terms of our remaining loan and credit arrangements.

Cash Flows

Cash and cash equivalents were \$74.2 million in unrestricted bank deposits as of December 31, 2023, and \$52.8 million in unrestricted bank deposits as of December 31, 2022.

Restricted cash that consists of cash pledged as collateral was \$3.6 million at the end of 2023, and \$6 million at the end of 2022. We consider highly liquid investments such as bank time deposits with an original maturity of three months or less to be cash equivalents.

Net Cash Generated From / (Used In) Operating Activities

Net cash used in operating activities in 2023 amounted to \$4.5 million, compared to net cash generated from operating activities of \$26.9 million in 2022. The decrease is primarily attributable to a decrease in the average number of vessels of our fleet and the average TCE rates achieved by the vessels in our fleet in 2023 compared to 2022.

Net Cash Generated From / (Used In) Investing Activities

Net cash generated from investing activities was \$18.4 million during the year ended December 31, 2023, which was mainly attributable to the net proceeds from the sale of certain of our vessels amounting to \$35.1 million and \$2.6 million from interest received, partially offset by the advances of \$19.1 million paid for the newbuildings during 2023, and vessels' improvements and purchases of office furniture and equipment amounting to \$0.2 million.

Net cash used in investing activities was \$29 million during the year ended December 31, 2022, which was mainly attributable to the advances paid for the three newbuildings during 2022.

Net Cash Generated From Financing Activities

Net cash generated from financing activities during the year ended December 31, 2023 amounted to \$7.4 million and consisted of \$25 million proceeds from our new deed of accession, amendment and restatement of the CIT Loan Facility entered into in August 2023 and a \$2.3 million decrease in pledged bank deposits, partially offset by the \$0.4 million payment of financing costs, \$2.5 million of interest paid, \$6.2 million of indebtedness that we repaid and \$10.5 million of indebtedness that we prepaid and a \$0.3 million repayment of lease liability.

Net cash generated from financing activities during the year ended December 31, 2022 amounted to \$9.7 million and consisted of \$18 million proceeds from our new deed of accession, amendment and restatement of the CIT Loan Facility entered into in August 2022, partially offset by \$0.3 million payment of financing costs, \$1.6 million of interest paid, \$5.4 million of indebtedness that we repaid, a \$0.7 million increase of pledged bank deposits and a \$0.3 million repayment of lease liability.

Liquidity and Capital Resources" of our Form 20-F filed with the SEC on March 20, 2023 for a discussion of the liquidity and capital resources that we had in 2022.

Indebtedness

We operate in a capital-intensive industry which requires significant amounts of investment, and we fund a portion of this investment through long-term bank debt.

As of December 31, 2023 and 2022, we and our vessel-owning subsidiaries had outstanding borrowings under the CIT Loan Facility of an aggregate of \$52.6 million and \$44.4 million, respectively.

EnTrust Loan Facility

On June 24, 2019, the Company drew down \$37 million and fully prepaid the existing loan facilities with Hamburg Commercial Bank AG (formerly known as HSH Nordbank AG) and Macquarie Bank International Limited. The loan facility was in the names of Devocean Maritime Ltd., Domina Maritime Ltd, Dulac Maritime S.A., Artful Shipholding S.A. and Longevity Maritime Limited as the borrowers and is guaranteed by Globus. The loan facility bore interest at LIBOR plus a margin of 8.50% (or 10.5% default interest) for interest periods of three months. This loan facility was referred to as EnTrust Loan Facility.

[Table of Contents](#)

In March 2021, the Company prepaid \$6.0 million of the EnTrust loan facility, which represented all amounts that would otherwise come due during calendar year 2021 and on May 10, 2021, the Company fully prepaid the balance of the EnTrust Loan facility.

CIT Loan Facility

In May 2021, we entered into a term loan facility with First Citizens Bank & Trust Company (formerly known as CIT Bank N.A.) (the "CIT Loan Facility"), relating to the refinancing of our ships, the *River Globe*, *Sky Globe*, *Star Globe*, *Moon Globe*, *Sun Globe*, and *Galaxy Globe*. The borrowers under the CIT Loan Facility were originally Devocean Maritime Ltd., Domina Maritime Ltd, Dulac Maritime S.A., Artful Shipholding S.A., Longevity Maritime Limited and Serena Maritime Limited. The CIT Loan Facility is guaranteed by Globus Maritime Limited. We fully drew \$34.25 million under the CIT Loan Facility on May 10, 2021 and used a significant portion of the proceeds to fully repay the amounts outstanding under our loan agreement with EnTrust. We also entered into a swap agreement with respect to LIBOR. We paid First Citizens Bank & Trust Company (formerly known as CIT Bank N.A.) an upfront fee in the amount of 1.25% of the total commitment of the loan.

On August 5, 2022, we entered into a deed of accession, amendment and restatement of the CIT Loan Facility with First Citizens Bank & Trust Company (formerly known as CIT Bank N.A.), whereby the CIT Loan Facility was amended and restated and an additional borrower, Salamina Maritime Limited, acceded to the CIT Loan Facility. The CIT Loan Facility principal amount was increased to \$52.25 million, by a top up loan amount of \$18 million for the purpose of financing our vessel *Orion Globe* and for general corporate and working capital purposes. The CIT Loan Facility (including the new top up loan amount) became further secured by a first preferred mortgage over the vessel *Orion Globe*. Furthermore, the LIBOR interest provisions of the CIT Loan Facility were replaced with Term SOFR plus a margin of 3.35% (or 5.35% default interest) per annum. We fully drew the \$18 million top up loan amount under the CIT Loan Facility on August 10, 2022. We also entered into a new swap agreement in order for the additional borrower to enter into hedging transactions (separately from those entered by the other borrowers) with First Citizens Bank & Trust Company (formerly known as CIT Bank N.A.) and we paid First Citizens Bank & Trust Company (formerly known as CIT Bank N.A.) an upfront fee in the amount of 1.00% of the top up loan amount.

On March 6, 2023, the Company, through a wholly owned subsidiary, entered into an agreement to sell the 2007-built *Sun Globe*. On May 10, 2023, the Company prepaid the total remaining amount of \$3.7 million of the CIT Loan Facility tranche of Longevity Maritime Limited (the owning company of the vessel *Sun Globe*) in order to conclude the sale and delivery of the vessel to the new owners which took place on June 5, 2023.

On August 10, 2023, we entered into a second deed of accession, amendment and restatement of the CIT Loan Facility with First Citizens Bank & Trust Company (formerly known as CIT Bank N.A.), whereby the CIT Loan Facility was further amended and restated and two additional borrowers, Argo Maritime Limited and Talisman Maritime Limited, acceded to the CIT Loan Facility. The CIT Loan Facility was further increased to \$72.25 million, by a top up loan amount of \$25 million for the purpose of financing our vessels *Diamond Globe* and *Power Globe* and for general corporate and working capital purposes. The CIT Loan Facility (including the new top up loan amount) became further secured by first preferred mortgages over the vessels *Diamond Globe* and *Power Globe*. We fully drew the \$25 million top up loan amount under the CIT Loan Facility on August 10, 2023. We paid First Citizens Bank & Trust Company (formerly known as CIT Bank N.A.) an upfront fee in the amount of 1.25% of the top up loan amount.

On August 11, 2023, the Company, through a wholly owned subsidiary, entered into an agreement to sell the 2009-built *Sky Globe*. On August 29, 2023 the Company prepaid the total remaining amount of \$3.3 million of the CIT Loan Facility tranche of Domina Maritime Ltd (the owning company of the vessel *Sky Globe*) in order to conclude the sale and delivery of the vessel to the new owners which took place on September 7, 2023.

On August 16, 2023, the Company, through a wholly owned subsidiary, entered into an agreement to sell the 2010-built *Star Globe*. On September 7, 2023 the Company prepaid the total remaining amount of \$3.6 million of the CIT Loan Facility tranche of Dulac Maritime S.A. (the owning company of the vessel *Star Globe*) in order to conclude the sale and delivery of the vessel to the new owners which took place on September 13, 2023.

Following the conclusion of the second amendment and restatement of the CIT Loan Facility and the sales of the vessels *Sun Globe*, *Sky Globe* and *Star Globe*, described above, the vessels securing the CIT Loan Facility are the *Diamond Globe*, *Power Globe*, *Orion Globe*, *River Globe*, *Moon Globe*, and *Galaxy Globe*. The remaining borrowers under the CIT Loan Facility are Devocean Maritime Ltd., Artful Shipholding S.A., Serena Maritime Limited, Salamina Maritime Limited, Argo Maritime Limited and Talisman Maritime Limited and the CIT Loan Facility remains guaranteed by Globus Maritime Limited.

The CIT Loan Facility currently bears interest at Term SOFR together with an adjustment of 0.1% per annum plus a margin of 2.70% (or 4.70% default interest) per annum. It consists of six tranches, which shall be repaid in consecutive quarterly installments with the final installment due on the first four tranches in May 2026 and on the final two tranches in August 2027. Through May 2026, each quarterly installment for all six tranches is an aggregate amount of \$1,564,394, with the balloon payment due in May 2026 for the first four tranches being an aggregate amount of \$19,040,909. Thereafter, each quarterly installment for the remaining two tranches is an aggregate amount of \$500,000, with the balloon payment due in August 2027 for the remaining two tranches in an aggregate amount of \$17,000,000.

The CIT Loan Facility may be prepaid prior to maturity. If the prepayment of the tranche financing Orion Globe occurs on or before August 10, 2024, the prepayment fee is 1% of the amount prepaid, subject to certain exceptions. If the prepayment of the tranche financing either Diamon Globe or Power Globe occurs on or before August 2024, the prepayment fee is 2% of the amount prepaid and thereafter until August 2025, the prepayment fee is 1% of the amount prepaid, subject to certain exceptions. We cannot reborrow any amount of the CIT Loan Facility that is prepaid or repaid.

The CIT Loan Facility is currently secured by:

- first preferred mortgages over *m/v River Globe*, *m/v Moon Globe*, *m/v Diamond Globe*, *m/v Power Globe*, *m/v Galaxy Globe* and *m/v Orion Globe*;
- pledges over the shares of each borrower; and
- pledges over bank accounts, a pledge of each borrower's rights under any swap agreement in respect of the CIT Loan Facility, a general assignment over each vessel's earnings, insurances and any requisition compensation in relation to that vessel, and an assignment of the rights of Globus Maritime with respect to any indebtedness owed to it by the borrowers.

We are not permitted, without the written consent of First-Citizens Bank & Trust Company, to enter into a charter the duration of which exceeds or is capable of exceeding, by virtue of any optional extensions, 12 months.

The CIT Loan Facility contains various covenants requiring the borrowers and/or Globus Maritime Limited to, among other things, ensure that:

- the borrowers maintain a minimum cash reserve at all times of not less than \$500,000 for each mortgaged ship;
- a minimum loan (including any exposure under a related swap agreement) to value ratio of 70% is maintained until May 2024, and thereafter 65%;
- each borrower maintains in its earnings account minimum liquidity of \$150,000 in respect of each vessel owned by it then subject to a mortgage;
- Globus Maritime Limited maintains cash in an amount of not less than \$150,000 for each vessel that it owns that is not subject to a mortgage as part of the CIT Loan Facility;
- Globus Maritime Limited maintains a maximum leverage ratio of 0.75:1.00; and
- if Globus Maritime Limited pays a dividend, subject to certain exceptions, then the debt service coverage ratio (i.e., aggregate EBITDA of Globus Maritime Limited for any period to the debt service for such period) after such dividend and for the remaining tenure of the CIT Loan Facility shall be at least 1.15:1.00.

Each borrower must create a reserve fund in the reserve account to meet the anticipated dry docking and special survey fees and expenses for the relevant vessel owned by it and (for certain vessels) the installation of a ballast water treatment system on the vessel owned by it by maintaining in the reserve account a minimum credit balance that may not be withdrawn (other than for the purpose of covering the documented and incurred costs and expenses for the next special survey of that ship). Amounts must be paid into this reserve account quarterly, such that \$1,200,000 is set aside by each borrower for its vessel's special survey, except for Serena Maritime Limited and Salaminia Maritime Limited, each of which is required to set aside quarterly payments that aggregate to \$900,000, Argo Maritime Limited, which is required to set aside quarterly payments that aggregate to \$675,000, and Talisman Maritime Limited, which is required to set aside quarterly payments that aggregate to \$315,000.

The CIT Loan Facility also contains limitations on the occurrence of additional indebtedness by each borrower, other than indebtedness that is subordinated to the CIT Loan Facility indebtedness and/or indebtedness incurred in the ordinary course of owning, operating, trading, chartering, maintaining and repairing the vessel owned by the relevant borrower that does not exceed \$500,000 or \$50,000, depending on the circumstances set out in the CIT Loan Facility.

Globus Maritime Limited is prohibited from making dividends (other than up to \$1,000,000 annually on or in respect of its preferred shares) in cash or redeem or repurchase its common shares unless there is no event of default under the CIT Loan Facility, the net loan (including any exposure under a related hedging agreement) to value ratio is less than 60% before the making of the dividend and Globus Maritime Limited is in compliance with the debt service coverage ratio, and Globus Maritime Limited must prepay the CIT Loan Facility in an equal amount of the dividend.

The CIT Loan Facility also prohibits certain changes of control, including, among other things, the delisting of Globus from Nasdaq or another internationally recognized stock exchange, or the acquisition by any person or group of persons (acting in concert) of a majority of the shareholder voting rights or the ability to appoint a majority of board members or to give directions with respect to the operating and financial policies of Globus Maritime Limited with which the directors are obliged to comply, other than those persons disclosed to First-Citizens Bank & Trust Company (formerly known as CIT Bank N.A.) on or around the date of the CIT Loan Facility and their affiliates and immediate family members.

As at December 31, 2023, the Company was in compliance with the covenants of the CIT Loan Facility. We believe that the CIT Loan Facility and the sale and leaseback arrangement referenced below are adequate to meet our needs for the foreseeable future based on our current fleet.

Financing arrangements post-December 31, 2023

\$28 million Sale and Leaseback Agreement – GLBS MIGHT

On February 23, 2024, we, through our subsidiary Daxos Maritime Limited (“Daxos”), entered into a \$28 million sale and leaseback agreement with SK Shipholding S.A., a subsidiary of Shinken, with respect to the approximately 64,000 dwt bulk carrier to be named “GLBS MIGHT,” which is scheduled to be delivered during the third quarter of 2024. Upon delivery of the vessel, we expect to bareboat charter back the vessel for a charter period of 10 years. Charter hire shall be paid monthly, in consecutive instalments consisting of (i) a fixed amount equal to \$3,000 per day for the first three years from the delivery date, \$3,200 per day for the next two years, \$3,300 per day for the two years following, and \$3,800 per day for the final three years and (ii) a variable amount priced at Term SOFR plus a 2.1% margin for the first three years from the delivery date, Term SOFR plus a 2.45% margin for the following four years, and Term SOFR plus a 2.35% margin for the final three years. The deposit and balance payable under the memorandum of agreement (the “MOA”) in connection of the sale to the vessel to SK Shipholding S.A., as well as the performance of Daxos’ obligations under both the MOA and the bareboat charter are guaranteed by us. As part of this transaction, we will have continuous options to buy back the vessel following the third anniversary of its delivery, at purchase prices stipulated in the bareboat charter depending on when the option is exercised. At the end of the ten-year period, we will have an obligation to buy back the vessel at a purchase price of \$15,809,000.

Financial Instruments

The major trading currency of our business is the U.S. dollar. Movements in the U.S. dollar relative to other currencies can potentially impact our operating and administrative expenses and therefore our operating results.

We believe that we have a low-risk approach to treasury management. Cash balances are invested in term deposit accounts, with their maturity dates projected to coincide with our liquidity requirements. Credit risk is diluted by placing cash on deposit with a variety of institutions in Europe, including a small number of banks in Greece, which are selected based on their credit ratings. We have policies to limit the amount of credit exposure to any particular financial institution.

As of December 31, 2023 and 2022, we did not use any financial instruments designated in our consolidated financial statements as those with hedging purposes.

Capital Expenditures

We make capital expenditures from time to time in connection with our vessel acquisitions or vessel improvements.

On June 9, 2021, we took delivery of the m/v “Diamond Globe”, a 2018-built Kamsarmax dry bulk carrier, through its subsidiary, Argo Maritime Limited, for a purchase price of \$27 million financed with available cash. The m/v “Diamond Globe” was built at Jiangsu New Yangzi Shipbuilding Co., Ltd and has a carrying capacity of 82,027 dwt.

On July 20, 2021, we took delivery of the m/v “Power Globe”, a 2011-built Kamsarmax dry bulk carrier, through its subsidiary, Talisman Maritime Limited, for a purchase price of \$16.2 million financed with available cash. The m/v “Power Globe” was built at Universal Shipbuilding Corporation in Japan and has a carrying capacity of 80,655 dwt.

On November 29, 2021, we took delivery of the m/v “Orion Globe”, a 2015-built Kamsarmax dry bulk carrier, through its subsidiary, Salamina Maritime Limited, for a purchase price of \$28.4 million financed with available cash. The m/v “Orion Globe” was built at Tsuneishi Zosen in Japan and has a carrying capacity of 81,837 dwt.

On April 29, 2022, we entered into a contract, through our subsidiary Calypso Shipholding S.A., for the construction and purchase of one fuel efficient bulk carrier with a carrying capacity of approximately 64,000 dwt. The vessel was built at Nihon Shipyard Co. in Japan. The total consideration for the construction of the vessel was approximately \$37.5 million, which we financed with equity. In May 2022, we paid the first installment of \$7.4 million, in March 2023, we paid the second installment of \$3.8 million, in September 2023, we paid the third installment of \$3.7 million and in November 2023, we paid the fourth installment of \$3.7 million. On January 22, 2024, we paid the final installment of \$18.5 million and on January 25, 2024 we took delivery of m/v GLBS Hero.

On May 13, 2022, we signed two contracts, through our subsidiaries Daxos Maritime Limited and Paralus Shipholding S.A., for the construction and purchase of two fuel efficient bulk carriers with a carrying capacity of approximately 64,000 dwt each. The sister vessels will be built at Nantong COSCO KHI Ship Engineering Co. in China, with the first one scheduled to be delivered during the third quarter of 2024 and the second one scheduled to be delivered during the fourth quarter of 2024. The total consideration for the construction of both vessels is approximately \$70.3 million, which we intend to finance with a combination of debt and equity. In May 2022 we paid the first installment of \$13.8 million and in November 2022 we paid the second installment of \$6.9 million for both vessels under construction.

On August 18, 2023, we signed two contracts, through Thalia Shipholding S.A. and Olympia Shipholding S.A., for the construction and purchase of two fuel efficient bulk carrier of approximately 64,000 dwt each. The two vessels will be built at Nihon Shipyard Co. and are scheduled to be delivered during the second half of 2026. The total consideration for the construction of both vessels is approximately \$75.5 million, which we intend to finance with a combination of debt and equity. In August 2023, we paid the first installment of \$7.5 million for both vessels under construction.

We have no other binding agreements to purchase any additional vessels but may do so in the future. We expect that any purchases of vessels will be paid for with cash from operations, with funds from new credit facilities from banks with whom we currently transact business, with loans from banks with whom we do not have a banking relationship but will provide us funds at terms acceptable to us, with funds from equity or debt issuances, including sale and leaseback transactions, or any combination thereof.

We incur additional capital expenditures when our vessels undergo surveys. This process of recertification may require us to reposition these vessels from a discharge port to shipyard facilities, which will reduce our operating days during the period. The loss of earnings associated with the decrease in operating days, together with the capital needs for repairs and upgrades, is expected to result in increased cash flow needs. We expect to fund these expenditures with cash on hand.

C. Research and Development, Patents and Licenses, etc.

We incur, from time to time, expenditures relating to inspections for acquiring new vessels that meet our standards. Such expenditures are insignificant and they are expensed as they incur.

D. Trend Information

Our results of operations depend primarily on the charter rates earned by our vessels. Since the start of the financial crisis in 2008 the performance of the BDI has been characterized by high volatility, as the growth in the size of the dry bulk fleet outpaced growth in vessel demand for an extended period of time.

Specifically, in the period from 2010 to 2020, the size of the fleet in terms of deadweight tons grew by an annual average of about 6.0% while the corresponding growth in demand for dry bulk carriers grew by 3.1%, resulting in a drop of about 61% in the value of the BDI over the period. The global dry cargo fleet is forecasted to grow 2.7% in 2024 and 1.9% in 2025, according to BIMCO, and BIMCO expects cargo demand to grow by 0-1% in 2024 and 0.5-1.5% in 2025. BIMCO estimates that the dry bulk orderbook is 8.7% of the current fleet as of January 2024, with a 12% newbuilding contracting in 2023, half of which are expected to be delivered after 2025.

Charter (or hire) rates paid for dry bulk vessels are generally a function of the underlying balance between vessel supply and demand. Over the past 25 years, dry bulk cargo charter rates have passed through cyclical phases and changes in vessel supply and demand have created a pattern of rate “peaks” and “troughs.” Generally, short-term or spot/voyage charter rates will be more volatile than time charter rates, as they reflect short-term movements in demand and market sentiment. The BDI remained significantly depressed from 2008-2019. In 2021, the BDI rose to a high of 5,650 on October 7, 2021 and had a low of 1,303 on February 10, 2021. In 2022, the BDI ranged from a low of 965 on August 31, 2022 to a high of 3,369 on May 23, 2022. In 2023, the BDI ranged from a low of 530 on February 16, 2023 to a high of 3,346 on December 4, 2023. During calendar year 2024 to March 13, 2024, the BDI has ranged from a high of 2,377, (on March 11, 2024) to a low of 1,308 (on January 17, 2024).

In the beginning of 2024, the International Monetary Fund forecasted the global economy to grow by 2.9% for the year 2024 and 3.1% for the year 2025.

The Black Sea region is an important area for dry bulk shipping, as major grain cargoes are loaded and transported in the Black Sea for worldwide discharging. As hostilities continue, we are aware that these grain volumes may be sourced elsewhere. This means increased ton miles for the dry bulk fleets as these commodities will need to be sourced possibly from the USG or ECSA areas, and travel to the Far East. As a result, the coal trade flows may be significantly affected especially in the event that countries and regions decide to move away from Russian sourced energy commodities; these then will have to be sourced from elsewhere - potentially through faraway overseas routes. As hostilities enter their third year, there continues to be significant volatility and increased uncertainty with a significant impact on the dry bulk market. If these conditions are sustained, the longer-term net impact on the dry bulk shipping market and our business would be difficult to predict. However, such events may have unpredictable consequences, and contribute to instability in global economy, a decrease in supply or cause a decrease in worldwide demand for certain goods and, thus, shipping.

In addition, disruptions in the Red Sea and the Panama Canal could lead to longer sailing distances, with the possibility of ships being rerouted for longer distances to get to certain points, resulting in increased need for ships. In particular, following the outbreak of the 2023 Israel–Hamas war, missile attacks by the Houthis have been reported at vessels passing off Yemen’s coast in the Red Sea in December 2023. This has caused several vessels to divert via the Cape of Good Hope in South Africa, in order to avoid transiting the Red Sea. The initial effect of Red Sea tensions on the dry bulk market has been positive for the dry bulk market as the longer route via the Cape of Good Hope is absorbing more vessels, thereby reducing supply. Looking forward, it is impossible to predict the course of this conflict and whether there would be any serious escalation emanating from the current state of affairs. Similar to the conflict in Ukraine, we believe that a generalized conflict involving several Middle Eastern nations would possibly result in higher inflation and possibly slower economic growth, which could potentially have an adverse effect on the demand for dry bulk commodities. To the extent that Red Sea tensions remain contained to the region, the effects on the dry bulk market could be similar to what we have seen so far. Apart from the effect on the dry bulk market, the current situation presents a significant safety hazard for all vessels transiting the Red Sea, and could ultimately potentially result in heavy damage being sustained due to successful missile strikes.

The dry bulk orderbook stands at 86.8 million dwt, or 8.7% of the world’s total dry bulk fleet. BIMCO estimates that Panamax and Supramax fleets will account for 71% of deliveries in 2024-25. This could lead to recycling of older ships or reduced rates for those size ships if there is an increase in supply.

B. Compensation

In August 2016, the Company entered into a consultancy agreement with Goldenmare Limited, an affiliated company of our CEO, Mr. Athanasios Feidakis, for the purpose of providing consulting services to the Company in connection with the Company’s international shipping and capital raising activities, including but not limited to assisting and advising the Company’s CEO. The annual fees for the services provided previously amounted to €200,000. Goldenmare Limited is eligible to receive bonus compensation (whether in the form of cash and/or equity and/or quasi-equity awards) for the services provided and such bonus shall be determined by the Remuneration Committee or the Board of the Company. If the Company terminates the agreement without cause, or either party terminates after a change of control of the Company, then we will pay the consultant double the annual consulting fees plus the average annual bonus (including the value of equity awards) granted to the consultant throughout the term of the consultancy agreement. In December 2020, we agreed to increase the consultancy fees of Goldenmare Limited from €200,000 to €400,000 per annum and additionally pay a one-time cash bonus of \$1.5 million pursuant to the consultancy agreement, all of which was paid in 2021. In addition, in December 2021, we agreed to pay a one-time cash bonus of \$1.5 million to Goldenmare Limited pursuant to the consultancy agreement, half of which was to be paid immediately and the other half during 2022, if at the time of the payment Mr. Athanasios Feidakis remains our CEO and the Goldenmare Limited has not terminated its consultancy agreement. At the time of the filing of this annual report on Form 20-F, all of the December 2021 bonus has been paid. Each of our other directors has an appointment letter relating to his or her appointment as a director, none of which provide for benefits upon any future termination of employment or change of control.

[Table of Contents](#)

In 2023, the aggregate remuneration that should have been paid to Goldenmare amounted to approximately \$432,000, but we paid approximately \$355,000 and owed approximately \$77,000 as of December 31, 2023. In 2022, the aggregate remuneration that should have been paid to Goldenmare amounted to approximately \$2.0 million, none of which was paid as of December 31, 2022 but has subsequently been paid in full. In 2021, the aggregate remuneration that should have been paid to Goldenmare amounted to approximately \$1.2 million, but we paid approximately \$231,000 and owed approximately \$985,000 as of December 31, 2021 but has subsequently been paid in full. We did not pay or owe any remuneration directly to Athanasios Feidakis, our sole executive officer and sole senior manager, in 2021, 2022, or 2023.

On March 13, 2024, we awarded Goldenmare a one time bonus of \$3 million, half of which is payable immediately upon the delivery of the newbuilding vessel Hull NE442 (i.e., the vessel being constructed by Nantong Cosco Khi Ship Engineering pursuant to the agreement dated May 13, 2022) and the balance at the delivery of Hull NE443 (i.e., the vessel being constructed by Nantong Cosco Khi Ship Engineering pursuant to the other agreement dated May 13, 2022), in each case assuming Athanasios Feidakis remains Chief Executive Officer at each such relevant time.

The aggregate compensation, including bonuses, actually paid to Goldenmare was approximately \$2.5 million in 2023, \$57,000 in 2022 and \$1.9 million in 2021. Our senior management received no common shares in 2023, 2022 and 2021. In addition, we owed Goldenmare \$77,000, \$2.1 million and \$985,000 on December 31, 2023, 2022 and 2021, respectively. We currently owe Goldenmare an aggregate of \$77,000. We did not pay, and do not owe, any compensation directly to Athanasios Feidakis, our sole executive officer, who comprises our senior management.

In 2022 we changed how we compensate our non-executive directors. In 2022 and 2023, our non-executive directors each received \$40,000 annually as members of our board. In addition, in 2022 and 2023, each non-executive and independent directors who previously received shares received an additional \$20,000 per year. In 2022 and 2023, non-executive and independent directors on our remuneration committee and nomination committee each received an additional \$5,000 annually per committee and the chairperson of our audit committee received an additional \$10,000 annually, our lead independent director (i.e., Jeffrey O. Parry) received an additional \$10,000 annually, and the chairperson of our board received an additional \$40,000 annually. The aggregate compensation other than share based compensation actually paid to our non-executive directors in 2023 was \$240,000, in 2022 was \$285,000 and in 2021 was \$120,000. In addition, in 2021, non-executive directors (excluding our non-executive Chairman, Mr. George Feidakis) received an aggregate of 12,178 common shares. In 2023 and 2022 they received no common shares. As of December 31, 2023, we had not yet paid our non-executive directors the cash amounts that we agreed to pay them for their prior service; such amount in the aggregate was \$60,000 for 2023, which amount was paid in 2024. In 2024, we changed the compensation scheme of our directors and pay each director (except for a director who is also an executive officer) \$80,000 per annum, regardless of committee participation.

We are bound by Greek labor law with respect to our Greek employees, which provides certain payments to these employees upon their dismissal or retirement. We accrued as of December 31, 2023 a non-current liability of approximately \$171,000 for such payments.

In line with Nasdaq requirements, we have established a clawback policy which, subject to limited exceptions, requires that any incentive compensation (including both cash and equity compensation) paid to any current or former executive officer on or after October 2, 2023 is subject to recoupment if (i) the incentive compensation was calculated based on financial statements that were required to be restated due to material noncompliance with financial reporting requirements, without regard to any fault or misconduct; and (ii) that noncompliance resulted in overpayment of the incentive compensation within the three fiscal years preceding the date the restatement.

We do not have a retirement plan for our officers or directors. For information regarding the Company's Equity Incentive Plan, see "Item 6.E. Share Ownership—Equity Incentive Plan."

C. Board Practices

Our board of directors and executive officer oversee and supervise our operations.

Each director holds office until his successor is elected or appointed, unless his office is earlier vacated in accordance with the articles of incorporation or with the provisions of the BCA. In addition to cash compensation, we historically paid each of Mr. Kazantzidis and Mr. Parry \$20,000 in common shares annually, however, in 2022 we changed our policies and each of those directors receives cash payments as further detailed in “Item 6.B. Compensation.” The members of our senior management are appointed to serve at the discretion of our board of directors. Our board of directors and committees of our board of directors schedule regular meetings over the course of the year. Under the Nasdaq rules and Rule 10A-3 of the Exchange Act, we believe that Mr. Ioannis Kazantzidis, Mr. Parry and Ms. Tampourea are independent directors. Each director is fully indemnified by us for actions associated with being a director to the extent permitted under Marshall Islands law.

We have an Audit Committee, a Remuneration Committee and a Nomination Committee.

The Audit Committee is comprised of Ioannis Kazantzidis and Jeffrey O. Parry. It is responsible for ensuring that our financial performance is properly reported on and monitored, for reviewing internal control systems and the auditors’ reports relating to our accounts and for reviewing and approving certain related party transactions. Our board of directors has determined that Ioannis Kazantzidis is our audit committee financial expert, and he is the chair of the committee. Each Audit Committee member has experience in reading and understanding financial statements, including statements of financial position, statements of comprehensive income and statements of cash flows.

The Remuneration Committee is comprised of Jeffrey O. Parry, Ioannis Kazantzidis and Christina Tampourea. It is responsible for determining, subject to approval from our board of directors, the remuneration guidelines to apply to our executive officer, secretary and other members of the executive management as our board of directors designates the Remuneration Committee to consider. It is also responsible for suggesting the total individual remuneration packages of each director including, where appropriate, bonuses, incentive payments and share options. The Remuneration Committee is responsible for declaring dividends on our Series A Preferred Shares, if any. The Remuneration Committee will also liaise with the Nomination Committee to ensure that the remuneration of newly appointed executives falls within our overall remuneration policies.

The Nomination Committee is comprised of George Feidakis, Ioannis Kazantzidis, Jeffrey O. Parry and Christina Tampourea. It is responsible for reviewing the structure, size and composition of our board of directors and identifying and nominating candidates to fill board positions as necessary.

For information about the term of each director, see “Item 6.A. Directors and Senior Management.”

We do not employ a significant number of temporary employees.

E. Share Ownership

With respect to the total number of common shares owned by our executive officer and our directors, individually and as a group, please read “Item 7. Major Shareholders and Related Party Transactions.”

Equity Incentive Plan

On March 13, 2024, our board of directors adopted the Globus Maritime Limited 2024 Equity Incentive Plan, or the Plan. The purpose of the Plan is to provide our officers, key employees, directors, consultants and service provider, whose initiative and efforts are deemed to be important to the successful conduct of our business, with incentives to (a) enter into and remain in the service of our company or our subsidiaries or affiliates, (b) acquire a proprietary interest in the success of our Company, (c) maximize their performance and (d) enhance the long-term performance of our Company.

The number of our common shares reserved for issuance under the Plan is 2,000,000 shares. The Plan is administered by the remuneration committee of our board of directors. Under the Plan, our officers, key employees, directors, consultants and service providers may be granted incentive stock options, non-qualified stock options, stock appreciation rights, restricted stock, unrestricted stock, restricted stock units, unrestricted stock, other equity-based or equity-related awards, and dividend equivalents at the discretion of our remuneration committee. Any awards granted under the Plan that are subject to vesting are conditioned upon the recipient's continued service as an employee or a director of the Company, through the applicable vesting date.

Adjustments may be made to outstanding awards in the event of a corporate transaction or change in capitalization or other extraordinary event. In the event of a "change in control" (as defined in the Plan), unless otherwise provided by the Plan administrator in an award agreement, awards then outstanding shall become fully vested and exercisable in full.

Our board of directors may amend or terminate the Plan and may amend outstanding awards, provided that no such amendment or termination may be made that would materially impair the rights or materially increase any obligations of a grantee under an outstanding award without such grantee's consent. Shareholders' approval of Plan amendments may be required in certain circumstances if required by applicable rules of a national securities exchange or the SEC. Unless terminated earlier by our board of directors, the Plan will expire 10 years from the date on which the Plan was adopted by our board of directors.

Grants under the Equity Incentive Plan

No awards were granted pursuant to any equity incentive plan during the years ended December 31, 2023, 2022 and 2021, but we issued shares directly to our directors, which was not part of the Plan.

F. Disclosure of a registrant's action to recover erroneously awarded compensation

Except as indicated in the footnotes to this table and subject to community property laws where applicable, the persons named in the table have sole voting and investment power with respect to all shares shown as beneficially owned by them.

The numbers of shares and percentages of beneficial ownership are based on 20,582,301 common shares outstanding on March 13, 2024. All common shares owned by the shareholders listed in the table below have the same voting rights as the other of our outstanding common shares.

In computing the number of common shares beneficially owned by a beneficial holder and the percentage ownership of that beneficial holder, common shares underlying warrants held by that beneficial holder that are exercisable as of March 13, 2024, or exercisable within 60 days after March 13, 2024, are deemed outstanding. Such common shares, however, are not deemed outstanding for the purposes of computing the percentage ownership of any other person. The annual fees for the services provided amounted to €200,000. The consulting company is eligible to receive bonus compensation (whether in the form of cash and/or equity and/or quasi-equity awards) for the services provided and such bonus shall be determined by the Remuneration Committee or the Board of the Company. If the Company terminates the agreement without cause, or either party terminates after a change of control of the Company, then we will pay the consulting company double the annual consultancy fee plus the average annual bonus (including the value of equity awards) granted to the consulting company throughout the term of the consultancy agreement. In December 2020, we agreed to increase the consultancy fees of Goldenmare Limited from €200,000 to €400,000 per annum and additionally pay a one-time cash bonus of \$1.5 million pursuant to the consultancy agreement, which was paid in full in 2021. In addition, in December 2021, we agreed to pay a one-time cash bonus of \$1.5 million to Goldenmare Limited pursuant to the consultancy agreement, half of which was to be paid immediately and the other half during 2022, if at the time of the latter payment Mr. Athanasios Feidakis remains our CEO and Goldenmare Limited has not terminated its consultancy agreement, which was paid in full in 2023. Each of our other directors has a contract relating to his appointment as a director.

On March 14, 2024, we awarded a consultant affiliated with our chief executive officer a one time bonus of \$3 million, half of which is payable immediately upon the delivery of the newbuilding vessel Hull NE442 (i.e., the vessel being constructed by Nantong Cosco Khi Ship Engineering pursuant to the agreement dated May 13, 2022) and the balance at the delivery of Hull NE443 (i.e., the vessel being constructed by Nantong Cosco Khi Ship Engineering pursuant to the other agreement dated May 13, 2022), in each case assuming Athanasios Feidakis remains Chief Executive Officer at each such relevant time.

On July 15, 2021 we entered into a consultancy agreement with Eolos Shipmanagement S.A. for the purpose of providing consultancy services to Eolos Shipmanagement S.A. For these services our Manager receives a daily fee of \$1,000. Our chairman of the board is the majority shareholder of Eolos Shipmanagement.

Series B Preferred Shares

On June 12, 2020, we entered into a stock purchase agreement and issued 50 of our newly designated Series B preferred shares, par value \$0.001 per share, to Goldenmare Limited, a company controlled by our Chief Executive Officer, Athanasios Feidakis, in return for \$150,000, which amount was settled by reducing, on a dollar-for-dollar basis, the amount payable by the Company to Goldenmare Limited pursuant to a consultancy agreement. On July 27, 2020, we entered into another stock purchase agreement and issued an additional 250 of our Series B preferred shares to Goldenmare Limited in return for \$150,000. The \$150,000 was paid by reducing, on a dollar-for-dollar basis, the amount payable by the Company to Goldenmare Limited pursuant to a consultancy agreement. In addition, we increased the maximum voting rights under the Series B preferred shares from 49.0% to 49.99%. On March 2, 2021, we entered into another stock purchase agreement and issued an additional 10,000 of our Series B preferred shares to Goldenmare Limited in return for \$130,000, which was settled by reducing, on a dollar-for-dollar basis, the amount payable by the Company to Goldenmare Limited pursuant to a consultancy agreement. For a description of the Series B preferred shares, see "Description of Securities" filed as Exhibit 2.1 hereto.

We historically had entered into certain related party transactions. See "Item 4.A. History and Development of the Company."

Legal Proceedings

We have not been involved in any legal proceedings which may have, or have had, a significant effect on our business, financial position, results of operations or liquidity, nor are we aware of any other proceedings that are pending or threatened which may have a significant effect on our business, financial position, results of operations or liquidity. From time to time, we may be subject to legal proceedings and claims in the ordinary course of business, principally personal injury and property casualty claims. We expect that these claims would be covered by insurance, subject to customary deductibles. Those claims, even if lacking merit, could result in the expenditure of significant financial and managerial resources.

Our Dividend Policy and Restrictions on Dividends

The declaration, timing and amount of any dividend is subject to the discretion of our board of directors and will be dependent upon our earnings, financial condition, market prospects, capital expenditure requirements, investment opportunities, restrictions in our financing arrangements, the provisions of the Marshall Islands law affecting the payment of dividends to shareholders, overall market conditions, reserves established by our board of directors, increased or unanticipated expenses, additional borrowings and future issuances of securities, and other factors deemed relevant by our board of directors from time-to-time.

We have not paid any dividends on our common shares since 2012. Our dividend policy was historically, but is no longer, to pay to holders of our shares a variable quarterly dividend in excess of 50% of the net income of the previous quarter subject to any reserves our board of directors may from time to time determine are required.

Our board of directors may review and amend our dividend policy from time to time in light of our plans for future growth and other factors.

Our Remuneration Committee will also determine by unanimous resolution, in its sole discretion, when and to the extent dividends are paid to the holders of our Series A Preferred Shares, to the extent any are outstanding.

We are a holding company, with no material assets other than the shares of our subsidiaries. Therefore, our ability to pay dividends depends on the earnings and cash flow of those subsidiaries and their ability to pay dividends to us.

Marshall Islands law generally prohibits the payment of dividends other than from surplus or while a corporation is insolvent or would be rendered insolvent by the payment of such dividend.

Historical dividend payments should not provide any promise or indication of future dividend payments.

If we pay a dividend, the terms of our outstanding warrants provide that the exercise price shall be decreased by the amount of cash and/or the fair market value of any securities or other assets paid on each common share in respect of such dividend in order that subsequent thereto upon exercise of the warrants the holder of the warrants may obtain the equivalent benefit of such dividend.

No dividends were declared or paid on our common shares during the years ended December 31, 2023, 2022, and 2021.

No Series A Preferred Shares were outstanding as of December 31, 2023, 2022, and 2021, or as of the date of this annual report on Form 20-F.

Our financing arrangements impose certain restrictions to us with respect to dividend payments. Please see “Item 5.B. Liquidity and Capital Resources—Indebtedness.”

We can provide no assurance that dividends will be paid in the future and there may be a high degree of variability from period to period in the amount of cash, if any, that is available for the payment of dividends. Please see “Item 3.D. Risk Factors—Risks Relating to our Common Shares—Our ability to declare and pay dividends to holders of our common shares will depend on a number of factors and will always be subject to the discretion of our board of directors.”

B. Significant Changes

There have been no significant changes since the date of the financial statements included in this annual report on Form 20-F, other than those described in Note 20 “Events after the reporting date” to our consolidated financial statements.

A description of the material terms of our restated articles of incorporation, as amended, and bylaws and of our capital stock is included in “Description of Securities” filed as Exhibit 2.1 hereto and incorporated by reference herein.

Description of Common Shares

Each outstanding common share entitles the holder to one vote on all matters submitted to a vote of shareholders. Subject to preferences that may be applicable to any outstanding preferred shares, holders of common shares are entitled to receive ratably (based on number of shares held) all dividends, if any, declared by our board of directors out of funds legally available for dividends. Upon our dissolution or liquidation, after payment in full of all amounts required to be paid to creditors and to the holders of our preferred shares having liquidation preferences, if any, the holders of our common shares will be entitled to receive pro rata (based on number of shares held) our remaining assets available for distribution. Holders of our common shares do not have conversion, redemption or preemptive rights to subscribe to any of our securities. The rights, preferences and privileges of holders of common shares are subject to the rights of the holders of our preferred shares, including our existing classes of preferred shares and any preferred shares we may issue in the future.

Description of Preferred Stock

Our amended and restated articles of incorporation authorize our board of directors to establish one or more series of preferred shares and to determine, with respect to any series of preferred shares, the terms and rights of that series, including the designation of the series; the number of shares of the series; the preferences and relative, participating, option or other special rights, if any, and any qualifications, limitations or restrictions of such series; and the voting rights, if any, of the holders of the series.

[Table of Contents](#)

- 833,333 common shares issuable upon exercise of outstanding July PP Warrants (at an exercise price of at \$18.00 per share) issued in a private placement that closed on July 21, 2020 and expire in January 2026;
- 1,270,587 common shares issuable upon exercise of the December 2020 Warrants (at an exercise price of \$6.25 per share) which expire in June 2026;

- 10,000,000 common shares issuable upon the exercise of the June 2021 Warrants (at an exercise price of \$5.00 per share) which expire in December 2026.

Shareholders Rights Agreement

On August 3, 2023, we entered into a Shareholders Rights Agreement, or the Rights Agreement, with Computershare Trust Company, N.A. as Rights Agent. Pursuant to the Rights Agreement, each common share includes one right, or a Right, that entitles the holder to purchase from us one one-thousandth of a share of our Series C Participating Preferred Stock at an exercise price of \$5.00 per one one-thousandth of a Series C Preferred Share, subject to specified adjustments. The Rights will separate from the common shares and become exercisable only if a person or group (subject to limited exceptions) acquires beneficial ownership of 15% or more of our common shares in a transaction not approved by our board of directors. In that situation, each holder of a Right (other than the acquiring person, whose Rights will become void and will not be exercisable) will have the right to purchase, in lieu of one one-thousandth of a share of Series C Preferred Stock, upon payment of the exercise price, a number of our common shares having a then-current market value equal to twice the exercise price. In addition, if we are acquired in a merger or other business combination after an acquiring person acquires 15% or more of our common shares, each holder of the Right will thereafter have the right to purchase, in lieu of one one-thousandth of a share of Series C Preferred Share, upon payment of the exercise price, a number of common shares of the acquiring person having a then-current market value equal to twice the exercise price. The acquiring person will not be entitled to exercise these Rights. Georgios Feidakis, Athanasios Feidakis, Konstantina Feidakis, Angelina Feidakis, Firmment Shipping Inc. and Goldenmare Limited, or any of their respective affiliates are excluded from the definition of “Acquiring Person” and therefore may obtain beneficial ownership of 15% or more of the outstanding common shares without causing the Rights to be exercisable. Under the Rights Agreement’s terms, it will expire on February 3, 2025.

A copy of the Rights Agreement is filed as Exhibit 4.1 to our report on Form 6-K filed with the SEC on August 3, 2023 and incorporated by reference as Exhibit 2.3 hereto.

C. Material Contracts

Attached as exhibits to this annual report are the contracts we consider to be both material and outside the ordinary course of business and are to be performed in whole or in part after the filing of this annual report. We refer you to “Item 7.B. Related Party Transactions” for a discussion of our agreements with companies related to us. We also refer you to “Item 4. Information on the Company,” “Item 5.B. Liquidity and Capital Resources—Indebtedness,” “Item 6.B. Compensation,” “Item 6.E. Share Ownership” and “Description of Securities” filed as Exhibit 2.1 hereto for a description of other material contracts.

Other than as discussed in this annual report, we have no material contracts, other than contracts entered into in the ordinary course of business, to which the Company or any member of the group is a party.

D. Exchange Controls

We are not aware, under Marshall Islands law, of any restrictions on the export or import of capital, including foreign exchange controls or restrictions that affect the remittance of dividends, interest or other payments to holders of our common shares that are neither residents nor citizens of the Marshall Islands.

E. Taxation

Marshall Islands Tax Considerations

The following is applicable only to persons who are not citizens of and do not reside in, maintain offices in or carry on business or conduct transactions or operations in the Marshall Islands.

Because we (including our subsidiaries) do not, and assuming that we and our subsidiaries continue not to, carry on business or conduct transactions or operations in the Marshall Islands, and because we anticipate (and therefore assume) that all documentation related to any offerings of our securities will be executed outside of the Marshall Islands, under current Marshall Islands law our shareholders will not be subject to Marshall Islands taxation or withholding tax on our distributions. In addition, our shareholders will not be subject to Marshall Islands stamp, capital gains or other taxes on the purchase, ownership or disposition of our common shares, and such shareholders will not be required by the Marshall Islands to file a tax return related to our common shares.

Malta Tax Considerations

One of our subsidiaries is incorporated in Malta, which imposes taxes on us that are immaterial to our operations.

Greek Tax Considerations

In January 2013, a tax law 4110/2013 amended the long-standing provisions of art. 26 of law 27/1975 by imposing a fixed annual tonnage tax on vessels flying a foreign (i.e., non-Greek) flag which are managed by a Law 89 company, establishing an identical tonnage tax regime as the one already in force for vessels flying the Greek flag. This tax varies depending on the size of the vessel, calculated in gross registered tonnage, as well as on the age of each vessel. Payment of this tonnage tax completely satisfies all income tax obligations of both the shipowning company and of all its shareholders up to the ultimate beneficial owners. Any tax payable to the state of the flag of each vessel as a result of its registration with a foreign flag registry (including the Marshall Islands) is subtracted from the amount of tonnage tax due to the Greek tax authorities.

The tax residents of Greece who receive dividends from such shipowning or their holding companies, (pursuant to a very recent agreement between the Union of Greek Shipowners and the Greek State, which is expected to come in force shortly) are taxed at 5% on the dividends which they receive and which they import into Greece, not being liable to any other taxation for these, which include those dividends which either remain with the holding company or are paid to the individual Greek tax resident abroad.

United States Tax Considerations

This discussion of United States federal income taxes is based upon provisions of the Code, existing final, temporary and proposed regulations thereunder and current administrative rulings and court decisions, all as in effect on the effective date of this annual report on Form 20-F and all of which are subject to change, possibly with retroactive effect. Changes in these authorities may cause the tax consequences to vary substantially from the consequences described below. No rulings have been or are expected to be sought from the IRS with respect to any of the United States federal income tax consequences discussed below, and no assurance can be given that the IRS will not take contrary positions.

Further, the following summary does not deal with all United States federal income tax consequences applicable to any given holder of our common shares, nor does it address the United States federal income tax considerations applicable to categories of investors subject to special taxing rules, such as expatriates, banks, real estate investment trusts, regulated investment companies, insurance companies, tax-exempt organizations, dealers or traders in securities or currencies, partnerships, S corporations, estates and trusts, investors that hold their common shares as part of a hedge, straddle or an integrated or conversion transaction, investors whose “functional currency” is not the United States dollar or investors that own, directly or indirectly, 10% or more of our stock by vote or value. Furthermore, the discussion does not address alternative minimum tax consequences or estate or gift tax consequences, or any state tax consequences, and is limited to shareholders that will hold their common shares as “capital assets” within the meaning of Section 1221 of the Code. Each shareholder is encouraged to consult and discuss with his or her own tax advisor the United States federal, state, local and non-United States tax consequences particular to him or her of the acquisition, ownership or disposition of common shares. Further, it is the responsibility of each shareholder to file all state, local and non-U.S., as well as U.S. federal, tax returns that may be required of it.

United States Federal Income Taxation of the Company

Taxation of Operating Income

Unless exempt from United States federal income taxation under the rules described below in “—The Section 883 Exemption,” a foreign corporation that earns only transportation income is generally subject to United States federal income taxation under one of two alternative tax regimes: (1) the 4% gross basis tax or (2) the net basis tax and branch profits tax. The Company is a Marshall Islands corporation and its subsidiaries are incorporated in the Marshall Islands or Malta. There is no comprehensive income tax treaty between the Marshall Islands and the United States, so the Company and its Marshall Islands subsidiaries cannot claim an exemption from this tax under a treaty.

The 4% Gross Basis Tax

The United States imposes a 4% United States federal income tax (without allowance of any deductions) on a foreign corporation’s United States source gross transportation income to the extent such income is not treated as effectively connected with the conduct of a United States trade or business. For this purpose, transportation income includes income from the use, hiring or leasing of a vessel, or the performance of services directly related to the use of a vessel (and thus includes time charter, spot charter and bareboat charter income). The United States source portion of transportation income is 50% of the income attributable to voyages that begin or end, but not both begin and end, in the United States. As a result of this sourcing rule the effective tax rate is 2% of the gross income attributable to U.S. voyages. Generally, no amount of the income from voyages that begin and end outside the United States is treated as United States source, and consequently none of the transportation income attributable to such voyages is subject to this 4% tax. (Although the entire amount of transportation income from voyages that begin and end in the United States would be United States source, neither the Company nor any of its subsidiaries expects to have any transportation income from voyages that both begin and end in the United States.)

The Net Basis Tax and Branch Profits Tax

The Company and each of its subsidiaries do not expect to engage in any activities in the United States (other than port calls of its vessels) or otherwise have a fixed place of business in the United States. Consequently, the Company and its subsidiaries are not expected to be subject to the net basis or branch profits taxes. Nonetheless, if this situation were to change or if the Company or a subsidiary of the Company were to be treated as engaged in a United States trade or business, all or a portion of the Company’s or such subsidiary’s taxable income, including gain from the sale of vessels, could be treated as effectively connected with the conduct of this United States trade or business, or effectively connected income. Any effectively connected income, net of allowable deductions, would be subject to United States federal corporate income tax. In addition, an additional 30% branch profits tax would be imposed on the Company or such subsidiary at such time as the Company’s or such subsidiary’s after-tax effectively connected income is deemed to have been repatriated to the Company’s or subsidiary’s offshore office.

The 4% gross basis tax described above is inapplicable to income that is treated as effectively connected income. A non-United States corporation’s United States source transportation income would be considered to be effectively connected income only if the non-United States corporation has or is treated as having a fixed place of business in the United States involved in the earning of the transportation income and substantially all of its United States source transportation income is attributable to regularly scheduled transportation (such as a published schedule with repeated sailings at regular intervals between the same points for voyages that begin or end in the United States), or in the case of leasing income (such as bareboat charter income) is attributable to such fixed place of business. The Company and its vessel-owning subsidiaries believe that their vessels will not operate to and from the United States on a regularly scheduled basis. Based on the intended mode of shipping operations and other activities, the Company and its vessel-owning subsidiaries do not expect to have any effectively connected income.

[Table of Contents](#)

The Section 883 Exemption

Both the 4% gross basis tax and the net basis and branch profits taxes described above are inapplicable to transportation income that qualifies for the Section 883 Exemption. To qualify for the Section 883 Exemption a foreign corporation must, among other things:

- be organized in a jurisdiction outside the United States that grants an equivalent exemption from tax to corporations organized in the United States (an “Equivalent Exemption”);
- satisfy one of the following three ownership tests (discussed in more detail below): (1) the more than 50% ownership test, or 50% Ownership Test, (2) the controlled foreign corporation test, or CFC Test, or (3) the “Publicly Traded Test”; and
- meet certain substantiation, reporting and other requirements (which include the filing of United States income tax returns).

The Company is a Marshall Islands corporation, and each of the vessels in its fleet is owned by a separate wholly owned subsidiary organized in the Marshall Islands or Malta. The U.S. Department of the Treasury recognizes the Marshall Islands and Malta as jurisdictions which grant an Equivalent Exemption; therefore, the Company and each of its vessel-owning subsidiaries meet the first requirement for the Section 883 Exemption.

The 50% Ownership Test

In order to satisfy the 50% Ownership Test, a non-United States corporation must be able to substantiate that more than 50% of the value of its shares is owned, for at least half of the number of days in the non-United States corporation’s taxable year, directly or indirectly, by “qualified shareholders.” For this purpose, qualified shareholders are: (1) individuals who are residents (as defined in the Treasury regulations promulgated under Section 883 of the Code, or Section 883 Regulations) of countries, other than the United States, that grant an Equivalent Exemption, (2) non-United States corporations that meet the Publicly Traded Test of the Section 883 Regulations and are organized in countries that grant an Equivalent Exemption, or (3) certain foreign governments, non-profit organizations, and certain beneficiaries of foreign pension funds. In order for a shareholder to be a qualified shareholder, there generally cannot be any bearer shares in the chain of ownership between the shareholder and the taxpayer claiming the exemption (unless such bearer shares are maintained in a dematerialized or immobilized book-entry system as permitted under the Section 883 Regulations). A corporation claiming the Section 883 Exemption based on the 50% Ownership Test must obtain all the facts necessary to satisfy the IRS that the 50% Ownership Test has been satisfied (as detailed in the Section 883 Regulations). The Company does not believe that it satisfied the 50% Ownership Test for the taxable year ended December 31, 2023 and has no basis to expect that it will satisfy the 50% Ownership Test in the near future.

The CFC Test

The CFC Test requires that a non-United States corporation be treated as a controlled foreign corporation, or a CFC, for United States federal income tax purposes for more than half of the days in the taxable year. A CFC is a foreign corporation, more than 50% of the vote or value of which is owned by significant U.S. shareholders (meaning U.S. persons who own at least 10% of the vote or value of the foreign corporation). In addition, more than 50% of the value of the shares of the CFC must be owned by qualifying U.S. persons for more than half of the days during the taxable year concurrent with the period of time that the company qualifies as a CFC. For this purpose, a qualifying U.S. person is defined as a U.S. citizen or resident alien, a domestic corporation or domestic tax-exempt trust, in each case, if such U.S. person provides the company claiming the exemption with an ownership statement. The Company does not believe that the requirements of the CFC Test will be met in the near future with respect to the Company or any of its subsidiaries.

The Publicly Traded Test

The Publicly Traded Test requires that one or more classes of equity representing more than 50% of the voting power and value in a non-United States corporation be “primarily and regularly traded” on an established securities market either in the United States or in a foreign country that grants an Equivalent Exemption. The Section 883 Regulations provide, in relevant part, that the shares of a non-United States corporation will be considered to be “primarily traded” on an established securities market in a country if the number of shares of each class of shares that are traded during any taxable year on all established securities markets in that country exceeds the number of shares in each such class that are traded during that year on established securities markets in any other single country. The Section 883 Regulations also generally provide that shares will be considered to be “regularly traded” on an established securities market if one or more classes of shares in the corporation representing in the aggregate more than 50% of the total combined voting power and value of all classes of shares of the corporation are listed on an established securities market. Also, with respect to each class relied upon to meet this requirement (1) such class of shares must be traded on the market, other than in minimal quantities, on at least 60 days during the taxable year or one-sixth of the days in a short taxable year, and (2) the aggregate number of shares of such class of shares traded on such market during the taxable year is at least 10% of the average number of shares of such class of shares outstanding during such year or as adjusted for a short taxable year. These two tests are deemed to be satisfied if such class of shares is traded on an established market in the United States and such shares are regularly quoted by dealers making a market in such shares.

[Table of Contents](#)

Notwithstanding the foregoing, the Section 883 Regulations provide, in relevant part, that a class of shares will not be considered to be “regularly traded” on an established securities market for any taxable year in which 50% or more of the vote and value of the outstanding shares of such class are owned, actually or constructively under specified share attribution rules, on more than half the days during the taxable year by persons who each own 5% or more of the vote and value of such class of outstanding shares, to which we refer as the 5 Percent Override Rule.

For purposes of being able to determine the persons who actually or constructively own 5% or more of the vote and value of the Company’s common shares, or 5% Shareholders, the Section 883 Regulations permit a company whose stock is traded on an established securities market in the United States to rely on those persons that are identified on Schedule 13G and Schedule 13D filings with the SEC, as owning 5% or more of the company’s common shares.

In the event the 5 Percent Override Rule is triggered, the Section 883 Regulations provide that such rule will not apply if the Company can establish that within the group of 5% Shareholders, there are sufficient qualified shareholders within the meaning of Section 883 and the Section 883 Regulations to preclude non-qualified shareholders in such group from owning 50% or more of the total value of the Company’s common shares for more than half the number of days during the taxable year.

The Company believes that it satisfied the Publicly Traded Test for the taxable year ended December 31, 2023, based on information reported in Schedule 13G and Schedule 13D filings with the SEC. The Company cannot currently predict whether it will satisfy the Publicly Traded Test for the current taxable year. The stock in the Company’s vessel-owning subsidiaries is not publicly traded, but if the Company were to meet the Publicly Traded Test described above, the Company also generally would be a qualified shareholder for purposes of applying the 50% Ownership Test as to any subsidiary claiming the Section 883 Exemption.

A corporation’s qualification for the Section 883 Exemption is determined for each taxable year. If the Company and/or its subsidiaries were not to qualify for the Section 883 Exemption in any year in which the Company’s vessels traded to or from the United States, the United States income taxes that become payable would have a negative effect on the business of the Company and its subsidiaries, and would result in decreased earnings available for distribution to the Company’s shareholders.

United States Taxation of Gain on Sale of Vessels

If the Company’s subsidiaries qualify for the Section 883 Exemption, then gain from the sale of any vessel would be exempt from tax under Section 883. If, however, the gain is not exempt from tax under Section 883, the Company will not be subject to United States federal income taxation with respect to such gain provided that the income from the vessel has never constituted effectively connected income and that the sale is considered to occur outside of the United States under United States federal income tax principles. In general, a sale of a vessel will be considered to occur outside of the United States for this purpose if title to the vessel, and risk of loss with respect to the vessel, pass to the buyer outside of the United States. To the extent possible, the Company will attempt to structure any sale of a vessel so that it is considered to occur outside of the United States.

United States Federal Income Taxation of United States Holders

As used herein, “United States Holder” means a beneficial owner of the Company’s common shares that is an individual citizen or resident of the United States for United States federal income tax purposes, a corporation or other entity taxable as a corporation created or organized in or under the laws of the United States or any state thereof (including the District of Columbia), an estate the income of which is subject to United States federal income taxation regardless of its source or a trust where a court within the United States is able to exercise primary supervision over the administration of the trust and one or more United States persons (as defined in the Code) have the authority to control all substantial decisions of the trust (or a trust that has made a valid election under U.S. Department of the Treasury regulations to be treated as a domestic trust). A “Non-United States Holder” generally means any owner (or beneficial owner) of common shares that is not a United States Holder, other than a partnership. If a partnership holds common shares, the tax treatment of a partner will generally depend upon the status of the partner and upon the activities of the partnership. Partners of partnerships holding common shares should consult their own tax advisors regarding the tax consequences of an investment in the common shares (including their status as United States Holders or Non-United States Holders).

Distributions

Subject to the discussion of PFICs below, any distributions made by the Company with respect to the common shares to a United States Holder will generally constitute dividends, which may be taxable as ordinary income or qualified dividend income as described in more detail below, to the extent of the Company's current or accumulated earnings and profits as determined under United States federal income tax principles. Distributions in excess of the Company's earnings and profits will be treated as a nontaxable return of capital to the extent of the United States Holder's tax basis in its common shares and, thereafter, as capital gain.

Dividends paid in respect of the Company's common shares may qualify for the preferential rate attributable to qualified dividend income if: (1) the common shares are readily tradable on an established securities market in the United States; (2) the Company is not a PFIC for the taxable year during which the dividend is paid or in the immediately preceding taxable year; (3) the United States Holder has owned the common shares for more than 60 days in the 121-day period beginning 60 days before the date on which the common shares become ex-dividend and (4) the United States Holder is not under an obligation to make related payments with respect to positions in substantially similar or related property. The first requirement currently is and has been met, as our common shares are listed on the Nasdaq Capital Market. The Nasdaq Capital Market is a tier of the Nasdaq Stock Market, which is an established securities market. Further, there is no minimal trading requirement for shares to be "readily tradable," so as long as our common shares remain listed on the Nasdaq Capital Market or any other established securities market in the United States, the first requirement will be satisfied. However, if our common shares are delisted and are not tradable on an established securities market in the United States (as described in "Item 3.D. Risk Factors—Company Specific Risk Factors—Our common shares could be delisted from Nasdaq, which could affect their market price and liquidity"), the first requirement would not be satisfied, and dividends paid in respect of our common shares would not qualify for the preferential rate attributable to qualified dividend income. The second requirement is expected to be met as more fully described below under "—Consequences of Possible PFIC Classification." Satisfaction of the final two requirements will depend on the particular circumstances of each United States Holder. Consequently, if any of these requirements are not met, the dividends paid to individual United States Holders in respect of the Company's common shares would not be treated as qualified dividend income and would be taxed as ordinary income at ordinary rates.

Amounts taxable as dividends generally will be treated as income from sources outside the United States and will, depending on your circumstances, be "passive" or "general" income which, in either case, is treated separately from other types of income for purposes of computing the foreign tax credit allowable to you. However, if (1) the Company is 50% or more owned, by vote or value, by United States persons and (2) at least 10% of the Company's earnings and profits are attributable to sources within the United States, then for foreign tax credit purposes, a portion of our dividends would be treated as derived from sources within the United States. Under such circumstances, with respect to any dividend paid for any taxable year, the United States source ratio of the Company's dividends for foreign tax credit purposes would be equal to the portion of the Company's earnings and profits from sources within the United States for such taxable year, divided by the total amount of the Company's earnings and profits for such taxable year.

Consequences of Possible PFIC Classification

A non-United States entity treated as a corporation for United States federal income tax purposes will be a PFIC in any taxable year in which, after taking into account the income and assets of the corporation and certain subsidiaries pursuant to a "look through" rule, either: (1) 75% or more of its gross income is "passive" income or (2) 50% or more of the average value of its assets is attributable to assets that produce passive income or are held for the production of passive income. If a corporation is a PFIC in any taxable year that a person holds shares in the corporation (and was not a qualified electing fund with respect to such year, as discussed below), the shares held by such person will be treated as shares in a PFIC for all future years (absent an election which, if made, may require the electing person to pay taxes in the year of the election). A United States Holder of shares in a PFIC would be required to file an annual information return on IRS Form 8621 containing information regarding the PFIC as required by U.S. Department of the Treasury regulations.

While there are legal uncertainties involved in this determination, including as a result of adverse case law described herein, based upon the Company's and its subsidiaries' expected operations as described herein and based upon the current and expected future activities and operations of the Company and its subsidiaries, the income of the Company and such subsidiaries from time charters should not constitute "passive income" for purposes of applying the PFIC rules, and the assets that the Company owns for the production of this time charter income should not constitute passive assets for purposes of applying the PFIC rules.

[Table of Contents](#)

Although there is no legal authority directly on point, this view is based principally on the position that the gross income that the Company and its subsidiaries derive from time charters constitutes services income rather than passive rental income. The Fifth Circuit Court of Appeals decided in *Tidewater Inc. v. United States*, 565 F.3d 299 (5th Cir., 2009) that a typical time charter is a lease, and not a contract for the provision of transportation services. In that case, the court was considering a tax issue that turned on whether the taxpayer was a lessor where a vessel was under a time charter, and the court did not address the definition of passive income or the PFIC rules; however, the reasoning of the case could have implications as to how the income from a time charter would be classified under such rules. If the reasoning of the *Tidewater* case is applied to the Company's situation and the Company's or its subsidiaries' time charters are treated as leases, the Company's or its subsidiaries' time charter income could be classified as rental income and the Company would be a PFIC unless more than 25% of the income of the Company (taking into account the subsidiary look through rule) is from spot charters plus other active income or an active leasing exception applies. The IRS has announced that it will not follow the reasoning of the *Tidewater* case and would have treated the income from the time charters at issue in that case as services income, including for other purposes of the Code. The Company intends to take the position that all of its time, voyage and spot chartering activities will generate active services income and not passive leasing income, but in the absence of direct legal authority specifically relating to the Code provisions governing PFICs, the IRS or a court could disagree with this position. Although the matter is not free from doubt as described herein, based on the current operations and activities of the Company and its subsidiaries and on the relative values of the vessels in the Company's fleet and the charter income in respect of the vessels, Globus Maritime Limited should not be treated as a PFIC during the taxable year ended December 31, 2023.

Based on the Company's intention and expectation that the Company's subsidiaries' income from spot, time and voyage chartering activities plus other active operating income will be greater than 25% of the Company's total gross income at all relevant times and that the gross value of the vessels subject to such time, voyage or spot charters will exceed the gross value of all the passive assets the Company owns at all relevant times, Globus Maritime Limited does not expect that it will constitute a PFIC with respect to a taxable year in the near future.

The Company will try to manage its vessels and its business so as to avoid being classified as a PFIC for a future taxable year; however there can be no assurance that the nature of the Company's assets, income and operations will remain the same in the future (notwithstanding the Company's current expectations). Additionally, no assurance can be given that the IRS or a court of law will accept the Company's position that the time charters that the Company's subsidiaries have entered into or any other time charter that the Company or a subsidiary may enter into will give rise to active income rather than passive income for purposes of the PFIC rules, or that future changes of law will not adversely affect this position. The Company has not obtained a ruling from the IRS on its time charters or its PFIC status and does not intend to seek one. Any contest with the IRS may materially and adversely impact the market for the common shares and the prices at which they trade. In addition, the costs of any contest on the issue with the IRS will result in a reduction in cash available for distribution and thus will be borne indirectly by the Company's shareholders.

If Globus Maritime Limited were to be classified as a PFIC in any year, each United States Holder of the Company's shares will be subject (in that year and all subsequent years) to special rules with respect to: (1) any "excess distribution" (generally defined as any distribution received by a shareholder in a taxable year that is greater than 125% of the average annual distributions received by the shareholder in the three preceding taxable years or, if shorter, the shareholder's holding period for the shares), and (2) any gain realized upon the sale or other disposition of the common shares. Under these rules:

- the excess distribution or gain will be allocated ratably over the United States Holder's holding period;
- the amount allocated to the current taxable year and any year prior to the first year in which the Company was a PFIC will be taxed as ordinary income in the current year; and
- the amount allocated to each of the other taxable years in the United States Holder's holding period will be subject to United States federal income tax at the highest rate in effect for the applicable class of taxpayer for that year, and an interest charge will be added as though the amount of the taxes computed with respect to these other taxable years were overdue.

In order to avoid the application of the PFIC rules, United States Holders may make a qualified electing fund, or a QEF, election provided in Section 1295 of the Code in respect of their common shares. Even if a United States Holder makes a QEF election for a taxable year of the Company, if the Company was a PFIC for a prior taxable year during which such holder held the common shares and for which such holder did not make a timely QEF election, the United States Holder would also be subject to the more adverse rules described above. Additionally, to the extent any of the Company's subsidiaries is a PFIC, an election by a United States Holder to treat Globus Maritime Limited as a QEF would not be effective with respect to such holder's deemed ownership of the stock of such subsidiary and a separate QEF election with respect to such subsidiary is required. In lieu of the PFIC rules discussed above, a United States Holder that makes a timely, valid QEF election will, in very general terms, be required to include its pro rata share of the Company's ordinary income and net capital gains, unreduced by any prior year losses, in income for each taxable year (as ordinary income and long-term capital gain, respectively) and to pay tax thereon, even if no actual distributions are received for that year in respect of the common shares and even if the amount of that income is not the same as the amount of actual distributions paid on the common shares during the year. If the Company later distributes the income or gain on which the United States Holder has already paid taxes under the QEF rules, the amounts so distributed will not again be subject to tax in the hands of the United States Holder. A United States Holder's tax basis in any common shares as to which a QEF election has been validly made will be increased by the amount included in such United States Holder's income as a result of the QEF election and decreased by the amount of nontaxable distributions received by the United States Holder. On the disposition of a common share, a United States Holder making the QEF election generally will recognize capital gain or loss equal to the difference, if any, between the amount realized upon such disposition and its adjusted tax basis in the common share. In general, a QEF election should be made by filing a Form 8621 with the United States Holder's federal income tax return on or before the due date for filing such United States Holder's federal income tax return for the first taxable year for which the Company is a PFIC or, if later, the first taxable year for which the United States Holder held common shares. In this regard, a QEF election is effective only if certain required information is made available by the PFIC. Subsequent to the date that the Company first determines that it is a PFIC, the Company will use commercially reasonable efforts to provide any United States Holder of common shares, upon request, with the information necessary for such United States Holder to make the QEF election.

In addition to the QEF election, Section 1296 of the Code permits United States Holders to make a "mark-to-market" election with respect to marketable shares in a PFIC, generally meaning shares regularly traded on a qualified exchange or market and certain other shares considered marketable under U.S. Department of the Treasury regulations. For this purpose, a class of shares is regularly traded on a qualified exchange or market for any calendar year during which such class of shares is traded, other than in de minimis quantities, on at least 15 days during each calendar quarter of the year. Our common shares are regularly traded on the Nasdaq Capital Market, which is an established securities market. However, if our common shares were to be delisted, (as described in "Item 3.D. Risk Factors—Company Specific Risk Factors—Our common shares could be delisted from Nasdaq, which could affect their market price and liquidity"), then the mark-to-market election generally would be unavailable to United States Holders. If a United States Holder makes a mark-to-market election in respect of its common shares, such United States Holder generally would, in each taxable year: (1) include as ordinary income the excess, if any, of the fair market value of the common shares at the end of the taxable year over such United States Holder's adjusted tax basis in the common shares, and (2) be permitted an ordinary loss in respect of the excess, if any, of such United States Holder's adjusted tax basis in the common shares over their fair market value at the end of the taxable year, but only to the extent of the net amount previously included in income as a result of the mark-to-market election (with the United States Holder's basis in the common shares being increased and decreased, respectively, by the amount of such ordinary income or ordinary loss). The consequences of this election may be less favorable than those of a QEF election for United States Holders that are sensitive to the distinction between ordinary income and capital gain.

United States Holders are urged to consult their tax advisors as to the consequences of making a mark-to-market or QEF election, as well as other United States federal income tax consequences of holding shares in a PFIC.

As previously indicated, if the Company were to be classified as a PFIC for a taxable year in which the Company pays a dividend or the immediately preceding taxable year, dividends paid by the Company would not constitute "qualified dividend income" and, hence, would not be eligible for the reduced rate of United States federal income tax.

Sale, Exchange or Other Disposition of Common Shares

A United States Holder generally will recognize taxable gain or loss upon a sale, exchange or other disposition of common shares in an amount equal to the difference between the amount realized by the United States Holder from such sale, exchange or other disposition and the United States Holder's tax basis in such common shares. Assuming the Company does not constitute a PFIC for any taxable year, this gain or loss will generally be treated as long-term capital gain or loss if the United States Holder's holding period is greater than one year at the time of the sale, exchange or other disposition. Long-term capital gains recognized by a United States Holder other than a corporation are generally taxed at preferential rates. A United States Holder's ability to deduct capital losses is subject to limitations.

Net Investment Income Tax

A United States Holder that is an individual or estate, or a trust that does not fall into a special class of trusts that is exempt from such tax, is subject to a 3.8% tax on the lesser of (1) such United States Holder's "net investment income" (or undistributed "net investment income" in the case of estates and trusts) for the relevant taxable year and (2) the excess of such United States Holder's modified adjusted gross income for the taxable year over a certain threshold (which in the case of individuals will be between \$125,000 and \$250,000, depending on the individual's circumstances). A United States Holder's net investment income will generally include its gross dividend income and its net gains from the disposition of the common shares, unless such dividends or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). Net investment income generally will not include a United States Holder's pro rata share of the Company's income and gain if we are a PFIC and that United States Holder makes a QEF election, as described above in "—United States Federal Income Taxation of United States Holders—Consequences of Possible PFIC Classification." However, a United States Holder may elect to treat inclusions of income and gain from a QEF election as net investment income. Failure to make this election could result in a mismatch between a United States Holder's ordinary income and net investment income. If you are a United States Holder that is an individual, estate or trust, you are urged to consult your tax advisor regarding the applicability of the net investment income tax to your income and gains in respect of your investment in the common shares.

United States Federal Income Taxation of Non-United States Holders

A Non-United States Holder will generally not be subject to United States federal income tax on dividends paid in respect of the common shares or on gains recognized in connection with the sale or other disposition of the common shares provided that the Non-United States Holder makes certain tax representations regarding the identity of the beneficial owner of the common shares, that such dividends or gains are not effectively connected with the Non-United States Holder's conduct of a United States trade or business and that, with respect to gain recognized in connection with the sale or other disposition of the common shares by a non-resident alien individual, such individual is not present in the United States for 183 days or more in the taxable year of the sale or other disposition and other conditions are met. If the Non-United States Holder is engaged in a United States trade or business for United States federal income tax purposes, the income from the common shares, including dividends and gain from the sale, exchange or other disposition of the common shares, that is effectively connected with the conduct of that trade or business will generally be subject to regular United States federal income tax in the same manner as discussed above relating to the taxation of United States Holders.

Backup Withholding and Information Reporting

Information reporting to the IRS may be required with respect to payments on the common shares and with respect to proceeds from the sale of the common shares. With respect to Non-United States Holders, copies of such information returns may be made available to the tax authorities in the country in which the Non-United States Holder resides under the provisions of any applicable income tax treaty or exchange of information agreement. A "backup" withholding tax may also apply to those payments if:

- a holder of the common shares fails to provide certain identifying information (such as the holder's taxpayer identification number or an attestation to the status of the holder as a Non-United States Holder);
- such holder is notified by the IRS that he or she has failed to report all interest or dividends required to be shown on his or her federal income tax returns; or
- in certain circumstances, such holder has failed to comply with applicable certification requirements.

Backup withholding is not an additional tax and may be refunded (or credited against the holder's United States federal income tax liability, if any), provided that certain required information is furnished to the IRS in a timely manner.

Non-United States Holders may be required to establish their exemption from information reporting and backup withholding by certifying their status on IRS Form W-8BEN, W-8BEN-E, W-8ECI or W-8IMY, as applicable.

Individual United States Holders who hold certain specified foreign assets with values in excess of certain dollar thresholds are required to report such assets on IRS Form 8938 with their U.S. federal income tax return, subject to certain exceptions (including an exception for foreign assets held in accounts maintained by financial institutions). Stock in a foreign corporation, including our common shares, is a specified foreign asset for this purpose. Penalties apply for failure to properly complete and file Form 8938. You should consult your tax advisor regarding the filing of this form. United States Holders of common shares may be required to file additional forms with the IRS under the applicable reporting provisions of the Code. You should consult your tax advisor regarding the filing of any such forms.

We encourage each United States Holder and Non-United States Holder to consult with his, her or its own tax advisor as to the particular tax consequences to him, her or it of holding and disposing of the Company's common shares, including the applicability of any federal, state, local or foreign tax laws and any proposed changes in applicable law.

Item 11. Quantitative and Qualitative Disclosures About Market Risk

Interest Rates

We are exposed to market risks associated with changes in interest rates relating to our loan arrangements. As of December 31, 2023, we had a \$52.6 million principal balance outstanding under our CIT Loan Facility and as of December 31, 2022 we had a \$44.4 million principal balance outstanding under our CIT Loan Facility.

Interest costs incurred under our loan arrangements are included in our consolidated statement of comprehensive income.

In 2023, the weighted average interest rate for our then-outstanding facilities in total was 8.19% and the respective interest rates on our loan agreements ranged from 7.67% to 8.52%, including margins.

We will continue to have debt outstanding, which could impact our results of operations and financial condition. Although we may in the future prefer to generate funds through equity offerings on terms acceptable to us rather than through the use of debt arrangements, we may not be able to do so. We expect to manage any exposure in interest rates through our regular operating and financing activities and, when deemed appropriate, through the use of derivative financial instruments.

The following table sets forth the sensitivity of our CIT Loan Facility as of December 31, 2023 as to a 1.0% (100 basis points) increase in SOFR, during the next four years, and reflects the additional interest expense that will be incurred.

Year	Amount
2024	\$ 0.5 million
2025	\$ 0.4 million
2026	\$ 0.3 million
2027	\$ 0.1 million

On February 23, 2024 we entered into a new sale and leaseback transaction with SK Shipholding S.A., a subsidiary of Shinken. Please see "Item 5.B. Liquidity and Capital Resources—Indebtedness" for further information.

Currency and Exchange Rates

We generate revenues from the trading of our vessels in U.S. dollars but historically incur certain amounts of our operating expenses in currencies other than the U.S. dollar. For cash management, or treasury, purposes, we convert U.S. dollars into foreign currencies which we then hold on deposit until the date of each transaction. Fluctuations in foreign exchange rates create foreign exchange gains or losses when we mark-to-market these non-U.S. dollar deposits.

For accounting purposes, expenses incurred in Euro and other foreign currencies are converted into U.S. dollars at the exchange rate prevailing on the date of each transaction. Because a portion of our expenses are incurred in currencies other than the U.S. dollar, our expenses may from time to time increase relative to our revenues as a result of fluctuations in exchange rates, which could affect the amount of net income that we report in future periods. We do not consider the risk from exchange rate fluctuations to be material for our results of operations. However, the portion of our business conducted in other currencies could increase in the future, which could expand our exposure to losses arising from exchange rate fluctuations. While we historically have not mitigated the risk associated with exchange rate fluctuations through the use of financial derivatives, we may determine to employ such instruments from time to time in the future in order to minimize this risk. Our use of financial derivatives would involve certain risks, including the risk that losses on a hedged position could exceed the nominal amount invested in the instrument and the risk that the counterparty to the derivative transaction may be unable or unwilling to satisfy its contractual obligations, which could have an adverse effect on our results.

Commodity Risk Exposure

The price and supply of fuel is unpredictable and fluctuates as a result of events outside our control, including geo-political developments, supply and demand for oil and gas, actions by members of the Organization of Petroleum Exporting Countries and other oil and gas producers, war and unrest in oil producing countries and regions, regional production patterns and environmental concerns and regulations. Because we do not intend to hedge our fuel costs, an increase in the price of fuel beyond our expectations may adversely affect our profitability, cash flows and ability to pay dividends. When our customers pay fuel costs, which they generally do when our vessels are on bareboat or time charters, we expect that our customers factor the fuel efficiency of our vessels into the rates they are willing to pay to charter our ships.

Inflation

We do not expect inflation to be a significant risk to us in the current and foreseeable economic environment. In the event that inflation becomes a significant factor in the global economy, inflationary pressures would result in increased operating, voyage and finance costs.

Item 14. Material Modifications to the Rights of Security Holders and Use of Proceeds

Series B Preferred Shares

The superior voting rights of our Series B preferred shares limits the ability of our common shareholders to control or influence corporate matters, and the interests of the holder of such shares could conflict with the interests of our other shareholders.

While our common shares have one vote per share, each of our 10,300 Series B preferred shares presently outstanding has 25,000 votes per share; however, the voting power of the Series B preferred shares is limited such that no holder of Series B preferred shares may exercise voting rights pursuant to any Series B preferred shares that would result in the total number of votes a holder is entitled to vote on any matter submitted to a vote of shareholders of the Company to exceed 49.99% of the total number of votes eligible to be cast on such matter. The Series B preferred shares, however, have no dividend rights or distribution rights, other than the right upon dissolution to receive a priority payment equal to the par value per of \$0.001 per share.

As of the date of this annual report and until such time that we issue a significant number of securities, Goldenmare Limited, a company affiliated with our Chief Executive Officer, can therefore control 49.99% of the voting power of our outstanding capital stock. Until such time that we issue a significant number of securities, Goldenmare Limited will have substantial control and influence over our management and affairs and over matters requiring shareholder approval, including the election of directors and significant corporate transactions, even though Goldenmare Limited owns significantly less than 50% of the Company economically.

The superior voting rights of our Series B preferred shares limit our common shareholders' ability to influence corporate matters. The interests of the holder of the Series B preferred shares may conflict with the interests of our common shareholders, and as a result, we may take actions that our common shareholders do not view as beneficial. Any such conflicts of interest could adversely affect our business, financial condition and results of operations, and the trading price of our common shares.

More specifically, the following is a summary of the characteristics of the Series B preferred shares:

Voting. To the fullest extent permitted by law, each Series B preferred share entitles the holder hereof to 25,000 votes per share on all matters submitted to a vote of the shareholders of the Company, *provided however*; that no holder of Series B preferred shares may exercise voting rights pursuant to Series B preferred shares that would result in the aggregate voting power of any beneficial owner of such shares and its affiliates (whether pursuant to ownership of Series B preferred shares, common shares or otherwise) to exceed 49.99% of the total number of votes eligible to be cast on any matter submitted to a vote of shareholders of the Company. To the fullest extent permitted by law, the holders of Series B preferred shares shall have no special voting or consent rights and shall vote together as one class with the holders of the common shares on all matters put before the shareholders.

Conversion. The Series B preferred shares are not convertible into common shares or any other security.

Redemption. The Series B preferred shares are not redeemable.

Dividends. The Series B preferred shares have no dividend rights.

Liquidation Preference. Upon any liquidation, dissolution or winding up of the Company, the Series B preferred shares are entitled to receive a payment with priority over the common shareholders equal to the par value of \$0.001 per share. The Series B preferred shareholder has no other rights to distributions upon any liquidation, dissolution or winding up of the Company.

Transferability. All issued and outstanding Series B preferred shares must be held of record by one holder, and the Series B preferred shares shall not be transferred without the prior approval of our Board of Directors.

Proportional Adjustment. In the event the Company (i) declares any dividend on its common shares, payable in common shares, (ii) subdivides the outstanding common shares or (iii) combines the outstanding common shares into a smaller number of shares, there shall be a proportional adjustment to the number of outstanding Series B preferred shares.

Shareholders Rights Agreement

Pursuant to the Shareholders Rights Agreement dated August 3, 2023, each common share includes one one preferred share purchase right that entitles the holder to purchase from us one-thousandth of a share of our Series C Participating Preferred Shares if any third party (except for Georgios Feidakis, Athanasios Feidakis, Konstantina Feidakis, Angelina Feidakis, Firment Shipping Inc. and Goldenmare Limited, or any of their respective affiliates) acquires beneficial ownership of 15% or more of our common shares without the approval of our board of directors.

The superior voting rights of our Series C Participating Preferred Shares limit the ability of our common shareholders to control or influence corporate matters. See “Description of Securities,” attached hereto as Exhibit 2.1 and incorporated by reference herein, and “Item 3. D. Risk Factors.”

Item 15. Controls and Procedures

(a) Disclosure Controls and Procedures

Management, including our chief executive officer and chief financial officer, has conducted an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, which we refer to as the Exchange Act) as of the end of the period covered by this annual report on Form 20-F. Disclosure controls and procedures are defined under SEC rules as controls and other procedures that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within required time periods. Disclosure controls and procedures include controls and procedures designed to ensure that information is accumulated and communicated to the issuer’s management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosures.

[Table of Contents](#)

There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives.

Based upon that evaluation, our chief executive officer and chief financial officer has concluded that our disclosure controls and procedures are effective as of the evaluation date.

(b) Management's Annual Report on Internal Control over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) of the Exchange Act. The Company's internal control over financial reporting is a process designed under the supervision of the Company's chief executive officer and chief financial officer to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Company's consolidated financial statements for external reporting purposes in accordance with IFRS as issued by the IASB. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit the preparation of financial statements in accordance with IFRS, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Management has conducted an assessment of the effectiveness of the Company's internal control over financial reporting based on the framework established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission of 2013. Based on this assessment, management has determined that the Company's internal control over financial reporting as of December 31, 2023 was effective.

(c) Attestation Report of the Registered Public Accounting Firm

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to the rules of the SEC that permit the Company to provide only management's report in this annual report on Form 20-F.

(d) Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting during the year covered by this Annual Report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on Effectiveness of Controls

Our management, including our chief executive officer and our chief financial officer, do not expect that our disclosure controls or our internal control over financial reporting will prevent or detect all error and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. Further, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of controls effectiveness to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures.

Furthermore, we have engaged Ernst & Young LLP to provide us with professional services pertaining to U.S. tax compliance preparation for the respective years.

The Audit Committee is responsible for the appointment, replacement, compensation, evaluation and oversight of the work of the independent auditors. As part of this responsibility, the Audit Committee pre-approves the audit and non-audit services performed by the independent auditors in order to assure that they do not impair the auditor's independence from the Company. Item 16G. Corporate Governance

In lieu of obtaining an independent review of related party transactions for conflicts of interests, consistent with Marshall Islands law requirements, a related party transaction will be permitted if: (i) the material facts as to such director's interest in such contract or transaction and as to any such common directorship, officership or financial interest are disclosed in good faith or known to the board or committee, and the board or committee approves such contract or transaction by a vote sufficient for such purpose without counting the vote of such interested director, or, if the votes of the disinterested directors are insufficient to constitute an act of the board, by unanimous vote of the disinterested directors; or (ii) if the material facts as to such director's interest in such contract or transaction and as to any such common directorship, officership or financial interest are disclosed in good faith or known to the shareholders entitled to vote thereon, and such contract or transaction is approved by vote of such shareholders. Article VI of our articles of incorporation further limit our ability to enter into business transactions with interested shareholders.

As a foreign private issuer, we are not required to solicit proxies or provide proxy statements to Nasdaq pursuant to Nasdaq corporate governance rules or Marshall Islands law. Consistent with Marshall Islands law, we will notify our shareholders of meetings between 15 and 60 days before the meeting. This notification will contain, among other things, information regarding business to be transacted at the meeting. In addition, our bylaws provide that certain shareholders must give us advance notice to properly introduce any business at a meeting of the shareholders. Our bylaws also provide that shareholders may designate in writing a proxy to act on their behalf.

While a number of the Nasdaq's corporate governance standards do not apply to us as a foreign private issuer, we intend to comply with a number of those rules. The practices that we will follow in lieu of Nasdaq's corporate governance rules are as follows:

[Table of Contents](#)

- in lieu of a nomination committee and remuneration committee comprised entirely of independent directors, our nomination and remuneration committees may be comprised of a majority of independent directors. Each of these committees will be comprised of a minimum of two individuals;
- in lieu of holding regularly scheduled meetings of the board of directors at which only independent directors are present, we will not be holding such regularly scheduled meetings;
- in lieu of a board of directors that is comprised by a majority of independent directors, our board of directors is not comprised of a majority of independent directors;
- in lieu of an audit committee comprised of three independent directors, our audit committee has two members;
- in lieu of having a remuneration committee with the authorities and responsibilities set forth in the Nasdaq rules, our remuneration committee is not required to have such authorities and responsibilities; and
- in lieu of obtaining shareholder approval prior to the issuance of securities (including adoption of or any amendment to any equity incentive plan), we will comply with provisions of the BCA, which allows the board of directors to approve all share issuances.

Item 16H. Mining Safety Disclosure

Not Applicable.

Item 16I. Disclosure Regarding Foreign Jurisdictions that Prevent Inspections

Not Applicable.

Item 16J. Insider trading policies

We have adopted an insider trading policy which applies to all of the Company's directors, officers and employees as well as certain related parties, and sets forth procedures governing the purchase, sale and other disposition of our securities by such parties. Our insider trading policy is reasonably designed to promote compliance with applicable insider trading laws, rules and regulations, and any listing standards applicable to the Company. A copy of our insider trading policy has been filed as Exhibit 11.1 to this annual report on Form 20-F.

Item 16K. Cybersecurity

We believe that cybersecurity is fundamental in our operations and, as such, we are committed to maintaining robust governance and oversight of cybersecurity risks and to implementing comprehensive processes and procedures for identifying, assessing, and managing material risks from cybersecurity threats as part of our broader risk management system and processes. Our cybersecurity risk management strategy prioritizes detection, analysis and response to known, anticipated or unexpected threats; effective management of security risks; and resiliency against incidents. With the ever-changing cybersecurity landscape and continual emergence of new cybersecurity threats, our senior management team and board of directors ensure that significant resources are devoted to cybersecurity risk management and the technologies, processes and people that support it. We assess the impact of cybersecurity threats on our business, including our strategic direction, operational performance, and financial stability, using insights from any past cybersecurity incidents in the shipping industry of which we are aware.

We have implemented risk-based processes for assessing, identifying, and managing material risks from cybersecurity threats. These processes include access controls to organizational systems, data encryption, and cybersecurity training and security awareness campaigns, and are designed to systematically evaluate potential vulnerabilities and cybersecurity threats and minimize their potential impact on our organization's operations, assets, and stakeholders. Our IT security services are provided by a third party that is ISO 27001 certified. Accordingly, we also implement processes to oversee and identify material cybersecurity risks associated with our utilization of third-party service providers on whom we have a material dependency, such as conducting due diligence assessments to evaluate their cybersecurity measures, data protection practices, and compliance with relevant regulatory requirements.

[Table of Contents](#)

As we do not have a dedicated board committee solely focused on cybersecurity, our board of directors has oversight responsibility for risks and incidents relating to cybersecurity threats, including compliance with disclosure requirements, cooperation with law enforcement, and related effects on financial and other risks. Senior management regularly discusses cyber risks and trends and, should they arise, any material incidents with our board of directors. We consult with outside counsel as appropriate, including on materiality analysis and disclosure matters, and in the event of an incident our board of directors will make the final materiality determinations and disclosure and other compliance decisions. Our external IT provider maintains a dedicated cybersecurity auditing team that independently tests our cybersecurity controls.

Overall, our approach to cybersecurity risk management includes the following key elements:

- (i) Continuous monitoring of cybersecurity threats, both internal and external, through the use of data analytics and network monitoring systems.
- (ii) Engagement of third-party consultants and other advisors to provide IT services and to assist in assessing points of vulnerability of our information security systems.
- (iii) Training and Awareness – we have various information technology policies relating to cybersecurity. We also provide employee training that is administered on a periodic basis that reinforces our information technology policies, standards and practices, as well as the expectation that employees comply with these policies and identify and report potential cybersecurity risks. We also require employees to sign confidentiality agreements, where appropriate to their role.

We continue to invest in our cybersecurity systems and to enhance our internal controls and processes. Our business strategy, results of operations and financial condition have not been materially affected by risks from cybersecurity threats, including as a result of previously identified cybersecurity incidents, but we cannot provide assurance that they will not be materially affected in the future by such risks or any future material incidents. While we have dedicated significant resources to identifying, assessing, and managing material risks from cybersecurity threats, our efforts may not be adequate, may fail to accurately assess the severity of an incident, may not be sufficient to prevent or limit harm, or may fail to sufficiently remediate an incident in a timely fashion, any of which could harm our business, reputation, results of operations and financial condition. For more information certain risks associated with cybersecurity, see “Item 3.D. Risk Factors—Company-Specific Risk Factors— A cyber-attack or our information systems otherwise not properly working could materially disrupt our business.”

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Directors of Globus Maritime Limited.

Opinion on the Financial Statements

We have audited the accompanying consolidated statement of financial position of Globus Maritime Limited (the “Company”) as of December 31, 2023 and 2022, the related consolidated statements of comprehensive income, changes in equity and cash flows for each of the three years in the period ended December 31, 2023, and the related notes (collectively referred to as the “consolidated financial statements”). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2023 and 2022, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2023, in conformity with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”).

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the consolidated financial statements and (2) involved our especially challenging, subjective or complex judgments. The communication of the critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Indicators for impairment related to vessels

<i>Description of the matter</i>	<p>At December 31, 2023, the carrying value of the Company's vessels was \$100,557 thousand. As discussed in Notes 2.3, 2.12 and 5 to the consolidated financial statements, at each reporting date the Company assesses whether there are any indicators that a vessel may be impaired. In its evaluation of impairment indicators the Company considers external and internal information, in accordance with IAS 36 Impairment of Assets ("IAS 36"), and applies judgment when assessing market conditions.</p> <p>Auditing management's assessment of vessel impairment indicators was complex given the judgement and estimation uncertainty in assessing certain potential indicators of impairment, mainly due to significant volatility in the market conditions.</p>
<i>How we addressed the matter in our audit</i>	<p>We analyzed management's assessment of vessel impairment indicators against the accounting guidance in IAS 36. To test management assessment of the developments in market conditions, our procedures included, among others, performing an independent analysis over the vessel market charter rates and market prices, recent sale and purchase activity for second-hand dry-bulk vessels and changes in independent brokers' valuations using market information derived from external information sources for the industry and third-party information including industry analysts' reports and other industry data. We considered whether the information used by management was consistent with evidence obtained in other areas of the audit. Further, we assessed the Company's disclosures in Notes 2.3, 2.12 and 5.</p>

We have served as the Company's auditor since 2007.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts presented in thousands of U.S. Dollars - except for share, per share and warrants data, unless otherwise stated)

1. Basis of presentation and general information

The accompanying consolidated financial statements include the financial statements of *Globus Maritime Limited* (“Globus”) and its wholly owned subsidiaries (collectively the “Company”). Globus was formed on July 26, 2006, under the laws of Jersey. On June 1, 2007, Globus concluded its initial public offering in the United Kingdom and its shares were admitted for trading on the Alternative Investment Market (“AIM”). On November 24, 2010, Globus was redomiciled to the Marshall Islands and its common shares were admitted for trading in the United States (NASDAQ Global Market) under the Securities Act of 1933, as amended. On November 26, 2010, Globus’ shares were delisted from AIM.

The registered address of Globus is: Trust Company Complex, Ajeltake Road, Ajeltake Island, Majuro, Marshall Islands MH96960.

The principal business of the Company is the ownership and operation of a fleet of dry bulk motor vessels (“m/v”), providing maritime services for the transportation of dry cargo products on a worldwide basis. The Company conducts its operations through its vessel owning subsidiaries.

The operations of the vessels are managed by Globus Shipmanagement Corp. (the “Manager”), a wholly owned Marshall Islands corporation. The Manager has an office in Greece, located at 128 Vouliagmenis Avenue, 166 74 Glyfada, Greece and provides the commercial, technical, cash management and accounting services necessary for the operation of the fleet in exchange for a management fee. The management fee is eliminated on consolidation. The consolidated financial statements include the financial statements of Globus and its subsidiaries listed below, all wholly owned by Globus as at December 31, 2023:

The consolidated financial statements as at December 31, 2023 and 2022 and for the three years in the period ended December 31, 2023, were approved for issuance by the Board of Directors on March 14, 2024.

2. Basis of Preparation and Accounting Policies

2.1 Basis of Preparation: The consolidated financial statements have been prepared on a historical cost basis, except for derivative financial instruments which are measured at fair value. The consolidated financial statements are presented in U.S. dollars and all values are rounded to the nearest thousand (\$ 000s) except when otherwise indicated.

Going concern basis of accounting:

The Company performs on a regular basis an assessment to evaluate its ability to continue as a going concern.

In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but is not limited to, twelve months from the end of the reporting period. The degree of consideration depends on the facts in each case and depends on the Company’s profitability and ready access to financial resources. In certain cases, management may need to consider a wide range of factors relating to current and expected profitability, debt repayment schedules, compliance with the financial and security collateral cover ratio covenants under its existing debt agreements and potential sources of replacement financing before it can satisfy itself that the going concern basis is appropriate. The Company may need to develop detailed cash flow projections as part of its assessment in such cases. In developing estimates of future cash flows, the Company makes assumptions about the vessels’ future performance, with the significant assumptions relating to time charter equivalent rates, vessels’ operating expenses, vessels’ capital expenditures, fleet utilization, Company’s general and administrative expenses and cash

flow requirements for debt servicing. The assumptions used to develop estimates of future cash flows are based on historical trends as well as future expectations.

As at December 31, 2023, the Company reported a total comprehensive income for the year of \$5,272, Cash and cash equivalents of \$74,202, a working capital surplus of \$69,795 and was in compliance with its debt covenants.

The above conditions indicate that the Company is expected to be able to operate as a going concern and these consolidated financial statements were prepared under this assumption.

Conflicts

The conflict between Russia and Ukraine, which commenced in February 2022, has disrupted supply chains and caused instability and significant volatility in the global economy. Much uncertainty remains regarding the global impact of the conflict in Ukraine, and it is possible that such instability, uncertainty and resulting volatility could significantly increase the costs of the Company and adversely affect its business, including the ability to secure charters and financing on attractive terms, and as a result, adversely affect the Company's business, financial condition, results of operation and cash flows. Currently there is no effect on the Company's operations. Furthermore, the intensity and duration of the recently declared war between Israel and Hamas is difficult to predict and its impact on the world economy and drybulk industry is uncertain. While much uncertainty remains regarding the global impact of the war between Israel and Hamas, it is possible that such tensions could result in the eruption of further hostilities in other regions, including the Red Sea, and could adversely affect the Company's business, financial conditions, operating results, and cash flows.

(Amounts presented in thousands of U.S. Dollars - except for share, per share and warrants data, unless otherwise stated)

2. Basis of Preparation and Accounting Policies (continued)

Statement of Compliance: These consolidated financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”).

Basis of Consolidation: The consolidated financial statements comprise the financial statements of Globus and its subsidiaries listed in Note 1. The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies.

All inter-company balances and transactions have been eliminated upon consolidation. Subsidiaries are fully consolidated from the date on which control is transferred to the Company and cease to be consolidated from the date on which control is transferred out of the Company.

2.2 Standards amendments and interpretations:

The accounting policies adopted are consistent with those of previous financial year except for the following amended IFRS which have been adopted by the Company as at January 1, 2023:

- **IAS 1 Presentation of Financial Statements and IFRS Practice Statement 2: Disclosure of Accounting policies (Amendments)**

The Amendments are effective for annual periods beginning on or after January 1, 2023 with earlier application permitted. The amendments provide guidance on the application of materiality judgements to accounting policy disclosures. In particular, the amendments to IAS 1 replace the requirement to disclose ‘significant’ accounting policies with a requirement to disclose ‘material’ accounting policies. Also, guidance and illustrative examples are added in the Practice Statement to assist in the application of the materiality concept when making judgements about accounting policy disclosures. The Company revisited and updated its accounting policies to apply the requirements of the amendments to IAS 1. The amendments had no material impact on the financial statements of the Company.

- **IFRS 17 insurance contracts,**
- **IAS 8 Accounting policies, Changes in Accounting Estimates and Errors: Definition of Accounting Estimates (Amendments),**
- **IAS 12 Income taxes: Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments),**
- **IAS 12 Income taxes: International Tax Reform - Pillar Two Model Rules (Amendments)**

These newly adopted IFRS and amendments to IFRS did not have a material impact on the Company’s accounting policies.

Standards issued but not yet effective and not early adopted:

- **IAS 1 Presentation of Financial Statements: Classification of Liabilities as Current or Non-current (Amendments)**

The amendments are effective for annual reporting periods beginning on or after January 1, 2024, with earlier application permitted. Management is in process of assessing the effect of these amendments on the Company’s financial statements and disclosures.

- **IAS 7 Statement of Cash Flows and IFRS 7 Financial Instruments Disclosure - Supplier Finance Arrangements (Amendments).**

The amendments are effective for annual reporting periods beginning on or after January 1, 2024, with earlier application permitted. Management is in process of assessing the effect of these amendments on the Company’s financial statements and disclosures.

- **IAS 21 The Effects of Changes in Foreign Exchange Rates: Lack of Exchangeability (Amendments).**

The amendments are effective for annual reporting periods beginning on or after January 1, 2025, with earlier application permitted. Management is in process of assessing the effect of these amendments on the Company’s financial statements and disclosures.

- **Amendment in IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture.**

In December 2015 the IASB postponed the effective date of this amendment indefinitely pending the outcome of its research project on the equity method of accounting.

- **IFRS 16 Leases: Lease Liability in a Sale and Leaseback (amendments).**

The amendments are effective for annual reporting periods beginning on or after January 1, 2024, with earlier application permitted. Management is in process of assessing the effect of these amendments on the Company’s financial statements and disclosures.

The Company plans to adopt these standards on their respective effective dates.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts presented in thousands of U.S. Dollars - except for share, per share and warrants data, unless otherwise stated)

2. Basis of Preparation and Accounting Policies (continued)

2.3 Accounting policies, judgments, estimates and assumptions: The preparation of consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the amounts of revenues and expenses recognized during the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

Judgments: In the process of applying the Company's accounting policies, management has made the following judgments that had a significant effect on the amounts recognized in the consolidated financial statements.

Impairment and Reversal of previously recognized impairment: The Company applies judgment in assessing at each reporting date whether indicators of impairment or reversal of previously recognized impairment loss exist for any vessels. If indicators of possible impairment or reversal of impairment are identified, the Company estimates the recoverable amount of such vessel.

The Company considers the following indicators of impairment/reversal of impairment:

- Observable significant decrease / increase in vessel's market value;
- Significant adverse / favorable changes in the technological, economic or legal environment incurred or are expected to be incurred and negatively / positively affect vessel's value or decrease / increase its revenue generating ability; and
- Market interest rates of return on investments have increased / decreased during the period, which will result in increase /decrease of the discount rate.

To evaluate the presence of impairment/reversal of impairment indicators the Company assessed current market conditions as derived from historical information including analysis over vessel market charter rates and market prices, recent vessels sales and purchase activity, independent brokers valuations reports and also assesses forward looking industry information regarding vessels market values as well as various qualitative factors. Based on such assessment performed as of December 31, 2023 and 2022, the Company concluded that no indicators for impairment were present as of December 31, 2023 and 2022 and no impairment was recorded for the years ended December 31, 2023 and 2022. Following the agreement to sell Sun Globe and given the significant increase in the vessel's market value, the Company assessed that there were indications that impairment losses recognized in the previous periods with respect to this vessel have decreased. Therefore, the carrying amount of the vessel was increased to its recoverable amount, determined based on selling price less cost to sell, and the Company recorded reversal of impairment amounting \$4,400, during the first quarter of 2023. No reversal of previously recognized impairment losses was recorded for the year ended December 31, 2022 (Note 5).

2. Basis of Preparation and Significant Accounting Policies (continued)

Estimates and assumptions: The key assumptions concerning the future and other key sources of estimation uncertainty at the financial position date, that have a significant risk of causing a significant adjustment to the carrying amount of assets and liabilities within the next financial year, are discussed below. The Company based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

➤ *Carrying amount of vessels, net:* Vessels are stated at cost, less accumulated depreciation (including depreciation of dry-docking costs) and accumulated impairment losses. The estimates and assumptions that have the most significant effect on the vessels carrying amount are estimations in relation to useful lives of vessels, their residual value and estimated dry docking dates. The key assumptions used are further explained in notes 2.9 to 2.12.

➤ *Impairment of Vessels and Reversal of previously recognized impairment losses:* The Company's impairment test for non-financial assets is based on the assets' recoverable amount, where the recoverable amount is the greater of fair value less costs to sell and value in use. The Company engaged independent valuation specialists to determine the fair value of non-financial assets as at December 31, 2023 and 2022. The value in use calculation is based on a discounted cash flow model. The value in use calculation is most sensitive to the discount rate used for the discounted cash flow model as well as the expected net cash flows. See notes 2.12 and 5. The Company assesses also at each reporting date whether there is any indication that an impairment loss recognized in prior periods for a vessel may no longer exist or may have decreased.

2.4 Accounting for revenue and related expenses: The Company generates its revenues from charterers for the charter hire of its vessels. Vessels are chartered using time charters, where a contract is entered into for the use of a vessel for a specific period of time and a specified daily charter hire rate. If a time charter agreement exists and collection of the related revenue is reasonably assured, revenue is recognized on a straight-line basis over the period of the time charter. Such Voyage Revenues are treated in accordance with IFRS 16 as lease income, while the portion of time charter revenues related to technical management services are recognized in accordance with IFRS 15. Associated broker commissions are recognized on a pro-rata basis over the duration of the period of the time charter. Deferred revenue relates to cash received prior to the financial position date and is related to revenue earned after such date.

Interest income: Interest income is recognized as interest on an accrual basis.

Voyage expenses: Voyage expenses primarily consisting of port, canal and bunker expenses that are unique to a particular charter under time charter arrangements are paid by the charterer. Furthermore, voyage expenses include brokerage commission on revenue which is paid by the Company. Voyage expenses are accounted for on an accrual basis.

Vessel operating expenses: Vessel operating costs include crew costs, provisions, deck and engine stores, lubricating oil, insurance, maintenance and repairs. Vessel operating expenses are accounted for on an accrual basis.

2.5 Foreign currency translation: The functional currency of Globus and its subsidiaries is the U.S. dollar, which is also the presentation currency of the Company, since the Company's vessels operate in international shipping markets, whereby the U.S. dollar is the currency used for transactions. Transactions involving other currencies during the period are converted into U.S. dollars using the exchange rates in effect at the time of the transactions. At the financial position dates, monetary assets and liabilities, which are denominated in currencies other than the U.S. dollar, are translated into the functional currency using the period-end exchange rate. Gains or losses resulting from foreign currency transactions are included in foreign exchange gains/(losses), net in the consolidated statement of comprehensive income.

2.6 Cash and cash equivalents: The Company considers highly liquid investments such as time deposits and certificates of deposit with original maturity of three months or less to be cash and cash equivalents.

2.7 Trade accounts receivable, net: The amount shown as trade accounts receivable at each financial position date includes estimated recoveries from charterers for hire, net of an allowance for doubtful accounts. Trade accounts receivable without a significant financing component are initially measured at their transaction price and subsequently measured at amortized cost less impairment losses, which are recognized in the consolidated statement of comprehensive income. At each financial position date, all potentially uncollectible accounts are assessed individually for the purpose of determining the appropriate provision for expected credit losses. The provision for expected credit losses at December 31, 2023 and 2022 was nil.

2.8 Inventories: Inventories consist of lubricants, bunkers and gas cylinders and are stated at the lower of cost and net realizable value. The cost is determined by the first-in, first-out method.

GLOBUS MARITIME LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts presented in thousands of U.S. Dollars - except for share, per share and warrants data, unless otherwise stated)

2. Basis of Preparation and Significant Accounting Policies (continued)

- 2.9 Vessels, net:** Vessels are stated at cost, less accumulated depreciation (including depreciation of dry-docking cost) and accumulated impairment losses. Vessel cost consists of the contract price for the vessel and any material expenses incurred upon acquisition (initial repairs, improvements and delivery expenses, interest, commissions paid and on-site supervision costs incurred during the construction periods). Subsequent expenditures for conversions and major improvements are also capitalized when the recognition criteria are met. Otherwise, these amounts are charged to expenses as incurred.
- 2.10 Dry-docking costs:** Vessels are required to be dry-docked for major repairs and maintenance that cannot be performed while the vessels are operating. Dry-dockings occur approximately every 2.5 years. The costs associated with the dry-dockings are capitalized and depreciated on a straight-line basis over the period between dry-dockings, to a maximum of 2.5 years. At the date of acquisition of a vessel, management estimates the component of the cost that corresponds to the economic benefit to be derived until the first scheduled dry-docking of the vessel under the ownership of the Company and this component is depreciated on a straight-line basis over the remaining period through the estimated dry-docking date.
- 2.11 Depreciation:** The cost of each of the Company's vessels is depreciated on a straight-line basis over each vessel's remaining useful economic life, after considering the estimated residual value of each vessel, beginning when the vessel is ready for its intended use. Management estimates that the useful life of new vessels is 25 years, which is consistent with industry practice. The residual value of a vessel is the product of its lightweight tonnage and estimated scrap value per lightweight ton. The residual values and useful lives are reviewed at each reporting date and adjusted prospectively. During the fourth quarter of 2021, the Company adjusted the scrap rate from \$300/ton (absolute amount) to \$380/ton (absolute amount) due to the increased scrap rates worldwide. This resulted to a decrease of \$145 to the depreciation charge included in the consolidated statement of comprehensive income for 2021. During the fourth quarter of 2022, the Company adjusted the scrap rate from \$380/ton (absolute amount) to \$440/ton (absolute amount) due to the increased scrap rates worldwide. This resulted to a lower amount of \$118 to the depreciation charge included in the consolidated statement of comprehensive income for 2022. During the fourth quarter of 2023, the Company adjusted the scrap rate from \$440/ton to \$480/ton, due to the increased scrap rates worldwide. This resulted in a decrease of approximately \$62 to the depreciation charge included in the consolidated statement of comprehensive income for 2023.
- 2.12 Impairment of Long-Lived Assets and Reversal of previously recognized impairment losses:** The Company assesses at each reporting date whether there is an indication that a vessel may be impaired. The Company has considered various indicators, including but not limited to the current level of market hire rates, the market price of its vessels, the economic outlook, technological, regulatory and environmental developments. The vessel's recoverable amount is estimated when events or changes in circumstances indicate the carrying value may not be recoverable. If such indication exists and where the carrying value exceeds the estimated recoverable amounts, the vessel is written down to its recoverable amount. The recoverable amount is the greater of fair value less costs to sell and value-in-use. In assessing value-in-use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the vessel. Impairment losses are recognized in the consolidated statement of comprehensive income. The Company assesses also at each reporting date whether there is any indication that an impairment loss recognized in prior periods for a vessel may no longer exist or may have decreased. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such a reversal is recognized in the consolidated statement of comprehensive income. After such a reversal, the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life (refer to note 5).
- 2.13 Long-term debt:** Long-term debt is initially recognized at the fair value of the consideration received net of financing costs directly attributable to the borrowing. After initial recognition, long-term debt is subsequently measured at amortized cost using the effective interest rate method. Amortized cost is calculated by taking into account any financing costs and any discount or premium on settlement. Gains and losses are recognized in the income statement component of the consolidated statement of comprehensive income when the liabilities are derecognized or impaired, as well as through the amortization process. Accrued interest at the end of the reporting period is added at the current portion of long-term debt.
- 2.14 Financing costs:** Fees incurred for obtaining new loans or refinancing existing loans are deferred and amortized over the life of the related debt, using the effective interest rate method. Any unamortized balance of costs relating to loans repaid or refinanced is expensed in the period the repayment or refinancing is made. For the year ended December 31, 2023, the Company deferred financing costs of \$406, which relate to the costs incurred for the top up loan amount of \$25,000 with First Citizens Bank & Trust Company (formerly known as CIT Bank N.A.) ("First-Citizens Bank") (This loan facility is referred to as the "CIT Loan Facility", see Note 11 for more details). For the year ended December 31, 2022, the Company deferred financing costs of \$259, which relate to the costs incurred for the top up loan amount of \$18,000 under the CIT Loan Facility (see Note 11 for more details). For the year ended December 31, 2021, the Company deferred financing costs of \$545, which relate to the costs incurred for CIT Loan Facility (see Note 11 for more details).

2. Basis of Preparation and Accounting Policies (continued)

2.15 Borrowing costs: Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Borrowing costs are expensed to the income statement component of the consolidated statement of comprehensive income as incurred under “interest expense and finance costs” except borrowing costs that relate to a qualifying asset. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. Borrowing costs that relate to qualifying assets are capitalized.

2.16 Operating segment: The Company reports financial information and evaluates its operations by charter revenues and not by other factors such as length of ship employment for its customers i.e., spot or time charters or type of vessel. The Company does not use discrete financial information to evaluate the operating results for each such type of charter. Although revenue can be identified for these types of charters, management cannot and does not identify expenses, profitability or other financial information for these charters. As a result, management, including the chief operating decision maker, reviews operating results solely by revenue per day and operating results of the fleet and thus the Company has determined that it operates as one operating segment. Furthermore, when the Company charters a vessel to a charterer, the charterer is free to trade the vessel worldwide and, as a result, the disclosure of geographical information is impracticable.

2.17 Provisions and contingencies: Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and, a reliable estimate of the amount of the obligation can be made. Provisions are reviewed at each financial position date and adjusted to reflect the present value of the expenditure expected to be required to settle the obligation. Contingent liabilities are not recognized in the consolidated financial statements but are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote, in which case there is no disclosure. Contingent assets are not recognized in the consolidated financial statements but are disclosed when an inflow of economic benefits is probable.

2.18 Offsetting of financial assets and liabilities: Financial assets and liabilities are offset and the net amount is presented in the consolidated financial position only when the Company has a legally enforceable right to set off the recognized amounts and intend either to settle such asset and liability on a net basis or to realize the asset and settle the liability simultaneously.

2.19 Financial assets and liabilities:

i. Classification and measurement of financial assets and financial liabilities

Under IFRS 9, on initial recognition, a financial asset is classified as measured at: amortized cost; fair value through other comprehensive income (FVOCI) - debt investment; FVOCI - equity investment; or fair value through profit or loss (FVTPL). The classification of financial assets under IFRS 9 is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics.

GLOBUS MARITIME LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts presented in thousands of U.S. Dollars - except for share, per share and warrants data, unless otherwise stated)

2. Basis of Preparation and Significant Accounting Policies (continued)

All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

A financial asset (unless it is a trade receivable without a significant financing component that is initially measured at the transaction price) is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

ii. Impairment of financial assets

The financial assets at amortized cost consist of trade accounts receivable and cash and cash equivalents.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analyses, based on the Company's historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 180 days past due.

The Company considers a financial asset to be in default when:

- the counterparty is unlikely to pay its contractual obligations to the Company in full, without recourse by the Company to actions such as realizing security (if any is held); or
- the financial asset is more than 1 year past due.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between cash flows due to the entity in accordance with the contract and cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

iii. Derecognition of financial assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognized where:

- the rights to receive cash flows from the asset have expired;
- the Company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a "pass-through" arrangement; or
- the Company has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the assets, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

GLOBUS MARITIME LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts presented in thousands of U.S. Dollars - except for share, per share and warrants data, unless otherwise stated)

2. Basis of Preparation and Significant Accounting Policies (continued)

Where the Company has transferred its rights to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Company's continuing involvement in the asset.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

iv. Derecognition of Financial liabilities:

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability and, the difference in the respective carrying amounts is recognized in profit or loss.

2.20 Leases:

Leases – where the Company is the lessee: The Company applies a single recognition and measurement approach for all leases, except for short term leases and leases of low value assets. The Company recognizes lease liabilities to make payments and right of use assets representing the right of use of the underlying asset. The Company recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred and lease payments made at or before the commencement date. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term or a change in the lease payments.

Leases – where an entity is the lessor: Leases of vessels where the entity does not transfer substantially all the risks and benefits of ownership of the vessel are classified as operating leases. Lease income on operating leases is recognized on a straight-line basis over the lease term (see also Note 2.4).

For time charters that qualify as leases, the Company is required to disclose lease and non-lease components of lease revenue. The revenue earned under time charters is not negotiated as two separate components, but as a whole. For purposes of determining the standalone selling price of the vessel lease and technical management service components of the Company's time charters, the Company concluded that the residual approach would be the most appropriate method to use given that vessel lease rates are highly variable depending on shipping market conditions, the duration of such charters and the age of the vessel.

The Company believes that the standalone transaction price attributable to the technical management service component, including crewing services, is more readily determinable than the price of the lease component and, accordingly, the price of the service component is estimated using data provided by its technical department, which includes crew expenses, maintenance and consumable costs and was approximately \$16,473 for the year ended December 31, 2023. The lease component that is disclosed then is calculated as the difference between total revenue and the non-lease component revenue and was approximately \$14,367 for the year ended December 31, 2023.

2. Basis of Preparation and Significant Accounting Policies (continued)

2.21 Share capital and Warrants: Common shares and preferred shares are classified as equity. Incremental costs directly attributable to the issue of new shares are recognized in equity as a deduction from the proceeds. The Company's warrants meet the classification criteria as per IAS 32 and, accordingly, are classified in equity.

2.22 Fair value measurement: The Company measures financial instruments, such as derivatives at fair value at each reporting date. In addition, fair values of financial instruments measured at amortized cost are disclosed in note 21. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either, a) in the principal market for the asset or the liability or b) in the absence of a principal market, in the most advantageous market for the asset or liability both being accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that the market participants would use when pricing the asset or liability, assuming that the market participants act in their best economic interest. A fair value measurement of a non-financial asset takes into account the market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

The Company uses the following hierarchy for determining and disclosing the fair value of assets and liabilities by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

For assets and liabilities that are recognized at fair value in the consolidated financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorization at the end of each reporting period.

2.23 Current versus non-current classification: The Company presents assets and liabilities in the consolidated statement of financial position based on current/non-current classification.

An asset as current when it is:

- expected to be realized or intended to be sold or consumed in a normal operating cycle;
- held primarily for the purpose of trading;
- expected to be realized within twelve months after the reporting period; or
- cash or cash equivalent

All other assets are classified as non-current.

A liability is current when:

- it is expected to be settled in a normal operating cycle;
- it is held primarily for the purpose of trading;
- it is due to be settled within twelve months after the reporting period;
- there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

2.24 Restricted Cash: Restricted cash represents pledged cash deposits or minimum liquidity required to be maintained under the Company's borrowing arrangements. In the event that the obligation to maintain such deposits is expected to be terminated within the next twelve months, these deposits are classified as current assets. Otherwise, they are classified as non-current assets.

2.25 Interest Rate Swap: The Company enters into interest rate swap agreements to manage its exposure to fluctuations of interest rate risk associated with its borrowings. Interest Rate Swaps are measured at fair value. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. The valuation technique used for the Interest Rate Swaps is the discounted cash flow (see also note 19). The Company has not designated these interest rate swaps for hedge accounting.

The fair value of the Interest Rate Swaps is classified under "Fair value of derivative financial instruments" either under assets or liabilities in the consolidated statement of financial position. In the event that the respective asset or liability is expected to be materialized within the next twelve months, it is classified as current asset or liability. Otherwise, the respective asset or liability is classified as non-current asset or liability.

The change in fair value deriving from the valuation of the Interest Rate Swap at the end of each reporting period is classified under "Gain on derivative financial instruments" in the consolidated statement of comprehensive income. Realized gains or losses resulting from interest rate swaps are recognized in profit or loss under "Gain on derivative financial instruments" in the consolidated statement of comprehensive income.

2.26 Management & consulting fee income: The Company enters into consultancy agreements with other companies for the purpose of providing consultancy services. For these services the Company receives a fee. The total income from these fees is classified in the income statement component of the consolidated statement of comprehensive income under management & consulting fee income.

3. Cash and cash equivalents and Restricted cash

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise the following:

During the year ended December 31, 2021, Globus issued 12,178 common shares (par value \$0.004 per share) as share-based payments. For the years ended December 31, 2023 and 2022 Globus has not issued any common shares as share-based payment.

As at December 31, 2023, 2022 and 2021, no Class B common shares or Series A preferred shares (par value \$0.001 per share) were outstanding.

On August 3, 2023, the Company entered into a Shareholders Rights Agreement between the Company and Computershare Trust Company, N.A., as rights agent, and the Company's board of directors authorized and declared a dividend distribution of one right for each outstanding common share to shareholders of record as of the close of business on August 21, 2023. Each right entitles the registered holder to purchase from the Company one one-thousandth of a share of Series C Participating Preferred Stock at an exercise price of \$5.00 (absolute amount) per one one-thousandth of a preferred share, subject to adjustment.

The board of directors has adopted the Rights Agreement to protect shareholders from coercive or otherwise unfair takeover tactics. In general terms, it works by imposing a significant penalty upon, subject to limited exceptions, any person or group that acquires 15% or more of the outstanding common shares without the approval of the board of directors. If a shareholder's beneficial ownership of the Company's common shares as of the time of the public announcement of the rights plan and associated dividend declaration is at or above the applicable threshold, that shareholder's then-existing ownership percentage would be grandfathered, but the rights would become exercisable if at any time after such announcement, the shareholder increases its ownership percentage. The Rights Agreement should not interfere with any merger or other business combination approved by the board of directors.

For persons who, prior to the time of public announcement of the Rights Agreement, beneficially own 15% or more of the outstanding common shares, the Rights Agreement "grandfathers" their current level of ownership, so long as they do not purchase additional shares in excess of certain limitations. In addition, Georgios Feidakis, Athanasios Feidakis, Konstantina Feidakis, Angelina Feidakis, Firment Shipping Inc. and Goldenmare Limited, or any of their respective affiliates are excluded from the definition of "Acquiring Person" (as defined in the Rights Agreement) and therefore may obtain beneficial ownership of 15% or more of the outstanding common shares without causing the Rights to be exercisable.

Under the Rights Agreement's terms, it will expire on February 3, 2025.

On March 2, 2021, the Company entered into a stock purchase agreement and issued 10,000 Series B Preferred Shares, par value \$0.001 per share, to Goldenmare Limited, a company controlled by the Company's Chief Executive Officer, Athanasios Feidakis, in return for \$130, which amount was settled by reducing, on a dollar-for-dollar basis, the amount payable as executive compensation by the Company to Goldenmare Limited pursuant to a consultancy agreement. The issuance of the Series B preferred shares to Goldenmare Limited was approved by an independent committee of the Company's Board of Directors, which received fairness opinions from an independent financial advisor.

On June 22, 2020, the Company issued 342,857 of its common shares, par value \$0.004 per share, in an underwritten public offering at a price of \$35 (absolute amount) per unit. Each unit consisted of one common share and one Class A warrant to purchase one common share and immediately separated upon issuance. In addition, the Company granted to the underwriter a 45-day option to purchase up to an additional 51,429 common shares, par value \$0.004 per share, (or pre-funded warrants in lieu thereof) and Class A warrants to purchase up to 51,429 common shares, at the public offering price less discounts and commissions. The underwriter exercised its option and purchased 51,393 common shares, par value \$0.004 per share and Class A warrants to purchase 51,393 common shares. Each Class A warrant is immediately exercisable for one common share at an exercise price of \$35 (absolute amount) per common share and expires five years from issuance. Total proceeds amounted to \$12,695 before issuance expenses.

The Class A Warrants are exercisable for a period of five years commencing on the date of issuance. If a registration statement registering the issuance of the common shares underlying the warrants under the Securities Act is not effective or available, the holder may, in its sole discretion, elect to exercise the warrant through a cashless exercise, in which case the holder would receive upon such exercise the net number of common shares determined according to the formula set forth in the warrant. Globus may be required to pay certain amounts as liquidated damages as specified in the warrants in the event Globus does not deliver common shares upon exercise of the warrants within the time periods specified in the warrants.

As at December 31, 2023 and 2022, the Company had issued 5,550 common shares, par value \$0.004 per share, pursuant to exercise of outstanding Class A Warrants, resulting to cash proceeds of \$194, and had 388,700 Class A Warrants outstanding to purchase an aggregate of 388,700 common shares, par value \$0.004 per share.

10. Earnings per Share

Basic earnings per share (“EPS”) is calculated by dividing the net income for the year attributable to Globus shareholders by the weighted average number of shares issued, paid and outstanding.

Diluted earnings per share is calculated by dividing the net income attributable to common equity holders of the parent by the weighted average shares outstanding during the year plus the weighted average number of common shares that would be issued on the conversion of all the dilutive potential common shares into common shares. The incremental shares (the difference between the number of shares assumed issued and the number of shares assumed purchased) are included in the denominator of the diluted earnings/(losses) per share computation unless such inclusion would be anti-dilutive.

As for the years ended December 31, 2023, 2022 and 2021, the securities that could potentially dilute basic EPS in the future are any incremental shares of unexercised warrants (Note 9). As the warrants were out-of-the money during the periods ended December 31, 2023, 2022 and 2021, these were not included in the computation of diluted EPS, because to do so would have anti-dilutive effect.

The following reflects the net income per common share:

	For the year ended December 31,		
	2023	2022	2021
Income attributable to common equity holders	5,272	24,280	14,950
Weighted average number of shares – basic and diluted	20,582,301	20,582,301	14,809,536
Earnings per common share – basic and diluted	0.26	1.18	1.01

In May 2021, Globus through its wholly owned subsidiaries, Devocean Maritime Ltd.(the “Borrower A”), Domina Maritime Ltd. (the “Borrower B”), Dulac Maritime S.A. (the “Borrower C”), Artful Shipholding S.A. (the “Borrower D”), Longevity Maritime Limited (the “Borrower E”) and Serena Maritime Limited (the “Borrower F”), vessel owning companies of m/v River Globe, m/v Sky Globe, m/v Star Globe, m/v Moon Globe, m/v Sun Globe and m/v Galaxy Globe, respectively, entered a new term loan facility for up to \$34,250 (the “CIT Loan Facility”) with First-Citizens Bank & Trust Company (formerly known as CIT Bank N.A.) for the purpose of refinancing the existing indebtedness secured on the ships. The CIT Loan Facility is guaranteed by Globus. The CIT Loan Facility originally bore interest at LIBOR plus a margin of 3.75% (or 5.75% default interest) per annum.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Amounts presented in thousands of U.S. Dollars - except for share, per share and warrants data, unless otherwise stated)

11. Long-Term Debt, net (continued)

The CIT Loan Facility originally consisted of six tranches, payable in 20 consecutive quarterly instalments with each instalment in an aggregate amount of \$1.25 million (absolute amount) as well as a balloon payment in an aggregate amount of \$9.25 million (absolute amount) due together with the 20th and final instalment in May 2026. On May 10, 2021, the Company fully drew \$34,250 under the CIT Loan Facility, paid \$545 of borrowing costs incurred for the CIT Loan Facility, which were deferred over the duration of the loan facility, and fully prepaid the balance of its previous EnTrust loan facility. The Company also entered into a swap agreement with respect to LIBOR. The Company paid First-Citizens Bank an upfront fee in the amount of 1.25% of the total commitment of the loan.

In August 2022, the Company entered into a deed of accession, amendment and restatement of the CIT Loan Facility with First-Citizens Bank, whereby the CIT Loan Facility was amended and restated and an additional borrower, Salamina Maritime Limited, acceded to the CIT Loan Facility. The CIT Loan Facility principal amount was increased to \$52.25 million (absolute amount), by a top up loan amount of \$18 million (absolute amount) for the purpose of financing vessel Orion Globe and for general corporate and working capital purposes. The CIT Loan Facility (including the new top up loan amount) became further secured by a first preferred mortgage over the vessel Orion Globe. On August 10, 2022, the Company fully drew the \$18 million (absolute amount) top up loan amount under the CIT Loan Facility and paid approximately \$259 of borrowing costs incurred, which were deferred over the duration of the loan facility.

As noted above, following the agreement reached in August 2022 the benchmark rate of the CIT Loan Facility was amended from LIBOR to Term SOFR and the applicable margin was decreased from 3.75% to 3.35% (or 5.25% default interest) per annum. This amendment to the loan agreement falls within the scope of Interest Rate Benchmark Reform – Phase 2, Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 (“Amendments”), which have been published by IASB in August 2020 and adopted by the Company as of January 1, 2021. In particular, the Company applied the practical expedient available under the Amendments and adjusted the effective interest rate when accounting for changes in the basis for determining the contractual cash flows under CIT Loan Facility. No adjustment to the carrying amount of the loan was necessary. The Company has also amended its interest rate swap agreement with First Citizens Bank and replaced the respective benchmark rate from LIBOR to Term SOFR in order to depict the change of base rate of the CIT Loan Facility. As a result of this amendment, and the revaluation of the interest rate swap, the Company recognized a realized gain of \$163, which is included under Gain/(Loss) on derivative financial instruments, net in the income statement component of the consolidated statement of comprehensive income for the year ended December 31, 2022.

In August 2023, the Company entered into a second deed of accession, amendment and restatement of the CIT Loan Facility with First-Citizens Bank, whereby the CIT Loan Facility was further amended and restated and two additional borrowers, Argo Maritime Limited and Talisman Maritime Limited, acceded to the CIT Loan Facility. The CIT Loan Facility was further increased to \$77.25 million (absolute amount), by a top up loan amount of \$25 million (absolute amount) for the purpose of financing vessels Diamond Globe and Power Globe and for general corporate and working capital purposes. The CIT loan facility (including the new top up loan amount) became further secured by first preferred mortgages over the vessels Diamond Globe and Power Globe. The CIT Loan Facility currently bears interest at Term SOFR together with an adjustment of 0.1% per annum plus a margin of 2.70% (or 4.70% default interest) per annum. The Company considered that the August 2023 amendments to the CIT Loan Facility did not substantially modify CIT Loan Facility’s terms and the Company recognised a gain on modification amounted to \$417 that had adjusted the carrying value of the loan and classified under Gain from the modification of the Loan in the consolidated statement of comprehensive income. On August 10, 2023, the Company fully drew the top up amount of \$25 million (absolute amount).

On May 10, 2023 the Company prepaid the total remaining amount of \$3,674 of the loan of Longevity Maritime Limited (the owning company of the vessel Sun Globe) in order to be able to conclude the sale and delivery of the vessel to the new owners which took place on June 5, 2023 (see Note 5).

On August 29, 2023 the Company prepaid the total remaining amount of \$3,276 of the loan of Domina Maritime Ltd (the owning company of the vessel Sky Globe) in order to be able to conclude the sale and delivery of the vessel to the new owners which took place on September 7, 2023 (see Note 5).

On September 7, 2023 the Company prepaid the total remaining amount of \$3,555 of the loan of Dulac Maritime S.A. (the owning company of the vessel Star Globe) in order to be able to conclude the sale and delivery of the vessel to the new owners which took place on September 13, 2023 (see Note 5).

Following the conclusion of the second amendment and restatement of the CIT Loan Facility and the sales of the vessels Sun Globe, Sky Globe and Star Globe, described above, the vessels securing the CIT Loan Facility are the Diamond Globe, Power Globe, Orion Globe, River Globe, Moon Globe, and Galaxy Globe. The remaining borrowers under the CIT Loan Facility are Devocean Maritime Ltd., Artful Shipholding S.A., Serena Maritime Limited, Salamina Maritime Limited, Argo Maritime Limited and Talisman Maritime Limited and the CIT Loan Facility remains guaranteed by Globus Maritime Limited.

The CIT Loan Facility currently bears interest at Term SOFR together with an adjustment of 0.1% per annum plus a margin of 2.70% (or 4.70% default interest) per annum. It consists of six tranches, which shall be repaid in consecutive quarterly installments with the final installment due on the first four tranches in May 2026 and on the final two tranches in August 2027.

The CIT Loan Facility may be prepaid prior to maturity. If the prepayment of the tranche financing Orion Globe occurs on or before August 10, 2024, the prepayment fee is 1% of the amount prepaid, subject to certain exceptions. If the prepayment of the tranche financing either Diamond Globe or Power Globe occurs on or before August 2024, the prepayment fee is 2% of the amount prepaid and thereafter until August 2025, the prepayment fee is 1% of the amount prepaid, subject to certain exceptions. The Company cannot reborrow any amount of the CIT Loan Facility that is prepaid or repaid.

The Company is not permitted, without the written consent of First-Citizens Bank, to enter into a charter the duration of which exceeds or is capable of exceeding, by virtue of any optional extensions, 12 months.

- the borrowers maintain a minimum cash reserve at all times of not less than \$500 for each mortgaged ship;
- a minimum loan (including any exposure under a related swap agreement) to value ratio of 70% is maintained until May 2024, and thereafter 65%;

Each borrower must create a reserve fund in the reserve account to meet the anticipated dry docking and special survey fees and expenses for the relevant ship owned by it and (for certain ships) the installation of ballast water treatment system on the ship owned by it by maintaining in the reserve account a minimum credit balance that may not be withdrawn (other than for the purpose of covering the documented and incurred costs and expenses for the next special survey of that ship). Amounts must be paid into this reserve account quarterly, such that \$1,200 is set aside by each borrower for its ship's special survey, except for Serena Maritime Limited and Salaminia Maritime Limited, each of which are required to set aside quarterly payments that aggregate to \$900, Argo Maritime Limited, which is required to set aside quarterly payments that aggregate to \$675, and Talisman Limited, which is required to set aside quarterly payments that aggregate to \$315.

Globus is prohibited from making dividends (other than up to \$1,000 annually on or in respect of its preferred shares) in cash or redeem or repurchase its common shares unless there is no event of default under the CIT Loan Facility, the net loan (including any exposure under a related hedging agreement) to value ratio is less than 60% before the making of the dividend and Globus is in compliance with the debt service coverage ratio, and Globus must prepay the CIT Loan Facility in an equal amount of the dividend.

The CIT Loan Facility also prohibits certain changes of control, including, among other things, the delisting of Globus from the Nasdaq or another internationally recognized stock exchange, or the acquisition by any person or group of persons (acting in concert) of a majority of the shareholder voting rights or the ability to appoint a majority of board members or to give directions with respect to the operating and financial policies of Globus with which the directors are obliged to comply, other than those persons disclosed to First-Citizens Bank on or around the date of the CIT Loan Facility and their affiliates and immediate family members.

15. Contingencies

Various claims, suits and complaints, including those involving government regulations, arise in the ordinary course of the shipping business. In addition, losses may arise from disputes with charterers, environmental claims, agents, and insurers and from claims with suppliers relating to the operations of the Company's vessels. Currently, management is not aware of any such claims or contingent liabilities, which are material for disclosure.

16. Commitments**Voyage revenue**

The Company enters into time charter arrangements on its vessels. As at December 31, 2023, the non-cancellable arrangements had remaining terms between nil days to eight months, assuming redelivery at the earliest possible date. As at December 31, 2022, the non-cancellable arrangements had remaining terms between nil days to eight months, assuming redelivery at the earliest possible date. Future net minimum lease revenues receivable under non-cancellable operating leases as at December 31, 2023 and 2022, were as follows (vessel off-hires and dry-docking days that could occur but are not currently known are not taken into consideration and early delivery of the vessels by the charterers is not accounted for):

	2023	2022
Within one year	8,060	6,675
Total	8,060	6,675

These amounts include consideration for other elements of the arrangement apart from the right to use the vessel such as maintenance and crewing and its related costs.

For time charters that qualify as leases, the Company is required to disclose lease and non-lease components of lease revenue. The revenue earned under time charters is not negotiated in its two separate components, but as a whole. For purposes of determining the standalone selling price of the vessel lease and technical management service components of the Company's time charters, the Company concluded that the residual approach would be the most appropriate method to use given that vessel lease rates are highly variable depending on shipping market conditions, the duration of such charters and the age of the

vessel. The Company believes that the standalone transaction price attributable to the technical management service component, including crewing services, is more readily determinable than the price of the lease component and, accordingly, the price of the service component is estimated using data provided by its technical department, which consist of the crew expenses, maintenance and consumable costs and was approximately \$16,473 and \$18,451 for year ended December 31, 2023 and 2022, respectively. The lease component that is disclosed then is calculated as the difference between total revenue and the non-lease component revenue and was \$14,367 and \$42,939 for the year ended December 31, 2023 and 2022, respectively.

Office lease contract

As further discussed in Note 4 the Company has recognized a right of use asset and a corresponding liability with respect to the rental agreement of office space for its operations within a building leased by FG Europe (an affiliate of Globus's chairman).

The depreciation charge for right-of-use assets for the years ended December 31, 2023, 2022 and 2021, was \$311, \$327 and \$206, respectively, and recognized under depreciation in the income statement component of the consolidated statements of comprehensive income. The interest expense on lease liability for the years ended December 31, 2023, 2022 and 2021, was \$28, \$54 and \$52, respectively, and recognized under interest expense and finance costs in the income statement component of the consolidated statements of comprehensive income.

At December 31, 2023 and 2022, the current lease liability amounted to \$188 and \$321, respectively. The non-current lease liability amounted to nil and \$188, respectively. As at December 31, 2023, and 2022, the net carrying amount of the right of use asset was \$182, and \$493, respectively. These are included in the accompanying consolidated statements of financial position. The total cash outflows for leases for the years ended December 31, 2023, 2022 and 2021, were approximately \$349, \$341 and \$314, respectively, and were recognized in the consolidated statement of cash flows under the Payment of lease liability – principal and Interest Paid.

17. Income Tax

Under the laws of the countries of the vessel owning companies' incorporation and / or vessels' registration, vessel owning companies are not subject to tax on international shipping income; however, they are subject to registration and tonnage taxes, which are included in vessel operating expenses in the accompanying consolidated statements of income.

Greek Authorities Tax

In January 2013, the tax Law 4110/2013 amended the provisions of art. 26 of Law 27/1975 by imposing a fixed annual tonnage tax on vessels flying a foreign (i.e., non-Greek) flag which are managed by a Law 89/67 company, establishing an identical tonnage tax regime as the one already in force for vessels flying the Greek flag. This tax varies depending on the size of the vessel, calculated in gross registered tonnage, as well as on the age of each vessel. Payment of this tonnage tax satisfies all income tax obligations of both the ship-owning company and of all its shareholders up to the ultimate beneficial owners. Any tax payable to the state of the flag of each vessel as a result of its registration with a foreign flag registry (including the Marshall Islands) is subtracted from the amount of tonnage tax due to the Greek tax authorities. As at December 31, 2023, 2022 and 2021, the tax expense under the law amounted to \$236, \$292 and \$185, respectively and is included in administrative expenses in the consolidated statements of comprehensive income.

U.S. Federal Income Tax

Globus is a foreign corporation with wholly owned subsidiaries that are foreign corporations, which derive income from the international operation of a ship or ships that may earn United States ("U.S.") source shipping income for U.S. federal income tax purposes.

Globus believes that under § 883 of the Internal Revenue Code, its income and the income of its ship-owning subsidiaries, to the extent derived from the international operation of a ship or ships, were exempt from U.S. federal income tax in 2023.

The following is a summary, discussing the application of the U.S. federal income tax laws to the Company relating to income derived from the international operation of a ship or ships. The discussion and its conclusion are based upon existing U.S. federal income tax law, including the Internal Revenue Code (the "Code") and final U.S. Treasury Regulations (the "Regs") as currently in effect, all of which are subject to change, possibly with retroactive effect.

In general, under § 883, certain non-U.S. corporations are not subject to U.S. federal income tax on their U.S. source income derived from the international operation of a ship or ships ("gross transportation income"). Absent § 883 or a tax treaty exemption, such income generally would be subject to a 4% gross basis tax, or in certain cases, to a net income tax plus a 30% branch profits tax.

For this purpose, U.S. source gross transportation income includes 50% of the shipping income that is attributable to transportation that begins or ends (but that does not both begin and end) in the United States.

Shipping income attributable to transportation exclusively between non-U.S. ports is generally not subject to any U.S. federal income tax. "Shipping income" generally means income that is derived from:

- (a) the use of vessels;
- (b) the hiring or leasing of vessels for use on a time, operating or bareboat charter basis;
- (c) the participation in a pool, partnership, strategic alliance, joint operating agreement or other joint venture it directly or indirectly owns or participates in that generates such income; or

(d) the performance of services directly related to those uses.

The Regs provide that a foreign corporation will qualify for the benefits of § 883 if, in relevant part, the foreign country in which the foreign corporation is organized grants an equivalent exemption to corporations organized in the U.S. and the foreign corporation meets either the qualified shareholder test or the publicly traded test described below.

Qualified Shareholder Test

A foreign corporation having more than 50 percent of the value of its outstanding shares owned, directly or indirectly by application of specific attribution rules, for at least half of the number of days in the foreign corporation's taxable year by one or more qualified shareholders will meet the qualified shareholder test. In part, an individual who is a shareholder will be considered a qualified shareholder if he or she is a resident of a qualified foreign country (which means for this purpose that he or she is fully liable to tax in such country, and maintains a tax home in such country for 183 days or more in the taxable year, or certain other rules apply) and does not own his or her interest in the foreign corporation through bearer shares (except for bearer shares held in a dematerialized or immobilized book entry system), either directly or indirectly by application of the attribution rules. In addition, in order to meet the qualified shareholder test, a foreign corporation will need to obtain certifications from its qualified shareholders (including from intermediary entities) substantiating their stock ownership.

Publicly Traded Test

The Publicly Traded Test requires that one or more classes of equity representing more than 50% of the voting power and value in a non-United States corporation be "primarily and regularly traded" on an established securities market either in the United States or in a foreign country that grants an equivalent exemption. Among others, § 883 provides, in relevant part, that the shares of a non-United States corporation will be considered to be "primarily traded" on an established securities market in a country if the number of shares of each class of shares that are traded during any taxable year on all established securities markets in that country exceeds the number of shares in each such class that are traded during that year on established securities markets in any other single country.

Notwithstanding the foregoing, § 883 provides, in relevant part, that a class of shares will not be considered to be "regularly traded" on an established securities market for any taxable year in which 50% or more of the vote and value of the outstanding shares of such class are owned, actually or constructively under specified share attribution rules, on more than half the days during the taxable year by persons who each own 5% or more of the vote and value of such class of outstanding shares which is referred as the 5 Percent Override Rule.

In the event that the 5 Percent Override Rule is triggered, § 883 provides that such rule will not apply if the Company can establish that within the group of 5% shareholders, there are sufficient qualified shareholders within the meaning of § 883 to preclude non-qualified shareholders in such group from owning 50% or more of the total value of the Company's common shares for more than half the number of days during the taxable year.

For the years ended December 31, 2023, 2022 and 2021, Globus and its wholly owned subsidiaries deriving income from the operation of international ships were organized in foreign countries that grant equivalent exemptions to corporations organized in the U.S. Globus's common shares, representing more than 50% of the voting power and value in Globus, were primarily and regularly traded on the Nasdaq Capital Market, which is an established securities market. Although Globus's ship-owning and operating subsidiaries were not publicly traded, they should have qualified for the qualified shareholder test by virtue of their ownership by Globus. Accordingly, all of Globus' and its ship-owning or operating subsidiaries that relied on § 883 for exempting U.S. source income from the international operation of ships should not have been subject to U.S. federal income tax for the years ended December 31, 2023, 2022 and 2021.

Under the laws of the Republic of Malta, the country of incorporation of one of the Company's vessel-owning company's, this vessel-owning company is not liable for any income tax on its income derived from shipping operations. The Republic of Malta is a country that has an income tax treaty with the United States. Accordingly, income earned by vessel-owning companies organized under the laws of the Republic of Malta may qualify for a treaty-based exemption. Specifically, Article 8 (Shipping and Air Transport) of the treaty sets out the relevant rule to the effect that profits of an enterprise of a Contracting State from the operation of ships in international traffic shall be taxable only in that State.

18. Financial risk management objectives and policies

The Company's financial liabilities are long-term borrowings, trade and other payables and the financial derivative instruments. The main purpose of these financial liabilities is to assist the Company in the financing of its operations and the acquisition of vessels. The Company has various financial assets such as trade accounts receivable, financial derivative instruments and cash and short-term deposits, including restricted cash, which arise directly from its operations. The main risks arising from the Company's financial instruments are cash flow interest rate risk, credit risk, liquidity risk and foreign currency risk.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates. As at December 31, 2023 and 2022, the Company had no long-term borrowings at a fixed interest rate.

Interest rate risk table

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant on the Company's income.

	<u>Increase/(Decrease) in basis points</u>	<u>Effect on income / (loss)</u>

Foreign currency risk

The following table demonstrates the sensitivity to a reasonably possible change in the Euro exchange rate, with all other variables held constant, to the Company's income due to changes in the fair value of monetary assets and liabilities. The Company's exposure to foreign currency changes for all other currencies as at December 31, 2023, 2022 and 2021, was not material.

	<u>Change in rate</u>	<u>Effect on income</u>

	-10%	533
2022	+10%	(573)
	-10%	573
2021	+10%	(478)
	-10%	478

Credit risk

The Company operates only with recognized, creditworthy third parties including major charterers, commodity traders and government owned entities. Receivable balances are monitored on an ongoing basis with the result that the Company's exposure to impairment on trade accounts receivable is not significant. The maximum exposure is the carrying value of trade accounts receivable as indicated in the consolidated statement of financial position. With respect to the credit risk arising from other financial assets of the Company such as cash and cash equivalents, the Company's exposure to credit risk arises from default of the counter parties, which are recognized financial institutions. The Company performs annual evaluations of the relative credit standing of these counter parties. The exposure of these financial instruments is equal to their carrying amount as indicated in the consolidated statement of financial position.

Concentration of credit risk table:

The following table provides information with respect to charterers who individually, accounted for approximately more than 10% of the Company's revenue for the years ended December 31, 2022, 2021 and 2020:

	2023	%	2022	%	2021	%
A	6,430	21%	6,606	11%	—	—
B	4,830	16%	—	—	4,571	11%
C	—	—	—	—	7,726	18%
D	—	—	6,548	11%	—	—
Other	19,580	63%	48,236	78%	30,914	71%
Total	30,840	100%	61,390	100%	43,211	100%

Liquidity risk

The Company mitigates liquidity risk by managing cash generated by its operations, applying cash collection targets appropriately. The vessels are normally chartered under time-charter where, as per the industry practice, the charterer pays for the transportation service 15 days in advance, supporting the management of cash generation. Vessel acquisitions are carefully controlled, with authorization limits operating up to board level and cash payback periods applied as part of the investment appraisal process. In this way, the Company monitors its credit rating to facilitate fund raising. In its funding strategy, the Company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank loans. Excess cash used in managing liquidity is only invested in financial instruments exposed to insignificant risk of changes in market value or are being placed on interest bearing deposits with maturities fixed usually for no more than 3 months. The Company monitors its risk relating to the shortage of funds by considering the maturity of its financial liabilities and its projected cash flows from operations.

The table below summarizes the maturity profile of the Company's financial liabilities (including interest) at December 31, 2023 and 2022 based on contractual undiscounted cash flows.

18. Financial risk management objectives and policies (continued)

Capital management

The primary objective of the Company's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value. The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares as well as managing the outstanding level of debt. Lenders may impose capital structure or solvency ratios (refer to note 11). No changes were made in the objectives, policies or processes during the years ended December 31, 2023 and 2022.

On February 23, 2024, Globus, through its subsidiary Daxos Maritime Limited, entered into a \$28 million (absolute amount) sale and leaseback agreement with SK Shipholding S.A., a subsidiary of Shinken Bussan Co., Ltd. of Japan, with respect to the approximately 64,000 dwt bulk carrier to be named “GLBS MIGHT,” which is scheduled to be delivered from the relevant shipyard during the third quarter of 2024. The Company has an obligation to purchase back the vessel at the end of the ten-year charter period.

On March 13, 2024, the Company awarded a consultant affiliated with our chief executive officer a one-time bonus of \$3 million (absolute amount), half of which is payable immediately upon the delivery of the newbuilding vessel Hull NE442 (i.e., the vessel being constructed by Nantong Cosco Khi Ship Engineering pursuant to the agreement dated May 13, 2022) and the balance at the delivery of Hull NE443 (i.e., the vessel being constructed by Nantong Cosco Khi Ship Engineering pursuant to the other agreement dated May 13, 2022), in each case assuming Athanasios Feidakis remains Chief Executive Officer at each such relevant time.

On March 13, 2024, the Board of Directors adopted the Globus Maritime Limited 2024 Equity Incentive Plan, or the Plan. The number of common shares reserved for issuance under the Plan is 2,000,000 shares.

Globus Maritime Limited (the “Company,” “Globus,” “we,” “us” or “our”) has the following securities registered pursuant to Section 12 of the Act:

Title of each class	Trading symbols	Name of each exchange on which registered
Shares of common stock, par value \$0.004 per share, including the preferred stock purchase rights	GLBS	Nasdaq Capital Market

Capitalized terms used but not defined herein have the meanings given to them in our annual report on Form 20-F to which this exhibit has been incorporated by reference (the “**Annual Report**”).

The following is a description that includes, among other things, the material terms of our articles of incorporation and bylaws. The description does not purport to be complete and is subject to, and qualified in its entirety by reference to, all the provisions of the articles of incorporation and bylaws. We encourage you to refer to our articles of incorporation and our bylaws for additional information. Because the following is only a summary, it does not contain all information that you may find important.

AUTHORIZED CAPITAL

Globus Maritime Limited is authorized to issue an aggregate of 700,000,000 shares, consisting of (1) 500,000,000 common shares, par value \$0.004 per share, (2) 100,000,000 Class B common shares, par value \$0.001 per share, which we refer to as the Class B shares, and (3) 100,000,000 preferred shares, par value \$0.001 per share, which we refer to as the preferred shares. No Class B shares have yet been issued. Our articles of incorporation require us at all times to reserve and keep available, out of our authorized but unissued common shares, such number of common shares as would become issuable upon the conversion of all Class B shares then outstanding.

We were formed by the filing of Articles of Domestication and Articles of Incorporation with the Marshall Islands Registrar of Corporations. Our entity number is 44376.

Three series of preferred shares have been designated.

There is no limitation on the right to own securities or the rights of non-resident shareholders to hold or exercise voting rights on our securities under Marshall Islands law or our articles of incorporation or bylaws.

All of our shares are in registered form. Our articles of incorporation do not permit the issuance of bearer shares. We do not hold any of our shares in treasury.

We have financed our operations through funds raised in public and private placements of common shares and through debt. We also issued shares to our officers and employees.

PURPOSE

Our objects and purposes, as provided in Section 1.3 of our articles of incorporation, are to engage in any lawful act or activity for which corporations may now or hereafter be organized under the BCA.

COMMON SHARES, CLASS B SHARES, AND SERIES B PREFERRED SHARES

Generally, Marshall Islands law provides that the holders of a class of stock of a Marshall Islands corporation are entitled to a separate class vote on any proposed amendment to the relevant articles of incorporation that would change the aggregate number of authorized shares or the par value of that class of shares or alter or change the powers, preferences or special rights of that class so as to affect the class adversely. Except as described below, holders of our common shares and Class B shares have equivalent economic rights. Holders of our common shares are entitled to one vote per share while holders of our Class B shares are entitled to 20 votes per share and the holder of our Series B preferred shares is entitled to 25,000 votes per share (subject to the limitation described in "Preferred Shares" below). Each holder of Class B shares (not including the Company and the Company's subsidiaries) may convert, at its option, any or all of the Class B shares held by such holder into an equal number of common shares.

Except as otherwise provided by the BCA, holders of our common shares, Class B shares, and Series B preferred shares will vote together as a single class on all matters submitted to a vote of shareholders, including the election of directors.

The rights, preferences and privileges of holders of our shares are subject to the rights of the holders of our Series B preferred shares and any preferred shares which we may issue in the future.

Holders of our common shares do not have conversion, redemption or pre-emptive rights to subscribe to any of our securities.

Common shares that have been entered into the DTC book-entry system will be registered in the name of Cede & Co., as nominee for DTC, and transfers of beneficial ownership of shares held through DTC will be effected by electronic transfer made by DTC participants.

Transfers of shares held outside of DTC or another direct registration system maintained by Computershare, Inc., our transfer agent and registrar, and not represented by certificates are effected by a stock transfer instrument.

The transfer of registered certificates is effected by presenting and surrendering the certificates to us or our transfer agent. A valid transfer requires the registered certificates to be properly endorsed for transfer as provided for in the certificates and accompanied by proper instruments of transfer.

Our articles of incorporation, bylaws and the BCA do not contain transfer restrictions on our common shares.

PREFERRED SHARES

Our articles of incorporation authorize our board of directors to establish and issue up to 100 million preferred shares and to determine, with respect to any series of preferred shares, the rights and preferences of that series, including:

- the designation of the series;
- the number of preferred shares in the series;
- the preferences and relative participating option or other special rights, if any, and any qualifications, limitations or restrictions of such series; and
- the voting rights, if any, of the holders of the series.

The holders of our Series A Preferred Shares, if any, are entitled to receive, if funds are legally available, dividends payable in cash in an amount per share to be determined by unanimous resolution of our Remuneration Committee, in its sole discretion. Our board of directors or Remuneration Committee determine whether funds are legally available under the BCA for such dividend. Any accrued but unpaid dividends do not bear interest. Except as may be provided in the BCA, holders of our Series A Preferred Shares do not have any voting rights. Upon our liquidation, dissolution or winding up, the holders of our Series A Preferred Shares are entitled to a preference in the amount of the declared and unpaid dividends, if any, as of the date of liquidation, dissolution or winding up. Our Series A Preferred Shares are not convertible into any of our other capital stock. The Series A Preferred Shares are redeemable at the written request of the Remuneration Committee at par value plus all declared and unpaid dividends as of the date of redemption plus any additional consideration determined by a unanimous resolution of the Remuneration Committee.

In June 2020, we issued 50 newly designated Series B preferred shares, par value \$0.001 per share, to Goldenmare Limited, a company controlled by our Chief Executive Officer, Athanasios Feidakis, in return for \$150,000. In July 2020, we issued an additional 250 Series B preferred shares to Goldenmare Limited in return for another \$150,000. In March 2021, we issued an additional 10,000 Series B preferred shares to Goldenmare Limited in return for \$130,000. The purchase price was paid, in each instance, by reducing, on a dollar-for-dollar basis, the amount payable by the Company to Goldenmare Limited pursuant to a consultancy agreement. In addition, in July 2020 we increased the maximum voting rights under the Series B preferred shares from 49.0% to 49.99%.

The issuances of the Series B preferred shares to Goldenmare Limited were each approved by an independent committee of the Board of Directors of the Company, which in each case received a fairness opinion from an independent financial advisor that the transaction was for a fair value.

The Series B preferred shares currently have the following characteristics:

Voting. To the fullest extent permitted by law, each Series B preferred share entitles the holder hereof to 25,000 votes per share on all matters submitted to a vote of the shareholders of the Company, *provided however*, that no holder of Series B preferred shares may exercise voting rights pursuant to Series B preferred shares that would result in the aggregate voting power of any beneficial owner of such shares and its affiliates (whether pursuant to ownership of Series B preferred shares, common shares or otherwise) to exceed 49.99% of the total number of votes eligible to be cast on any matter submitted to a vote of shareholders of the Company. To the fullest extent permitted by law, the holders of Series B preferred shares shall have no special voting or consent rights and shall vote together as one class with the holders of the common shares on all matters put before the shareholders.

Conversion. The Series B preferred shares are not convertible into common shares or any other security.

Redemption. The Series B preferred shares are not redeemable.

Dividends. The Series B preferred shares have no dividend rights.

Liquidation Preference. Upon any liquidation, dissolution or winding up of the Company, the Series B preferred shares are entitled to receive a payment with priority over the common shareholders equal to the par value of \$0.001 per share. The Series B preferred shareholder has no other rights to distributions upon any liquidation, dissolution or winding up of the Company.

Transferability. All issued and outstanding Series B preferred shares must be held of record by one holder, and the Series B preferred shares shall not be transferred without the prior approval of our Board of Directors.

Proportional Adjustment. In the event the Company (i) declares any dividend on its common shares, payable in common shares, (ii) subdivides the outstanding common shares or (iii) combines the outstanding common shares into a smaller number of shares, there shall be a proportional adjustment to the number of outstanding Series B preferred shares.

LIQUIDATION

In the event of our dissolution, liquidation or winding up, whether voluntary or involuntary, after payment in full of the amounts, if any, required to be paid to our creditors, the payment of the par value of \$0.001 per share to the holder of our Series B Preferred Shares, and the holders of preferred shares, our remaining assets and funds shall be distributed pro rata to the holders of our common shares and Class B shares, and the holders of common shares and the holders of Class B shares shall be entitled to receive the same amount per share in respect thereof. Other than its receipt of the par value of \$0.001 per Series B preferred share, the holder of our Series B Preferred Shares does not participate in distributions upon liquidation.

DIVIDENDS

Declaration and payment of any dividend is subject to the discretion of our board of directors. The timing and amount of dividend payments to holders of our shares will depend on a series of factors and risks described under "Risk Factors" in our Annual Report and in prospectuses we may file from time to time, and includes risks relating to earnings, financial condition, cash requirements and availability, restrictions in our current and future loan arrangements, the provisions of the Marshall Islands law affecting the payment of dividends and other factors. The BCA generally prohibits the payment of dividends other than from surplus or while we are insolvent or if we would be rendered insolvent upon paying the dividend.

Subject to preferences that may apply to any shares of preferred stock outstanding at the time, the holders of our common shares and Class B shares will be entitled to share equally (pro rata based on the number of shares held) in any dividends that our board of directors may declare from time to time out of funds legally available for dividends. Series B preferred shares do not participate in dividends.

CONVERSION

Our common shares are not convertible into any other shares of our capital stock. Each of our Class B shares is convertible at any time at the election of the holder thereof into one of our common shares. We may reissue or resell any Class B shares that shall have been converted into common shares. Neither our common shares nor our Class B Shares may be reclassified, subdivided or combined unless such reclassification, subdivision or combination occurs simultaneously and in the same proportion for each such class of Common Stock.

DIRECTORS

Our directors are elected by the vote of the plurality of the votes cast by shareholders entitled to vote in the election. Our articles of incorporation provide that our board of directors must consist of at least three members. Shareholders may change the number of directors only by the affirmative vote of holders of a majority of the total voting power of our outstanding capital stock (subject to the rights of any holders of preferred shares). The board of directors may change the number of directors by a majority vote of the entire board of directors.

No contract or transaction between us and one or more of our directors or officers will be void or voidable solely for the following reason, or solely because the director or officer is present at or participates in the meeting of our board of directors or committee thereof which authorizes the contract or transaction, or solely because his or her or their votes are counted for such purpose, if (1) the material facts as to such director's interest in such contract or transaction and as to any such common directorship, officership or financial interest are disclosed in good faith or known to the board of directors or committee, and the board of directors or committee approves such contract or transaction by a vote sufficient for such purpose without counting the vote of such interested director, or, if the votes of the disinterested directors are insufficient to constitute an act of the board, by unanimous vote of the disinterested directors; or (2) the material facts as to such director's interest in such contract or transaction and as to any such common directorship, officership or financial interest are disclosed in good faith or known to the shareholders entitled to vote thereon, and such contract or transaction is approved by vote of such shareholders.

Our board of directors has the authority to fix the compensation of directors for their services.

Our board of directors has the authority to approve loans on behalf of Globus.

Our articles of incorporation provide that no director shall be personally liable to us or our shareholders for monetary damages for breach of fiduciary duty as a director, to the fullest extent permitted by the BCA.

CLASSIFIED BOARD OF DIRECTORS

Our articles of incorporation provide for a board of directors serving staggered, three-year terms. Approximately one-third of our board of directors is elected each year.

REMOVAL OF DIRECTORS; VACANCIES; ADVANCE NOTICE OF NOMINATIONS

Our articles of incorporation provide that directors may be removed with or without cause upon the affirmative vote of holders of a majority of the total voting power of our outstanding capital stock cast at a meeting of the shareholders. Our articles of incorporation also permit the removal of directors for cause upon the affirmative vote of 66-2/3% of the members of the board of directors then in office. Our bylaws require parties to provide advance written notice of nominations for the election of directors other than the board of directors and shareholders holding 30% or more of the voting power of the aggregate number of our shares issued and outstanding and entitled to vote.

NO CUMULATIVE VOTING

Our articles of incorporation prohibit cumulative voting.

SHAREHOLDER MEETINGS

Under our bylaws, annual shareholder meetings will be held at a time and place selected by our board of directors. The meetings may be held in or outside of the Marshall Islands. Special meetings may be called by the chairman of our board of directors, by resolution of our board of directors or by holders of 30% or more of the voting power of the aggregate number of our shares issued and outstanding and entitled to vote at such meeting. Our board of directors may set a record date between 15 and 60 days before the date of any meeting to determine the shareholders that will be eligible to receive notice and vote at the meeting. Unless otherwise required by law or our articles of incorporation, at all meetings of shareholders there must be present (either in person or by proxy) shareholders of record holding at least one third of the voting power of the aggregate number of our shares issued and outstanding and entitled to vote at such meetings in order to constitute a quorum.

DISSENTERS' RIGHTS OF APPRAISAL AND PAYMENT

Under the BCA, our shareholders may have the right to dissent from various corporate actions, including certain amendments to our articles of incorporation and certain mergers or consolidations or certain sales or exchanges of all or substantially all of our assets not made in the usual and regular course of our business, and receive payment of the fair value of their shares, subject to exceptions. The right of a dissenting shareholder to receive payment of the fair value of his shares is not available for the shares of any class or series of stock, which shares at the record date fixed to determine the shareholders entitled to receive notice of and vote at the meeting of shareholders to act upon the agreement of merger or consolidation or any sale or exchange of all or substantially all of the property and assets of the corporation not made in the usual course of its business, were either (1) listed on a securities exchange or admitted for trading on an interdealer quotation system or (2) held of record by more than 2,000 holders. In the event of any further amendment of our articles of incorporation, a shareholder also has the right to dissent and receive payment for his or her shares if the amendment alters certain rights in respect of those shares. The dissenting shareholder must follow the procedures set forth in the BCA to receive payment. In the event that we and any dissenting shareholder fail to agree on a price for the shares, the BCA procedures involve, among other things, the institution of proceedings in the high court of the Republic of the Marshall Islands or in any appropriate court in any jurisdiction in which our shares are primarily traded on a local or national securities exchange to fix the value of the shares.

SHAREHOLDERS' DERIVATIVE ACTIONS

Under the BCA, any of our shareholders may bring an action in our name to procure a judgment in our favor, also known as a derivative action, provided that the shareholder bringing the action is a holder of common shares or a beneficial interest therein both at the time the derivative action is commenced and at the time of the transaction to which the action relates or that the shares devolved upon the shareholder by operation of law, among other requirements set forth in the BCA.

AMENDMENT OF OUR ARTICLES OF INCORPORATION

Except as otherwise provided by law, any provision in our articles of incorporation requiring a vote of shareholders may only be amended by such a vote. Further, certain sections may only be amended by an affirmative vote of the holders of at least a majority of the voting power of the voting shares.

ANTI-TAKEOVER EFFECTS OF CERTAIN PROVISIONS OF OUR ARTICLES OF INCORPORATION AND BYLAWS

Several provisions of our articles of incorporation and bylaws, which are summarized below, may have anti-takeover effects. These provisions are intended to avoid costly takeover battles, lessen our vulnerability to a hostile change of control and enhance the ability of our board of directors to maximize shareholder value in connection with any unsolicited offer to acquire our company. However, these anti-takeover provisions could also discourage, delay or prevent the merger or acquisition of our company by means of a tender offer, a proxy contest or otherwise that a shareholder may consider in its best interest and the removal of incumbent officers and directors, which could affect the desirability of our shares and, consequently, our share price.

Multi Class Stock. Our multi-class stock structure, which consists of common shares, Class B shares, and preferred shares, can provide holders of our Class B shares or preferred shares a significant degree of control over all matters requiring shareholder approval, including the election of directors and significant corporate transactions, such as a merger or other sale of our company or its assets, because our different classes of shares can have different numbers of votes.

For instance, while our common shares have one vote on matters before the shareholders, each of our 10,300 outstanding Series B preferred shares has 25,000 votes on matters before the shareholders; *provided however*, that no holder of Series B preferred shares may exercise voting rights pursuant to any Series B preferred shares that would result in the total number of votes a holder is entitled to vote on any matter submitted to a vote of shareholders of the Company to exceed 49.99% of the total number of votes eligible to be cast on such matter. No Class B shares are presently outstanding, but if and when we issue any, each Class B share will have 20 votes on matters before the shareholders.

At present, and until a substantial number of additional securities are issued, our holder of Series B preferred shares exerts substantial control over the Company's votes and is able to exert substantial control over our management and all matters requiring shareholder approval, including electing directors and significant corporate transactions, such as a merger. Such holder's interest could differ from yours.

Blank Check Preferred Shares. Under the terms of our articles of incorporation, our board of directors has authority, without any further vote or action by our shareholders, to issue up to 100 million "blank check" preferred shares, almost all of which currently remain available for issuance. Our board could authorize the issuance of preferred shares with voting or conversion rights that could dilute the voting power or rights of the holders of common shares, in addition to preferred shares that are already outstanding. The issuance of preferred shares, while providing flexibility in connection with possible acquisitions and other corporate purposes, could, among other things, have the effect of delaying, deferring or preventing a change in control of us or the removal of our management and may harm the market price of our common shares.

Classified Board of Directors. Our articles of incorporation provide for the division of our board of directors into three classes of directors, with each class as nearly equal in number as possible, serving staggered, three-year terms, beginning upon the expiration of the initial term for each class. Approximately one-third of our board of directors is elected each year. This classified board provision could discourage a third party from making a tender offer for our shares or attempting to obtain control of us. It could also delay shareholders who do not agree with the policies of our board of directors from removing a majority of our board of directors for up to two years.

Election of Directors. Our articles of incorporation do not provide for cumulative voting in the election of directors. Our bylaws require parties, other than the chairman of the board of directors, board of directors and shareholders holding 30% or more of the voting power of the aggregate number of our shares issued and outstanding and entitled to vote, to provide advance written notice of nominations for the election of directors (see also, "Advance Notice Requirements for Shareholder Proposals and Director Nominations"). These provisions may discourage, delay or prevent the removal of incumbent officers and directors.

Advance Notice Requirements for Shareholder Proposals and Director Nominations. Our bylaws provide that shareholders, other than shareholders holding 30% or more of the voting power of the aggregate number of our shares issued and outstanding and entitled to vote, seeking to nominate candidates for election as directors or to bring business before an annual meeting of shareholders must provide timely notice of their proposal in writing to the corporate secretary.

Generally, to be timely, a shareholder's notice must be received at our principal executive offices not less than 150 days or more than 180 days prior to the first anniversary date of the immediately preceding annual meeting of shareholders. Our bylaws also specify requirements as to the form and content of a shareholder's notice. These provisions may impede a shareholder's ability to bring matters before an annual meeting of shareholders or make nominations for directors at an annual meeting of shareholders.

Calling of Special Meetings of Shareholders. Our bylaws provide that special meetings of our shareholders may be called only by the chairman of our board of directors, by resolution of our board of directors or by holders of 30% or more of the voting power of the aggregate number of our shares issued and outstanding and entitled to vote at such meeting.

Action by Written Consent in Lieu of a Meeting. Our articles permit any action which may or is required by the BCA to be taken at a meeting of the shareholders to be authorized by consents in writing signed by the holders of outstanding shares having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted. Presently and until and unless we issue a significant number of securities, Goldenmare Limited, a company affiliated with our Chief Executive Officer, holds Series B Preferred Shares controlling 49.99% of the voting power of our outstanding capital stock. Goldenmare Limited could, together with shareholders possessing a relatively small number of shares, act by written consent in lieu of a meeting and authorize major transactions on behalf of the Company, all without calling a meeting of shareholders.

Business Combinations

Although the BCA does not contain specific provisions regarding "business combinations" between corporations incorporated under or redomiciled pursuant to the laws of the Marshall Islands and "interested shareholders," our articles of incorporation prohibit us from engaging in a business combination with an interested shareholder for a period of three years following the date of the transaction in which the person became an interested shareholder, unless, in addition to any other approval that may be required by applicable law:

- prior to the date of the transaction that resulted in the shareholder becoming an interested shareholder, our board of directors approved either the business combination or the transaction that resulted in the shareholder becoming an interested shareholder;
- upon consummation of the transaction that resulted in the shareholder becoming an interested shareholder, the interested shareholder owned at least 85.0% of our voting shares outstanding at the time the transaction commenced, excluding for purposes of determining the number of shares outstanding those shares owned by (1) persons who are directors and officers and (2) employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or
- at or after the date of the transaction that resulted in the shareholder becoming an interested shareholder, the business combination is approved by our board of directors and authorized at an annual or special meeting of shareholders, and not by written consent, by the affirmative vote of at least 66-2/3% of the voting power of the voting shares that are not owned by the interested shareholder.

Among other transactions, a "business combination" includes any merger or consolidation of us or any directly or indirectly majority-owned subsidiary of ours with (1) the interested shareholder or any of its affiliates or (2) with any corporation, partnership, unincorporated association or other entity if the merger or consolidation is caused by the interested shareholder. Generally, an "interested shareholder" is any person or entity (other than us and any direct or indirect majority-owned subsidiary of ours) that:

- owns 15.0% or more of our outstanding voting shares;
- is an affiliate or associate of ours and was the owner of 15.0% or more of our outstanding voting shares at any time within the three-year period immediately prior to the date on which it is sought to be determined whether such person is an interested shareholder; or

- is an affiliate or associate of any person listed in the first two bullets, except that any person who owns 15.0% or more of our outstanding voting shares, as a result of action taken solely by us will not be an interested shareholder unless such person acquires additional voting shares, except as a result of further action by us and not caused, directly or indirectly, by such person.

Additionally, the restrictions regarding business combinations do not apply to persons that became interested shareholders prior to the effectiveness of our articles of incorporation.

In addition, we have entered into a shareholders rights agreement that makes it more difficult for a third party, subject to certain exceptions, to acquire us without the support of our board of directors. These anti-takeover provisions, along with provisions of our shareholders rights agreement, could substantially impede the ability of our shareholders to impose a change in control and, as a result, may adversely affect the market price of our common shares and your ability to realize any potential change of control premium.

LIMITATIONS ON LIABILITY AND INDEMNIFICATION OF DIRECTORS AND OFFICERS

The BCA authorizes corporations to limit or eliminate the personal liability of directors to corporations and their shareholders for monetary damages for breaches of certain directors' fiduciary duties. Our articles of incorporation include a provision that eliminates the personal liability of directors for monetary damages for breach of fiduciary duty as a director to the fullest extent permitted by law (i.e., other than breach of duty of loyalty, acts not taken in good faith or which involve intentional misconduct or a knowing violation of law or transactions for which the director derived an improper personal benefit) and provides that we must indemnify our directors and officers to the fullest extent authorized by law. We are also expressly authorized to advance certain expenses to our directors and officers and expect to carry directors' and officers' insurance providing indemnification for our directors and officers for some liabilities. We believe that these indemnification provisions and the directors' and officers' insurance are useful to attract and retain qualified directors and executive officers.

The limitation of liability and indemnification provisions in our articles of incorporation may discourage shareholders from bringing a lawsuit against our directors for breach of their fiduciary duty. These provisions may also have the effect of reducing the likelihood of derivative litigation against directors and officers, even though such an action, if successful, may otherwise benefit us and our shareholders. In addition, an investor in our common shares may be adversely affected to the extent we pay the costs of settlement and damage awards against directors and officers pursuant to these indemnification provisions.

There is no pending material litigation or proceeding involving any of our directors, officers or employees for which indemnification is sought.

DESCRIPTION OF WARRANTS

The following summary of certain terms and provisions of the Class A Warrants is not complete and is subject to, and qualified in its entirety by the provisions of the form of Class A Warrant, which is incorporated by reference as an exhibit to our Annual Report.

- *Exercisability.* The Class A Warrants are exercisable at any time after their original issuance up to the date that is five years after their original issuance on June 22, 2020. Each of the Class A Warrants is exercisable, in whole or in part, by delivering to us a duly executed exercise notice and, at any time a registration statement registering the issuance of the common shares underlying the Class A Warrants under the Securities Act is effective and available for the issuance of such shares, by payment in full in immediately available funds for the number of common shares purchased upon such exercise. If a registration statement registering the issuance of the common shares underlying the Class A Warrants under the Securities Act is not effective or available, the holder may, in its sole discretion, elect to exercise the Class A Warrant through a cashless exercise, in which case the holder would receive upon such exercise the net number of common shares determined according to the formula set forth in the Class A Warrants. We may be required to pay certain amounts as liquidated damages as specified in the Class A Warrants in the event we do not deliver common shares upon exercise of the Class A Warrants within the time periods specified in the Class A Warrants. No fractional common shares will be issued in connection with the exercise of a Class A Warrant.

- *Exercise Limitation.* A holder does not have the right to exercise any portion of a Class A Warrant if the holder (together with its affiliates) would beneficially own in excess of 4.99% (or, upon election by a holder prior to the issuance of any Class A Warrants, 9.99%) of the number of shares of our common shares outstanding immediately after giving effect to the exercise, as such percentage ownership is determined in accordance with the terms of such Class A Warrants. However, any holder may increase or decrease such percentage to any other percentage not in excess of 9.99%, upon at least 61 days' prior notice from the holder to us with respect to any increase in such percentage.
- *Exercise Price.* The exercise price per whole common share purchasable upon exercise of the Class A Warrants is \$35.00 per share. The exercise price of the Class A Warrants and number of common shares issuable on exercise of the Class A Warrants are subject to adjustment in the event of certain stock dividends and distributions, stock splits, stock combinations, reclassifications or similar events affecting our common shares. The holders of Class A Warrants have the right to participate on an as-exercised basis in certain rights offerings to our common shareholders. The exercise price of the Class A Warrants may also be reduced to any amount and for any period of time at the sole discretion of our board of directors. The exercise price of the Class A Warrants is subject to adjustment in the event of dividends and certain distributions as specified in the Class A Warrants.
- *Transferability.* Subject to applicable laws, the Class A Warrants may be offered for sale, sold, transferred or assigned without our consent.
- *Exchange Listing.* There is no established trading market for the Class A Warrants and we do not expect a market to develop. In addition, we do not intend to apply for the listing of the Class A Warrants on any national securities exchange or other trading market. Without an active trading market, the liquidity of the Class A Warrants will be limited.
- *Warrant Agent.* The Class A Warrants are issued in registered form under a warrant agreement among Computershare Inc., Computershare Trust Company, N.A., as warrant agent, and us. The Class A Warrants were initially represented only by one or more global warrants deposited with the warrant agent, as custodian on behalf of The Depository Trust Company (DTC) and registered in the name of Cede & Co., a nominee of DTC, or as otherwise directed by DTC.
- *Rights as a Shareholder.* Except as otherwise provided in the Class A Warrants or by virtue of such holder's ownership of our common shares, the holder of a Class A Warrant does not have the rights or privileges of a holder of our common shares, including any voting rights, until the holder exercises the Class A Warrant.
- *Fundamental Transactions.* In the event of a fundamental transaction, as described in the Class A Warrants and generally including, with certain exceptions, any reorganization, recapitalization or reclassification of our common shares, the sale, transfer or other disposition of all or substantially all of our properties or assets, our consolidation or merger with or into another person, the acquisition of more than 50% of our outstanding common shares, or any person or group becoming the beneficial owner of 50% of the voting power represented by our outstanding common shares, the holders of the Class A Warrants will be entitled to receive upon exercise of the Class A Warrants the kind and amount of securities, cash or other property that the holders would have received had they exercised the Class A Warrants immediately prior to such fundamental transaction. In addition, we or the successor entity, at the request of Class A Warrant holders, will be obligated to purchase any unexercised portion of the Class A Warrants in accordance with the terms of such Class A Warrants.
- *Governing Law.* The Class A Warrants and the warrant agreement are governed by New York law.

The following summary of certain terms and provisions of the PP Warrants issued on June 30, 2020 and July 21, 2020 is not complete and is subject to, and qualified in its entirety by the provisions of the forms of PP Warrants, which are incorporated by reference as an exhibit to our Annual Report.

- *Exercisability.* Each PP Warrant has a term of 5.5 years from its date of issuance. The PP Warrants are exercisable, at the option of each holder, in whole or in part by delivering to us a duly executed exercise notice with payment in full in immediately available funds for the number of common shares purchased upon such exercise. If a registration statement registering the resale of the common shares underlying the PP Warrants under the Securities Act is not effective or available at any time after the six-month anniversary of the date of issuance of the PP Warrants, the holder may, in its sole discretion, elect to exercise the PP Warrant through a cashless exercise, in which case the holder would receive upon such exercise the net number of common shares determined according to the formula set forth in the PP Warrants. If we do not issue the shares in a timely fashion, the PP Warrant contains certain damages provisions. No fractional common shares will be issued in connection with the exercise of a PP Warrant. We must maintain the effectiveness of a resale registration statement until no purchaser owns any PP Warrants.

- *Exercise Limitation.* A holder does not have the right to exercise any portion of the PP Warrant if the holder (together with its affiliates) would beneficially own in excess of 4.99% (or, upon election of the holder, 9.99%) of the number of our common shares outstanding immediately after giving effect to the exercise, as such percentage of beneficial ownership is determined in accordance with the terms of the PP Warrants. However, any holder may increase or decrease such percentage, but not in excess of 9.99%, provided that any increase will not be effective until the 61st day after such election.
- *Exercise Price.* The exercise price per whole common share purchasable upon exercise of the PP Warrants is \$18.00 per share. The exercise price of the PP Warrants is subject to appropriate adjustment in the event of certain stock dividends and distributions, stock splits, stock combinations, reclassifications or similar events affecting our common shares and also upon any distributions of assets, including cash, stock or other property to our shareholders. The holders of PP Warrants have the right to participate on an as-exercised basis in certain rights offerings to our common shareholders. The exercise price may also be reduced to any amount and for any period of time deemed appropriate at the sole discretion of our board of directors.
- *Exchange Listing.* There is no established trading market for the PP Warrants and we do not expect a market to develop. In addition, we do not intend to apply for the listing of the PP Warrants on any national securities exchange or other trading market. Without an active trading market, the liquidity of the PP Warrants will be limited.
- *Fundamental Transactions.* If a fundamental transaction occurs, then the successor entity will succeed to, and be substituted for us, and may exercise every right and power that we may exercise and will assume all of our obligations under the PP Warrants with the same effect as if such successor entity had been named in the PP Warrant itself. If holders of our common shares are given a choice as to the securities, cash or property to be received in a fundamental transaction, then the holder shall be given the same choice as to the consideration it receives upon any exercise of the PP Warrants following such fundamental transaction. In addition, we or the successor entity, at the request of PP Warrant holders, will be obligated to purchase any unexercised portion of the PP Warrants in accordance with the terms of such PP Warrants.
- *Rights as a Shareholder.* Except as otherwise provided in the PP Warrants or by virtue of such holder's ownership of our common shares, the holder of PP Warrants will not have the rights or privileges of a holder of our common shares, including any voting rights, until the holder exercises the PP Warrants.
- *Transferability.* Subject to applicable laws, the PP Warrants may be offered for sale, sold, transferred or assigned without our consent.
- *Governing Law.* The PP Warrants are governed by New York law.

SHAREHOLDERS RIGHTS AGREEMENT

On August 3, 2023, we declared a dividend of one preferred share purchase right, which we call a "Right", for each of our outstanding common shares, and adopted a shareholder rights plan, as set forth in the Shareholders Rights Agreement dated as of August 3, 2023, by and between us and Computershare Trust Company, N.A., as rights agent. The dividend was paid on August 21, 2023 to the shareholders of record on August 21, 2023. We call this agreement the Rights Agreement.

The following summary description of the Rights Agreement and the related Rights in this section is not complete and is qualified in all respects by the terms of the Rights Agreement and Certificate of Designation of Series C Participating Preferred Shares, each of which is incorporated by reference as an exhibit to our Annual Report.

The Rights. The Rights initially trade with, and are inseparable from, the common shares. The Rights are evidenced only by certificates that represent the common shares. New Rights will accompany any new common shares the Company issues after August 21, 2023 until the "Distribution Date" described below.

Exercise Price. Each Right allows its holder to purchase from the Company one one-thousandth of a share of Series C Participating Preferred Shares, or a Series C Preferred Share, for \$5.00 (also called the “Series C Exercise Price”), once the Rights become exercisable. This portion of a Series C Preferred Share will give the shareholder approximately the same dividend, voting and liquidation rights as would one common share. Prior to exercise, the Right does not give its holder any dividend, voting, or liquidation rights.

Exercisability. The Rights are not exercisable until ten days after the public announcement that a person or group has become an “Acquiring Person” by obtaining beneficial ownership of 15% or more of the outstanding common shares.

Certain synthetic interests in securities created by derivative positions—whether or not such interests are considered to be ownership of the underlying common shares or are reportable for purposes of Regulation 13D of the Exchange Act—are treated as beneficial ownership of the number of shares of our common shares equivalent to the economic exposure created by the derivative position, to the extent actual shares of our common shares are directly or indirectly held by counterparties to the derivatives contracts. Swaps dealers unassociated with any control intent or intent to evade the purposes of the Rights Agreement are excepted from such imputed beneficial ownership.

For persons who, prior to the time of our public announcement of the Rights Agreement, beneficially owned 15% or more of the outstanding common shares, the Rights Agreement “grandfathers” their current level of ownership, so long as they do not purchase additional shares in excess of certain limitations. In addition, Georgios Feidakis, Athanasios Feidakis, Konstantina Feidakis, Angelina Feidakis, Firment Shipping Inc. and Goldenmare Limited, or any of their respective affiliates are excluded from the definition of “Acquiring Person” and, therefore, may obtain beneficial ownership of 15% or more of our outstanding common shares without causing the Rights to be exercisable.

The date when the Rights become exercisable is the “Distribution Date.” Until that date, the common shares certificates (or, in the case of uncertificated shares, by notations in the book-entry account system) also evidence the Rights, and any transfer of common shares will constitute a transfer of Rights. After that date, the Rights will separate from the common shares and be evidenced by book-entry credits or by Rights certificates that the Company will mail to all eligible holders of common shares. Any Rights held by an Acquiring Person are null and void and may not be exercised.

Preferred Share Provisions

Each one one-thousandth of a Series C Preferred Share, if issued, will, among other things:

- not be redeemable;
- entitle holders to quarterly dividend payments in an amount per share equal to the aggregate per share amount of all cash dividends, and the aggregate per share amount (payable in kind) of all non-cash dividends or other distributions other than a dividend payable in common shares or a subdivision of the outstanding common shares (by reclassification or otherwise), declared on common shares since the immediately preceding quarterly dividend payment date; and
- entitle holders to one vote on all matters submitted to a vote of the shareholders of the Company.

The value of one one-thousandth interest in a Series C Preferred Share should approximate the value of one common share.

Consequences of a Person or Group Becoming an Acquiring Person.

Flip In. If an Acquiring Person obtains beneficial ownership of 15% or more of the common shares, then each Right will entitle the holder thereof to purchase, for the Series C Exercise Price, a number of common shares (or, in certain circumstances, cash, property or other securities of the Company) having a then-current market value of twice the Series C Exercise Price. However, the Rights are not exercisable following the occurrence of the foregoing event until such time as the Rights are no longer redeemable by the Company, as further described below.

Following the occurrence of an event set forth in preceding paragraph, all Rights that are or, under certain circumstances specified in the Rights Agreement, were beneficially owned by an Acquiring Person or certain of its transferees will be null and void.

Flip Over. If, after an Acquiring Person obtains 15% or more of the common shares, (i) the Company merges into another entity; (ii) an acquiring entity merges into the Company; or (iii) the Company sells or transfers 50% or more of its assets, cash flow or earning power, then each Right (except for Rights that have previously been voided as set forth above) will entitle the holder thereof to purchase, for the Series C Exercise Price, a number of common shares of the person engaging in the transaction having a then-current market value of twice the Series C Exercise Price.

Notional Shares. Shares held by affiliates and associates of an Acquiring Person, including certain entities in which the Acquiring Person beneficially owns a majority of the equity securities, and Notional common shares (as defined in the Rights Agreement) held by counterparties to a Derivatives Contract (as defined in the Rights Agreement) with an Acquiring Person, will be deemed to be beneficially owned by the Acquiring Person.

Redemption. Our board of directors may redeem the Rights for \$0.001 per Right under certain circumstances. If our board of directors redeems any Rights, it must redeem all of the Rights. Once the Rights are redeemed, the only right of the holders of the Rights will be to receive the redemption price of \$0.001 per Right. The redemption price will be adjusted if the Company has a stock dividend or a stock split.

Exchange. After a person or group becomes an Acquiring Person, but before an Acquiring Person owns 50% or more of the outstanding common shares, our board of directors may extinguish the Rights by exchanging one common share or an equivalent security for each Right, other than Rights held by the Acquiring Person. In certain circumstances, the Company may elect to exchange the Rights for cash or other securities of the Company having a value approximately equal to one common share.

Expiration. The Rights expire on the earliest of (i) February 3, 2025; or (ii) the redemption or exchange of the Rights as described above.

Anti-Dilution Provisions. Our board of directors may adjust the purchase price of the Series C Preferred Shares, the number of Series C Preferred Shares issuable and the number of outstanding Rights to prevent dilution that may occur from a stock dividend, a stock split, or a reclassification of the Series C Preferred Shares or common shares. No adjustments to the Series C Exercise Price of less than 1% will be made.

Amendments. The terms of the Rights and the Rights Agreement may be amended in any respect without the consent of the holders of the Rights on or prior to the Distribution Date. Thereafter, the terms of the Rights and the Rights Agreement may be amended without the consent of the holders of Rights, with certain exceptions, in order to (i) cure any ambiguities; (ii) correct or supplement any provision contained in the Rights Agreement that may be defective or inconsistent with any other provision therein; (iii) shorten or lengthen any time period pursuant to the Rights Agreement; or (iv) make changes that do not adversely affect the interests of holders of the Rights (other than an Acquiring Person or an affiliate or associate of an Acquiring Person).

Taxes. The distribution of Rights should not be taxable for U.S. federal income tax purposes. However, following an event that renders the Rights exercisable or upon redemption of the Rights, shareholders may recognize taxable income.

MARSHALL ISLANDS COMPANY CONSIDERATIONS

Our corporate affairs are governed by our articles of incorporation and bylaws and by the BCA. The provisions of the BCA resemble provisions of the corporation laws of a number of states in the United States. While the BCA also provides that, for non-resident entities like us, it is to be interpreted according to the laws of the State of Delaware and other states with substantially similar legislative provisions, there have been few, court cases interpreting the BCA in the Republic of the Marshall Islands and we cannot predict whether Marshall Islands courts would reach the same conclusions as courts in the United States. Thus, you may have more difficulty in protecting your interests in the face of actions by the management, directors or controlling shareholders than would shareholders of a corporation incorporated in a United States jurisdiction which has developed a substantial body of case law. The following table provides a comparison between the statutory provisions of the BCA and the Delaware General Corporation Law relating to shareholders' rights.

The right of a dissenting shareholder to receive payment of the fair value of his or her shares shall not be available for any shares of stock of the constituent corporation surviving a merger if the merger did not require for its approval the vote of the shareholders of the surviving corporation.	Appraisal rights shall be available for the shares of any class or series of stock of a corporation in a merger or consolidation, subject to limited exceptions, such as a merger or consolidation of corporations listed on a national securities exchange in which listed stock is offered for consideration is (i) listed on a national securities exchange or (ii) held of record by more than 2,000 holders.

A complaint shall set forth with particularity the efforts of the plaintiff to secure the initiation of such action by the board or the reasons for not making such effort. Such action shall not be discontinued, compromised or settled, without the approval of the High Court of the Republic of the Marshall Islands.	Other requirements regarding derivative suits have been created by judicial decision, including that a shareholder may not bring a derivative suit unless he or she first demands that the corporation sue on its own behalf and that demand is refused (unless it is shown that such demand would have been futile).
Reasonable expenses including attorney's fees may be awarded if the action	

is successful.

A corporation may require a plaintiff bringing a derivative suit to give security for reasonable expenses if the plaintiff owns less than 5% of any class of stock and the shares have a value of \$50,000 or less.

**GLOBUS MARITIME LIMITED
2024 EQUITY INCENTIVE PLAN**

ADOPTED ON March 13, 2024

**ARTICLE I.
General**

1.1. Purpose

The Globus Maritime Limited 2024 Equity Incentive Plan (the “Plan”) is designed to provide certain Key Persons (as defined below), whose initiative and efforts are deemed to be important to the successful conduct of the business of Globus Maritime Limited (the “Company”), with incentives to (a) enter into and remain in the service of the Company or its Subsidiaries or Affiliates (as defined below), (b) acquire a proprietary interest in the success of the Company, (c) maximize their performance and (d) enhance the long-term performance of the Company.

1.2. Administration

(a) Administration. The Plan shall be administered by the Remuneration Committee of the Company’s Board of Directors (the “Board”) or such other committee of the Board as may be designated by the Board to administer the Plan, or by the Board, where the Board is acting as the Remuneration Committee or performing the functions of the Remuneration Committee (the “Administrator”); provided that (i) in the event the Company is subject to Section 16 of the U.S. Securities Exchange Act of 1934, as amended (the “1934 Act”), the Administrator shall be composed of two or more directors, each of whom is a “Non-Employee Director” (a “Non-Employee Director”) under Rule 16b-3 (as promulgated and interpreted by the Securities and Exchange Commission (the “SEC”) under the 1934 Act, or any successor rule or regulation thereto as in effect from time to time (“Rule 16b-3”)), and (ii) the Administrator shall be composed solely of two or more directors who are “independent directors” under the rules of any stock exchange on which the Company’s Common Stock (as defined below) is traded; provided further, however, that, (A) the requirement in the preceding clause (i) shall apply only when required to exempt an Award intended to qualify for an exemption under the applicable provisions referenced therein, (B) the requirement in the preceding clause (ii) shall apply only when required pursuant to the applicable rules of the applicable stock exchange and (C) if at any time the Administrator is not so composed as required by the preceding provisions of this sentence, that fact will not invalidate any grant made, or action taken, by the Administrator hereunder that otherwise satisfies the terms of the Plan. Subject to the terms of the Plan, applicable law and the applicable rules and regulations of any stock exchange on which the Common Stock is listed for trading, and in addition to other express powers and authorizations conferred on the Administrator by the Plan, the Administrator shall have the full power and authority to: (1) designate the Persons (as defined below) to receive Awards (as defined below) under the Plan; (2) determine the types of Awards granted to a participant under the Plan; (3) determine the number of shares to be covered by, or with respect to which payments, rights or other matters are to be calculated with respect to, Awards; (4) determine the terms and conditions of any Awards; (5) determine whether, and to what extent, and under what circumstances, Awards may be settled or exercised in cash, shares, other securities, other Awards or other property, or cancelled, forfeited or suspended, and the methods by which Awards may be settled, exercised, cancelled, forfeited or suspended; (6) determine whether, to what extent, and under what circumstances cash, shares, other securities, other Awards, other property and other amounts payable with respect to an Award shall be deferred, either automatically or at the election of the holder thereof or the Administrator; (7) construe, interpret and implement the Plan and any Award Agreement (as defined below); (8) prescribe, amend, rescind or waive rules and regulations relating to the Plan, including rules governing its operation, and appoint such agents as it shall deem appropriate for the proper administration of the Plan; (9) correct any defect, supply any omission and reconcile any inconsistency in the Plan or any Award Agreement; and (10) make any other determination and take any other action that the Administrator deems necessary or desirable for the administration of the Plan. Unless otherwise expressly provided in the Plan, all designations, determinations, interpretations and other decisions under or with respect to the Plan or any Award shall be within the sole discretion of the Administrator, may be made at any time and shall be final, conclusive and binding upon all Persons.

(b) General Right of Delegation. Except to the extent prohibited by applicable law, the applicable rules of a stock exchange or any charter, bylaws or other agreement governing the Administrator, the Administrator may delegate all or any part of its responsibilities to any Person or Persons selected by it; provided, however, that in no event shall an officer of the Company be delegated the authority to grant Awards to, or amend Awards held by, the following individuals: (i) individuals who are subject to Section 16 of the 1934 Act, or (ii) officers of the Company to whom authority to grant or amend Awards has been delegated hereunder or directors of the Company; provided, further, that any delegation of administrative authority shall only be permitted to the extent it is permissible under applicable securities laws (including, without limitation, Rule 16b-3, to the extent applicable) and the rules of any applicable stock exchange. Any delegation hereunder shall be subject to the restrictions and limits that the Administrator specifies at the time of such delegation, and the Administrator may at any time rescind the authority so delegated or appoint a new delegatee. At all times, the delegatee appointed under this Section 1.2(b) shall serve in such capacity at the pleasure of the Administrator.

(c) Indemnification. No member of the Board, the Administrator or any officer or employee of the Company or any Subsidiary or an Affiliate or any of their agents (each such Person, a "Covered Person") shall be liable for any action taken or omitted to be taken or any determination made in good faith with respect to the Plan or any Award hereunder. Each Covered Person shall be indemnified and held harmless by the Company against and from (i) any loss, cost, liability or expense (including attorneys' fees) that may be imposed upon or incurred by such Covered Person in connection with or resulting from any action, suit or proceeding to which such Covered Person may be a party or in which such Covered Person may be involved by reason of any action taken or omitted to be taken under the Plan or any Award Agreement and (ii) any and all amounts paid by such Covered Person, with the Company's approval, in settlement thereof, or paid by such Covered Person in satisfaction of any judgment in any such action, suit or proceeding against such Covered Person; provided that the Company shall have the right, at its own expense, to assume and defend any such action, suit or proceeding and, once the Company gives notice of its intent to assume the defense, the Company shall have sole control over such defense with counsel of the Company's choice. The foregoing right of indemnification shall not be available to a Covered Person to the extent that a court of competent jurisdiction in a final judgment or other final adjudication, in either case not subject to further appeal, determines that the acts or omissions of such Covered Person giving rise to the indemnification claim resulted from such Covered Person's bad faith, fraud or willful criminal act or omission or that such right of indemnification is otherwise prohibited by law or by the Company's articles of incorporation or bylaws (in each case, as amended and/or restated). The foregoing right of indemnification shall not be exclusive of any other rights of indemnification to which Covered Persons may be entitled under the Company's articles of incorporation or bylaws (in each case, as amended and/or restated), as a matter of law, or otherwise, or any other power that the Company may have to indemnify such Persons or hold them harmless.

(d) Delegation of Authority to Senior Officers. The Administrator may, in accordance with and subject to the terms of Section 1.2(b), delegate, on such terms and conditions as it determines, to one or more senior officers of the Company the authority to make grants of Awards to employees of the Company and its Subsidiaries (as defined below) (including any such prospective employee) and consultants and service providers to (including Persons who are employed by or provide services to any entity that is itself a consultant or service provider to) the Company and its Subsidiaries.

(e) Award Grants. Notwithstanding anything to the contrary contained herein, the Board may, in its sole discretion, at any time and from time to time, grant Awards to Non-Employee Directors or administer the Plan with respect to such Awards, in which event the Board shall have all the authority and responsibility granted to the Administrator herein with respect to such Awards. In determining Awards to be granted under the Plan, the Administrator shall take into account such factors as it deems advisable, which may include taking into account the Company's performance, the Award recipient's performance, and/or the satisfaction of any performance goals or targets as may established from time to time.

(f) Grants to Directors. Notwithstanding anything to the contrary contained herein, for so long as prohibited by the Marshall Islands Business Corporations Act, no committee of the Board shall grant Awards to directors of the Company for serving on the Board or any committee thereto. In such a case, the determination of any Awards to directors of the Company for serving on the Board or any committee thereto shall be made by the Board (and not any committee thereof) and the Board may, in its sole discretion, at any time and from time to time, grant such Awards.

1.3. Persons Eligible for Awards

The Persons eligible to receive Awards under the Plan are those directors, officers and employees (including any prospective officer or employee) of the Company and its Subsidiaries and Affiliates and consultants and service providers (including persons who are employed by or provide services to any entity that is itself such a consultant or service provider) to the Company and its Subsidiaries and Affiliates (collectively, “Key Persons”) as the Administrator shall select.

1.4. Types of Awards

Awards may be made under the Plan in the form of (a) “incentive stock options” that are intended to qualify for special U.S. federal income tax treatment pursuant to Sections 421 and 422 of the Code (as defined below), as may be amended from time to time, or pursuant to a successor provision of the Code, and which is so designated in the applicable Award Agreement, (b) non-qualified stock options (i.e., any stock options granted under the Plan that are not “incentive stock options”), (c) stock appreciation rights, (d) restricted stock, (e) restricted stock units, (f) unrestricted stock, (g) other equity-based or equity-related awards and (h) dividend equivalents, all as more fully set forth in the Plan. The term “Award” means any of the foregoing that are granted under the Plan. No incentive stock option (other than an incentive stock option that may be assumed or issued by the Company in connection with a transaction to which Section 424(a) of the Code applies) may be granted under the Plan to a Person who is not eligible to receive an incentive stock option under the Code.

1.5. Shares Available for Awards; Adjustments for Changes in Capitalization

(a) Maximum Number. Subject to adjustment as provided in Section 1.5(c), the maximum aggregate number of shares of common stock of the Company, par value \$0.004 (“Common Stock”), with respect to which Awards may at any time be granted under the Plan shall be 2,000,000. The following shares of Common Stock shall again become available for Awards under the Plan: (i) any shares that are subject to an Award under the Plan and that remain unissued upon the cancellation or termination of such Award for any reason whatsoever; (ii) any shares of restricted stock forfeited pursuant to the Plan or the applicable Award Agreement; provided that any dividend equivalent rights with respect to such shares that have not theretofore been directly remitted to the grantee are also forfeited; and (iii) any shares in respect of which an Award is settled for cash without the delivery of shares to the grantee. Any shares tendered or withheld to satisfy the grant or exercise price or tax withholding obligation pursuant to any Award shall again become available to be delivered pursuant to Awards under the Plan.

(b) Source of Shares. Shares issued pursuant to the Plan may be authorized but unissued Common Stock or treasury shares. The Administrator may direct that any stock certificate evidencing shares issued pursuant to the Plan shall bear a legend setting forth such restrictions on transferability as may apply to such shares.

(c) Adjustments. (i) In the event that any dividend or other distribution (whether in the form of cash, Company shares, other securities or other property), stock split, reverse stock split, reorganization, merger, consolidation, split-up, combination, repurchase or exchange of Company shares or other securities of the Company, issuance of warrants or other rights to purchase Company shares or other securities of the Company, or other similar corporate transaction or event, other than an Equity Restructuring (as defined below), affects the Company shares such that an adjustment is determined by the Administrator to be appropriate in order to prevent dilution or enlargement of the benefits or potential benefits intended to be made available under the Plan or with respect to an Award, then the Administrator shall, in such manner as it may deem equitable, adjust any or all of the number of shares or other securities of the Company (or number and kind of other securities or property) with respect to which Awards may be granted under the Plan.

(ii) The Administrator is authorized to make adjustments in the terms and conditions of, and the criteria included in, Awards in recognition of unusual or nonrecurring events (including the events described in Section 1.5(c)(i) or the occurrence of a Change in Control (as defined below), other than an Equity Restructuring) affecting the Company, any Affiliate, or the financial statements of the Company or any Affiliate, or of changes in applicable rules, rulings, regulations or other requirements of any governmental body or securities exchange, accounting principles or law, whenever the Administrator determines that such adjustments are appropriate in order to prevent dilution or enlargement of the benefits or potential benefits intended to be made available under the Plan or with respect to an Award, including providing for (A) adjustment to (1) the number of shares or other securities of the Company (or number and kind of other securities or property) subject to outstanding Awards or to which outstanding Awards relate and (2) the Exercise Price (as defined below) with respect to any Award and (B) a substitution or assumption of Awards, accelerating the exercisability or vesting of, or lapse of restrictions on, Awards, or accelerating the termination of Awards by providing for a period of time for exercise prior to the occurrence of such event, or, if deemed appropriate or desirable, providing for a cash payment to the holder of an outstanding Award in consideration for the cancellation of such Award (it being understood that, in such event, any option or stock appreciation right having a per share Exercise Price equal to, or in excess of, the Fair Market Value (as defined below) of a share subject to such option or stock appreciation right may be cancelled and terminated without any payment or consideration therefor); provided, however, that with respect to options and stock appreciation rights, unless otherwise determined by the Administrator, such adjustment shall be made in accordance with the provisions of Section 424(h) of the Code.

(iii) In the event of (A) a dissolution or liquidation of the Company, (B) a sale of all or substantially all the Company's assets or (C) a merger, reorganization or consolidation involving the Company or one of its Subsidiaries (as defined below), the Administrator shall have the power to:

(1) provide that outstanding options, stock appreciation rights and/or restricted stock units (including any related dividend equivalent right) shall either continue in effect, be assumed or an equivalent award shall be substituted therefor by the successor entity or a parent entity or subsidiary entity;

(2) cancel, effective immediately prior to the occurrence of such event, options, stock appreciation rights and/or restricted stock units (including each dividend equivalent right related thereto) and/or other Awards granted under the Plan outstanding immediately prior to such event (whether or not then exercisable) and, in full consideration of such cancellation, pay to the holder of such Award a cash payment in an amount equal to the excess, if any, of the Fair Market Value (as of a date specified by the Administrator) of the shares subject to such Award (or the value of such Award, as determined by the Administrator, if not based on the Fair Market Value of shares) over the aggregate Exercise Price of such Award (or the grant price of such Award, if any, if applicable) (it being understood that, in such event, any option or stock appreciation right having a per share Exercise Price equal to, or in excess of, the Fair Market Value of a share subject to such option or stock appreciation right may be cancelled and terminated without any payment or consideration therefor); or

(3) notify the holder of an option or stock appreciation right in writing or electronically that each option and stock appreciation right shall be fully vested and exercisable for a period of 30 days from the date of such notice, or such shorter period as the Administrator may determine to be reasonable, and the option or stock appreciation right shall terminate upon the expiration of such period (which period shall expire no later than immediately prior to the consummation of the corporate transaction).

(iv) In connection with the occurrence of any Equity Restructuring, and notwithstanding anything to the contrary in this Section 1.5(c):

(A) The number and type of securities or other property subject to each outstanding Award and the Exercise Price or grant price thereof, if applicable, shall be equitably adjusted; and

(B) The Administrator shall make such equitable adjustments, if any, as the Administrator may deem appropriate to reflect such Equity Restructuring with respect to the aggregate number and kind of shares that may be issued under the Plan (including, but not limited to, adjustment of the limitation set forth in Section 1.5(a)). The adjustments provided under this Section 1.5(c)(iv) shall be nondiscretionary and shall be final and binding on the affected participant and the Company.

(d) Individual Limit. Except for the limits set forth in this Section 1.5, no provision of this Plan shall be deemed to limit the number or value of shares of Common Stock with respect to which the Administrator may make Awards to any Key Person.

1.6. Definitions of Certain Terms

(a) "Affiliate" shall mean (i) any entity that, directly or indirectly, is controlled by, controls or is under common control with, the Company and (ii) any entity in which the Company has a significant equity interest, in either case as determined by the Administrator.

(b) Unless otherwise specifically set forth in the applicable Award Agreement, in connection with a termination of employment or consultancy/service relationship or a dismissal from Board membership, for purposes of the Plan, the term "for Cause" shall be defined as follows:

(i) if there is an employment, severance, consulting, service, change in control or other agreement governing the relationship between the grantee, on the one hand, and the Company or any Subsidiary or an Affiliate, on the other hand, that contains a definition of "cause" (or similar phrase), for purposes of the Plan, the term "for Cause" shall mean those acts or omissions that would constitute "cause" under such agreement; or

(ii) if the preceding clause (i) is not applicable to the grantee, for purposes of the Plan, the term "for Cause" shall mean any of the following:

(A) any failure by the grantee substantially to perform the grantee's employment or consulting/service or Board membership duties;

(B) any excessive unauthorized absenteeism by the grantee;

(C) any refusal by the grantee to obey the lawful orders of the Board or any other Person to whom the grantee reports;

(D) any act or omission by the grantee that is or may be injurious to the Company or any Subsidiary or Affiliate, whether monetarily, reputationally or otherwise;

(E) any act by the grantee that is inconsistent with the best interests of the Company or any Subsidiary or Affiliate;

(F) the grantee's gross negligence that is injurious to the Company or any Subsidiary or Affiliate, whether monetarily, reputationally or otherwise;

(G) the grantee's material violation of any of the policies of the Company or any Subsidiary or Affiliate, as applicable, including, without limitation, those policies relating to discrimination or sexual harassment;

(H) the grantee's material breach of his or her employment or service contract with the Company or any Subsidiary or Affiliate;

(I) the grantee's unauthorized (1) removal from the premises of the Company or any Subsidiary or Affiliate of any document (in any medium or form) relating to the Company or any Subsidiary or Affiliate or the customers or clients of the Company or any Subsidiary or Affiliate or (2) disclosure to any Person of any of the Company's, or any Subsidiary's or Affiliate's, confidential or proprietary information;

(J) the grantee's being convicted of, or entering a plea of guilty or nolo contendere to, any crime that constitutes a felony or involves moral turpitude; and

(K) the grantee's commission of any act involving dishonesty or fraud.

Any rights the Company or any Subsidiary or Affiliate may have under the Plan in respect of the events giving rise to a termination of employment or consultancy/service relationship "for Cause" shall be in addition to any other rights the Company or any Subsidiary or Affiliate may have under any other agreement with a grantee or at law or in equity. Any determination of whether a grantee's employment, consultancy/service relationship or Board membership is (or is deemed to have been) terminated "for Cause" shall be made by the Administrator. If, subsequent to a grantee's voluntary termination of employment or consultancy/service relationship or voluntarily resignation from the Board or involuntary termination of employment or consultancy/service relationship without Cause or removal from the Board other than "for Cause", it is discovered that the grantee's employment or consultancy/service relationship or Board membership could have been terminated "for Cause", the Administrator may deem such grantee's employment or consultancy/service relationship or Board membership to have been terminated "for Cause" upon such discovery and determination by the Administrator.

The existence of a Disability shall be determined by the Administrator.

(e) "Equity Restructuring" shall mean a non-reciprocal transaction between the Company and its shareholders, such as a stock dividend, stock split, spin-off, rights offering or recapitalization through a large, nonrecurring cash dividend, that affects the shares of Common Stock (or other securities of the Company) or the share price thereof and causes a change in the per share value of the shares underlying outstanding Awards.

(f) "Exercise Price" shall mean (i) in the case of options, the price specified in the applicable Award Agreement as the price-per-share at which such share can be purchased pursuant to the option or (ii) in the case of stock appreciation rights, the price specified in the applicable Award Agreement as the reference price-per-share used to calculate the amount payable to the grantee.

(g) The "Fair Market Value" of a share of Common Stock on any day shall be the closing price on the Nasdaq Stock Exchange, or such other primary stock exchange upon which such shares are then listed, as reported for such day in The Wall Street Journal (or, if not reported in The Wall Street Journal, such other reliable source as the Administrator may determine), or, if no such price is reported for such day, the average of the high bid and low asked price of Common Stock as reported for such day. If no quotation is made for the applicable day, the Fair Market Value of a share of Common Stock on such day shall be determined in the manner set forth in the preceding sentence for the next preceding trading day. Notwithstanding the foregoing, if there is no reported closing price or high bid/low asked price that satisfies the preceding sentences, or if otherwise deemed necessary or appropriate by the Administrator, the Fair Market Value of a share of Common Stock on any day shall be determined by such methods and procedures as shall be established from time to time by the Administrator. The "Fair Market Value" of any property other than Common Stock shall be the fair market value of such property determined by such methods and procedures as shall be established from time to time by the Administrator.

(h) "Person" shall mean any individual, firm, corporation, partnership, limited liability company, trust, incorporated or unincorporated association, joint venture, joint stock company, governmental body or other entity of any kind.

(i) "Repricing" shall mean (i) lowering the Exercise Price of an option or a stock appreciation right after it has been granted, (ii) the cancellation of an option or a stock appreciation right in exchange for cash or another Award when the Exercise Price exceeds the Fair Market Value of the underlying shares subject to the Award and (iii) any other action with respect to an option or a stock appreciation right that is treated as a repricing under (A) generally accepted accounting principles or (B) any applicable stock exchange rules.

(j) Unless otherwise set forth in the applicable Award Agreement, "Retirement" shall mean a grantee's resignation of employment or consultancy/service relationship or dismissal from the Board, with the Company's or its applicable Subsidiary's or Affiliate's prior consent, on or after (i) his or her 65th birthday, (ii) the date on which he or she has attained age 60 and completed at least five years of service with the Company or one or more of its Subsidiaries or Affiliates (using any method of calculation the Administrator deems appropriate) or (iii) if approved by the Administrator, on or after his or her having completed at least 20 years of service with the Company or one or more of its Subsidiaries or Affiliates (using any method of calculation the Administrator deems appropriate).

(k) "Subsidiary" shall mean any entity in which the Company, directly or indirectly, has a 50% or more equity interest.

ARTICLE II.

Awards Under The Plan

2.1. Agreements Evidencing Awards

Each Award granted under the Plan shall be evidenced by a written certificate ("Award Agreement"), which shall contain such provisions as the Administrator may deem necessary or desirable and which may, but need not, require execution or acknowledgment by a grantee. The Award shall be subject to all of the terms and provisions of the Plan and the applicable Award Agreement.

2.2. Grant of Stock Options and Stock Appreciation Rights

(a) Stock Option Grants. The Administrator may grant non-qualified stock options and/or incentive stock options (collectively, "options") to purchase shares of Common Stock from the Company to such Key Persons, and in such amounts and subject to such vesting and forfeiture provisions and other terms and conditions, as the Administrator shall determine, subject to the provisions of the Plan. Except to the extent otherwise specifically provided in the applicable Award Agreement, no option will be treated as an "incentive stock option" for purposes of the Code. Incentive stock options may be granted to employees of the Company and any "parent corporation" or "subsidiary corporation" (as such terms are defined in Section 424 of the Code) of the Company. In the case of incentive stock options, the terms and conditions of such Awards shall be subject to such applicable rules as may be prescribed by Sections 421, 422 and 424 of the Code and any regulations related thereto, as may be amended from time to time. If an option is intended to be an incentive stock option, and if for any reason such option (or any portion thereof) shall not qualify as an incentive stock option for purposes of Section 422 of the Code, then, to the extent of such non-qualification, such option (or portion thereof) shall be regarded as a non-qualified stock option appropriately granted under the Plan; provided that such option (or portion thereof) otherwise complies with the Plan's requirements relating to option Awards. It shall be the intent of the Administrator to not grant an Award in the form of stock options to any Key Person who is then subject to the requirements of Section 409A of the Code with respect to such Award if the Common Stock (as defined below) underlying such Award does not then qualify as "service recipient stock" for purposes of Section 409A. Furthermore, it shall be the intent of the Administrator, in granting options to Key Persons who are subject to Section 409A and/or 457A of the Code, to structure such options so as to comply with the requirements of Section 409A and/or 457A of the Code, as applicable.

(b) Stock Appreciation Right Grants; Types of Stock Appreciation Rights. The Administrator may grant stock appreciation rights to such Key Persons, and in such amounts and subject to such vesting and forfeiture provisions and other terms and conditions, as the Administrator shall determine, subject to the provisions of the Plan. The terms of a stock appreciation right may provide that it shall be automatically exercised for a payment upon the happening of a specified event that is outside the control of the grantee and that it shall not be otherwise exercisable. Stock appreciation rights may be granted in connection with all or any part of, or independently of, any option granted under the Plan. It shall be the intent of the Administrator to not grant an Award in the form of stock appreciation rights to any Key Person (i) who is then subject to the requirements of Section 409A of the Code with respect to such Award if the Common Stock underlying such Award does not then qualify as “service recipient stock” for purposes of Section 409A or (ii) if such Award would create adverse tax consequences for such Key Person under Section 457A of the Code. Furthermore, it shall be the intent of the Administrator, in granting stock appreciation rights to Key Persons who are subject to Section 409A and/or Section 457A of the Code, to structure such stock appreciation rights so as to comply with the requirements of Section 409A and/or Section 457A of the Code, to the extent applicable.

(c) Nature of Stock Appreciation Rights. The grantee of a stock appreciation right shall have the right, subject to the terms of the Plan and the applicable Award Agreement, to receive from the Company an amount equal to (i) the excess of the Fair Market Value of a share of Common Stock on the date of exercise of the stock appreciation right over the Exercise Price of the stock appreciation right, multiplied by (ii) the number of shares with respect to which the stock appreciation right is exercised. Each Award Agreement with respect to a stock appreciation right shall set forth the Exercise Price of such Award and, unless otherwise specifically provided in the Award Agreement, the Exercise Price of a stock appreciation right shall equal the Fair Market Value of a share of Common Stock on the date of grant; provided that in no event may such Exercise Price be less than the greater of (A) the Fair Market Value of a share of Common Stock on the date of grant and (B) the par value of a share of Common Stock. Payment upon exercise of a stock appreciation right shall be in cash or in shares of Common Stock (valued at their Fair Market Value on the date of exercise of the stock appreciation right) or any combination of both, all as the Administrator shall determine. Repricing of stock appreciation rights granted under the Plan shall not be permitted (1) to the extent such action could cause adverse tax consequences to the grantee under Sections 409A or 457A of the Code or (2) without prior shareholder approval, to the extent such approval would be required to be obtained by the Company pursuant to the applicable rules of any applicable stock exchange on which the Common Stock is then listed, and any action that would be deemed to result in a Repricing of a stock appreciation right shall be deemed null and void if it would cause such adverse tax consequences or if any requisite shareholder approval related thereto is not obtained prior to the effective time of such action. Upon the exercise of a stock appreciation right granted in connection with an option, the number of shares subject to the option shall be reduced by the number of shares with respect to which the stock appreciation right is exercised. Upon the exercise of an option in connection with which a stock appreciation right has been granted, the number of shares subject to the stock appreciation right shall be reduced by the number of shares with respect to which the option is exercised.

(d) Option Exercise Price. Each Award Agreement with respect to an option shall set forth the Exercise Price of such Award and, unless otherwise specifically provided in the Award Agreement, the Exercise Price of an option shall equal the Fair Market Value of a share of Common Stock on the date of grant; provided that in no event may such Exercise Price be less than the greater of (i) the Fair Market Value of a share of Common Stock on the date of grant and (ii) the par value of a share of Common Stock. Repricing of options granted under the Plan shall not be permitted (1) to the extent such action could cause adverse tax consequences to the grantee under Sections 409A or 457A of the Code or (2) without prior shareholder approval, to the extent such approval would be required to be obtained by the Company pursuant to the applicable rules of any applicable stock exchange on which the Common Stock is then listed, and any action that would be deemed to result in a Repricing of an option shall be deemed null and void if it would cause such adverse tax consequences or if any requisite shareholder approval related thereto is not obtained prior to the effective time of such action.

2.3. Exercise of Options and Stock Appreciation Rights

Subject to the other provisions of this Article II and the Plan, each option and stock appreciation right granted under the Plan shall be exercisable as follows:

(a) Timing and Extent of Exercise. Options and stock appreciation rights shall be exercisable at such times and under such conditions as determined by the Administrator and set forth in the corresponding Award Agreement, but in no event shall any portion of such Award be exercisable subsequent to the tenth anniversary of the date on which such Award was granted. Unless the applicable Award Agreement otherwise specifically provides, an option or stock appreciation right may be exercised from time to time as to all or part of the shares as to which such Award is then exercisable.

(b) Notice of Exercise. An option or stock appreciation right shall be exercised by the filing of a written notice with the Company or the Company's designated exchange agent (the "Exchange Agent"), on such form and in such manner as the Administrator shall prescribe.

(c) Payment of Exercise Price. Any written notice of exercise of an option shall be accompanied by payment for the shares being purchased. Such payment shall be made: (i) by certified or official bank check (or the equivalent thereof acceptable to the Company or its Exchange Agent) for the full option Exercise Price; (ii) with the consent of the Administrator, which consent shall be given or withheld in the sole discretion of the Administrator, by delivery of shares of Common Stock having a Fair Market Value (determined as of the exercise date) equal to all or part of the option Exercise Price and a certified or official bank check (or the equivalent thereof acceptable to the Company or its Exchange Agent) for any remaining portion of the full option Exercise Price; or (iii) at the sole discretion of the Administrator and to the extent permitted by law, by such other provision, consistent with the terms of the Plan, as the Administrator may from time to time prescribe (whether directly or indirectly through the Exchange Agent), or by any combination of the foregoing payment methods.

(d) Delivery of Certificates Upon Exercise. Subject to Sections 3.2, 3.4 and 3.13, promptly after receiving payment of the full option Exercise Price, or after receiving notice of the exercise of a stock appreciation right for which the Administrator determines payment will be made partly or entirely in shares, the Company or its Exchange Agent shall (i) deliver to the grantee, or to such other Person as may then have the right to exercise the Award, a certificate or certificates for the shares of Common Stock for which the Award has been exercised or, in the case of stock appreciation rights, for which the Administrator determines will be made in shares or (ii) establish an account evidencing ownership of the stock in uncertificated form. If the method of payment employed upon an option exercise so requires, and if applicable law permits, an optionee may direct the Company or its Exchange Agent, as the case may be, to deliver the stock certificate(s) to the optionee's stockbroker.

(e) No Shareholder Rights. No grantee of an option or stock appreciation right (or other Person having the right to exercise such Award) shall have any of the rights of a shareholder of the Company with respect to shares subject to such Award until the issuance of a stock certificate to such Person for such shares or an account in the name of the grantee evidences ownership of stock in uncertificated form. Except as otherwise provided in Section 1.5(c), no adjustment shall be made for dividends, distributions or other rights (whether ordinary or extraordinary, and whether in cash, securities or other property) for which the record date is prior to the date such stock certificate is issued or the date an account evidencing ownership of the stock in uncertificated form notes receipt of such stock.

2.4. Termination of Employment; Death Subsequent to a Termination of Employment

(a) General Rule. Except to the extent otherwise provided in paragraphs (b), (c), (d), (e) or (f) of this Section 2.4 or Section 3.5(b)(iii), a grantee who incurs a termination of employment or consultancy/service relationship with the Company and its Subsidiaries and Affiliates or dismissal from the Board may exercise any outstanding option or stock appreciation right on the following terms and conditions: (i) exercise may be made only to the extent that the grantee was entitled to exercise the Award on the date of termination of employment or consultancy/service relationship or dismissal from the Board, as applicable; and (ii) exercise must occur within three months after termination of employment or consultancy/service relationship or dismissal from the Board but in no event after the original expiration date of the Award; it being understood that then outstanding options and stock appreciation rights shall not be affected by a change of employment or consultancy/service relationship with the Company and its Subsidiaries and Affiliates so long as the grantee continues to be a director, officer or employee of, or a consultant or service provider to (or a Person employed by or providing services to any entity that that is itself a consultant or service provider to), the Company or any Subsidiary or Affiliate, and that reference to a termination of a service relationship includes a removal as a director or officer.

(b) Dismissal “for Cause”. If a grantee incurs a termination of employment or consultancy/service relationship with the Company and its Subsidiaries and Affiliates or dismissal from the Board in each case “for Cause”, all options and stock appreciation rights not theretofore exercised shall immediately terminate upon the grantee’s termination of employment or consultancy/service relationship or dismissal from the Board.

(c) Retirement. If a grantee incurs a termination of employment or consultancy/service relationship with the Company and its Subsidiaries and Affiliates or dismissal from the Board in each case as the result of his or her Retirement, then any outstanding option or stock appreciation right shall, to the extent exercisable at the time of such Retirement, remain exercisable for a period of three years after such Retirement; provided that in no event may such option or stock appreciation right be exercised following the original expiration date of the Award.

(d) Disability. If a grantee incurs a termination of employment or consultancy/service relationship with the Company and its Subsidiaries and Affiliates or a dismissal from the Board in each case by reason of a Disability, then any outstanding option or stock appreciation right shall, to the extent exercisable at the time of such termination or dismissal, remain exercisable for a period of one year after such termination or dismissal; provided that in no event may such option or stock appreciation right be exercised following the original expiration date of the Award.

(e) Death.

(i) *Termination of Employment/Service as a Result of Grantee’s Death*. If a grantee incurs a termination of employment or consultancy/service relationship with the Company and its Subsidiaries and Affiliates or leaves the Board in each case as the result of his or her death, then any outstanding option or stock appreciation right shall, to the extent exercisable at the time of such death, remain exercisable for a period of one year after such death; provided that in no event may such option or stock appreciation right be exercised following the original expiration date of the Award.

(ii) *Restrictions on Exercise Following Death*. Any such exercise of an Award following a grantee’s death shall be made only by the grantee’s executor or administrator or other duly appointed representative reasonably acceptable to the Administrator, unless the grantee’s will specifically disposes of such Award, in which case such exercise shall be made only by the recipient of such specific disposition. If a grantee’s personal representative or the recipient of a specific disposition under the grantee’s will shall be entitled to exercise any Award pursuant to the preceding sentence, such representative or recipient shall be bound by all the terms and conditions of the Plan and the applicable Award Agreement which would have applied to the grantee.

(f) Administrator Discretion. The Administrator may, in writing, waive or modify the application of the foregoing provisions of this Section 2.4.

2.5. Transferability of Options and Stock Appreciation Rights

Except as otherwise specifically provided in this Plan or the applicable Award Agreement evidencing an option or stock appreciation right, during the lifetime of a grantee, each such Award granted to a grantee shall be exercisable only by the grantee, and no such Award may be sold, assigned, transferred, pledged or otherwise encumbered or disposed of other than by will or by the laws of descent and distribution. The Administrator may, in any applicable Award Agreement evidencing an option or stock appreciation right, permit a grantee to transfer all or some of the options or stock appreciation rights to (a) the grantee's spouse, children or grandchildren ("Immediate Family Members"), (b) a trust or trusts for the exclusive benefit of such Immediate Family Members or (c) other parties approved by the Administrator. Following any such transfer, any transferred options and stock appreciation rights shall continue to be subject to the same terms and conditions as were applicable immediately prior to the transfer.

2.6. Grant of Restricted Stock

(a) Restricted Stock Grants. The Administrator may grant restricted shares of Common Stock to such Key Persons, in such amounts and subject to such vesting and forfeiture provisions and other terms and conditions as the Administrator shall determine, subject to the provisions of the Plan. A grantee of a restricted stock Award shall have no rights with respect to such Award unless such grantee accepts the Award within such period as the Administrator shall specify by accepting delivery of a restricted stock Award Agreement in such form as the Administrator shall determine.

(b) Issuance of Stock Certificate. Promptly after a grantee accepts a restricted stock Award in accordance with Section 2.6(a), subject to Sections 3.2, 3.4 and 3.13, the Company or its Exchange Agent shall issue to the grantee a stock certificate or stock certificates for the shares of Common Stock covered by the Award or shall establish an account evidencing ownership of the stock in uncertificated form. Upon the issuance of such stock certificates, or establishment of such account, the grantee shall have the rights of a shareholder with respect to the restricted stock, subject to: (i) the nontransferability restrictions and forfeiture provisions described in the Plan (including paragraphs (d) and (e) of this Section 2.6); (ii) in the Administrator's sole discretion, a requirement, as set forth in the Award Agreement, that any dividends paid on such shares shall be held in escrow and, unless otherwise determined by the Administrator, shall remain forfeitable until all restrictions on such shares have lapsed; and (iii) any other restrictions and conditions contained in the applicable Award Agreement.

(c) Custody of Stock Certificate. Unless the Administrator shall otherwise determine, any stock certificates issued evidencing shares of restricted stock shall remain in the possession of the Company (or such other custodian as may be designated by the Administrator) until such shares are free of any restrictions specified in the applicable Award Agreement. The Administrator may direct that such stock certificates bear a legend setting forth the applicable restrictions on transferability.

(d) Nontransferability. Except as otherwise specifically provided in this Plan or the applicable Award Agreement evidencing a restricted stock Award, shares of restricted stock granted under the Plan may not be sold, assigned, transferred, pledged or otherwise encumbered or disposed of prior to the lapsing of all restrictions thereon. The Administrator at the time of grant shall specify the date or dates (which may depend upon or be related to the attainment of performance goals and other conditions) on which the nontransferability of the restricted stock shall lapse. The Administrator may, in any applicable Award Agreement evidencing a restricted stock Award, permit a grantee to transfer all or some of the shares of restricted stock prior to the lapsing of all restrictions thereon to (i) the grantee's Immediate Family Members, (ii) a trust or trusts for the exclusive benefit of such Immediate Family Members or (iii) other parties approved by the Administrator. Following any permitted transfer prior to the lapsing of all restrictions on the restricted stock, any transferred shares of restricted stock shall continue to be subject to the same terms and conditions as were applicable immediately prior to the transfer.

(e) Consequence of Termination of Employment/Service. Unless otherwise set forth in the applicable Award Agreement, (i) a grantee's termination of employment or consultancy/service relationship with the Company and its Subsidiaries and Affiliates or dismissal from the Board for any reason other than death, Disability or Retirement shall cause the immediate forfeiture of all shares of restricted stock that have not yet vested as of the date of such termination of employment or consultancy/service relationship or dismissal from the Board and (ii) if a grantee incurs a termination of employment or consultancy/service relationship with the Company and its Subsidiaries and Affiliates or dismissal from the Board as the result of his or her death, Disability or Retirement, all shares of restricted stock that have not yet vested as of the date of such termination or departure from the Board shall immediately vest as of such date; it being understood that then outstanding restricted stock Awards shall not be affected by a change of employment or consultancy/service relationship with the Company and its Subsidiaries and Affiliates so long as the grantee continues to be a director, officer or employee of, or a consultant or service provider to (or a Person employed by or providing services to any entity that that is itself a consultant or service provider to), the Company or any Subsidiary or Affiliate, and that reference to a termination of a service relationship includes a removal as a director or officer. Unless otherwise determined by the Administrator, all dividends paid on shares forfeited under this Section 2.6(e) that have not theretofore been directly remitted to the grantee shall also be forfeited, whether by termination of any escrow arrangement under which such dividends are held or otherwise. The Administrator may, in writing, waive or modify the application of the foregoing provisions of this Section 2.6(e).

2.7. Grant of Restricted Stock Units

(a) Restricted Stock Unit Grants. The Administrator may grant restricted stock units to such Key Persons, and in such amounts and subject to such vesting and forfeiture provisions and other terms and conditions, as the Administrator shall determine, subject to the provisions of the Plan. A restricted stock unit granted under the Plan shall confer upon the grantee a right to receive from the Company, conditioned upon the occurrence of such vesting event as shall be determined by the Administrator and specified in the Award Agreement, the number of such grantee's restricted stock units that vest upon the occurrence of such vesting event multiplied by the Fair Market Value of a share of Common Stock on the date of vesting. Payment upon vesting of a restricted stock unit shall be in cash or in shares of Common Stock (valued at their Fair Market Value on the date of vesting) or both, all as the Administrator shall determine, and such payments shall be made to the grantee at such time as provided in the Award Agreement, which the Administrator shall intend to be (i) if Section 409A of the Code is applicable to the grantee, within the period required by Section 409A such that it qualifies as a "short-term deferral" pursuant to Section 409A and the Treasury Regulations issued thereunder, unless the Administrator shall provide for deferral of the Award intended to comply with Section 409A, (ii) if Section 457A of the Code is applicable to the grantee, within the period required by Section 457A(d)(3)(B) such that it qualifies for the exemption thereunder, or (iii) if Sections 409A and 457A of the Code are not applicable to the grantee, at such time as determined by the Administrator.

(b) Dividend Equivalents. The Administrator may include in any Award Agreement with respect to a restricted stock unit a dividend equivalent right entitling the grantee to receive amounts equal to the ordinary dividends that would be paid, during the time such Award is outstanding and unvested, and/or, if payment of the vested Award is deferred, during the period of such deferral following such vesting event, on the shares of Common Stock underlying such Award if such shares were then outstanding. In the event such a provision is included in a Award Agreement, the Administrator shall determine whether such payments shall be (i) paid to the holder of the Award, as specified in the Award Agreement, either (A) at the same time as the underlying dividends are paid, regardless of the fact that the restricted stock unit has not theretofore vested, (B) at the time at which the Award's vesting event occurs, conditioned upon the occurrence of the vesting event, (C) once the Award has vested, at the same time as the underlying dividends are paid, regardless of the fact that payment of the vested restricted stock unit has been deferred, and/or (D) at the time at which the corresponding vested restricted stock units are paid, (ii) made in cash, shares of Common Stock or other property and (iii) subject to such other vesting and forfeiture provisions and other terms and conditions as the Administrator shall deem appropriate and as shall be set forth in the Award Agreement.

(c) Consequence of Termination of Employment/Service. Unless otherwise set forth in the applicable Award Agreement, (i) a grantee's termination of employment or consultancy/service relationship with the Company and its Subsidiaries and Affiliates or dismissal from the Board for any reason other than death, Disability or Retirement shall cause the immediate forfeiture of all restricted stock units that have not yet vested as of the date of such termination of employment or consultancy/service relationship or dismissal from the Board and (ii) if a grantee incurs a termination of employment or consultancy/service relationship with the Company and its Subsidiaries and Affiliates or dismissal from the Board as the result of his or her death, Disability or Retirement, all restricted stock units that have not yet vested as of the date of such termination or departure from the Board shall immediately vest as of such date; it being understood that then outstanding restricted stock units shall not be affected by a change of employment or consultancy/service relationship with the Company and its Subsidiaries and Affiliates so long as the grantee continues to be a director, officer or employee of, or a consultant or service provider to (or a Person employed by or providing services to any entity that that is itself a consultant or service provider to), the Company or any Subsidiary or Affiliate, and that reference to a termination of a service relationship includes a removal as a director or officer. Unless otherwise determined by the Administrator, any dividend equivalent rights on any restricted stock units forfeited under this Section 2.7(c) that have not theretofore been directly remitted to the grantee shall also be forfeited, whether by termination of any escrow arrangement under which such dividends are held or otherwise. The Administrator may, in writing, waive or modify the application of the foregoing provisions of this Section 2.7(c).

(d) No Shareholder Rights. No grantee of a restricted stock unit shall have any of the rights of a shareholder of the Company with respect to such Award unless and until a stock certificate is issued with respect to such Award upon the vesting of such Award or an account in the name of the grantee evidences ownership of stock in uncertificated form (it being understood that the Administrator shall determine whether to pay any vested restricted stock unit in the form of cash or Company shares or both), which issuance shall be subject to Sections 3.2, 3.4 and 3.13. Except as otherwise provided in Section 1.5(c), no adjustment to any restricted stock unit shall be made for dividends, distributions or other rights (whether ordinary or extraordinary, and whether in cash, securities or other property) for which the record date is prior to the date such stock certificate, if any, is issued or the date an account evidencing ownership of the stock in uncertificated form notes receipt of such stock.

(e) Transferability of Restricted Stock Units. Except as otherwise provided in an applicable Award Agreement evidencing a restricted stock unit, no restricted stock unit granted under the Plan shall be assignable or transferable. The Administrator may, in any applicable Award Agreement evidencing a restricted stock unit, permit a grantee to transfer all or some of the restricted stock units to (i) the grantee's Immediate Family Members, (ii) a trust or trusts for the exclusive benefit of such Immediate Family Members or (iii) other parties approved by the Administrator. Following any such transfer, any transferred restricted stock units shall continue to be subject to the same terms and conditions as were applicable immediately prior to the transfer.

2.8. Grant of Unrestricted Stock

The Administrator may grant (or sell at a purchase price at least equal to par value) shares of Common Stock free of restrictions under the Plan to such Key Persons and in such amounts and subject to such forfeiture provisions as the Administrator shall determine. Shares may be thus granted or sold in respect of past services or other valid consideration.

2.9. Other Stock-Based Awards

Subject to the provisions of the Plan (including, without limitation, Section 3.16), the Administrator shall have the sole and complete authority to grant to Key Persons other equity-based or equity-related Awards in such amounts and subject to such terms and conditions as the Administrator shall determine; provided that any such Awards must comply with applicable law and, to the extent deemed desirable by the Administrator, Rule 16b-3.

2.10. Dividend Equivalents

Subject to the provisions of the Plan (including, without limitation, Section 3.16), in the discretion of the Administrator, an Award, other than an option or stock appreciation right, may provide the Award recipient with dividends or dividend equivalents, payable in cash, shares, other securities, other Awards or other property, on a current or deferred basis, on such terms and conditions as may be determined by the Administrator, including, without limitation, payment directly to the Award recipient, withholding of such amounts by the Company subject to vesting of the Award, or reinvestment in additional shares, restricted shares or other Awards.

ARTICLE III.

Miscellaneous

3.1. Amendment of the Plan; Modification of Awards

(a) Amendment of the Plan. The Board may from time to time suspend, discontinue, revise or amend the Plan in any respect whatsoever, except that no such amendment shall materially impair any rights or materially increase any obligations under any Award theretofore made under the Plan without the consent of the grantee (or, upon the grantee's death, the Person having the rights to the Award). For purposes of this Section 3.1, any action of the Board or the Administrator that in any way alters or affects the tax treatment of any Award shall not be considered to materially impair any rights of any grantee.

(b) Shareholder Approval Requirement. If required by applicable rules or regulations of a national securities exchange or the SEC, the Company shall obtain shareholder approval with respect to any amendment to the Plan that (i) expands the types of Awards available under the Plan, (ii) materially increases the aggregate number of shares which may be issued under the Plan, except as permitted pursuant to Section 1.5(c), (iii) materially increases the benefits to participants under the Plan, including any material change to (A) permit, or that has the effect of, a Repricing of any outstanding Award, (B) reduce the price at which shares or options to purchase shares may be offered or (C) extend the duration of the Plan, or (iv) materially expands the class of Persons eligible to receive Awards under the Plan.

(c) Modification of Awards. The Administrator may cancel any Award under the Plan. The Administrator also may amend any outstanding Award Agreement, including, without limitation, by amendment which would: (i) accelerate the time or times at which the Award becomes unrestricted, vested or may be exercised; (ii) waive or amend any goals, restrictions or conditions set forth in the Award Agreement; or (iii) waive or amend the operation of Sections 2.4, 2.6(e) or 2.7(c) with respect to the termination of the Award upon termination of employment or consultancy/service relationship or dismissal from the Board; provided, however, that no such amendment shall be made without shareholder approval if such approval is necessary to comply with any tax or regulatory requirement applicable to the Award. However, any such cancellation or amendment (other than an amendment pursuant to Section 1.5, 3.5 or 3.16) that materially impairs the rights or materially increases the obligations of a grantee under an outstanding Award shall be made only with the consent of the grantee (or, upon the grantee's death, the Person having the rights to the Award). In making any modification to an Award (e.g., an amendment resulting in a direct or indirect reduction in the Exercise Price or a waiver or modification under Section 2.4(f), 2.6(e) or 2.7(c)), the Administrator may consider the implications, if any, of such modification under the Code with respect to Sections 409A and 457A of the Code with respect to Awards granted under the Plan to individuals subject to such provisions of the Code.

3.2. Consent Requirement

(a) No Plan Action Without Required Consent. If the Administrator shall at any time determine that any Consent (as defined below) is necessary or desirable as a condition of, or in connection with, the granting of any Award under the Plan, the issuance or purchase of shares or other rights thereunder, or the taking of any other action thereunder (each such action being hereinafter referred to as a "Plan Action"), then such Plan Action shall not be taken, in whole or in part, unless and until such Consent shall have been effected or obtained to the full satisfaction of the Administrator.

(b) Consent Defined. The term "Consent" as used herein with respect to any Plan Action means (i) any and all listings, registrations or qualifications in respect thereof upon any securities exchange or under any federal, state or local law, rule or regulation, (ii) any and all written agreements and representations by the grantee with respect to the disposition of shares, or with respect to any other matter, which the Administrator shall deem necessary or desirable to comply with the terms of any such listing, registration or qualification or to obtain an exemption from the requirement that any such listing, qualification or registration be made and (iii) any and all consents, clearances and approvals in respect of a Plan Action by any governmental or other regulatory bodies or any other Person.

3.3. Nonassignability

Except as provided in Sections 2.4(e), 2.5, 2.6(d) or 2.7(e), (a) no Award or right granted to any Person under the Plan or under any Award Agreement shall be assignable or transferable other than by will or by the laws of descent and distribution and (b) all rights granted under the Plan or any Award Agreement shall be exercisable during the life of the grantee only by the grantee or the grantee's legal representative or the grantee's permissible successors or assigns (as authorized and determined by the Administrator). All terms and conditions of the Plan and the applicable Award Agreements will be binding upon any permitted successors or assigns.

3.4. Taxes

(a) Withholding. A grantee or other Award holder under the Plan shall be required to pay, in cash, to the Company, and the Company and its Subsidiaries and Affiliates shall have the right and are hereby authorized to withhold from any Award, from any payment due or transfer made under any Award or under the Plan or from any compensation or other amount owing to such grantee or other Award holder, the amount of any applicable withholding taxes in respect of an Award, its grant, its exercise, its vesting, or any payment or transfer under an Award or under the Plan, and to take such other action as may be necessary in the opinion of the Company to satisfy all obligations for payment of such taxes. Whenever shares of Common Stock are to be delivered pursuant to an Award under the Plan, with the approval of the Administrator, which the Administrator shall have sole discretion whether or not to give, the grantee may satisfy the foregoing condition by electing to have the Company withhold from delivery shares having a value equal to the amount of minimum tax required to be withheld. Such shares shall be valued at their Fair Market Value as of the date on which the amount of tax to be withheld is determined. Fractional share amounts shall be settled in cash. Such a withholding election may be made with respect to all or any portion of the shares to be delivered pursuant to an Award as may be approved by the Administrator in its sole discretion.

(b) Liability for Taxes. Grantees and holders of Awards are solely responsible and liable for the satisfaction of all taxes and penalties that may arise in connection with Awards (including, without limitation, any taxes arising under Sections 409A and 457A of the Code) and the Company shall not have any obligation to indemnify or otherwise hold any such Person harmless from any or all of such taxes. The Administrator shall have the discretion to organize any deferral program, to require deferral election forms, and to grant or, notwithstanding anything to the contrary in the Plan or any Award Agreement, to unilaterally modify any Award in a manner that (i) conforms with the requirements of Sections 409A and 457A of the Code (to the extent applicable), (ii) voids any participant election to the extent it would violate Sections 409A or 457A of the Code (to the extent applicable) and (iii) for any distribution event or election that could be expected to violate Section 409A of the Code, make the distribution only upon the earliest of the first to occur of a "permissible distribution event" within the meaning of Section 409A of the Code or a distribution event that the participant elects in accordance with Section 409A of the Code. The Administrator shall have the sole discretion to interpret the requirements of the Code, including, without limitation, Sections 409A and 457A, for purposes of the Plan and all Awards.

3.5. Change in Control

(a) Change in Control Defined. Unless otherwise specifically set forth in the applicable Award Agreement, for purposes of the Plan, “Change in Control” shall mean the occurrence of any of the following:

(i) any “person” (as defined in Section 13(d)(3) of the 1934 Act), company or other entity acquires “beneficial ownership” (as defined in Rule 13d-3 under the 1934 Act), directly or indirectly, of more than 50% of the aggregate voting power of the capital stock ordinarily entitled to elect directors of the Company; provided, however, that no Change in Control shall have occurred in the event of such an acquisition by (A) the Company, (B) any trustee or other fiduciary holding securities under an employee benefit plan of the Company or any Subsidiary or Affiliate or (C) any company or other entity owned, directly or indirectly, by the holders of the voting stock ordinarily entitled to elect directors of the Company in substantially the same proportions as their ownership of the aggregate voting power of the capital stock ordinarily entitled to elect directors of the Company immediately prior to such acquisition or (D) Athanasios Feidakis, Georgios Feidakis, Firment Shipping Inc., or Goldenmare Limited or any entity which any of them directly or indirectly “controls” (as defined in Rule 12b-2 under the 1934 Act);

(ii) the sale of all or substantially all the Company’s assets in one or more related transactions to any “person” (as defined in Section 13(d)(3) of the 1934 Act), company or other entity; provided, however, that no Change of Control shall have occurred in the event of such a sale to (A) a Subsidiary which does not involve a material change in the equity holdings of the Company, (B) to an entity (the “Acquiring Entity”) which has acquired all or substantially all the Company’s assets if, immediately following such sale, 50% or more of the aggregate voting power of the capital stock ordinarily entitled to elect directors of the Acquiring Entity (or, if applicable, the ultimate parent entity that directly or indirectly has beneficial ownership of more than 50% of the aggregate voting power of the capital stock ordinarily entitled to elect directors of the Acquiring Entity) is beneficially owned by the holders of the voting stock ordinarily entitled to elect directors of the Company immediately prior to such sale in substantially the same proportions as the aggregate voting power of the capital stock ordinarily entitled to elect directors of the Company immediately prior to such sale or (C) Athanasios Feidakis, Georgios Feidakis, Firment Shipping Inc., or Goldenmare Limited or any entity which any of them directly or indirectly “controls” (as defined in Rule 12b-2 under the 1934 Act);

(iii) any merger, consolidation, reorganization or similar event of the Company or any Subsidiary; provided, however, that no Change in Control shall have occurred in the event 50% or more of the aggregate voting power of the capital stock ordinarily entitled to elect directors of the surviving entity (or, if applicable, the ultimate parent entity that directly or indirectly has beneficial ownership of more than 50% of the aggregate voting power of the capital stock ordinarily entitled to elect directors of the surviving entity) is beneficially owned by the holders of the voting stock ordinarily entitled to elect directors of the Company immediately prior to such event in substantially the same proportions as the aggregate voting power of the capital stock ordinarily entitled to elect directors of the Company immediately prior to such event;

(iv) the approval by the Company’s shareholders of a plan of complete liquidation or dissolution of the Company; or

(v) during any period of 12 consecutive calendar months, individuals:

(A) who were directors of the Company on the first day of such period, or

- (B) whose election or nomination for election to the Board was recommended or approved by at least a majority of the directors then still in office who were directors of the Company on the first day of such period, or whose election or nomination for election were so approved, shall cease to constitute a majority of the Board.

Notwithstanding the foregoing, unless otherwise specifically set forth in the applicable Award Agreement, for each Award subject to Section 409A of the Code, a Change in Control shall be deemed to have occurred under this Plan with respect to such Award only if a change in the ownership or effective control of the Company or a change in the ownership of a substantial portion of the assets of the Company shall also be deemed to have occurred under Section 409A of the Code, provided that such limitation shall apply to such Award only to the extent necessary to avoid adverse tax effects under Section 409A of the Code.

(b) Effect of a Change in Control. Unless the Administrator specifically provides otherwise in an Award Agreement, upon the occurrence of a Change in Control:

(i) notwithstanding any other provision of this Plan, any Award then outstanding shall become fully vested and any restriction and forfeiture provisions thereon imposed pursuant to the Plan and the applicable Award Agreement shall lapse and any Award in the form of an option or stock appreciation right shall be immediately exercisable;

(ii) to the extent permitted by law and not otherwise limited by the terms of the Plan, the Administrator may amend any Award Agreement in such manner as it deems appropriate;

(iii) a grantee who incurs a termination of employment or consultancy/service relationship or dismissal from the Board for any reason, other than a termination or dismissal "for Cause", concurrent with or within one year following the Change in Control may exercise any outstanding option or stock appreciation right, but only to the extent that the grantee was entitled to exercise the Award on the date of his or her termination of employment or consultancy/service relationship or dismissal from the Board, until the earlier of (A) the original expiration date of the Award and (B) the later of (x) the date provided for under the terms of Section 2.4 without reference to this Section 3.5(b)(iii) and (y) the first anniversary of the grantee's termination of employment or consultancy/service relationship or dismissal from the Board.

(c) Miscellaneous. Whenever deemed appropriate by the Administrator, any action referred to in paragraph (b)(ii) of this Section 3.5 may be made conditional upon the consummation of the applicable Change in Control transaction. For purposes of the Plan and any Award Agreement granted hereunder, the term "Company" shall include any successor to Globus Maritime Limited.

3.6. Operation and Conduct of Business

Nothing in the Plan or any Award Agreement shall be construed as limiting or preventing the Company or any Subsidiary or Affiliate from taking any action with respect to the operation and conduct of its business that it deems appropriate or in its best interests, including any or all adjustments, recapitalizations, reorganizations, exchanges or other changes in the capital structure of the Company or any Subsidiary or Affiliate, any merger or consolidation of the Company or any Subsidiary or Affiliate, any issuance of Company shares or other securities or subscription rights, any issuance of bonds, debentures, preferred or prior preference stock ahead of or affecting the Common Stock or other securities or rights thereof, any dissolution or liquidation of the Company or any Affiliate, any sale or transfer of all or any part of the assets or business of the Company or any Subsidiary or Affiliate, or any other corporate act or proceeding, whether of a similar character or otherwise.

3.7. No Rights to Awards

No Key Person or other Person shall have any claim to be granted any Award under the Plan.

3.8. Right of Discharge Reserved

Nothing in the Plan or in any Award Agreement shall confer upon any grantee the right to continue his or her employment with the Company or any Subsidiary or Affiliate, his or her consultancy/service relationship with the Company or any Subsidiary or Affiliate, or his or her position as a director of the Company or any Subsidiary or Affiliate, or affect any right that the Company or any Affiliate may have to terminate such employment or consultancy/service relationship or service as a director. For the avoidance of doubt, for purposes of the Plan, reference to a termination of a service relationship with the Company or any Subsidiary or Affiliate includes a removal as a director or officer.

3.9. Non-Uniform Determinations

The Administrator's determinations and the treatment of Key Persons and grantees and their beneficiaries under the Plan need not be uniform and may be made and determined by the Administrator selectively among Persons who receive, or who are eligible to receive, Awards under the Plan (whether or not such Persons are similarly situated). Without limiting the generality of the foregoing, the Administrator shall be entitled, among other things, to make non-uniform and selective determinations, and to enter into non-uniform and selective Award Agreements, as to (a) the Persons to receive Awards under the Plan, (b) the types of Awards granted under the Plan, (c) the number of shares to be covered by, or with respect to which payments, rights or other matters are to be calculated with respect to, Awards and (d) the terms and conditions of Awards.

3.10. Other Payments or Awards

Nothing contained in the Plan shall be deemed in any way to limit or restrict the Company from making any award or payment to any Person under any other plan, arrangement or understanding, whether now existing or hereafter in effect.

3.11. Headings

Any section, subsection, paragraph or other subdivision headings contained herein are for the purpose of convenience only and are not intended to expand, limit or otherwise define the contents of such section, subsection, paragraph or other subdivision.

3.12. Effective Date and Term of Plan

(a) Adoption; Shareholder Approval. The Plan was adopted by the Board on March 7, 2024. The Board may, but need not, make the granting of any Awards under the Plan subject to the approval of the Company's shareholders.

(b) Termination of Plan. The Board may terminate the Plan at any time. All Awards made under the Plan prior to its termination shall remain in effect until such Awards have been satisfied or terminated in accordance with the terms and provisions of the Plan and the applicable Award Agreements. No Awards may be granted under the Plan following the tenth anniversary of the date on which the Plan was adopted by the Board.

3.13. Restriction on Issuance of Stock Pursuant to Awards

The Company shall not permit any shares of Common Stock to be issued pursuant to Awards granted under the Plan unless such shares of Common Stock are fully paid and non-assessable under applicable law. Notwithstanding anything to the contrary in the Plan or any Award Agreement, at the time of the exercise of any Award, at the time of vesting of any Award, at the time of payment of shares of Common Stock in exchange for, or in cancellation of, any Award, or at the time of grant of any unrestricted shares under the Plan, the Company and the Administrator may, if either shall deem it necessary or advisable for any reason, require the holder of an Award (a) to represent in writing to the Company that it is the Award holder's then-intention to acquire the shares with respect to which the Award is granted for investment and not with a view to the distribution thereof or (b) to postpone the date of exercise until such time as the Company has available for delivery to the Award holder a prospectus meeting the requirements of all applicable securities laws; and no shares shall be issued or transferred in connection with any Award unless and until all legal requirements applicable to the issuance or transfer of such shares have been complied with to the satisfaction of the Company and the Administrator. The Company and the Administrator shall have the right to condition any issuance of shares to any Award holder hereunder on such Person's undertaking in writing to comply with such restrictions on the subsequent transfer of such shares as the Company or the Administrator shall deem necessary or advisable as a result of any applicable law, regulation or official interpretation thereof, and all share certificates delivered under the Plan shall be subject to such stop transfer orders and other restrictions as the Company or the Administrator may deem advisable under the Plan, the applicable Award Agreement or the rules, regulations and other requirements of the SEC, any stock exchange upon which such shares are listed, and any applicable securities or other laws, and certificates representing such shares may contain a legend to reflect any such restrictions. The Administrator may refuse to issue or transfer any shares or other consideration under an Award if it determines that the issuance or transfer of such shares or other consideration might violate any applicable law or regulation or entitle the Company to recover the same under Section 16(b) of the 1934 Act, and any payment tendered to the Company by a grantee or other Award holder in connection with the exercise of such Award shall be promptly refunded to the relevant grantee or other Award holder. Without limiting the generality of the foregoing, no Award granted under the Plan shall be construed as an offer to sell securities of the Company, and no such offer shall be outstanding, unless and until the Administrator has determined that any such offer, if made, would be in compliance with all applicable requirements of any applicable securities laws.

3.14. Requirement of Notification of Election Under Section 83(b) of the Code

If an Award recipient, in connection with the acquisition of Company shares under the Plan, makes an election under Section 83(b) of the Code (to include in gross income in the year of transfer the amounts specified in Section 83(b) of the Code), the grantee shall notify the Administrator of such election within ten days of filing notice of the election with the U.S. Internal Revenue Service, in addition to any filing and notification required pursuant to regulations issued under Section 83(b) of the Code.

3.15. Severability

If any provision of the Plan or any Award is or becomes or is deemed to be invalid, illegal, or unenforceable in any jurisdiction or as to any Person or Award, or would disqualify the Plan or any Award under any law deemed applicable by the Administrator, such provision shall be construed or deemed amended to conform to the applicable laws or, if it cannot be construed or deemed amended without, in the determination of the Administrator, materially altering the intent of the Plan or the Award, such provision shall be stricken as to such jurisdiction, Person or Award and the remainder of the Plan and any such Award shall remain in full force and effect.

3.16. Sections 409A and 457A

To the extent applicable, the Plan and Award Agreements shall be interpreted in accordance with Sections 409A and 457A of the Code and Department of Treasury regulations and other interpretive guidance issued thereunder. Notwithstanding any provision of the Plan or any applicable Award Agreement to the contrary, in the event that the Administrator determines that any Award may be subject to Section 409A or 457A of the Code, the Administrator may adopt such amendments to the Plan and the applicable Award Agreement or adopt other policies and procedures (including amendments, policies and procedures with retroactive effect), or take any other actions, that the Administrator determines are necessary or appropriate to (i) exempt the Plan and Award from Sections 409A and 457A of the Code and/or preserve the intended tax treatment of the benefits provided with respect to the Award, or (ii) comply with the requirements of Sections 409A and 457A of the Code and related Department of Treasury guidance and thereby avoid the application of penalty taxes under Sections 409A and 457A of the Code.

3.17. Forfeiture; Clawback

The Administrator may, in its sole discretion, specify in the applicable Award Agreement that any realized gain with respect to options or stock appreciation rights and any realized value with respect to other Awards shall be subject to forfeiture or clawback, in the event of (a) a grantee's breach of any non-competition, non-solicitation, confidentiality or other restrictive covenants with respect to the Company or any Subsidiary or Affiliate, (b) a grantee's or their Affiliate's breach of any employment or consulting agreement with the Company or any Subsidiary or Affiliate, (c) a grantee's termination of employment or consultancy/service relationship for Cause or (d) a financial restatement that reduces the amount of compensation under this Plan previously awarded to a grantee that would have been earned had results been properly reported.

3.18. No Trust or Fund Created

Neither the Plan nor any Award shall create or be construed to create a trust or separate fund of any kind or a fiduciary relationship between the Company or any Subsidiary or Affiliate and an Award recipient or any other Person. To the extent that any Person acquires a right to receive payments from the Company or any Subsidiary or Affiliate pursuant to an Award, such right shall be no greater than the right of any unsecured general creditor of the Company or its Subsidiary or Affiliate.

3.19. No Fractional Shares

No fractional shares shall be issued or delivered pursuant to the Plan or any Award, and the Administrator shall determine whether cash, other securities, or other property shall be paid or transferred in lieu of any fractional shares or whether such fractional shares or any rights thereto shall be canceled, terminated, or otherwise eliminated.

3.20. Governing Law

The Plan will be construed and administered in accordance with the laws of the State of New York, without giving effect to principles of conflict of laws.

SECTION 6

ADDITIONAL PAYMENT OBLIGATIONS

12 TAX GROSS UP AND INDEMNITIES

12.1 Definitions

(a) In this Agreement:

"Protected Party" means a Finance Party which is or will be subject to any liability, or required to make any payment, for or on account of Tax in relation to a sum received or receivable (or any sum deemed for the purposes of Tax to be received or receivable) under a Finance Document.

"Tax Credit" means a credit against, relief or remission for, or repayment of any Tax.

"Tax Deduction" means a deduction or withholding for or on account of Tax from a payment under a Finance Document, other than a FATCA Deduction.

"Tax Payment" means either the increase in a payment made by an Obligor to a Finance Party under Clause 12.2 (*Tax gross-up*) or a payment under Clause 12.3 (*Tax indemnity*).

(b) Unless a contrary indication appears, in this Clause 12 (*Tax Gross Up and Indemnities*) reference to "determines" or "determined" means a determination made in the absolute discretion of the person making the determination.

(c) This Clause 12 (*Tax Gross Up and Indemnities*) shall not apply to any Hedging Agreement.

12.2 Tax gross-up

(a) Each Obligor shall make all payments to be made by it without any Tax Deduction, unless a Tax Deduction is required by law.

(b) The Borrowers shall promptly upon becoming aware that an Obligor must make a Tax Deduction (or that there is any change in the rate or the basis of a Tax Deduction) notify the Facility Agent accordingly. Similarly, a Lender shall notify the Facility Agent on becoming so aware in respect of a payment payable to that Lender. If the Facility Agent receives such notification from a Lender it shall notify the Borrowers and that Obligor.

(c) If a Tax Deduction is required by law to be made by an Obligor, the amount of the payment due from that Obligor shall be increased to an amount which (after making any Tax Deduction) leaves an amount equal to the payment which would have been due if no Tax Deduction had been required.

(d) If an Obligor is required to make a Tax Deduction, that Obligor shall make that Tax Deduction and any payment required in connection with that Tax Deduction within the time allowed and in the minimum amount required by law.

(e) Within 30 days of making either a Tax Deduction or any payment required in connection with that Tax Deduction, the Obligor making that Tax Deduction shall deliver to the Facility Agent for the Finance Party entitled to the payment evidence reasonably satisfactory to that Finance Party that the Tax Deduction has been made or (as applicable) any appropriate payment paid to the relevant taxing authority.

12.3 Tax indemnity

- (a) The Obligors shall (within three Business Days of demand by the Facility Agent) pay to a Protected Party an amount equal to the loss, liability or cost which that Protected Party determines will be or has been (directly or indirectly) suffered for or on account of Tax by that Protected Party in respect of a Finance Document.
- (b) Paragraph (a) above shall not apply:
 - (i) with respect to any Tax assessed on a Finance Party:
 - (A) under the law of the jurisdiction in which that Finance Party is incorporated or, if different, the jurisdiction (or jurisdictions) in which that Finance Party is treated as resident for tax purposes; or
 - (B) under the law of the jurisdiction in which that Finance Party's Facility Office is located in respect of amounts received or receivable in that jurisdiction,

if that Tax is imposed on or calculated by reference to the net income received or receivable (but not any sum deemed to be received or receivable) by that Finance Party; or
 - (ii) to the extent a loss, liability or cost:
 - (A) is compensated for by an increased payment under Clause 12.2 (*Tax gross-up*); or
 - (B) relates to a FATCA Deduction required to be made by a Party.
- (c) A Protected Party making, or intending to make, a claim under paragraph (a) above shall promptly notify the Facility Agent of the event which will give, or has given, rise to the claim, following which the Facility Agent shall notify the Obligors.
- (d) A Protected Party shall, on receiving a payment from an Obligor under this Clause 12.3 (*Tax indemnity*), notify the Facility Agent.

12.4 Tax Credit

If an Obligor makes a Tax Payment and the relevant Finance Party determines that:

- (a) a Tax Credit is attributable to an increased payment of which that Tax Payment forms part, to that Tax Payment or to a Tax Deduction in consequence of which that Tax Payment was received; and
- (b) that Finance Party has obtained and utilised that Tax Credit, the Finance Party shall pay an amount to the Obligor which that Finance Party determines will leave it (after that payment) in the same after-Tax position as it would have been in had the Tax Payment not been required to be made by the Obligor.

12.5 Stamp taxes

The Obligors shall pay and, within three Business Days of demand, indemnify each Secured Party against any cost, loss or liability which that Secured Party incurs in relation to all stamp duty, registration and other similar Taxes payable in respect of any Finance Document.

12.6 VAT

- (a) All amounts expressed to be payable under a Finance Document by any Party to a Finance Party which (in whole or in part) constitute the consideration for any supply for VAT purposes are deemed to be exclusive of any VAT which is chargeable on that supply, and accordingly, subject to paragraph (b) below, if VAT is or becomes chargeable on any supply made by any Finance Party to any Party under a Finance Document and such Finance Party is required to account to the relevant tax authority for the VAT, that Party must pay to such Finance Party (in addition to and at the same time as paying any other consideration for such supply) an amount equal to the amount of the VAT (and such Finance Party must promptly provide an appropriate VAT invoice to that Party).
- (b) If VAT is or becomes chargeable on any supply made by any Finance Party (the "**Supplier**") to any other Finance Party (the "**Recipient**") under a Finance Document, and any Party other than the Recipient (the "**Relevant Party**") is required by the terms of any Finance Document to pay an amount equal to the consideration for that supply to the Supplier (rather than being required to reimburse or indemnify the Recipient in respect of that consideration):
- (i) (where the Supplier is the person required to account to the relevant tax authority for the VAT) the Relevant Party must also pay to the Supplier (at the same time as paying that amount) an additional amount equal to the amount of the VAT. The Recipient must (where this subparagraph (i) applies) promptly pay to the Relevant Party an amount equal to any credit or repayment the Recipient receives from the relevant tax authority which the Recipient reasonably determines relates to the VAT chargeable on that supply; and
 - (ii) (where the Recipient is the person required to account to the relevant tax authority for the VAT) the Relevant Party must promptly, following demand from the Recipient, pay to the Recipient an amount equal to the VAT chargeable on that supply but only to the extent that the Recipient reasonably determines that it is not entitled to credit or repayment from the relevant tax authority in respect of that VAT.
- (c) Where a Finance Document requires any Party to reimburse or indemnify a Finance Party for any cost or expense, that Party shall reimburse or indemnify (as the case may be) such Finance Party for the full amount of such cost or expense, including such part of it as represents VAT, save to the extent that such Finance Party reasonably determines that it is entitled to credit or repayment in respect of such VAT from the relevant tax authority.
- (d) Any reference in this Clause 12.6 (*VAT*) to any Party shall, at any time when that Party is treated as a member of a group or unity (or fiscal unity) for VAT purposes, include (where appropriate and unless the context otherwise requires) a reference to the person who is treated at that time as making the supply, or (as appropriate) receiving the supply, under the grouping rules provided for in Article 11 of Council Directive 2006/112/EC (or as implemented by the relevant member state of the European Union or equivalent provisions imposed elsewhere) so that a reference to a Party shall be construed as a reference to that Party or the relevant group or unity (or fiscal unity) of which that Party is a member for VAT purposes at the relevant time or the relevant representative member (or representative or head) of that group or unity at the relevant time (as the case may be).

- (e) In relation to any supply made by a Finance Party to any Party under a Finance Document, if reasonably requested by such Finance Party, that Party must promptly provide such Finance Party with details of that Party's VAT registration and such other information as is reasonably requested in connection with such Finance Party's VAT reporting requirements in relation to such supply.

12.7 FATCA Information

- (a) Subject to paragraph (c) below, each Party shall, within ten Business Days of a reasonable request by another Party:
 - (i) confirm to that other Party whether it is:
 - (A) a FATCA Exempt Party; or
 - (B) not a FATCA Exempt Party; and
 - (ii) supply to that other Party such forms, documentation and other information relating to its status under FATCA as that other Party reasonably requests for the purposes of that other Party's compliance with FATCA; and
 - (iii) supply to that other Party such forms, documentation and other information relating to its status as that other Party reasonably requests for the purposes of that other Party's compliance with any other law, regulation or exchange of information regime.
- (b) If a Party confirms to another Party pursuant to sub-paragraph (i) of paragraph (a) above that it is a FATCA Exempt Party and it subsequently becomes aware that it is not, or has ceased to be a FATCA Exempt Party, that Party shall notify that other Party reasonably promptly.
- (c) Paragraph (a) above shall not oblige any Finance Party to do anything and sub-paragraph (iii) of paragraph (a) above shall not oblige any other Party to do anything which would or might in its reasonable opinion constitute a breach of:
 - (i) any law or regulation;
 - (ii) any fiduciary duty; or
 - (iii) any duty of confidentiality.
- (d) If a Party fails to confirm whether or not it is a FATCA Exempt Party or to supply forms, documentation or other information requested in accordance with sub-paragraphs (i) or (ii) of paragraph (a) above (including, for the avoidance of doubt, where paragraph (c) above applies), then such Party shall be treated for the purposes of the Finance Documents (and payments under them) as if it is not a FATCA Exempt Party until such time as the Party in question provides the requested confirmation, forms, documentation or other information.

12.8 Withholding certificate etc.

- (a) Each Lender shall:
- (i) where that Lender is an Original Lender, on the date of this Agreement;
 - (ii) where that Lender is a New Lender (as defined in Clause 29.1 (*Assignments and transfers by the Lenders*)), on the relevant Transfer Date; or
 - (iii) within ten Business Days of the date of a request from the Facility Agent, supply to the Facility Agent:
 - (A) a withholding certificate on Form W-8, IRS Form W-9 or any other relevant form (including, for the avoidance of doubt, forms required in connection with tax laws other than in the US); or
 - (B) any withholding statement or other document, authorisation or waiver as the Facility Agent may require to certify or establish the status of such Lender under FATCA or that other law or regulation.
- (b) The Facility Agent shall provide any withholding certificate, withholding statement, document, authorisation or waiver it receives from a Lender pursuant to paragraph (a) above to the Borrowers.
- (c) If any withholding certificate, withholding statement, document, authorisation or waiver provided to the Facility Agent by a Lender pursuant to paragraph (a) above is or becomes materially inaccurate or incomplete, that Lender shall promptly update it and provide such updated withholding certificate, withholding statement, document, authorisation or waiver to the Facility Agent unless it is unlawful for the Lender to do so (in which case the Lender shall promptly notify the Facility Agent). The Facility Agent shall provide any such updated withholding certificate, withholding statement, document, authorisation or waiver to the Borrowers.
- (d) The Facility Agent may rely on any withholding certificate, withholding statement, document, authorisation or waiver it receives from a Lender pursuant to paragraph (a) or (c) above without further verification. The Facility Agent shall not be liable for any action taken by it under or in connection with paragraphs (a), (b) or (c) above.

12.9 FATCA Deduction

- (a) Each Party may make any FATCA Deduction it is required to make by FATCA, and any payment required in connection with that FATCA Deduction, and no Party shall be required to increase any payment in respect of which it makes such a FATCA Deduction or otherwise compensate the recipient of the payment for that FATCA Deduction.
- (b) Each Party shall promptly, upon becoming aware that it must make a FATCA Deduction (or that there is any change in the rate or the basis of such FATCA Deduction), notify the Party to whom it is making the payment and, in addition, shall notify each Obligor and the Facility Agent and the Facility Agent shall notify the other Finance Parties.

13 INCREASED COSTS

13.1 Increased costs

- (a) Subject to Clause 13.3 (*Exceptions*), the Borrowers shall, within three Business Days of a demand by the Facility Agent, pay for the account of a Finance Party the amount of any Increased Costs incurred by that Finance Party or any of its Affiliates as a result of:
- (i) the introduction of or any change in (or in the interpretation, administration or application of) any law or regulation; or

(c) Notwithstanding anything in this Clause above to the contrary, the Dodd-Frank Wall Street Reform and Consumer Protection Act, and all requests, rules, guidelines and directives promulgated thereunder, are deemed to have been introduced or adopted after the date of this Agreement, regardless of the date enacted or adopted.

13.2 Increased cost claims

- (e) incurred by a Hedge Counterparty in its capacity as such.

14 OTHER INDEMNITIES

No Finance Party shall be liable for any damages arising from the use of others of any information or other materials obtained through 'intra-links' or other similar information transmission systems in connection with any of the Finance Documents and in no event shall any Finance Party be liable for any loss of profits, goodwill, reputation, business opportunity or anticipated saving, or for special, punitive, indirect or consequential damages, whether or not that Finance Party has been advised of the possibility of such loss or damages.

15 MITIGATION BY THE FINANCE PARTIES

15.1 Mitigation

- (a) Each Finance Party shall, in consultation with the Borrowers, take all reasonable steps to mitigate any circumstances which arise and which would result in any amount becoming payable under or pursuant to, or cancelled pursuant to, any of Clause 7.1 (*Illegality*), Clause 12 (*Tax Gross Up and Indemnities*), Clause 13 (*Increased Costs*) or including (but not limited to) transferring its rights and obligations under the Finance Documents to another Affiliate or Facility Office.

16.3 Enforcement and preservation costs

The Obligors shall, on demand, pay to each Secured Party the amount of all costs and expenses (including legal fees) incurred by that Secured Party in connection with the enforcement of, or the preservation of any rights (in which case, such costs and expenses (including legal fees) shall be documented) under, any Finance Document or the Transaction Security and with any proceedings instituted by or against that Secured Party as a consequence of it entering into a Finance Document, taking or holding the Transaction Security, or enforcing those rights.

SECTION 7

GUARANTEES AND JOINT AND SEVERAL LIABILITY OF BORROWERS

17 GUARANTEE AND INDEMNITY – PARENT GUARANTOR

17.1 Guarantee and indemnity

The Parent Guarantor irrevocably and unconditionally:

- (a) guarantees to each Finance Party punctual performance by each Transaction Obligor other than the Parent Guarantor of all such other Transaction Obligor's obligations under the Finance Documents provided that such guarantee shall not include any Excluded Hedging Obligations of the Parent Guarantor;
- (b) undertakes with each Finance Party that whenever a Transaction Obligor other than the Parent Guarantor does not pay any amount when due under or in connection with any Finance Document, the Parent Guarantor shall immediately on demand pay that amount as if it were the principal obligor; and
- (c) agrees with each Finance Party that if any obligation guaranteed by it is or becomes unenforceable, invalid or illegal, it will, as an independent and primary obligation, indemnify that Finance Party immediately on demand against any cost, loss or liability it incurs as a result of a Transaction Obligor other than the Parent Guarantor not paying any amount which would, but for such unenforceability, invalidity or illegality, have been payable by it under any Finance Document on the date when it would have been due. The amount payable by the Parent Guarantor under this indemnity will not exceed the amount it would have had to pay under this Clause 17 (*Guarantee and Indemnity – Parent Guarantor*) if the amount claimed had been recoverable on the basis of a guarantee.

17.2 Continuing guarantee

This guarantee is a continuing guarantee and will extend to the ultimate balance of sums payable by any Transaction Obligor under the Finance Documents, regardless of any intermediate payment or discharge in whole or in part.

17.3 Reinstatement

If any discharge, release or arrangement (whether in respect of the obligations of any Transaction Obligor or any security for those obligations or otherwise) is made by a Secured Party in whole or in part on the basis of any payment, security or other disposition which is avoided or must be restored in insolvency, liquidation, administration or otherwise, without limitation, then the liability of the Parent Guarantor under this Clause 17 (*Guarantee and Indemnity – Parent Guarantor*) will continue or be reinstated as if the discharge, release or arrangement had not occurred.

17.4 Waiver of defences

The obligations of the Parent Guarantor under this Clause 17 (*Guarantee and Indemnity – Parent Guarantor*) and in respect of any Transaction Security will not be affected or discharged by an act, omission, matter or thing which, but for this Clause 17.4 (*Waiver of defences*), would reduce, release or prejudice any of its obligations under this Clause 17 (*Guarantee and Indemnity – Parent Guarantor*) or in respect of any Transaction Security (without limitation and whether or not known to it or any Secured Party) including:

- (a) any time, waiver or consent granted to, or composition with, any Transaction Obligor or other person;
- (b) the release of any other Transaction Obligor or any other person under the terms of any composition or arrangement with any creditor of any member of the Group;
- (c) the taking, variation, compromise, exchange, renewal or release of, or refusal or neglect to perfect or delay in perfecting, or refusal or neglect to take up or enforce, or delay in taking or enforcing any rights against, or security over assets of, any Transaction Obligor or other person or any non-presentation or non-observance of any formality or other requirement in respect of any instrument or any failure to realise the full value of any security;
- (d) any incapacity or lack of power, authority or legal personality of or dissolution or change in the members or status of a Transaction Obligor or any other person;
- (e) any amendment, novation, supplement, extension, restatement (however fundamental and whether or not more onerous) or replacement of any Finance Document or any other document or security including, without limitation, any change in the purpose of, any extension of or any increase in any facility or the addition of any new facility under any Finance Document or other document or security;
- (f) any unenforceability, illegality or invalidity of any obligation of any person under any Finance Document or any other document or security; or
- (g) any insolvency or similar proceedings.

- (a) assign any of its rights; or
- (b) transfer by novation any of its rights and obligations,

under the Finance Documents to another bank or financial institution or to a trust, fund or other entity which is regularly engaged in or established for the purpose of making, purchasing or investing in loans, securities or other financial assets (the "**New Lender**") without the Borrowers consent and at no cost of the Borrowers unless an Event of Default has occurred and is continuing.

29.2 Conditions of assignment or transfer

- (a) Prior notice of assignment or transfer pursuant to Clause 29.1 (*Assignments and transfers by the Lenders*) stating the assignment or transfer consideration agreed between the Existing Lender and the New Lender (the "**Loan Transfer Price**"), shall be given by the relevant Existing Lender to the Borrowers and the Obligors shall have the right to prepay within 30 days of such notification to the Facility Agent an amount equal to the Loan Transfer Price and following such prepayment shall extinguish the Obligors' obligations with respect to such part of the Loan.
- (b) Unless otherwise provided in this Clause 29.2 (*Conditions of assignment or transfer*), any prepayment made pursuant to paragraph (a) above shall be made in accordance with the relevant provisions of Clause 7 (*Prepayment and Cancellation*) and shall be treated as a voluntary prepayment pursuant to Clause 7.3 (*Voluntary prepayment of Loan*). For the avoidance of doubt, paragraph (b) of Clause 7.3 (*Voluntary prepayment of Loan*) shall not apply and there will be no prepayment fee for such prepayment.
- (c) Should the Obligors not make the prepayment in accordance with paragraph (a) above then the remaining provisions of this Clause 29 (*Changes to the Lenders*) shall apply.
- (d) An assignment will only be effective on:
 - (i) receipt by the Facility Agent (whether in the Assignment Agreement or otherwise) of written confirmation from the New Lender (in form and substance satisfactory to the Facility Agent) that the New Lender will assume the same obligations to the other Secured Parties as it would have been under if it had been an Original Lender; and
 - (ii) performance by the Facility Agent of all necessary "know your customer" or other similar checks under all applicable laws and regulations in relation to such assignment to a New Lender, the completion of which the Facility Agent shall promptly notify to the Existing Lender and the New Lender.
- (e) Each Obligor on behalf of itself and each Transaction Obligor agrees that all rights and interests (present, future or contingent) which the Existing Lender has under or by virtue of the Finance Documents are assigned to the New Lender absolutely, free of any defects in the Existing Lender's title and of any rights or equities which the Borrower or any other Transaction Obligor had against the Existing Lender.

(f) A transfer will only be effective if the procedure set out in Clause 29.5 (*Procedure for transfer*) is complied with.

(g) If:

(i) a Lender assigns or transfers any of its rights or obligations under the Finance Documents or changes its Facility Office; and

(ii) as a result of circumstances existing at the date the assignment, transfer or change occurs, a Transaction Obligor would be obliged to make a payment to the New Lender or Lender acting through its new Facility Office under Clause 12 (*Tax Gross Up and Indemnities*) or under that clause as incorporated by reference or in full in any other Finance Document or Clause 13 (*Increased Costs*),

then the New Lender or Lender acting through its new Facility Office is only entitled to receive payment under those Clauses to the same extent as the Existing Lender or Lender acting through its previous Facility Office would have been if the assignment, transfer or change had not occurred. This paragraph (g) shall not apply in respect of an assignment or transfer made in the ordinary course of the primary syndication of the Facility.

(h) Each New Lender, by executing the relevant Transfer Certificate or Assignment Agreement, confirms, for the avoidance of doubt, that the Facility Agent has authority to execute on its behalf any amendment or waiver that has been approved by or on behalf of the requisite Lender or Lenders in accordance with this Agreement on or prior to the date on which the transfer or assignment becomes effective in accordance with this Agreement and that it is bound by that decision to the same extent as the Existing Lender would have been had it remained a Lender.

29.3 Assignment or transfer fee

The New Lender shall, on the date upon which an assignment or transfer takes effect, pay to the Facility Agent (for its own account) a fee of \$5,000.

29.4 Limitation of responsibility of Existing Lenders

(a) Unless expressly agreed to the contrary, an Existing Lender makes no representation or warranty and assumes no responsibility to a New Lender for:

(i) the legality, validity, effectiveness, adequacy or enforceability of the Transaction Documents, the Transaction Security or any other documents;

(ii) the financial condition of any Transaction Obligor;

(iii) the performance and observance by any Transaction Obligor of its obligations under the Transaction Documents or any other documents; or

(iv) the accuracy of any statements (whether written or oral) made in or in connection with any Transaction Document or any other document, and any representations or warranties implied by law are excluded.

- (b) Each New Lender confirms to the Existing Lender and the other Finance Parties and the Secured Parties that it:
 - (i) has made (and shall continue to make) its own independent investigation and assessment of the financial condition and affairs of each Transaction Obligor and its related entities in connection with its participation in this Agreement and has not relied exclusively on any information provided to it by the Existing Lender or any other Finance Party in connection with any Transaction Document or the Transaction Security; and
 - (ii) will continue to make its own independent appraisal of the creditworthiness of each Transaction Obligor and its related entities throughout the Security Period.
- (c) Nothing in any Finance Document obliges an Existing Lender to:
 - (i) accept a re-transfer or re-assignment from a New Lender of any of the rights and obligations assigned or transferred under this Clause 29 (*Changes to the Lenders*); or
 - (ii) support any losses directly or indirectly incurred by the New Lender by reason of the non-performance by any Transaction Obligor of its obligations under the Transaction Documents or otherwise.

29.5 Procedure for transfer

- (a) Subject to the conditions set out in Clause 29.2 (*Conditions of assignment or transfer*), a transfer is effected in accordance with paragraph (c) below when the Facility Agent executes an otherwise duly completed Transfer Certificate delivered to it by the Existing Lender and the New Lender. The Facility Agent shall, subject to paragraph (b) below as soon as reasonably practicable after receipt by it of a duly completed Transfer Certificate appearing on its face to comply with this Agreement and delivered in accordance with this Agreement, execute that Transfer Certificate.
- (b) The Facility Agent shall only be obliged to execute a Transfer Certificate delivered to it by the Existing Lender and the New Lender once it is satisfied it has complied with all necessary "know your customer" or other similar checks under all applicable laws and regulations in relation to the transfer to such New Lender.
- (c) Subject to Clause 29.9 (*Pro rata interest settlement*), on the Transfer Date:
 - (i) to the extent that in the Transfer Certificate the Existing Lender seeks to transfer by novation its rights and obligations under the Finance Documents and in respect of the Transaction Security, each of the Transaction Obligors and the Existing Lender shall be released from further obligations towards one another under the Finance Documents and in respect of the Transaction Security and their respective rights against one another under the Finance Documents and in respect of the Transaction Security shall be cancelled (being the "**Discharged Rights and Obligations**");
 - (ii) each of the Transaction Obligors and the New Lender shall assume obligations towards one another and/or acquire rights against one another which differ from the Discharged Rights and Obligations only insofar as that Transaction Obligor and the New Lender have assumed and/or acquired the same in place of that Transaction Obligor and the Existing Lender;

- (iii) the Facility Agent, the Security Agent, the New Lender and other Lenders shall acquire the same rights and assume the same obligations between themselves and in respect of the Transaction Security as they would have acquired and assumed had the New Lender been an Original Lender with the rights and/or obligations acquired or assumed by it as a result of the transfer and to that extent the Facility Agent, the Security Agent, and the Existing Lenders shall each be released from further obligations to each other under the Finance Documents; and
- (iv) the New Lender shall become a Party as a "Lender".

29.6 Procedure for assignment

- (a) Subject to the conditions set out in Clause 29.2 (*Conditions of assignment or transfer*) an assignment may be effected in accordance with paragraph (c) below when the Facility Agent executes an otherwise duly completed Assignment Agreement delivered to it by the Existing Lender and the New Lender. The Facility Agent shall, subject to paragraph (b) below, as soon as reasonably practicable after receipt by it of a duly completed Assignment Agreement appearing on its face to comply with the terms of this Agreement and delivered in accordance with the terms of this Agreement, execute that Assignment Agreement.
- (b) The Facility Agent shall only be obliged to execute an Assignment Agreement delivered to it by the Existing Lender and the New Lender once it is satisfied it has complied with all necessary "know your customer" or other similar checks under all applicable laws and regulations in relation to the assignment to such New Lender.
- (c) Subject to Clause 29.9 (*Pro rata interest settlement*), on the Transfer Date:
 - (i) the Existing Lender will assign absolutely to the New Lender its rights under the Finance Documents and in respect of the Transaction Security expressed to be the subject of the assignment in the Assignment Agreement;
 - (ii) the Existing Lender will be released from the obligations (the "**Relevant Obligations**") expressed to be the subject of the release in the Assignment Agreement (and any corresponding obligations by which it is bound in respect of the Transaction Security); and
 - (iii) the New Lender shall become a Party as a "Lender" and will be bound by obligations equivalent to the Relevant Obligations.
- (d) Lenders may utilise procedures other than those set out in this Clause 29.6 (*Procedure for assignment*) to assign their rights under the Finance Documents (but not, without the consent of the relevant Transaction Obligor or unless in accordance with Clause 29.5 (*Procedure for transfer*), to obtain a release by that Transaction Obligor from the obligations owed to that Transaction Obligor by the Lenders nor the assumption of equivalent obligations by a New Lender) **provided that** they comply with the conditions set out in Clause 29.2 (*Conditions of assignment or transfer*).

29.7 Copy of Transfer Certificate or Assignment Agreement to Borrowers

The Facility Agent shall, as soon as reasonably practicable after it has executed a Transfer Certificate or an Assignment Agreement, send to the Borrowers a copy of that Transfer Certificate or Assignment Agreement.

29.8 Security over Lenders' rights

In addition to the other rights provided to Lenders under this Clause 29 (*Changes to the Lenders*), each Lender may without consulting with or obtaining consent from any Transaction Obligor, at any time charge, assign or otherwise create Security in or over (whether by way of collateral or otherwise) all or any of its rights under any Finance Document to secure obligations of that Lender including, without limitation:

- (a) any charge, assignment or other Security to secure obligations to a federal reserve or central bank; and
- (b) any charge, assignment or other Security granted to any holders (or trustee or representatives of holders) of obligations owed, or securities issued, by that Lender as security for those obligations or securities,

except that no such charge, assignment or Security shall:

- (i) release a Lender from any of its obligations under the Finance Documents or substitute the beneficiary of the relevant charge, assignment or Security for the Lender as a party to any of the Finance Documents; or
- (ii) require any payments to be made by a Transaction Obligor other than or in excess of, or grant to any person any more extensive rights than, those required to be made or granted to the relevant Lender under the Finance Documents.

29.9 Pro rata interest settlement

- (a) If the Facility Agent has notified the Lenders that it is able to distribute interest payments on a "pro rata basis" to Existing Lenders and New Lenders then (in respect of any transfer pursuant to Clause 29.5 (*Procedure for transfer*) or any assignment pursuant to Clause 29.6 (*Procedure for assignment*)) the Transfer Date of which, in each case, is after the date of such notification and is not on the last day of an Interest Period):
 - (i) any interest or fees in respect of the relevant participation which are expressed to accrue by reference to the lapse of time shall continue to accrue in favour of the Existing Lender up to but excluding the Transfer Date ("**Accrued Amounts**") and shall become due and payable to the Existing Lender (without further interest accruing on them) on the last day of the current Interest Period (or, if the Interest Period is longer than six Months, on the next of the dates which falls at six Monthly intervals after the first day of that Interest Period); and
 - (ii) the rights assigned or transferred by the Existing Lender will not include the right to the Accrued Amounts, so that, for the avoidance of doubt:
 - (A) when the Accrued Amounts become payable, those Accrued Amounts will be payable to the Existing Lender; and

(B) the amount payable to the New Lender on that date will be the amount which would, but for the application of this Clause 29.9 (*Pro rata interest settlement*), have been payable to it on that date, but after deduction of the Accrued Amounts.

(b) In this Clause 29.9 (*Pro rata interest settlement*) references to "Interest Period" shall be construed to include a reference to any other period for accrual of fees.

(c) An Existing Lender which retains the right to the Accrued Amounts pursuant to this Clause 29.9 (*Pro rata interest settlement*) but which does not have a Commitment shall be deemed not to be a Lender for the purposes of ascertaining whether the agreement of any specified group of Lenders has been obtained to approve any request for a consent, waiver, amendment or other vote of Lenders under the Finance Documents.

30 CHANGES TO THE TRANSACTION OBLIGORS

30.1 Assignment or transfer by Transaction Obligors

No Transaction Obligor may assign any of its rights or transfer any of its rights or obligations under the Finance Documents.

30.2 Release of security

- (a) If a disposal of any asset subject to security created by a Security Document is made in the following circumstances:
- (i) the disposal is permitted by the terms of any Finance Document;
 - (ii) the Majority Lenders agree to the disposal;
 - (iii) the disposal is being made at the request of the Security Agent in circumstances where any security created by the Security Documents has become enforceable; or
 - (iv) the disposal is being effected by enforcement of a Security Document,

the Security Agent may release the asset(s) being disposed of from any security over those assets created by a Security Document. However, the proceeds of any disposal (or an amount corresponding to them) must be applied in accordance with the requirements of the Finance Documents (if any).

- (b) If the Security Agent is satisfied that a release is allowed under this Clause 30.2 (*Release of security*) (at the request and expense of the Borrowers) each Finance Party must enter into any document and do all such other things which are reasonably required to achieve that release. Each other Finance Party irrevocably authorises the Security Agent to enter into any such document. Any release will not affect the obligations of any other Transaction Obligor under the Finance Documents.

30.3 Additional Subordinated Creditors

- (a) The Borrowers may request that any person becomes a Subordinated Creditor, with the prior approval of the Facility Agent, by delivering to the Facility Agent:
- (i) a duly executed Subordination Agreement;
 - (ii) a duly executed Subordinated Debt Security; and
 - (iii) such constitutional documents, corporate authorisations and other documents and matters as the Facility Agent may reasonably require, in form and substance satisfactory to the Facility Agent, to verify that the person's obligations are legally binding, valid and enforceable and to satisfy any applicable legal and regulatory requirements.
- (b) A person referred to in paragraph (a) above will become a Subordinated Creditor on the date the Security Agent enters into the Subordination Agreement and the Subordinated Debt Security delivered under paragraph (a) above.

SECTION 10

THE FINANCE PARTIES

31 THE FACILITY AGENT

31.1 Appointment of the Facility Agent

- (a) Each of the Lenders and the Hedge Counterparties appoints the Facility Agent to act as its agent under and in connection with the Finance Documents.
- (b) Each of the Lenders and the Hedge Counterparties authorises the Facility Agent to perform the duties, obligations and responsibilities and to exercise the rights, powers, authorities and discretions specifically given to the Facility Agent under, or in connection with, the Finance Documents together with any other incidental rights, powers, authorities and discretions.

31.2 Instructions

- (a) The Facility Agent shall:
 - (i) unless a contrary indication appears in a Finance Document, exercise or refrain from exercising any right, power, authority or discretion vested in it as Facility Agent in accordance with any instructions given to it by:
 - (A) all Lenders if the relevant Finance Document stipulates the matter is an all Lender decision; and
 - (B) in all other cases, the Majority Lenders; and
 - (ii) not be liable for any act (or omission) if it acts (or refrains from acting) in accordance with sub-paragraph (i) above (or, if this Agreement stipulates the matter is a decision for any other Finance Party or group of Finance Parties, in accordance with instructions given to it by that Finance Party or group of Finance Parties).
- (b) The Facility Agent shall be entitled to request instructions, or clarification of any instruction, from the Majority Lenders (or, if the relevant Finance Document stipulates the matter is a decision for any other Finance Party or group of Finance Parties, from that Finance Party or group of Finance Parties) as to whether, and in what manner, it should exercise or refrain from exercising any right, power, authority or discretion and the Facility Agent may refrain from acting unless and until it receives any such instructions or clarification that it has requested.
- (c) Save in the case of decisions stipulated to be a matter for any other Finance Party or group of Finance Parties under the relevant Finance Document and unless a contrary indication appears in a Finance Document, any instructions given to the Facility Agent by the Majority Lenders shall override any conflicting instructions given by any other Parties and will be binding on all Finance Parties.
- (d) Paragraph (a) above shall not apply:
 - (i) where a contrary indication appears in a Finance Document;
 - (ii) where a Finance Document requires the Facility Agent to act in a specified manner or to take a specified action;

- (iii) in respect of any provision which protects the Facility Agent's own position in its personal capacity as opposed to its role of Facility Agent for the relevant Finance Parties.
- (e) If giving effect to instructions given by the Majority Lenders would in the Facility Agent's opinion have an effect equivalent to an amendment or waiver referred to in Clause 45 (*Amendments and Waivers*), the Facility Agent shall not act in accordance with those instructions unless consent to it so acting is obtained from each Party (other than the Facility Agent) whose consent would have been required in respect of that amendment or waiver.
- (f) In exercising any discretion to exercise a right, power or authority under the Finance Documents where it has not received any instructions as to the exercise of that discretion the Facility Agent shall do so having regard to the interests of all the Finance Parties.
- (g) The Facility Agent may refrain from acting in accordance with any instructions of any Finance Party or group of Finance Parties until it has received any indemnification and/or security that it may in its discretion require (which may be greater in extent than that contained in the Finance Documents and which may include payment in advance) for any cost, loss or liability (together with any applicable VAT) which it may incur in complying with those instructions.
- (h) Without prejudice to the remainder of this Clause 31.2 (*Instructions*), in the absence of instructions, the Facility Agent shall not be obliged to take any action (or refrain from taking action) even if it considers acting or not acting to be in the best interests of the Finance Parties. The Facility Agent may act (or refrain from acting) as it considers to be in the best interest of the Finance Parties.
- (i) The Facility Agent is not authorised to act on behalf of a Finance Party (without first obtaining that Finance Party's consent) in any legal or arbitration proceedings relating to any Finance Document. This paragraph (i) shall not apply to any legal or arbitration proceeding relating to the perfection, preservation or protection of rights under the Security Documents or enforcement of the Transaction Security or Security Documents.

31.3 Duties of the Facility Agent

- (a) The Facility Agent's duties under the Finance Documents are solely mechanical and administrative in nature.
- (b) Subject to paragraph (c) below, the Facility Agent shall promptly forward to a Party the original or a copy of any document which is delivered to the Facility Agent for that Party by any other Party.
- (c) Without prejudice to Clause 29.7 (*Copy of Transfer Certificate or Assignment Agreement to Borrowers*), paragraph (b) above shall not apply to any Transfer Certificate or any Assignment Agreement.
- (d) Except where a Finance Document specifically provides otherwise, the Facility Agent is not obliged to review or check the adequacy, accuracy or completeness of any document it forwards to another Party.
- (e) If the Facility Agent receives notice from a Party referring to any Finance Document, describing a Default and stating that the circumstance described is a Default, it shall promptly notify the other Finance Parties.

- (f) If the Facility Agent is aware of the non-payment of any principal, interest, commitment fee or other fee payable to a Finance Party (other than the Facility Agent or the Security Agent) under this Agreement, it shall promptly notify the other Finance Parties.
- (g) The Facility Agent shall have only those duties, obligations and responsibilities expressly specified in the Finance Documents to which it is expressed to be a party (and no others shall be implied).

31.4 No fiduciary duties

- (a) Nothing in any Finance Document constitutes the Facility Agent as a trustee or fiduciary of any other person.
- (b) The Facility Agent shall not be bound to account to other Finance Party for any sum or the profit element of any sum received by it for its own account.

31.5 Application of receipts

Except as expressly stated to the contrary in any Finance Document, any moneys which the Facility Agent receives or recovers in its capacity as Facility Agent shall be applied by the Facility Agent in accordance with Clause 35.5 (*Application of receipts; partial payments*).

31.6 Business with the Group

The Facility Agent may accept deposits from, lend money to, and generally engage in any kind of banking or other business with, any member of the Group.

31.7 Rights and discretions

- (a) The Facility Agent may:
 - (i) rely on any representation, communication, notice or document believed by it to be genuine, correct and appropriately authorised;
 - (ii) assume that:
 - (A) any instructions received by it from the Majority Lenders, any Finance Parties or any group of Finance Parties are duly given in accordance with the terms of the Finance Documents; and
 - (B) unless it has received notice of revocation, that those instructions have not been revoked; and
 - (iii) rely on a certificate from any person:
 - (A) as to any matter of fact or circumstance which might reasonably be expected to be within the knowledge of that person; or
 - (B) to the effect that such person approves of any particular dealing, transaction, step, action or thing,as sufficient evidence that that is the case and, in the case of paragraph (A) above, may assume the truth and accuracy of that certificate.

- (b) The Facility Agent may assume (unless it has received notice to the contrary in its capacity as agent for the Finance Parties) that:
- (i) no Default has occurred (unless it has actual knowledge of a Default arising under Clause 28.2 (*Non-payment*));
 - (ii) any right, power, authority or discretion vested in any Party or any group of Finance Parties has not been exercised; and
 - (iii) any notice or request made by any Borrower (other than the relevant Utilisation Request) is made on behalf of and with the consent and knowledge of all the Transaction Obligors.
- (c) The Facility Agent may engage and pay for the advice or services of any lawyers, accountants, tax advisers, surveyors or other professional advisers or experts.
- (d) Without prejudice to the generality of paragraph (c) above or paragraph (e) below, the Facility Agent may at any time engage and pay for the services of any lawyers to act as independent counsel to the Facility Agent (and so separate from any lawyers instructed by the Lenders) if the Facility Agent in its reasonable opinion deems this to be desirable.
- (e) The Facility Agent may rely on the advice or services of any lawyers, accountants, tax advisers, surveyors or other professional advisers or experts (whether obtained by the Facility Agent or by any other Party) and shall not be liable for any damages, costs or losses to any person, any diminution in value or any liability whatsoever arising as a result of its so relying.
- (f) The Facility Agent may act in relation to the Finance Documents and the Security Property through its officers, employees and agents and shall not:
- (i) be liable for any error of judgment made by any such person; or
 - (ii) be bound to supervise, or be in any way responsible for any loss incurred by reason of misconduct, omission or default on the part of any such person,
- unless such error or such loss was directly caused by the Facility Agent's gross negligence or wilful misconduct.
- (g) Unless a Finance Document expressly provides otherwise the Facility Agent may disclose to any other Party any information it reasonably believes it has received as agent under the Finance Documents.
- (h) Notwithstanding any other provision of any Finance Document to the contrary, the Facility Agent is not obliged to do or omit to do anything if it would or might, in its reasonable opinion, constitute a breach of any law or regulation or a breach of a fiduciary duty or duty of confidentiality.
- (i) Notwithstanding any provision of any Finance Document to the contrary, the Facility Agent is not obliged to expend or risk its own funds or otherwise incur any financial liability in the performance of its duties, obligations or responsibilities or the exercise of any right, power, authority or discretion if it has grounds for believing the repayment of such funds or adequate indemnity against, or security for, such risk or liability is not reasonably assured to it.

31.8 Responsibility for documentation

The Facility Agent is not responsible nor liable for:

- (a) the adequacy, accuracy or completeness of any information (whether oral or written) supplied by the Facility Agent, the Security Agent, a Transaction Obligor or any other person in, or in connection with, any Transaction Document or the transactions contemplated in the Transaction Documents or any other agreement, arrangement or document entered into, made or executed in anticipation of, under or in connection with any Transaction Document;
- (b) the legality, validity, effectiveness, adequacy or enforceability of any Transaction Document or the Security Property or any other agreement, arrangement or document entered into, made or executed in anticipation of, under or in connection with, any Transaction Document or the Security Property; or
- (c) any determination as to whether any information provided or to be provided to any Finance Party or Secured Party is non-public information the use of which may be regulated or prohibited by applicable law or regulation relating to insider dealing or otherwise.

31.9 No duty to monitor

The Facility Agent shall not be bound to enquire:

- (a) whether or not any Default has occurred;
- (b) as to the performance, default or any breach by any Transaction Obligor of its obligations under any Transaction Document; or
- (c) whether any other event specified in any Transaction Document has occurred.

31.10 Exclusion of liability

- (a) Without limiting paragraph (b) below (and without prejudice to paragraph (e) of Clause 35.11 (*Disruption to Payment Systems etc.*) or any other provision of any Finance Document excluding or limiting the liability of the Facility Agent), the Facility Agent will not be liable (including, without limitation, for negligence or any other category of liability whatsoever) for:
 - (i) any damages, costs or losses to any person, any diminution in value, or any liability whatsoever arising as a result of taking or not taking any action under or in connection with any Transaction Document or the Security Property, unless directly caused by its gross negligence or wilful misconduct;
 - (ii) exercising, or not exercising, any right, power, authority or discretion given to it by, or in connection with, any Transaction Document, the Security Property or any other agreement, arrangement or document entered into, made or executed in anticipation of, under or in connection with, any Transaction Document or the Security Property; or
 - (iii) any shortfall which arises on the enforcement or realisation of the Security Property;
 - (iv) any damages, costs or losses to any person, any diminution in value, or any other liability whatsoever arising as a result of:

- (A) any Benchmark Replacement implemented pursuant to Clause 45.4 (*Benchmark Replacement setting*); or
- (B) the selection and implementation of any Conforming Changes,

~~(iv)~~ including, without limitation, whether the composition or characteristics of any Benchmark Replacement will be similar to, or produce the same value or economic equivalence of the relevant Benchmark or have the same volume or liquidity as did the relevant Benchmark before its discontinuance or unavailability; or

- (v) ~~(iv)~~ without prejudice to the generality of paragraphs (i) to (iv) above, any damages, costs or losses to any person, any diminution in value or any liability whatsoever arising as a result of:

- (A) any act, event or circumstance not reasonably within its control; or
- (B) the general risks of investment in, or the holding of assets in, any jurisdiction,

including (in each case and without limitation) such damages, costs, losses, diminution in value or liability arising as a result of nationalisation, expropriation or other governmental actions; any regulation, currency restriction, devaluation or fluctuation; market conditions affecting the execution or settlement of transactions or the value of assets (including any Disruption Event); breakdown, failure or malfunction of any third party transport, telecommunications, computer services or systems; natural disasters or acts of God; war, terrorism, insurrection or revolution; or strikes or industrial action.

- (b) No Party other than the Facility Agent may take any proceedings against any officer, employee or agent of the Facility Agent in respect of any claim it might have against the Facility Agent or in respect of any act or omission of any kind by that officer, employee or agent in relation to any Transaction Document or any Security Property and any officer, employee or agent of the Facility Agent may rely on this paragraph (b) subject to Clause 1.5 (*Third party rights*) and the provisions of the Third Parties Act.
- (c) The Facility Agent will not be liable for any delay (or any related consequences) in crediting an account with an amount required under the Finance Documents to be paid by the Facility Agent if the Facility Agent has taken all necessary steps as soon as reasonably practicable to comply with the regulations or operating procedures of any recognised clearing or settlement system used by the Facility Agent for that purpose.
- (d) Nothing in this Agreement shall oblige the Facility Agent to carry out:
 - (i) any "know your customer" or other checks in relation to any person; or
 - (ii) any check on the extent to which any transaction contemplated by this Agreement might be unlawful for any Finance Party,

on behalf of any Finance Party and each Finance Party confirms to the Facility Agent that it is solely responsible for any such checks it is required to carry out and that it may not rely on any statement in relation to such checks made by the Facility Agent.

- (e) Without prejudice to any provision of any Finance Document excluding or limiting the Facility Agent's liability, any liability (including, without limitation, for negligence or any other category of liability whatsoever) of the Facility Agent arising under or in connection with any Transaction Document or the Security Property shall be limited to the amount of actual loss which has been finally judicially determined to have been suffered (as determined by reference to the date of default of the Facility Agent or, if later, the date on which the loss arises as a result of such default) but without reference to any special conditions or circumstances known to the Facility Agent at any time which increase the amount of that loss. In no event shall the Facility Agent be liable for any loss of profits, goodwill, reputation, business opportunity or anticipated saving, or for special, punitive, indirect or consequential damages, whether or not the Facility Agent has been advised of the possibility of such loss or damages.

- (f) The Facility Agent may select information sources or services in its reasonable discretion to ascertain the Base Rate, Adjusted Term SOFR, Term SOFR, or any other Benchmark, in each case pursuant to the terms of this Agreement, and shall have no liability to the Borrowers, any Lender or any other person or entity for damages of any kind, including direct or indirect, special, punitive, incidental or consequential damages, costs, losses or expenses (whether in tort, contract or otherwise and whether at law or in equity), for any error or calculation of any such rate (or component thereof) provided by any such information source or service, unless directly caused by the Facility Agent's gross negligence or wilful misconduct.

31.11 Lenders' indemnity to the Facility Agent

- (a) Each Lender shall (in proportion to its share of the Total Commitments or, if the Total Commitments are then zero, to its share of the Total Commitments immediately prior to their reduction to zero) indemnify the Facility Agent, within three Business Days of demand, against any cost, loss or liability (including, without limitation, for negligence or any other category of liability whatsoever) incurred by the Facility Agent (otherwise than by reason of the Facility Agent's gross negligence or wilful misconduct) or, in the case of any cost, loss or liability pursuant to Clause 35.11 (*Disruption to Payment Systems etc.*) notwithstanding the Facility Agent's negligence, gross negligence or any other category of liability whatsoever but not including any claim based on the fraud of the Facility Agent in acting as Facility Agent under the Finance Documents (unless the Facility Agent has been reimbursed by a Transaction Obligor pursuant to a Finance Document).
- (b) Subject to paragraph (c) below, the Borrowers shall immediately on demand reimburse any Lender for any payment that Lender makes to the Facility Agent pursuant to paragraph (a) above.
- (c) Paragraph (b) above shall not apply to the extent that the indemnity payment in respect of which the Lender claims reimbursement relates to a liability of the Facility Agent to an Obligor.

31.12 Resignation of the Facility Agent

- (a) The Facility Agent may resign and appoint one of its Affiliates as successor by giving notice to the other Finance Parties and the Borrowers.
- (b) Alternatively, the Facility Agent may resign by giving 30 days' notice to the other Finance Parties and the Borrowers, in which case the Majority Lenders may appoint a successor Facility Agent.
- (c) If the Majority Lenders have not appointed a successor Facility Agent in accordance with paragraph (b) above within 20 days after notice of resignation was given, the retiring Facility Agent may appoint a successor Facility Agent.

- (a) the Recovering Finance Party shall, within three Business Days, notify details of the receipt or recovery, to the Facility Agent;
- (b) the Facility Agent shall determine whether the receipt or recovery is in excess of the amount the Recovering Finance Party would have been paid had the receipt or recovery been received or made by the Facility Agent and distributed in accordance with Clause 35 (*Payment Mechanics*), without taking account of any Tax which would be imposed on the Facility Agent in relation to the receipt, recovery or distribution; and

- (c) the Recovering Finance Party shall, within three Business Days of demand by the Facility Agent, pay to the Facility Agent an amount (the "**Sharing Payment**") equal to such receipt or recovery less any amount which the Facility Agent determines may be retained by the Recovering Finance Party as its share of any payment to be made, in accordance with Clause 35.5 (*Application of receipts; partial payments*).

34.2 Redistribution of payments

The Facility Agent shall treat the Sharing Payment as if it had been paid by the relevant Transaction Obligor and distribute it among the Finance Parties (other than the Recovering Finance Party) (the "**Sharing Finance Parties**") in accordance with Clause 35.5 (*Application of receipts; partial payments*) towards the obligations of that Transaction Obligor to the Sharing Finance Parties.

34.3 Recovering Finance Party's rights

On a distribution by the Facility Agent under Clause 34.2 (*Redistribution of payments*) of a payment received by a Recovering Finance Party from a Transaction Obligor, as between the relevant Transaction Obligor and the Recovering Finance Party, an amount of the Recovered Amount equal to the Sharing Payment will be treated as not having been paid by that Transaction Obligor.

34.4 Reversal of redistribution

If any part of the Sharing Payment received or recovered by a Recovering Finance Party becomes repayable and is repaid by that Recovering Finance Party, then:

- (a) each Sharing Finance Party shall, upon request of the Facility Agent, pay to the Facility Agent for the account of that Recovering Finance Party an amount equal to the appropriate part of its share of the Sharing Payment (together with an amount as is necessary to reimburse that Recovering Finance Party for its proportion of any interest on the Sharing Payment which that Recovering Finance Party is required to pay) (the "**Redistributed Amount**"); and

- (b) Payment shall be made to such account in the principal financial centre of the country of that currency (or, in relation to euro, in a principal financial centre in such Participating Member State or London, as specified by the Facility Agent) and with such bank as the Facility Agent, in each case, specifies.

- (b) Unless paragraph (c) below applies, if the Facility Agent pays an amount to another Party and it proves to be the case that the Facility Agent had not actually received that amount, then the Party to whom that amount (or the proceeds of any related exchange contract) was paid by the Facility Agent shall on demand refund the same to the Facility Agent together with interest on that amount from the date of payment to the date of receipt by the Facility Agent, calculated by the Facility Agent to reflect its cost of funds.

- (c) If the Facility Agent has notified the Lenders that it is willing to make available amounts for the account of the Borrowers before receiving funds from the Lenders then if and to the extent that the Facility Agent does so but it proves to be the case that it does not then receive funds from a Lender in respect of a sum which it paid to the Borrowers:
 - (i) the Borrowers shall on demand refund it to the Facility Agent; and
 - (ii) the Lender by whom those funds should have been made available or, if the Lender fails to do so, the Borrowers shall on demand pay to the Facility Agent the amount (as certified by the Facility Agent) which will indemnify the Facility Agent against any funding cost incurred by it as a result of paying out that sum before receiving those funds from that Lender.

38.7 Hedging Agreement

Notwithstanding anything in Clause 1.1 (*Definitions*), references to the Finance Documents or a Finance Document in this Clause do not include any Hedging Agreement entered into by a Borrower with a Hedge Counterparty in connection with the Facility.

39 CALCULATIONS AND CERTIFICATES

39.1 Accounts

In any litigation or arbitration proceedings arising out of or in connection with a Finance Document, the entries made in the accounts maintained by a Finance Party are *prima facie* evidence of the matters to which they relate.

39.2 Certificates and determinations

Any certification or determination by a Finance Party of a rate or amount under any Finance Document is, in the absence of manifest error, conclusive evidence of the matters to which it relates.

39.3 Day count convention

Any interest, commission or fee accruing under a Finance Document will accrue from day to day and is calculated on the basis of the actual number of days elapsed and a year of 360 days or, in any case where the practice in the Relevant Interbank Market differs, in accordance with that market practice.

40 PARTIAL INVALIDITY

If, at any time, any provision of a Finance Document is or becomes illegal, invalid or unenforceable in any respect under any law of any jurisdiction, neither the legality, validity or enforceability of the remaining provisions under the law of that jurisdiction nor the legality, validity or enforceability of such provision under the law of any other jurisdiction will in any way be affected or impaired.

41 REMEDIES AND WAIVERS

- (a) No failure to exercise, nor any delay in exercising, on the part of any Secured Party, any right or remedy under a Finance Document shall operate as a waiver of any such right or remedy or constitute an election to affirm any Finance Document. 43 SETTLEMENT OR DISCHARGE CONDITIONAL

Any settlement or discharge under any Finance Document between any Finance Party and any Transaction Obligor shall be conditional upon no security or payment to any Finance Party by any Transaction Obligor or any other person being set aside, adjusted or ordered to be repaid, whether under any insolvency law or otherwise.

44 IRREVOCABLE PAYMENT

If the Facility Agent considers that an amount paid or discharged by, or on behalf of, a Transaction Obligor or by any other person in purported payment or discharge of an obligation of that Transaction Obligor to a Secured Party under the Finance Documents is capable of being avoided or otherwise set aside on the liquidation or administration of that Transaction Obligor or otherwise, then that amount shall not be considered to have been unconditionally and irrevocably paid or discharged for the purposes of the Finance Documents.

45 AMENDMENTS AND WAIVERS

45.1 Required consents

- (a) Subject to Clause 45.2 (*All Lender matters*) and Clause 45.3 (*Other exceptions*) any term of the Finance Documents may be amended or waived only with the consent of the Majority Lenders and, in the case of an amendment, the Obligors and any such amendment or waiver will be binding on all Parties.

- shall not be made, or given, without the prior consent of all the Lenders.

45.3 Other exceptions

45.4 Benchmark Replacement setting

- (a) *Benchmark Replacement*: Notwithstanding anything to the contrary herein or in any other Finance Document, upon the occurrence of a Benchmark Transition Event, the Facility Agent and the Borrower may amend this Agreement to replace the then-current Benchmark with a Benchmark Replacement. Any such amendment with respect to a Benchmark Transition Event will become effective at 5:00 p.m. (New York City time) on the fifth (5th) Business Day after the date notice of such Benchmark Replacement is provided to the Lenders and the Borrower so long as the Facility Agent has not received, by such time, written notice of objection to such amendment from Lenders comprising the Majority Lenders. No replacement of a Benchmark with a Benchmark Replacement pursuant to this paragraph will occur prior to the applicable Benchmark Transition Start Date.

- (b) *Conforming Changes*: In connection with the use or administration of Term SOFR, or the use, administration, adoption or implementation of a Benchmark Replacement, the Facility Agent will have the right to make Conforming Changes from time to time and, notwithstanding anything to the contrary herein or in any other Finance Document, any amendments implementing such Conforming Changes will become effective without any further action or consent of any other party to this Agreement or any other Finance Document.
- (c) *Notices; Standards for Decisions and Determinations*: The Facility Agent will promptly notify the Borrower and the Lenders of (i) the implementation of any Benchmark Replacement and (ii) the effectiveness of any Conforming Changes. The Facility Agent will promptly notify the Borrower of the removal or reinstatement of any tenor of a Benchmark pursuant to paragraph (d) below. Any determination, decision or election that may be made by the Facility Agent or, if applicable, any Lender (or group of Lenders) pursuant to this Clause 45.4 (*Benchmark Replacement setting*), including any determination with respect to a tenor, rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection, will be conclusive and binding absent manifest error and may be made in its or their sole discretion and without consent from any other party to this Agreement or any other Finance Document, except, in each case, as expressly required pursuant to this Clause 45.4 (*Benchmark Replacement setting*).
- (d) *Unavailability of Tenor of Benchmark*: Notwithstanding anything to the contrary herein or in any other Finance Document, at any time (including in connection with the implementation of a Benchmark Replacement), (i) if the then-current Benchmark is a term rate (including Term SOFR) and either (A) any tenor for such Benchmark is not displayed on a screen or other information service that publishes such rate from time to time as selected by the Facility Agent in its reasonable discretion or (B) the administrator of such Benchmark or the regulatory supervisor for the administrator of such Benchmark has provided a public statement or publication of information announcing that any tenor for such Benchmark is not or will not be representative or in compliance with or aligned with the International Organization of Securities Commissions (IOSCO) Principles for Financial Benchmarks, then the Facility Agent may modify the definition of "Interest Period" (or any similar or analogous definition or related provisions) for any Benchmark settings at or after such time to remove such unavailable, non-representative, non-compliant or non-aligned tenor and (ii) if a tenor that was removed pursuant to clause (i) above either (A) is subsequently displayed on a screen or information service for a Benchmark (including a Benchmark Replacement) or (B) is not, or is no longer, subject to an announcement that it is not or will not be representative or in compliance with or aligned with the International Organization of Securities Commissions (IOSCO) Principles for Financial Benchmarks for a Benchmark (including a Benchmark Replacement), then the Facility Agent may modify the definition of "Interest Period" (or any similar or analogous definition or related provisions) for all Benchmark settings at or after such time to reinstate such previously removed tenor.
- (e) *Benchmark Unavailability Period*: Upon the Borrower's receipt of notice of the commencement of a Benchmark Unavailability Period, the Borrower may revoke any pending request for a borrowing of any Advance to be made during any Benchmark Unavailability Period.

(f) The following terms shall have the following meanings:

"Available Tenor" means, as of any date of determination and with respect to the then-current Benchmark, as applicable, (i) if such Benchmark is a term rate, any tenor for such Benchmark (or component thereof) that is or may be used for determining the length of an interest period pursuant to this Agreement or (ii) otherwise, any payment period for interest calculated with reference to such Benchmark (or component thereof) that is or may be used for determining any frequency of making payments of interest calculated with reference to such Benchmark, in each case, as of such date and not including, for the avoidance of doubt, any tenor for such Benchmark that is then-removed from the definition of "Interest Period" or related provisions pursuant to paragraph (d) of this Clause 45.4 (*Benchmark Replacement setting*).

"Benchmark" means, initially, Term SOFR; provided that if a Benchmark Transition Event has occurred with respect to Term SOFR or the then-current Benchmark, then "Benchmark" means the applicable Benchmark Replacement to the extent that such Benchmark Replacement has replaced such prior benchmark rate pursuant to paragraph (a) of this Clause 45.4 (*Benchmark Replacement setting*).

"Benchmark Replacement" means with respect to any Benchmark Transition Event, the sum of:

- (a) the alternate benchmark rate that has been selected by the Facility Agent and the Borrower giving due consideration to (i) any selection or recommendation of a replacement benchmark rate or the mechanism for determining such a rate by the Relevant Governmental Body or (ii) any evolving or then-prevailing market convention for determining a benchmark rate as a replacement to the then-current Benchmark for Dollar-denominated syndicated credit facilities; and
- (b) the related Benchmark Replacement Adjustment;

provided that, if such Benchmark Replacement as so determined would be less than zero, such Benchmark Replacement will be deemed to be zero for the purposes of this Agreement and the other Finance Documents.

"Benchmark Replacement Adjustment" means, with respect to any replacement of the then-current Benchmark with an Unadjusted Benchmark Replacement, the spread adjustment, or method for calculating or determining such spread adjustment, (which may be a positive or negative value or zero) that has been selected by the Facility Agent and the Borrower giving due consideration to:

- (a) any selection or recommendation of a spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of such Benchmark with the applicable Unadjusted Benchmark Replacement by the Relevant Governmental Body; or
- (b) any evolving or then-prevailing market convention for determining a spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of such Benchmark with the applicable Unadjusted Benchmark Replacement for Dollar-denominated syndicated credit facilities.

"Benchmark Replacement Date" means the earliest to occur of the following events with respect to the then-current Benchmark:

- (a) in the case of paragraph (a) or paragraph (b) of the definition of "Benchmark Transition Event", the later of (i) the date of the public statement or publication of information referenced therein and (ii) the date on which the administrator of such Benchmark (or the published component used in the calculation thereof) permanently or indefinitely ceases to provide all Available Tenors of such Benchmark (or such component thereof); or
- (b) in the case of paragraph (c) of the definition of "Benchmark Transition Event", the first date on which such Benchmark (or the published component used in the calculation thereof) has been determined and announced by or on behalf of the administrator of such Benchmark (or such component thereof) or the regulatory supervisor for the administrator of such Benchmark (or such component thereof) to be non-representative or non-compliant with or non-aligned with the International Organization of Securities Commissions (IOSCO) Principles for Financial Benchmarks; provided that such non-representativeness, non-compliance or non-alignment will be determined by reference to the most recent statement or publication referenced in such clause (c) and even if any Available Tenor of such Benchmark (or such component thereof) continues to be provided on such date.

For the avoidance of doubt, the "Benchmark Replacement Date" will be deemed to have occurred in the case of paragraph (a) or paragraph (b) above with respect to any Benchmark upon the occurrence of the applicable event or events set forth therein with respect to all then-current Available Tenors of such Benchmark (or the published component used in the calculation thereof).

"Benchmark Transition Event" means the occurrence of one or more of the following events with respect to the then-current Benchmark:

- (a) a public statement or publication of information by or on behalf of the administrator of such Benchmark (or the published component used in the calculation thereof) announcing that such administrator has ceased or will cease to provide all Available Tenors of such Benchmark (or such component thereof), permanently or indefinitely; provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide any Available Tenor of such Benchmark (or such component thereof);
- (b) a public statement or publication of information by the regulatory supervisor for the administrator of such Benchmark (or the published component used in the calculation thereof), the FRB, the Federal Reserve Bank of New York, an insolvency official with jurisdiction over the administrator for such Benchmark (or such component), a resolution authority with jurisdiction over the administrator for such Benchmark (or such component) or a court or an entity with similar insolvency or resolution authority over the administrator for such Benchmark (or such component), which states that the administrator of such Benchmark (or such component) has ceased or will cease to provide all Available Tenors of such Benchmark (or such component thereof) permanently or indefinitely; provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide any Available Tenor of such Benchmark (or such component thereof); or

- (c) a public statement or publication of information by or on behalf of the administrator of such Benchmark (or the published component used in the calculation thereof) or the regulatory supervisor for the administrator of such Benchmark (or such component thereof) announcing that all Available Tenors of such Benchmark (or such component thereof) are not, or as of a specified future date will not be, representative or in compliance with or aligned with the International Organization of Securities Commissions (IOSCO) Principles for Financial Benchmarks.
- (d) For the avoidance of doubt, a "Benchmark Transition Event" will be deemed to have occurred with respect to any Benchmark if a public statement or publication of information set forth above has occurred with respect to each then-current Available Tenor of such Benchmark (or the published component used in the calculation thereof).

"Benchmark Transition Start Date" means, in the case of a Benchmark Transition Event, the earlier of:

- (a) the applicable Benchmark Replacement Date; and
- (b) if such Benchmark Transition Event is a public statement or publication of information of a prospective event, the 90th day prior to the expected date of such event as of such public statement or publication of information (or if the expected date of such prospective event is fewer than 90 days after such statement or publication, the date of such statement or publication).

"Benchmark Unavailability Period" means, the period (if any):

- (a) beginning at the time that a Benchmark Replacement Date has occurred if, at such time, no Benchmark Replacement has replaced the then-current Benchmark for all purposes hereunder and under any Finance Document in accordance with this Clause 45.4 (*Benchmark Replacement Setting*); and
- (b) ending at the time that a Benchmark Replacement has replaced the then-current Benchmark for all purposes hereunder and under any Finance Document in accordance with this Clause 45.4 (*Benchmark Replacement setting*).

"Conforming Changes" means, with respect to either the use or administration of Term SOFR or the use, administration, adoption or implementation of any Benchmark Replacement, any technical, administrative or operational changes (including changes to the definition of "Base Rate", "Business Day", "U.S. Government Securities Business Day," or "Interest Period" or any similar or analogous definition (or the addition of a concept of "interest period"), timing and frequency of determining rates and making payments of interest, timing of borrowing requests or prepayment, conversion or continuation notices, the applicability and length of lookback periods and other technical, administrative or operational matters) that the Facility Agent decides may be appropriate to reflect the adoption and implementation of any such rate or to permit the use and administration thereof by the Facility Agent in a manner substantially consistent with market practice (or, if the Facility Agent decides that adoption of any portion of such market practice is not administratively feasible or determines that no market practice for the administration of any such rate exists, in such other manner of administration as the Facility Agent decides is reasonably necessary in connection with the administration of this Agreement and the other Finance Documents).

"Unadjusted Benchmark Replacement" means the applicable Benchmark Replacement excluding the related Benchmark Replacement Adjustment.

45.5 Obligor Intent

Without prejudice to the generality of Clauses 1.2 (*Construction*), 17.4 (*Waiver of defences*), 18.2 (*Waiver of defences*) and 19.4 (*Waiver of defences*), each Obligor expressly confirms that it intends that any guarantee contained in this Agreement or any other Finance Document and any Security created by any Finance Document shall extend from time to time to any (however fundamental) variation, increase, extension or addition of or to any of the Finance Documents and/or any facility or amount made available under any of the Finance Documents for the purposes of or in connection with any of the following: business acquisitions of any nature; increasing working capital; enabling investor distributions to be made; carrying out restructurings; refinancing existing facilities; refinancing any other indebtedness; making facilities available to new borrowers; any other variation or extension of the purposes for which any such facility or amount might be made available from time to time; and any fees, costs and/or expenses associated with any of the foregoing.

- (a) of the circumstances of any disclosure of Confidential Information made pursuant to sub-paragraph (v) of paragraph (b) of Clause 46.2 (*Disclosure of Confidential Information*) except where such disclosure is made to any of the persons referred to in that paragraph during the ordinary course of its supervisory or regulatory function; and
- (b) upon becoming aware that Confidential Information has been disclosed in breach of this Clause 46 (*Confidential Information*).

46.8 Continuing obligations

The obligations in this Clause 46 (*Confidential Information*) are continuing and, in particular, shall survive and remain binding on each Finance Party for a period of 12 months from the earlier of:

Each Finance Document may be executed in any number of counterparts, and this has the same effect as if the signatures on the counterparts were on a single copy of the Finance Document.

SECTION 12

GOVERNING LAW AND ENFORCEMENT

48 GOVERNING LAW

This Agreement and any non-contractual obligations arising out of or in connection with it are governed by English law.

49 ENFORCEMENT

49.1 Jurisdiction

- (a) Unless specifically provided in another Finance Document in relation to that Finance Document, the courts of England have exclusive jurisdiction to settle any dispute arising out of or in connection with any Finance Document (including a dispute regarding the existence, validity or termination of any Finance Document or any non-contractual obligation arising out of or in connection with any Finance Document) (a "**Dispute**").
- (b) The Obligors accept that the courts of England are the most appropriate and convenient courts to settle Disputes and accordingly no Obligor will argue to the contrary.
- (c) To the extent allowed by law, this Clause 49.1 (*Jurisdiction*) is for the benefit of the Secured Parties only. As a result, no Secured Party shall be prevented from taking proceedings relating to a Dispute in any other courts with jurisdiction. To the extent allowed by law, the Secured Parties may take concurrent proceedings in any number of jurisdictions.

49.2 Service of process

- (a) Without prejudice to any other mode of service allowed under any relevant law, each Obligor (other than an Obligor incorporated in England and Wales):
 - (i) irrevocably appoints Saville & Co at their registered office for the time being, presently at One Carey Lane, London EC2V 8AE, England as its agent for service of process in relation to any proceedings before the English courts in connection with any Finance Document; and
 - (ii) agrees that failure by a process agent to notify the relevant Obligor of the process will not invalidate the proceedings concerned.
- (b) If any person appointed as an agent for service of process is unable for any reason to act as agent for service of process, the Borrowers (on behalf of all the Obligors) must immediately (and in any event within five days of such event taking place) appoint another agent on terms acceptable to the Facility Agent. Failing this, the Facility Agent may appoint another agent for this purpose.

50 PATRIOT ACT NOTICE

Each of the Secured Parties notifies the Obligors that pursuant to the requirements of the PATRIOT Act and the policies and practices of the Secured Parties, each of the Secured Parties is required to obtain, verify and record certain information and documentation that identifies each Obligor, which information includes the name and address of each Obligor and such other information that will allow the Facility Agent and each of the Lenders to identify each Obligor in accordance with the PATRIOT Act.

This Agreement has been entered into and amended and restated on the dates stated at the beginning of this Agreement.

The Contract Price shall be subject to adjustment, as hereinafter set forth, in the event of the following contingencies (it being understood by both parties that any reduction of the Contract Price is by way of liquidated damages and not by way of penalty):

1. Delivery

- (a) No adjustment shall be made and the Contract Price shall remain unchanged for the first thirty (30) days of delay in delivery of the VESSEL beyond the Delivery Date as defined in Article VIII hereof (ending as of twelve o'clock midnight of the thirtieth (30th) day of delay).
- (b) If the delivery of the VESSEL is delayed more than thirty (30) days after the Delivery Date, then, in such event, beginning at twelve o'clock midnight of the thirtieth (30th) day after the Delivery Date, the Contract Price shall be reduced by deducting the sum of US\$5,076- for each day of delay thereafter.
However, the total reduction in the Contract Price shall not be more than as would be the case for a delay of one hundred and twenty (120) days, counting from midnight of the thirtieth (30th) day after the Delivery Date at the above specified rate of reduction. That is, at a total reduction of US\$609,120-.
- (c) But, if the delay in delivery of the VESSEL should continue for period of one hundred and fifty (150) days after the Delivery Date, then in such event, and after such period has expired, the BUYER may, at its option terminate, cancel or rescind this Contract in accordance with the provisions of Article XI hereof. The SELLERS may, at any time after the expiration of one hundred and fifty (150) days of delay in delivery from the Delivery Date, if the BUYER has not served notice as provided in Article XI hereof, demand in writing that the BUYER shall make an election, in which case the BUYER shall, within twenty (20) days after such demand is received by the BUYER, notify the SELLERS of its intention either to terminate, cancel or rescind this Contract or to consent to take delivery of the VESSEL at an agreed future date; it being understood by the parties hereto that, if the VESSEL is not delivered by such future date, the BUYER shall have the same right of termination, cancelation and/or rescission upon the same terms and conditions as hereinabove provided.
- (d) For the purpose of this Article, the delivery of the VESSEL shall be deemed to be delayed when and if the VESSEL, after taking into full account all postponements of the Delivery Date by reason of permissible delays as defined in Article IX and/or any other reasons under this Contract, is not delivered by the date upon which delivery is required under the terms of this Contract.

2. Speed:

- (a) The Contract Price shall not be affected or changed by reason of the actual speed, as determined by the trial run, being not more than three-tenths (3/10) of one (1) knot below the guaranteed speed of the VESSEL.
- (b) However, exceeding such deficiency of three-tenths (3/10) of one (1) knot in actual speed below the Guaranteed Trial Speed of the VESSEL, the Contract Price shall be reduced as follows:
 - More than three-tenths (3/10) and not more than four-tenths (4/10) of a knot a total sum of US\$50,760.-

 - More than nine-tenths (9/10) and not more than one (1) knot a total sum of US\$355,320.-
- (c) If the deficiency in actual speed of the VESSEL upon trial run is more than one (1) full knot below the Guaranteed Trial Speed of the VESSEL, then the BUYER may, at its option, reject the VESSEL and terminate, cancel or rescind this Contract in accordance with the provisions of Article XI hereof, or may accept the VESSEL at a reduction in the Contract Price as above provided for one (1) full knot only, that is, at a total reduction of US\$355,320.

3. Fuel Oil Consumption:

- (a) The Contract Price shall not be affected or changed by reason of the fuel oil consumption of the VESSEL, as determined by shop trial as per the Specifications, being more than the Guaranteed Fuel Oil Consumption of the VESSEL, if such excess is not more than five percent (5%) over the Guaranteed Fuel Oil Consumption.
- (b) However, exceeding an excess of five percent (5%) in the actual fuel consumption over the Guaranteed Fuel Oil Consumption of the VESSEL, the Contract Price shall be reduced by the sum of US\$37,600.- for each full one percent (1%) increase in fuel consumption above said five percent (5%) (fractions of one percent (1%) to be disregarded), up to a maximum of ten percent (10%) over the Guaranteed Fuel Oil Consumption of the VESSEL.
- (c) If such actual fuel consumption exceeds ten percent (10%) of the Guaranteed Fuel Oil Consumption of the VESSEL, the BUYER may, at its option, reject the VESSEL and rescind this Contract in accordance with the provisions of Article XI hereof, or may accept the VESSEL at a reduction in the Contract Price as above specified for ten percent (10%) only, that is, at a total reduction of US\$188,000.-.

- (a) The Contract Price shall not be affected or changed by reason of the actual deadweight of the VESSEL as determined in accordance with the Specifications, being less than the Guaranteed Deadweight of the VESSEL, if such deficiency is not more than 635 metric tons below the Guaranteed Deadweight of the VESSEL.
- (b) In the event of such deficiency is more than 635 metric tons below the Guarantee Deadweight of the VESSEL, the Contract Price shall be reduced by the sum of US\$592 for each metric ton of such deficiency.
- (c) In the event of such deficiency in the actual deadweight of the VESSEL being 1,905 metric tons or more, then, the BUYER may, at its option, reject the VESSEL and rescind this Contract in accordance with the provisions of Article XI hereof or accept the VESSEL at a reduction in the Contract Price as above provided for 1,905 metric tons only, that is, at a total reduction of US\$751,840.

5. Effect of Rescission:

It is expressly understood and agreed by the parties hereto that in any case, if the BUYER rescinds this Contract under this Article, the BUYER shall not be entitled to any liquidated damages.

6. Cumulative Effect

The liquidated damages specified in each separate paragraph within this Article are independent of each other and payment of one shall not be exclusive of the payment of another.

7. Duty to Mitigate

Notwithstanding the provisions of this Article, the SELLERS shall use best endeavours to investigate and if possible rectify the cause of an insufficiency in speed, dead-weight or cargo cubic capacity or an excess in fuel consumption prior to delivery of the VESSEL to the BUYER. It is hereby understood and agreed by the SELLERS that the SELLERS will seek to deliver the VESSEL by adjusting the Contract Price, if necessary, in accordance with the provisions of this Article, only if after using its best endeavours such insufficiency or excess cannot be corrected.

3. Inspection by Supervisor :

The necessary inspections of the VESSEL, its *hull*, machinery, equipment and out fittings shall be carried out by the Classification Society, other regulatory bodies and/or an inspection team of the BUILDER throughout the entire period of construction, in order to ensure that the construction of the VESSEL is duly performed in accordance with this Contract and the Specifications. The Supervisor shall have, during construction of the VESSEL, the right and duty to attend such tests and inspections of the VESSEL, its machinery and equipment.

In the event that the Supervisor discovers any construction or material or workmanship which is not deemed to conform to the requirements of this Contract and/or the Specifications, the Supervisor shall promptly give the SELLERS a notice in writing as to such non-conformity. Upon receipt of such notice from the Supervisor, the SELLERS shall cause the BUILDER to correct, at the BUILDER's cost, such non-conformity, if the SELLERS agrees to his view acting reasonably but in case of disagreement the matter will be referred to the Classification Society.

ARTICLE VI - MODIFICATIONS

1. Modifications of Specifications:

The Specifications may be modified and/or changed by written agreement of the parties hereto, provided that such modifications and/or changes or an accumulation thereof will not, in the SELLERS' judgment, adversely affect the BUILDER's planning or program in relation to the BUILDER's other commitments, and provided, further, that the BUYER shall first agree, before such modifications and/or changes are carried out, to alterations in the Contract Price, the Delivery Date and other terms and conditions of this Contract and the Specifications occasioned by or resulting from such modifications and/or changes.

Such agreement may be effected by exchange of letters signed by the authorized representatives of the parties hereto or by facsimile or e-mail confirmed by such letters manifesting agreements of the parties hereto which shall constitute amendments to this Contract and/or the Specifications.

2. Change in Class, etc.:

In the event that, after the date of this Contract, any requirements as to class, or as to rules and regulations to which the construction of the VESSEL is required to conform are altered or changed by the Classification Society or the other regulatory bodies authorized to make such alterations or changes, the following provisions shall apply:

- (a) If such alterations or changes are compulsory for the VESSEL, either of the parties hereto, upon receipt of such information from the Classification Society or such other regulatory bodies, shall promptly transmit the same to the other in writing, and the SELLERS shall thereupon incorporate such alterations or changes into the construction of the VESSEL, provided that the BUYER shall first agree, to adjustments required by the SELLERS in the Contract Price, the Delivery Date and other terms and conditions of this Contract and the Specifications occasioned by or resulting from such alterations or changes.
- (b) If such alterations or changes are not compulsory for the VESSEL, but the BUYER desires to incorporate such alterations or changes into the construction of the VESSEL, then, the BUYER shall notify the SELLERS of such intention. The SELLERS may accept such alterations or changes, provided that such alterations or changes will not, in the judgment of the BUILDER and/or the SELLERS, adversely affect the BUILDER's planning or program in relation to the BUILDER's other commitments, and provided, further, that the BUYER shall first agree to adjustments required by the SELLERS in the Contract Price, the Delivery Date and other terms and conditions of this Contract and the Specifications occasioned by or resulting from such alterations or changes.
- (c) In case the BUYER demands for change of or alterations to the plans or drawings which have already been approved by the Supervising Company, provided such alterations or changes are not compulsory for the VESSEL, the SELLERS shall have the right to reject such demand if work has already been arranged to start in accordance with the approved plans and drawings. Any alteration to the plans and drawings which have already been approved by the Supervising Company shall be regarded as modifications as specified in this Article and shall include adjustments of Contract Price, the Delivery Date and other terms and conditions of this contract and the Specifications.

The BUYER shall receive from the SELLERS at least approximately *30 days* prior notice in writing or by facsimile or by email confirmed in writing of the time and place of the trial run of the VESSEL, and the BUYER shall promptly acknowledge receipt of such notice. The BUYER may send one Capt., one C/E., one C/O, one I/E and one Representative (herein collectively called the "Observers") on board the VESSEL to witness such trial run for familiarization purpose only at the BUYER's risk and expenses. Failure in attendance of the Observers of the BUYER at the trial run of the VESSEL for any reason whatsoever after due notice to the BUYER as above provided shall be deemed to be a waiver by the BUYER of its right to have the Observers on board the VESSEL at the trial run, and the SELLERS may cause the BUILDER to conduct the trial run without the Observers of the BUYER being present but with the attendance of the Supervisor and the representative of the Classification Society, and in such case the BUYER shall be obligated to accept the VESSEL on the basis of a certificate of the SELLERS that the VESSEL, upon trial run, is found to conform to this Contract and the Specifications.

2. Weather Condition:

The trial run shall be carried out under the weather condition which is deemed favorable enough by the judgment of the BUILDER and/or the SELLERS. In the event of unfavorable weather on the date specified for the trial run, the same shall take place on the first available day thereafter that the weather condition permits. It is agreed that, if during the trial run of the VESSEL, the weather should suddenly become so unfavorable that orderly conduct of the trial run can no longer be continued, the trial run shall be discontinued and postponed until the first favorable day next following, unless the BUYER shall assent in writing to acceptance of the VESSEL on the trial run already made before such discontinuance has occurred. Any delay of trial run caused by such unfavorable weather condition shall operate to postpone the Delivery Date by the period of delay involved and such delay shall be deemed as a permissible delay in the delivery of the VESSEL.

3. How conducted:

- (a) All expenses in connection with the trial run are to be for the account of the SELLERS and the SELLERS shall cause the BUILDER to provide at the BUILDER's expense the necessary crew to comply with conditions of safe navigation. The trial run shall be conducted in the manner prescribed in the Specifications, and shall prove fulfillment of the performance requirements for the trial run as set forth in the Specifications. The course of trial run shall be determined by the BUILDER.

In measuring the consumed quantity, lubricating oils and greases remaining in the main engine, other machinery and their pipes, stern tube and the like, shall be excluded. The quantity of lubricating oils and greases supplied by the BUYER shall be in accordance with the instruction of the BUILDER and the SELLERS.

4. Method of Acceptance or Rejection:

- (a) Upon completion of the trial run, the SELLERS shall give the BUYER a notice by facsimile or e-mail confirmed in writing of completion of the trial run, as and if the SELLERS considers that the results of the trial run indicate conformity of the VESSEL to this Contract and the Specifications. The BUYER shall, within two (2) days after receipt of such notice from the SELLERS, notify the SELLERS by facsimile confirmed in writing of its acceptance or rejection of the VESSEL.
- (b) However, should the results of the trial run indicate that the VESSEL, or any part or equipment thereof, does not conform to the requirements of this Contract and/or the Specifications, or if the SELLERS is in agreement to non-conformity as specified in the BUYER's notice of rejection, then, the SELLERS shall cause the BUILDER to take necessary steps, to correct such non-conformity. Upon completion of correction of such non-conformity, the SELLERS shall give the BUYER a notice thereof by facsimile confirmed in writing. The BUYER shall, within two (2) days after receipt of such notice from the SELLERS, notify the SELLERS of its acceptance or rejection of the VESSEL.
- (c) In any event that the BUYER rejects the VESSEL, the BUYER shall indicate in its notice of rejection in what respect the VESSEL, or any part or equipment thereof does not conform to this Contract and/or the Specifications.
- (d) In the event that the BUYER fails to notify the SELLERS by facsimile or email confirmed in writing of the acceptance of or the rejection together with the reason therefor of the VESSEL within the period as provided in the above sub-paragraph (a) or (b), the BUYER shall be deemed to have accepted the VESSEL.
- (e) The SELLERS may dispute the rejection of the VESSEL by the BUYER under this paragraph, in which case the matter shall first be referred to judgement of the Classification Society, but if the Classification Society fails to make a judgement or cannot do so, the matter shall be submitted for final decision by arbitration in accordance with Article XIV hereof. *The BUYERS shall be notified of the Classification Society's judgment and will have two (2) working days to either accept or reject, advising Sellers on reasons of rejection."*
- (f) The BUYER shall not be entitled to reject the VESSEL by reason of any minor or insubstantial items, which may not affect the VESSEL's operation, its crew and safety, judged from the point of view of the commonly and generally acknowledged Japanese standard shipbuilding and shipping practice, as not being in conformity with the Specifications, but, in which case, the SELLERS shall not be released from the obligation to correct and/or remedy for its own account such minor or insubstantial items as soon as practicable after the delivery of the VESSEL.

5. Effect of Acceptance:

Acceptance of the VESSEL as above provided shall be final and binding so far as conformity of the VESSEL to this Contract and the Specifications is concerned and shall preclude the BUYER from refusing formal delivery of the VESSEL as hereinafter provided, if the SELLERS complies with all other procedural requirements for delivery as provided in Article VIII hereof.

6. Disposition of surplus Consumable stores:

Should any fuel oil, fresh water or other consumable stores furnished by the BUILDER for the trial run remain on board the VESSEL at the time of acceptance thereof by the BUYER, the BUYER agrees to buy the same from the SELLERS at the original purchase price thereof, and payment by the BUYER shall be effected upon delivery of the VESSEL.

7. Familiarization:

- (a) Prior to the delivery but after the sea trials, the BUYER may send their crew to the Shipyard in preparation for the delivery with the SELLERS' and/or BUILDER's consent. The above mentioned Observers and crew of the BUYER shall not interfere with or obstruct in any way the BUILDER's supervision during the construction of the VESSEL and/or the building schedule of the BUILDER, but shall be given free and ready access to the VESSEL, its hull, machinery, equipment, coatings and out-fittings in the Shipyard only and in such way not to obstruct smooth construction of the VESSEL.
- (b) The Observers and the crew shall at all times be deemed to be the employees of the BUYER and not of the BUILDER and the SELLERS. The BUILDER and the SELLERS shall be under no liability whatsoever to the BUYER, the Observers and the crew for personal injuries, including death, suffered during the time when he or they are on the VESSEL, or within the premises of the Shipyard, or are otherwise engaged in and about the construction of the VESSEL, unless, however, such personal injuries, including death, were caused by a gross negligence of the BUILDER and/or the SELLERS, or of any of its employees or agents or subcontractors. Nor shall the BUILDER or the SELLERS be under any liability whatsoever to the BUYER, the Observers and the crew for damage to, or loss or destruction of property in Japan of the BUYER or of the Observers and the crew, unless such damage, loss or destruction were caused by a gross negligence of the BUILDER and/or the SELLERS, or of any of its employees or agents or subcontractors.

2. Speed:

- (a) The Contract Price shall not be affected or changed by reason of the actual speed, as determined by the trial run, being not more than three-tenths (3/10) of one (1) knot below the guaranteed speed of the VESSEL.
- (b) However, exceeding such deficiency of three-tenths (3/10) of one (1) knot in actual speed below the Guaranteed Trial Speed of the VESSEL, the Contract Price shall be reduced as follows:
 - More than three-tenths (3/10) and not more than four-tenths (4/10) of a knot a total sum of US\$50,760.-

- (a) The Contract Price shall not be affected or changed by reason of the fuel oil consumption of the VESSEL, as determined by shop trial as per the Specifications, being more than the Guaranteed Fuel Oil Consumption of the VESSEL, if such excess is not more than five percent (5%) over the Guaranteed Fuel Oil Consumption.
- (b) However, exceeding an excess of five percent (5%) in the actual fuel consumption over the Guaranteed Fuel Oil Consumption of the VESSEL, the Contract Price shall be reduced by the sum of US\$37,600.- for each full one percent (1%) increase in fuel consumption above said five percent (5%) (fractions of one percent (1%) to be disregarded), up to a maximum of ten percent (10%) over the Guaranteed Fuel Oil Consumption of the VESSEL.

- (b) In the event of such deficiency is more than 635 metric tons below the Guarantee Deadweight of the VESSEL, the Contract Price shall be reduced by the sum of US\$592 for each metric ton of such deficiency.
- (c) In the event of such deficiency in the actual deadweight of the VESSEL being 1,905 metric tons or more, then, the BUYER may, at its option, reject the VESSEL and rescind this Contract in accordance with the provisions of Article XI hereof or accept the VESSEL at a reduction in the Contract Price as above provided for 1,905 metric tons only, that is, at a total reduction of US\$751,840.

5. Effect of Rescission:

It is expressly understood and agreed by the parties hereto that in any case, if the BUYER rescinds this Contract under this Article, the BUYER shall not be entitled to any liquidated damages.

6. Cumulative Effect

The liquidated damages specified in each separate paragraph within this Article are independent of each other and payment of one shall not be exclusive of the payment of another.

7. Duty to Mitigate

Notwithstanding the provisions of this Article, the SELLERS shall use best endeavours to investigate and if possible rectify the cause of an insufficiency in speed, dead-weight or cargo cubic capacity or an excess in fuel consumption prior to delivery of the VESSEL to the BUYER. It is hereby understood and agreed by the SELLERS that the SELLERS will seek to deliver the VESSEL by adjusting the Contract Price, if necessary, in accordance with the provisions of this Article, only if after using its best endeavours such insufficiency or excess cannot be corrected.

Failure in attendance of the Observers of the BUYER at the trial run of the VESSEL for any reason whatsoever after due notice to the BUYER as above provided shall be deemed to be a waiver by the BUYER of its right to have the Observers on board the VESSEL at the trial run, and the SELLERS may cause the BUILDER to conduct the trial run without the Observers of the BUYER being present but with the attendance of the Supervisor and the representative of the Classification Society, and in such case the BUYER shall be obligated to accept the VESSEL on the basis of a certificate of the SELLERS that the VESSEL, upon trial run, is found to conform to this Contract and the Specifications.

2. Weather Condition:

The trial run shall be carried out under the weather condition which is deemed favorable enough by the judgment of the BUILDER and/or the SELLERS. It is agreed that, if during the trial run of the VESSEL, the weather should suddenly become so unfavorable that orderly conduct of the trial run can no longer be continued, the trial run shall be discontinued and postponed until the first favorable day next following, unless the BUYER shall assent in writing to acceptance of the VESSEL on the trial run already made before such discontinuance has occurred. Any delay of trial run caused by such unfavorable weather condition shall operate to postpone the Delivery Date by the period of delay involved and such delay shall be deemed as a permissible delay in the delivery of the VESSEL.

3. How conducted:

- (a) All expenses in connection with the trial run are to be for the account of the SELLERS and the SELLERS shall cause the BUILDER to provide at the BUILDER's expense the necessary crew to comply with conditions of safe navigation. 32. MEMORANDUM OF AGREEMENT PRE-DELIVERY AND DELIVERY

- (a) The Memorandum of Agreement dated 23 February 2024 (the "MOA" including any amendment and supplement thereto) has been concluded between the Owners (in the MOA, the Owners are referred to as the "Buyers") and the Charterers (in the MOA, the Charterers are referred to as the "Sellers") for sale and purchase of the Vessel.
- (b) Subject to Clause 32(d) below, the Owners shall give and the Charterers shall take delivery of the Vessel under the Bareboat Charter strictly on an "as is, where is" basis, simultaneously with delivery of the Vessel from Sellers to the Buyers under the MOA and immediately after the Builder delivers the Vessel to the Sellers under the terms of the Building Contract, without any settlement of the remaining bunkers and unused lubricating oils including hydraulic oils and greases, unbrought provisions, paints, ropes and other consumable stores which are included in the purchase price under the MOA (collectively, the "Belongings"). The delivery date for the purpose of this Charter shall be the same date and time when/the same place where the Vessel is delivered from the Sellers to the Buyers under the MOA and shall be subject to and conditional upon the effective transfer of ownership of the Vessel to the Owners pursuant to the MOA. The date when the Charterers take delivery of the Vessel hereunder is referred to as the "Delivery Date".
- (c) Provided the Vessel has been delivered to the Owners (as Buyers) in accordance with the terms of the MOA, the Charterers shall not be entitled to refuse acceptance of delivery of the Vessel under this Charter. The Owners hereby make no representation nor warranty, whether expressed or implied (and whether contractual, statutory, common law or otherwise), as to the whole or any part of the Vessel's condition, seaworthiness, quality, description, specification, design, durability, merchantability, defect (whether latent or not), fitness for any purpose or otherwise howsoever, and the Owners shall have no liability whatsoever for any fault or deficiency in their description of the Vessel or for any defects in the Vessel regardless of whether such defect were apparent or latent at the time of delivery. The Charterers hereby acknowledge and accept that they shall not be entitled to make any claim against the Owners in respect of any conditions, representations or warranties whether express or implied (and whether contractual, statutory, common law or otherwise) as to the whole or any part of the Vessel's condition, seaworthiness, quality, description, design, specification, durability, merchantability, defect (whether latent or not), fitness for any purpose or otherwise howsoever. This Clause 32 (c) shall also apply in relation to the Belongings.

 - (i) a Termination Event or an Owners' Default occurs under this Charter Party;
 - (ii) it becomes unlawful for the Owners (as buyers) to perform or comply with any or all of their obligations under the MOA or any of the obligations of the Owners under the MOA are not or cease to be legal, valid, binding and enforceable; and/or

then this Charter shall immediately terminate and be cancelled (provided that any provision hereof expressed to survive such termination or cancellation shall so do in accordance with its terms) without the need for either of the Owners or the Charterers to take any action whatsoever.

In case that this Charter terminates and is cancelled prior to the delivery of the Vessel under the MOA by reason of a Termination Event, or for the reason that the MOA expires, is cancelled, terminated or rescinded or otherwise ceases to remain in full force and effect, due to Charterers' default in their capacity as Sellers under the MOA, the Owners shall have the right to claim compensation from the Charterers to recover any direct and reasonable costs and expenses incurred due to the Charterers' default as far as the occurrence of such costs and expenses are demonstrated by documentary evidence, and this compensation shall not be construed as a penalty but shall represent an agreed estimate of the loss and damage suffered by the Owners in entering into this Charter upon the terms and conditions contained herein and the MOA upon the terms and conditions contained therein, and shall therefore be paid as full and final compensation to the Owners. For the avoidance of doubt, the Charterer shall not be liable for any such costs and expenses in the event that this Charter terminates or is cancelled prior to the delivery of the Vessel as a result of an Owners' Default.

- (e) The Owners hereby appoint and acknowledge that the Charterers, who accept such appointment, shall deal directly, at the Charterers' cost, with the Builder in relation to the guarantee described in article IX (Warranty of Quality) of the Building Contract in accordance with the applicable provisions of article IX (Warranty of Quality) of the Building Contract.

3. it is or becomes unlawful for the Owners to perform any of their obligations in any material respect under this Charter or this Charter or any obligation of the Owners under this Charter ceases to be legal, valid, binding or enforceable which are not rectified within fourteen (14) days after the Owners ought to have been informed or made aware of such circumstances ;

Subject always to Clause 17 (b), the Vessel is under arrest, detention, seizure, capture, condemned as prize, confiscated, forfeited, hijacked or stolen as a direct result of the Owners' actions or omissions and the Owners fail to procure the release of the Vessel from such arrest, detention, seizure, capture, condemnation as prize, confiscation, forfeiture, hijacking or theft within 30 calendar days after their occurrence;
6. there is a change in the legal and/or beneficial owner of the shares in the Owners without the Charterers' prior written approval (such approval not to be unreasonably withheld or delayed), other than in favour of an affiliate of the Owners;

"**Affiliate**" means, in relation to any person, a subsidiary of that person or a Holding Company of that person or any other subsidiary of that Holding Company.

"**Holding Company**" means, in relation to a person, any other person in relation to which it is a subsidiary;

7. the title of the Vessel with the relevant flag state in respect of the primary registry (or, the bareboat registry, as the case may be) is or has become invalid due to the Owners' acts or omissions and such circumstances are not remedied within 5 Banking Days after their occurrence;
8. any of the following occurs in relation to the Owners:
 - i) an application or petition is filed for bankruptcy, rehabilitation or reorganization or other legal action of a similar nature is taken against the Owners or by themselves or any order shall be made unless such application or petition is being contested in good faith and on substantial grounds and is dismissed or withdrawn within sixty (60) days of the presentation of the application or petition or any resolution passed by the Owners for the appointment of any liquidator, receiver, trustee, curator or sequestrator (or similar official) of the Owners in respect of all or a substantial part of their respective assets (save for the purposes of an amalgamation, merger or reconstruction not involving insolvency, the terms of which shall have received the prior written approval of the Charterers or an amalgamation, merger or reconstruction where the Owners or their parent company is the surviving entity) unless such resolution are revoked within sixty (60) days: or

 - iii) the occurrence of any claim, action, suit, proceeding or investigation against the Owners with respect to Sanctions by a Sanctions Authority; or

- i) exercise its option to purchase the Vessel in accordance with Clauses 49 and 50 (notwithstanding the Charterers' obligation to send one (1) month prior notice pursuant to Clause 49) for the amount set out therein less the direct losses, costs, fees and expenses incurred by the Charterers due to the Owner's Default; or
- ii) terminate this Charter whereupon the Owners shall pay to the Charterers the amount of equity the Charterers have invested in the Vessel plus the direct losses, costs, fees and expenses incurred by the Charterers due to the Owner's Default. For the avoidance of doubt, nothing precludes the Charterers from engaging in discussions with new owners of the Vessel or any administrator thereof as the case may be, to continue the Bareboat Charter.

42. OWNERS' RIGHTS ON TERMINATION

- (a) Subject to the provisions of Clause 41 hereof and that no Owners' Default has occurred and is continuing, at any time after a Termination Event shall have occurred and be continuing, the Owners may, by notice to the Charterers immediately, or on such date as the Owners shall specify, terminate the chartering by the Charterers of the Vessel under this Charter, whereupon the Charterers shall redeliver the Vessel to the Owners as per Clause 42 (b) hereof.
- (b) If the chartering of the Vessel under the Charter is terminated in accordance with this Clause 42 the Charterers shall redeliver the Vessel without delay, substantially in the same condition and class as that in which she was delivered (subject to Clause 38), fair wear and tear not affecting class excepted, to the Owners at the Vessel's current or next port of call and pay to the Owners the following Termination Compensation within 15 Banking Days from the date of termination (the "Termination Date") (the "**Grace Period**");

Termination Compensation shall mean the aggregate of (A) all Charter Hire due and payable, but unpaid, under this Charter to (and including) the Termination Date together with interest accrued thereon pursuant to Clause 36 (d) hereof from the due date for payment thereof to the Termination Date and (B) any sums, other than Charter Hire, due and payable by the Charterers, but unpaid, under this Charter together with interest accrued thereon pursuant to Clause 36 (d) to (and including) the Termination Date (which shall include any reasonable costs and expenses incurred by the Owners due to the Termination Event or the Termination as far as such cost or expenses are demonstrated by documentary evidence), and (C) Break Costs (as below defined).

"**Break Costs**" means all breakfunding costs (excluding costs relating to interest rate swaps and similar interest rate hedging instruments and any costs or fees relating to the early termination of the Financial Instruments) incurred or payable by the Owners pursuant to the relevant funding arrangement entered into by the Owners for the purpose of financing any part of the purchase price of the Vessel under the MOA as a result of the receipt of an amount pursuant to this Charter on a day other than a Charter Hire Payment Date due to a Termination Event.

In case of this Charter being terminated in accordance with this Clause 42, except for the claim of Termination Compensation and any other claims expressly stipulated in this Charter (for the avoidance of doubt, this "other claims" include, without limitation, indemnity of loss, damage or expense incurred by the Owners arising out of or in relation to the operation of the Vessel by the Charterers in accordance with Clause 17 of this Charter), the Owners shall not have any right to claim further compensation from the Charterers to recover any other direct or indirect, punitive or consequential, loss or damage to the Owners caused by the termination of this Charter in accordance with the applicable laws.

- (c) All arrangements and expenses relating to the settling of wages, disembarkation and repatriation of the Charterers' Master, officers and crew and all reasonable and documented costs and expenses incurred by the Owners for the redelivery and re- possession of the Vessel shall be the sole responsibility of the Charterers.
- (d) If the Charter is terminated in accordance with this Clause 42, the Charterers shall immediately redeliver the Vessel to the Owners at the Vessel's current or next port of call. The Vessel shall be redelivered to the Owners in substantially the same condition and class as that in which she was delivered (subject to Clause 38), fair wear and tear not affecting class excepted.
- (e) **Transfer of title.** If the Termination Compensation is paid within the Grace Period, the Charterer shall be automatically released from all its obligations under this Charter and the other Leasing Documents, and the Owners shall promptly transfer title to the Vessel to the Charterers or its nominee.
- (f) **Owners' sale of the Vessel.** If the Charterers fail by the Grace Period to pay the Termination Compensation, then the Owners shall promptly obtain an appraisal of the market value of the Vessel by obtaining a valuation from each of MB Shipbrokers and Arrow. The market value of the Vessel shall be the mean average of the two valuations received (the "**Market Value**").
- (g) In the event that the Market Value of the Vessel is higher than the Outstanding Amount (as defined below), then the Owners shall be obliged to put the Vessel on the market for a period of 90 days from the expiry of the Grace Period (with the cooperation of the Charterers) for the finding of a buyer to sell the Vessel for a price equivalent at least to the Market Value, and the Charterers shall be entitled to independently market the Vessel and shall retain the right of first refusal to purchase the Vessel for the amount of the Outstanding Amount (as defined below) (which shall be considered a remedy of the Termination Event).
 - (1) In the event that the Owners sell the Vessel for a sale price exceeding the aggregate of (a) the documented expenses and costs as may have been incurred by the Owners in respect of the sale of the Vessel and (b) the Termination Compensation (the "**Outstanding Amount**"), any excess shall be paid to the Charterer, and the Charterers shall cease to be liable under the Charter and any leasing documents to which each is a party; and
 - (2) In the event that the Owners sell the Vessel for a sale price lower than the Outstanding Amount (provided that it shall be in Owners' full discretion to either accept such lower price or decide not to sell at such lower price), the Charterers shall remain liable under this Charter for the amount by which the Outstanding Amounts exceed the sale price of the Vessel.
- (h) If the Vessel is marketed for sale but no Memorandum of Agreement in respect of a sale is signed within 90 days from the expiry of the Grace Period, the Owners shall determine again the value of the Vessel (the "**Termination Value**") which in this event shall be either (i) the highest bid received for the Vessel or (ii) if no bid was received, the Market Value discounted with 10 %. In such event the Owners shall be free to keep the Vessel in its ownership, and the Charterers shall remain liable to the Owners under this Charter for the amount by which the Outstanding Amount exceeds the Termination Value.

(i) If the Market Value, or as the case may be, the Termination Value:

- (i) is higher than the Outstanding Amount, and the Owners decide not to sell the Vessel, then the Market Value, or as the case may be, Termination Value will be set off against the Outstanding Amount and any surplus paid to the Charterers; or
- (ii) is lower than the Outstanding Amount, and the Owners decide not to market the Vessel for sale, the Charterers shall remain liable to the Owners under this Charter for the amount by which the Outstanding Amount exceeds the Market Value

Any Financial Instrument (including, without limitation, the Mortgage and the Assignment of Insurances) shall in no way be or purport to be prejudicial to the rights of the Charterer under the terms of this Charter subject to the terms and conditions of the Quiet Enjoyment Letter or any Financial Instrument or any Leasing Document.

400 **18. Entire Agreement**

401 The written terms of this Agreement comprise the entire agreement between the Buyers and
402 the Sellers in relation to the sale and purchase of the Vessel and supersede all previous
403 agreements whether oral or written between the Parties in relation thereto.

404 Each of the Parties acknowledges that in entering into this Agreement it has not relied on and
405 shall have no right or remedy in respect of any statement, representation, assurance or
406 warranty (whether or not made negligently) other than as is expressly set out in this Agreement.
407 Any terms implied into this Agreement by any applicable statute or law are hereby excluded to
408 the extent that such exclusion can legally be made. Nothing in this Clause shall limit or exclude
409 any liability for fraud.

Additional Clauses 19 to 26 (both inclusive) shall form an integral part of this Agreement.

19. Delivery of the Vessel

The Vessel shall be delivered by the Sellers to the Buyers safely afloat at the place of delivery as stipulated in Clause 5 (a) hereof or another place mutually agreed on by the Sellers and the Buyers which shall not be unreasonably withheld or delayed, on or before 30th September, 2024 (+60 days), except that in the event of delays in the construction of the Vessel or any performance required under the SBC due to causes which under the terms of the SBC permit postponement of the date for delivery, the aforementioned date for delivery of the Vessel shall be postponed accordingly.

Provided however that, if the Sellers tenders delivery of the Vessel between 8th November 2024 and 31st December, 2024, then the Buyers shall have the right to either accept the Vessel and take delivery thereof on such proposed delivery date or, at no extra cost or liability of any kind whatsoever to the Buyers, to delay acceptance of the Vessel and take delivery of the same not later than 5th January, 2025.

20. Buyers' Default

Should the Deposit not be lodged in accordance with Clause 2 (Deposit), the Sellers have the right to cancel this Agreement, and they shall be entitled to claim compensation for their losses and for all expenses incurred together with interest.

Should the Purchase Price not be paid in accordance with Clause 3 (Payment), the Sellers shall have the right to cancel this Agreement and the BBC, in which case the Deposit together with interest earned, if any, shall be released to the Sellers. If the Deposit does not cover all Sellers' losses and expenses, the Sellers shall be entitled to claim further compensation and for all expenses incurred together with interest.

21. Sellers' Default

Should the Sellers fail to deliver the vessel to the Buyers upon her delivery from the Builder to the Sellers pursuant to the terms of the SBC, the Buyers shall have the right to cancel this Agreement and the BBC, in which case the Deposit and the balance of the Purchase Price already paid in accordance with Clause 2 and Clause 3 hereof shall be refunded to the Buyers immediately with interest rate of 6 pct per annual.

22. Combined transactions

The parties hereto acknowledge that the Vessel shall be purchased by the Buyers hereunder on the condition that concurrently with entering into this Agreement the Sellers and the Buyers have also entered into a bareboat charter party (the "BBC") pursuant to which the Sellers as bareboat charterer will charter the Vessel from the Buyers as owners on the terms and conditions set out in the BBC.

The sale and purchase of the Vessel hereunder is combined with and dependent on the sale and delivery of the Vessel by the Builders to the Sellers in accordance with the SBC as well as the bareboat chartering and delivery of the Vessel back to the Sellers by the Buyers under the BBC.

It is understood by all the parties that this Agreement shall become null and void retroactively in the event that the BBC is not concluded by the parties or if the BBC does not become effective or becomes null and void.

The obligation of the Sellers to deliver the Vessel and perform their obligations under this Agreement shall be conditional upon the Builders delivering the Vessel pursuant to the terms of the SBC. In the event that a delay of delivery occurs in accordance with the SBC, the time of delivery of the Vessel from the Sellers to the Buyers hereunder shall likewise be extended without any liability incurred to the Sellers, and the Buyers shall not have any right to cancel this Agreement on account of such delay.

In the event that the Builders fail to deliver the Vessel to the Sellers under the SBC (including the relevant permissible or non-permissible delays thereunder) or make any default stipulated in the SBC and such failure or default entitles the Sellers to cancel the SBC and the Sellers as buyers in the SBC (i) actually exercise their right of cancellation of the SBC under and pursuant to any provisions therein specifically permitting the Sellers as buyers to do so or (ii) 14 (fourteen) days after the date the Sellers as buyers have the right to do so unless the right to cancel is explicitly waived by the Sellers, with prior consents from the Buyers (such consent not to be unreasonably withheld or delayed), then this Agreement shall be terminated without any further liability between the parties hereto.

If the SBC is cancelled, rescinded or terminated by the Sellers, for any reason, then the Sellers will inform the Buyers immediately and this Agreement shall automatically terminate and be null and void. Any instalments, if already paid by the Buyers under Clause 1 and 2 hereof, shall be refunded to the Buyers with interest rate of 6 pct per annual and neither Party shall have any obligation or liability towards the other.

Unless the BBC has been cancelled, rescinded or terminated prior to the date of delivery of the Vessel, the Buyers shall and hereby irrevocably agree to accept delivery of the Vessel under this Agreement.

Immediately upon the delivery of the Vessel to the Buyers by the Sellers under this Agreement, the Buyers shall deliver the Vessel to the Sellers as she is and where she is in accordance with the terms of the BBC and the Sellers also shall take over the Vessel in accordance with the terms thereof.

24. Sanctions

(a) For the purposes of this Clause:

(i) "Sanctioned Activity" means any activity, service, carriage, trade or voyage subject to sanctions imposed by a Sanctioning Authority.

(iii) "Sanctioned Party" means any persons, entities, bodies, or vessels designated by a Sanctioning Authority.

(d) Breach of this Clause shall entitle the Party not in breach to terminate this Agreement and/or claim damages resulting from the breach.

25. Confidentiality

The discussions between the parties shall be kept strictly confidential by both parties and may only be disclosed to each party's advisors and financiers on a need-to-know basis, as well as to any regulatory authority if it is requested to do so for purposes of complying with applicable laws, regulations etc.

26. Epidemic / Covid-19

Should any governmental measures relating to the Corona Virus (e.g. quarantines of the vessel or the crew, port closures, travel bans for crew or the parties' representatives, closure of ship register authorities, etc. (hereinafter "the Corona Measures") render it impossible (and not only more strenuous) for Seller to deliver the vessel or for Buyer to take delivery at the mutually agreed time and place of delivery (inclusive of cases where would prove not possible for crew to be on board timely due to travelling or other country or prefecture entry restrictions which are out of the Buyers'/Sellers' control), then the cancelling date shall be extended by the corresponding time lost due to such event. It is understood that in such case the Sellers or Buyers will not be in default.

Both Sellers and Buyers shall use their best endeavours to agree on a mutually suitable alternative time and place for delivery

However, if such agreement is not reached within 30 days after arrival of the vessel at the mutually agreed port of delivery or within 30 days after both parties enter into discussion in line with this clause (which to be clearly announced by either party in email), the deal to be null and void and deposit to be returned immediately back to Buyers together with interest rate if any without any claim by each party to the other.

27. Counterparts

This Agreement may be executed in any number of counterparts, and this has the same effect as if the signatures on the counterparts were on a single copy of this Agreement.

We, the undersigned, Globus Maritime Limited, a corporation duly organised and existing under the laws of the Marshall Islands, with registered office at Trust Company Complex, Ajeltake Road, Ajeltake Islands, Marshall Islands, refer to:

- (a) a certain Memorandum of Agreement dated 23 February, 2024 (hereinafter called, together with any and all addendum and amendments thereto from time to time in force, the "**MOA**") made by and between Daxos Maritime Limited, a corporation incorporated under the laws of the Marshall Islands and having its registered address at Trust Company Complex, Ajeltake Road, Ajeltake Island, Marshall Islands (hereinafter called the "**Charterer**") as sellers and SK Shipholding SA, a corporation incorporated under the laws of Panama having its registered offices at Edificio Comosa, Avenidas Samuel Lewis y Manuel M Ycaza, P.O. Box 4150, Panama City, Panama (hereinafter called the "**Owner**") as buyers, under which the Charterer is to sell and the Owner is to purchase the Marshall Islands flagged m/v "GLBS MIGHT" having IMO number 9972804 (hereinafter called the "**Vessel**"); and
- (b) a certain Bareboat Charter Party dated 23 February, 2024 (hereinafter, together with any and all addendum and amendments thereto from time to time in force, called the "**BBC**") made by and between the Charterer as charterers and the Owner as owners, under which the Owner is to let to the Charterer and the Charterer is to charter the Vessel from the Owner on a bareboat charter basis;
- (c) the deposit in the amount of \$2,800,000, being 10 per cent. of the purchase price (\$28,000,000) under the MOA which, in accordance with the terms and conditions of the MOA, shall be deposited by the Owner with the Charterer (as seller) within 3 Banking Days after the date of the MOA (the "**Deposit**"); and
- (d) the remainder of the balance purchase price in the amount of \$25,200,000, being 90 per cent of the purchase price (\$28,000,000) under the MOA which, in accordance with the terms and conditions of the MOA, shall be credited to the account of the Charterer (as seller) 2 days prior to the expected delivery date of the Vessel following receipt of the 3 day definite notice of delivery (the "**Balance**").

Words not otherwise herein defined shall have the same meaning as in the MOA.

In consideration of the receipt of the Deposit and for other good and valuable consideration (the receipt and sufficiency of which we hereby acknowledge), we, as primary obligor and not as surety only, hereby irrevocably guarantee to you to make the repayment of the Deposit without any deductions to you within 30 Banking Days after receipt by us of your first written demand together with 6% interest per annum thereon from the date of receipt by the Charterer of the Deposit to the date of such repayment of the Deposit to the Owner **provided that** the Vessel is not delivered to you pursuant to the terms and conditions of the MOA.

In consideration of the receipt of the Balance and for other good and valuable consideration (the receipt and sufficiency of which we hereby acknowledge), we, as primary obligor and not as surety only, hereby irrevocably guarantee to you to make the repayment of the Balance without any deductions to you within 30 Banking Days after receipt by us of your first written demand together with 6% interest per annum thereon from the date of receipt by the Charterer of the Balance to the date of such repayment of the Balance to the Owner **provided that** the Vessel is not delivered to you pursuant to the terms and conditions of the MOA.

However, in the event that we receive written notification (within such 30 Banking Days aforementioned) from you or the Charterer confirmed by the relevant Arbitrator(s) stating that the Owner's claim for the refund of the Deposit and/or Balance (as applicable) is in dispute and has been referred to Arbitration in accordance with the provisions of the MOA, the repayment of the Deposit and/or Balance (as applicable) shall only be made by us within 30 Banking Days after receipt by us of the final and unappealable Arbitration award in your favour for the return of the Deposit and/or Balance (or any partial amount thereof, as applicable).

In case any payment is made to you by the Charterer or by us under this Guarantee, our liability hereunder shall be automatically reduced by an amount equal to the amount received by you.

Payment by us under this Guarantee shall be made upon simple receipt by us stating that the Owners demand for refund has been made in conformity with the MOA and the Charterer has failed to make the refund.

This Guarantee shall be made null and void upon the earliest of: (1) receipt by the Owner of the sum guaranteed hereby together with interest thereon as mentioned above, (2) the execution by the Owner and the Charterer of the protocol of delivery and acceptance pursuant to the terms of the MOA, (3) termination of the MOA due to the Owner's default in accordance with its terms and (4) a final and unappealable arbitration award or judgment in favour of the Charterer in relation to such Deposit and/or Balance (as applicable) in accordance with the terms of the MOA.

Without prejudice to the foregoing and in addition thereto, we, as principal obligor and as a separate and independent obligation, agree to indemnify and keep you indemnified in full from and against all and any documented losses, costs, claims, liabilities, damages, demands and expenses suffered or reasonably incurred by you arising out of, or in connection with, any failure of the Charterer to fully and timely refund the Deposit and/or Balance (as applicable) in accordance with the terms of this Guarantee unless such losses, costs, claims, liabilities, damages, demands or expenses are due to your gross negligence or wilful misconduct.

Our obligations hereunder shall be absolute and this Guarantee shall not be discharged, nor shall our liability hereunder be howsoever affected or diminished by any amendments, additions or variations to or extensions or novation or unenforceability of the MOA and/or the BBC, or by the granting of any additional time or other forbearance to the Charterer, or by any act or omission or waiver by you, or by the insolvency, dissolution, amalgamation, reconstruction, re-organisation, change in status, function, control or ownership, liquidation, bankruptcy, winding-up, cessation of business (or equivalent or analogous proceedings) of the Charterer, or by any legal limitation, disability, incapacity or want of any contracting powers of or by the Charterer, or want of authority of any director, officer or other person appearing to be acting for the Charterer in any matter in respect of the Deposit and/or Balance (as applicable).

This Guarantee shall be binding on us and our successors and assigns. Neither party may assign or transfer any of its rights or obligations under this Guarantee without the prior written consent of the other party.

We hereby represent and warrant to you that the giving of this Guarantee has been validly authorised by the appropriate corporate action of us and constitutes our legal, valid and binding obligations enforceable upon us in accordance with its terms.

This Guarantee, in conjunction with any other guarantee and indemnity granted by us in relation to the MOA and the BBC, constitutes the entire agreement between ourselves and yourselves and supersedes all previous agreements, understandings and arrangements between us, whether in writing or oral in respect of its subject matter.

By accepting this Guarantee, you acknowledge that you shall have no remedies against us as the guarantor in respect of any representation or warranty that is not expressly set out in this Guarantee or any other guarantee and indemnity provided by us in relation to the MOA and the BBC.

This Guarantee, and all rights and obligations arising hereunder shall be construed and determined and may be enforced in accordance with the laws of England. Any dispute arising out of or in connection with this Guarantee shall be referred to arbitration in London in accordance with the Arbitration Act 1996 or any statutory modification or re-enactment thereof save to the extent necessary to give effect to the provisions of this Clause. The arbitration shall be conducted in accordance with the London Maritime Arbitrators Association (LMAA) Terms current at the time when the arbitration proceedings are commenced. The reference shall be to three arbitrators. A party wishing to refer a dispute to arbitration shall appoint its arbitrator each of which shall be either a full member of the LMAA, a practising barrister of King's Counsel and member of the Commercial Bar Association or a retired High Court Judge practising as an arbitrator, in each case who carries on business in London) and send notice of such appointment in writing to the other party requiring the other party to appoint its own arbitrator within 14 calendar days of that notice and stating that it will appoint its arbitrator as sole arbitrator unless the other party appoints its own arbitrator and gives notice that it has done so within the 14 days specified. If the other party does not appoint its own arbitrator and give notice that it has done so within the 14 days specified, the party referring such dispute to arbitration may, without the requirement of any further prior notice to the other party, appoint its arbitrator as sole arbitrator and shall advise the other party accordingly. The award of a sole arbitrator shall be binding on both parties as if he had been appointed by agreement. If the two arbitrators so appointed are unable to agree on the appointment of the third arbitrator within seven (7) days after the appointment of the second arbitrator, they or either of them may by written notice request the President of the LMAA to appoint the third arbitrator within fourteen (14) days of such request. Nothing herein shall prevent the parties agreeing in writing to vary these provisions to provide for the appointment of a sole arbitrator. In cases where neither the claim nor any counterclaim each exceeds the sum of US\$100,000 (or such other sum as the parties may agree), the arbitration shall be conducted in accordance with the LMAA Small Claims Procedure current at the time when the arbitration proceedings are commenced.

IN WITNESS WHEREOF, we have executed this Guarantee as a Deed on the date appearing at the beginning of this Guarantee.

Policies and Procedures to Detect and Prevent Insider Trading

Effective: March 14, 2024

1. Introduction

The purchase or sale of securities while aware of material nonpublic information, or the disclosure of material nonpublic information to others who then trade in the Company's securities, is prohibited by the U.S. federal securities laws. Insider trading violations are pursued vigorously by the SEC and the U.S. Department of Justice and are punished severely. While the regulatory authorities concentrate their efforts on the individuals who trade, or who tip inside information to others who trade, the U.S. federal securities laws also impose potential liability on companies and other "controlling persons" if they fail to take reasonable steps to prevent insider trading by company personnel.

The Board of Directors (the "**Board**") of Globus Maritime Limited (the "**Company**") has adopted this policy (this "**Trading Policy**") both to satisfy the Company's obligation to prevent insider trading and to help Company personnel avoid the severe consequences associated with violations of the insider trading laws. This Trading Policy also is intended to prevent even the appearance of improper conduct on the part of anyone employed by or associated with the Company (not just so-called insiders). All previous insider trading policies of the Company are hereby revoked and replaced with this Trading Policy.

No Company employee, officer or director, whether or not a citizen or resident of the United States (the "**Covered Persons**"), may, directly or indirectly, purchase or sell any security while in possession of material nonpublic information (known as "inside information") regarding such security, whether or not such information was obtained in the course of employment. The term "Covered Persons" also includes certain other persons who are, from time to time, designated by the Company as Covered Persons and provided notice as to their status. This prohibition extends to communicating such inside information to others with respect to trading in securities based on such information (known as "tipping"), and covers securities of the Company and of other issuers.

For purposes of this Trading Policy, "material" information means information relating to an issuer of securities, its business operations or its securities, the public dissemination of which would be likely to affect the market price of any of its securities, or which would likely be considered important by a reasonable investor in determining whether to buy, sell or hold such securities. The source of the material information is irrelevant.

"Nonpublic information" means information that has not been widely disseminated to the public (e.g., through the television, radio or print media of wide circulation, the Dow Jones broad tape or through widely circulated disclosure documents filed with the Securities and Exchange Commission (the "**SEC**")). Information that is available only to a select group of analysts, brokers or institutional investors and undisclosed facts or rumors, even if widely circulated, constitute "nonpublic" information.

As a condition of employment with, or in connection with appointment to the Board of, the Company, every Covered Person is required to read, understand and agree to be bound by this Trading Policy throughout the term of their employment with, or in connection with appointment to the Board of, the Company. Every employee will also be required to sign the Acknowledgement of Compliance attached hereto as a condition of employment.

This Trading Policy applies to you and all members of your household irrespective of whether you and/or such individuals are citizens or residents of the United States.

Failure to comply with this Trading Policy can have serious consequences for the individuals who fail to comply and for the Company.

Post-Termination Transactions. This Trading Policy continues to apply to your transactions in any securities even after termination of employment. If you are in possession of material nonpublic information when your employment terminates, you may not trade in those securities until that information has become public or is no longer material.

Company Assistance. Any person who has a question about this Trading Policy or its application to any proposed transaction may obtain additional guidance from the Chief Financial Officer of the Company (or if such questions involve the Chief Financial Officer, to the Chief Executive Officer, and if the Chief Executive Officer and Chief Financial Officer are the same person, to the Secretary). Ultimately, however, the responsibility for adhering to this Trading Policy and avoiding unlawful transactions rests with the individual Covered Persons.

You May Not Trade on Material Nonpublic Information

- If you are aware of any material information relating to the Company or any company, whether or not it is a public company, that has not been made available to the public through such media as Dow Jones, The Wall Street Journal, the Associated Press or other similar news services, or through widely circulated disclosure documents filed with the SEC, for at least two business days, you must not trade directly or indirectly in the debt or equity securities (or options, warrants or similar instruments related to such securities) of any such company, and you must not disclose such information to another person who may trade in such securities.
- Trading by your spouse, minor child or other family members living in your household while you are in possession of material nonpublic information is likewise prohibited and can give rise to legal and company-imposed sanctions.
- Suspicious trading by a friend or family member not living in your household while you are in possession of material nonpublic information can give rise to an inquiry into whether you illegally "tipped" that person and, if so, legal and company sanctions could be imposed.

You May Not Disclose Material Nonpublic Information to Anyone Except Other Company Employees

- Covered Persons should not discuss material nonpublic information with anyone outside the Company. Inquiries from third parties, such as industry analysts or members of the media, about the Company should be directed to the Company's Chairman, Chief Executive Officer, or Chief Financial Officer.
- You must take precautions to safeguard material nonpublic information. Accordingly, you should conduct business and other activities so as not to risk inadvertent disclosure of material information. Material nonpublic information should not be discussed with other Covered Persons not working on such matters or with friends or relatives.
- You should assume that information is material if a reasonable investor would consider the information to be important in deciding whether to buy, sell, or hold securities of the relevant company or if disclosure of such information would be likely to result in a change in the price of the traded securities.
- You should consider all information, from whatever source, to be nonpublic until it has been made available to investors through such media as Dow Jones, The Wall Street Journal, the Associated Press or other similar news services, or through widely circulated disclosure documents filed with the SEC, for at least two business days.

You May Not Trade in the Securities of the Company (i) Near Earnings Announcements and other Material Nonpublic Events and (ii) Without First Pre-Clearing that Trade in accordance with this Trading Policy

- You and your family members may not trade in any securities of the Company (i) during the period commencing at the close of the Nasdaq trading market on the last day of each fiscal quarter of the Company and ending at the open of the Nasdaq trading market on the trading day immediately following the completion of two (2) full trading sessions after the public release of the Company's financial results for such quarter and (ii) during other material nonpublic events concerning the Company.
- In addition, you must pre-clear through the Company any purchase or sale of securities of the Company in accordance with this Trading Policy.

When in Doubt, You Should Consult the Company's Chief Financial Officer

- Whenever any Company personnel are confronted with a situation where they have any questions as to what the result should be under these policies and procedures, they should consult immediately with the Company's Chief Financial Officer (or if such questions involve the Chief Financial Officer, with the Chief Executive Officer, and if the Chief Financial Officer and Chief Executive Officer are the same person, with the Secretary).

2. Policies and Procedures to Prevent Insider Trading

The following policies and procedures have been established to aid in the prevention of insider trading. Section (a) provides an overview; Section (b) sets forth the Company's policies prohibiting insider trading; Section (c) explains insider trading; Section (d) consists of additional prohibited transactions; Section (e) consists of certain procedures that have been put in place by the Company to prevent insider trading; and Section (f) consists of an explanation of permitted transactions in the Company's securities that are not subject to this Trading Policy.

(a) Overview

Preventing insider trading is necessary to comply with the U.S. federal securities laws and to preserve the reputation and integrity of the Company. "Insider trading" occurs when any person purchases or sells a security while in possession of inside information relating to the security. As explained in Section (c) below, "inside information" is information that is considered to be both "material" and "nonpublic." Insider trading is a crime and the penalties for violating the law include imprisonment, disgorgement of profits, civil fines of up to three times the profit gained or loss avoided, and criminal fines of up to \$5,000,000 for individuals and \$25,000,000 for entities. Insider trading is also prohibited by this Trading Policy and could result in serious sanctions by the Company, including dismissal. Supervisors may also be held liable for the conduct of their subordinates.

This Trading Policy applies to all Covered Persons, whether or not a citizen or resident of the United States, and extends to all activities within and outside an individual's duties at, or with respect to, the Company. Every Covered Person must review this Trading Policy. Questions regarding the Trading Policy should be directed to the Company's Chief Financial Officer (or if such questions involve the Chief Financial Officer, to the Chief Executive Officer, and if the Chief Financial Officer and Chief Executive Officer are the same person, to the Secretary).

The personal trading activity of the Chief Financial Officer will be reviewed and pre-cleared by the Chief Executive Officer or if the Chief Financial Officer and Chief Executive Officer are the same person, by the Secretary.

(b) Statement of Policies Prohibiting Insider Trading

General. It is the policy of the Company that no Covered Person who is aware of material nonpublic information relating to the Company or to any other company, whether or not it is a public company, may, directly or through family members or other persons or entities, (a) buy or sell securities of the Company or of any other company, whether or not it is a public company, (other than pursuant to a pre-approved trading plan that complies with SEC Rule 10b5-1, as described below in Section (e)), or engage in any other action to take personal advantage of that information, or (b) pass that information on to others outside the Company, including family and friends. In addition, it is the policy of the Company that no Covered Person who, in the course of working for the Company, learns of material nonpublic information about a company with which the Company does business, including a customer or supplier of the Company, may trade in that company's securities until the information becomes public or is no longer material.

Transactions that may be necessary or justifiable for independent reasons (such as the need to raise money for an emergency expenditure) are not excepted from this Trading Policy. The U.S. federal securities laws do not recognize such mitigating circumstances, and, in any event, even the appearance of an improper transaction must be avoided to preserve the Company's reputation for adhering to the highest standards of conduct.

Transactions by Family Members. This Trading Policy also applies to your family members who reside with you, anyone else who lives in your household, and any family members who do not live in your household but whose transactions in a company's securities are directed by you or are subject to your influence or control (such as parents or children who consult with you before they trade in a company's securities). You are responsible for the transactions of these other persons (whether or not citizens or residents of the United States) and therefore should make them aware of the need to confer with you before they trade in a company's securities.

Disclosure of Information to Others. The Company is required under Regulation FD of the U.S. federal securities laws to avoid the selective disclosure of material nonpublic information. The Company has established procedures for releasing material information in a manner that is designed to achieve broad public dissemination of the information immediately upon its release. You may not, therefore, disclose information to anyone outside the Company, including family members and friends, other than in accordance with those procedures. You also may not discuss the Company or its business in an internet "chat room" or similar internet-based forum.

(c) Explanation of Insider Trading

As noted above, "insider trading" refers to the purchase or sale of a security while in possession of "material" "nonpublic" information relating to the security. "Securities" include not only shares, bonds, notes and debentures, but also options, warrants and similar instruments. "Purchase" and "sale" are defined broadly under the U.S. federal securities law. "Purchase" includes not only the actual purchase of a security, but any contract to purchase or otherwise acquire a security. "Sale" includes not only the actual sale of a security, but any contract to sell or otherwise dispose of a security.

These definitions extend to a broad range of transactions including conventional cash-for-stock transactions, conversions, the grant and exercise of stock options and acquisitions and exercises of warrants or puts, calls, swaps or other options related to a security. It is generally understood that insider trading includes the following:

- trading by insiders while in possession of material nonpublic information;
- trading by persons other than insiders while in possession of material nonpublic information where the information either was given in breach of an insider's fiduciary duty to keep it confidential or was misappropriated; or

- communicating or tipping material nonpublic information to anyone, including recommending the purchase or sale of a security while in possession of such information.

What Facts are Material? The materiality of a fact depends upon the circumstances. A fact is considered “material” if there is a substantial likelihood that a reasonable investor would consider it important in making a decision to buy, sell or hold a security or where the fact is likely to have a significant effect on the market price of the security. Material information can be positive or negative and can relate to virtually any aspect of a company’s business or to any type of security, debt or equity.

Examples of material information include (but are not limited to):

- Projections of future earnings or losses, or other earnings guidance;
- Earnings that are inconsistent with the consensus expectations of the investment community;
- Pending or proposed merger, acquisition or tender offer;
- Pending or proposed acquisition or disposition of a significant asset;
- Change in dividend policy, the declaration of a stock split, or an offering of additional securities;
- Change in management;
- Development of a significant new product or process;
- Impending bankruptcy or the existence of severe liquidity problems;
- Gain or loss of a significant customer or supplier.

Moreover, material information does not have to be related to a company’s business. For example, the contents of a forthcoming newspaper column that is expected to affect the market price of a security can be material.

What is Nonpublic Information? Information is “nonpublic” if it is not available to the general public. In order for information to be considered public, it must be widely disseminated in a manner making it generally available to investors through such media as Dow Jones, Reuters Economic Services, The Wall Street Journal, Associated Press or United Press International, or through widely circulated disclosure documents filed with the SEC. The circulation of rumors, even if accurate and reported in the media, does not constitute effective public dissemination.

When Information is “Public.” If you are aware of material nonpublic information, you may not trade until the information has been disclosed broadly to the marketplace (such as by press release through such media as Dow Jones, Reuters Economic Services, The Wall Street Journal, Associated Press, or United Press International), or through widely circulated disclosure documents filed with the SEC, and the investing public has had time to absorb the information fully. To avoid the appearance of impropriety, as a general rule, information should not be considered fully absorbed by the marketplace until after the second business day after the information is released. If, for example, a company were to make an announcement on a Monday during the trading day, you should not trade in that company’s securities until Thursday. If an announcement were made on a Friday or after the trading day, Wednesday generally would be the first eligible trading day.

Who is an Insider? “Insiders” include officers, directors and employees of a company and anyone else who has material inside information about a company. An affiliate of a company can also be an insider. Insiders have independent fiduciary duties to their company and its shareholders not to trade on material nonpublic information relating to a company’s securities. All Covered Persons should consider themselves insiders with respect to material nonpublic information about the business activities and securities of the Company. Covered Persons may not trade securities while in possession of material nonpublic information relating to the Company’s securities or tip (or communicate except on a need-to-know basis and subject to an obligation of confidentiality) such information to others. Trading by your spouse, minor child or by other family members living in your household while you are in possession of material nonpublic information is likewise prohibited and can give rise to legal and company-imposed sanctions.

Trading by Persons Other than Insiders. Insiders may be liable for communicating or tipping material nonpublic information to a third party (“tippee”), and insider trading violations are not limited to trading or tipping by insiders. Persons other than insiders also can be liable for insider trading, including tippees who trade on material nonpublic information tipped to them or individuals who trade on material nonpublic information that has been misappropriated.

Tippees inherit an insider’s duties and are liable for trading on material nonpublic information illegally tipped to them by an insider. Similarly, just as insiders are liable for the insider trading of their tippees, so are tippees who pass the information along to others who trade. In other words, a tippee’s liability for insider trading is no different from that of an insider. Tippees can obtain material nonpublic information by receiving overt tips from others or through, among other things, conversations at social, business or other gatherings.

Penalties for Engaging in Insider Trading. Penalties for trading on or tipping material nonpublic information can extend significantly beyond any profits made or losses avoided, both for individuals engaging in such unlawful conduct and their employers. The SEC and the U.S. Department of Justice have made the civil and criminal prosecution of insider trading violations a top priority. Enforcement remedies available to the government or private plaintiffs under the U.S. federal securities laws include:

- SEC administrative sanctions;
- Securities industry self-regulatory organization sanctions;
- Civil injunctions;
- Damage awards to private plaintiffs;
- Disgorgement of all profits;
- Civil fines for the violator of up to three times the amount of profit gained or loss avoided;
- Civil fines for the employer or other controlling person of a violator (i.e., where the violator is an employee or other controlled person) of up to the greater of \$1,000,000 or three times the amount of profit gained or loss avoided by the violator;
- Criminal fines for individual violators of up to \$5,000,000 (\$25,000,000 for an entity); and
- Jail sentences of up to 20 years.

In addition, insider trading violations are not limited to violations of the U.S. federal securities laws: other U.S. federal and state civil or criminal laws, such as the laws prohibiting mail and wire fraud and the Racketeer Influenced and Corrupt Organizations Act, also may be violated upon the occurrence of insider trading.

Company-Imposed Sanctions. A Covered Person’s failure to comply with this Trading Policy may subject the Covered Person to company-imposed sanctions, including dismissal, or removal, as the case may be, for cause, whether or not the Covered Person’s failure to comply results in a violation of law. Needless to say, a violation of law, or even an SEC investigation that does not result in prosecution, can tarnish one’s reputation and irreparably damage one’s career.

Examples of Insider Trading. Examples of insider trading cases include actions brought against: corporate officers, directors, and employees who traded a company’s securities after learning of significant confidential corporate developments; friends, business associates, family members and other tippees of such officers, directors, and employees who traded the securities after receiving such information; government employees who learned of such information in the course of their employment; and other persons who misappropriated, and took advantage of, confidential information from their employers.

The following are illustrations of insider trading violations. These illustrations are hypotheticals and, consequently, not intended to reflect on the actual activities or business of the Company or any other entity.

- **Trading by Insider.** A director of X Corporation learns that earnings to be reported by X Corporation will increase dramatically. Prior to the public announcement of such earnings, the director purchases X Corporation’s stock. The director, an insider, is liable for all profits as well as penalties of up to three times the amount of all profits. The director is also subject to, among other things, criminal prosecution and fines.
- **Trading by Tippee.** A director of X Corporation tells a friend that X Corporation is about to publicly announce that it has concluded an agreement for a major acquisition. This tip causes the friend to purchase X Corporation’s stock in advance of the announcement. The director is jointly liable with his friend for all of the friend’s profits and each is liable for all penalties of up to three times the amount of the friend’s profits. In addition, the director and his friend are subject to, among other things, criminal prosecution, as described above.

- **Misappropriation.** An employee of an investment advisor learns of a prospective recommendation of a particular stock by his employer and purchases that stock in advance of the recommendation. The employee has used his position to deceive those who entrusted him with confidential information. This undisclosed misappropriation of such confidential information is viewed as fraud akin to embezzlement. The employee is liable for all profits and penalties, and is subject to criminal prosecution.

Prohibition of Records Falsification and False Statements. U.S. federal law also requires public companies to maintain proper internal books and records and to devise and maintain an adequate system of internal accounting controls. The SEC has supplemented the statutory requirements by adopting rules that prohibit (1) any person from falsifying records or accounts subject to the above requirements and (2) officers or directors from making any materially false, misleading, or incomplete statement to any accountant in connection with any audit or filing with the SEC. These provisions reflect the SEC's intent to discourage officers, directors and other persons with access to a public company's books and records from taking action that might result in the communication of materially misleading financial information to the investing public.

After-The-Fact Scrutiny. Anyone scrutinizing your transactions will be doing so after the fact, with the benefit of hindsight. As a practical matter, before engaging in any transaction, you should carefully consider how enforcement authorities and others might view the transaction in hindsight. A helpful general rule to follow is that if you are in doubt about the legality or propriety of the transaction, do not trade or tip.

(d) Additional Prohibited Transactions

The Company considers it improper and inappropriate for any of its directors, officers or other employee to engage in short-term or speculative transactions in the Company's securities. Therefore, it is the Company's policy that directors, officers and other employees may not engage, except as otherwise set forth in this Trading Policy, in any of the following transactions:

Short Sales. Short sales are sales of securities that the seller does not own at the time of the sale or, if owned, that will not be delivered within 20 days of the sale. One usually sells short when one thinks the market is going to decline substantially or the stock will otherwise drop in value. If the stock falls in price as expected, the person selling short can then buy the stock at a lower price for delivery at the earlier sale price (this is called "covering the short") and pocket the difference in price as profit. The Company believes that it is inappropriate for its insiders to bet against the securities of the Company in this way. Puts, calls and options for common shares of the Company (other than options granted pursuant to employee benefit plans) also afford the opportunity to profit from a market view that is adverse to the Company, and they carry a high risk of inadvertent securities law violations. All such transactions are prohibited, unless approved in accordance with the Pre-clearance Procedures set forth in Section (e).

Publicly Traded Options. A transaction in options is, in effect, a bet on the short-term movement of the Company's shares and therefore creates the appearance that the Covered Person is trading based on inside information. Transactions in options also may focus the Covered Person's attention on short-term performance at the expense of the Company's long-term objectives. Accordingly, transactions in puts, calls or other derivative securities, on an exchange or in any other organized market, are prohibited by this Trading Policy unless approved in accordance with the Pre-clearance Procedures set forth in Section (e). Option positions arising from certain types of hedging transactions are governed by the section below captioned "Hedging Transactions."

Hedging Transactions. Certain forms of hedging or monetization transactions, such as zero-cost collars and forward sale contracts, allow a Covered Person to lock in much of the value of his or her stock holdings, often in exchange for all or part of the potential for upside appreciation in the stock. These transactions allow the Covered Person to continue to own the covered securities, but without the full risks and rewards of ownership. When that occurs, the Covered Person may no longer have the same objectives as the Company's other shareholders. Therefore, the Company prohibits you from engaging in such transactions. Any person wishing to enter into such an arrangement must first pre-clear the proposed transaction in accordance with the Pre-clearance Procedures set forth in Section (e). Any request for pre-clearance of a hedging or similar arrangement must be submitted to the Chief Financial Officer (or, in the case of the Chief Financial Officer, to the Chief Executive Officer, or if the Chief Financial Officer and Chief Executive Officer are the same person, to the Secretary) at least two weeks prior to the proposed execution of documents evidencing the proposed transaction and must set forth a justification for the proposed transaction.

Margin Accounts and Pledges. Securities held in a margin account may be sold by a broker without the customer's consent if the customer fails to meet a margin call. Similarly, securities pledged (or hypothecated) as collateral for a loan may be sold in foreclosure if the borrower defaults on the loan. Because a margin sale or foreclosure sale may occur at a time when the pledgor is aware of material nonpublic information or otherwise is not permitted to trade in the Company's securities, Covered Persons are prohibited from holding the Company's securities in a margin account or pledging the Company's securities as collateral for a loan. An exception to this prohibition may be granted where a person wishes to pledge the Company's securities as collateral for a loan (not including margin debt) and clearly demonstrates the financial capacity to repay the loan without resort to the pledged securities. Any person who wishes to pledge the Company's securities as collateral for a loan must first pre-clear the transaction in accordance with the Pre-clearance Procedures set forth in Section (e). Any request for pre-clearance to pledge securities must be submitted to the Chief Financial Officer (or, in the case of the Chief Financial Officer, to the Chief Executive Officer, or if the Chief Financial Officer and Chief Executive Officer are the same person, to the Secretary) at least two weeks prior to the proposed execution of documents evidencing the proposed pledge.

(e) Statement of Procedures Preventing Insider Trading

Pre-clearance Procedures

To help prevent inadvertent violations of the U.S. federal securities laws and to avoid even the appearance of trading on inside information, Covered Persons, together with their family members, may not engage in any transaction involving the Company's securities (including a share plan transaction such as an option exercise, gift, loan or pledge or hedge, contribution to a trust, or any other transfer), even if not during a Quarterly Blackout Period or Event-Specific Blackout Period (described below), without first submitting a Trading Authorization Request (a form of which is attached as Exhibit A to this Trading Policy) to the Chief Financial Officer and obtaining the written approval of the transaction on such Trading Authorization Request by the Chief Financial Officer (and in the case of transactions by the Chief Financial Officer, such Trading Authorization Request shall be submitted to and approved by the Chief Executive Officer, or, if the Chief Financial Officer and Chief Executive Officer are the same person, submitted to and approved by the Secretary) (the "**Pre-clearance Procedures**"). Except as otherwise provided in this Trading Policy, a request for pre-clearance on the Trading Authorization Request form should be submitted in accordance with the Pre-clearance Procedures at least two business days in advance of the proposed transaction. None of the Chief Financial Officer, Chief Executive Officer, Secretary, or anyone else is under any obligation to approve a trade submitted for pre-clearance, and may determine not to permit the trade.

Post-Trading Reporting

All Covered Persons are required to report to the Chief Financial Officer any transaction in the Company's securities undertaken by them or members of their immediate families and personal household not later than the end of the business day immediately following the date of the transaction. Each report made to the Chief Financial Officer should include the date of the transaction, quantity, price and broker-dealer through which the transaction was effected. This reporting requirement may be satisfied by sending (or having your broker send) duplicate confirmations of trades to the Chief Financial Officer so long as the Chief Financial Officer receives that information by the required date.

Blackout Periods

Quarterly Blackout Periods. The Company's announcement of its quarterly financial results almost always has the potential to have a material effect on the market for the Company's securities. To assure compliance with this Trading Policy and applicable securities laws, the Company requires that all Covered Persons refrain from conducting transactions (including purchase or sale) involving the Company's securities during the period commencing at the close of the Nasdaq trading market on the last day of each fiscal quarter of the Company and ending at the open of the Nasdaq trading market on the trading day immediately following the completion of two (2) full trading sessions after the public release of the Company's financial results for such quarter (the "**Quarterly Blackout Period**"). The Quarterly Blackout Period is subject to adjustment in the discretion of any of the Chairman, Chief Executive Officer or Chief Financial Officer, provided that any such person making such adjustment notifies the other two persons of the adjustment.

The Company may on occasion issue interim earnings guidance or other potentially material information by means of a press release, SEC filing on Form 6-K or other means designed to achieve widespread dissemination of the information. You should anticipate that trades are unlikely to be pre-cleared while the Company is in the process of assembling the information to be released and until the information has been released and fully absorbed by the market.

Event-specific Blackout Periods. From time to time, an event may occur that is material to the Company and is known by only a few directors or executives. Such events might include the negotiation of the purchase or sale of vessels, renegotiation of material contracts, such as charters or ship management contracts, or debt or equity issuances. As long as the event remains material and nonpublic, the Company may impose a special blackout period during which Covered Persons may not trade in the Company's securities (an "**Event-Specific Blackout Period**"). The existence of an Event-Specific Blackout Period will not be announced, other than to those who are aware of the event giving rise to the blackout. If, however, a Covered Person requests pre-clearance permission to trade in the Company's securities during an Event-Specific Blackout Period, the Chief Financial Officer, having consulted with the Secretary and Chief Executive Officer, will inform the requester of the existence of an Event-Specific Blackout Period, without disclosing the reason for the blackout. Any person made aware of the existence of an Event-Specific Blackout Period should not disclose the existence of the blackout to any other person.

Remember: Even if there is no Quarterly Blackout Period or Event-Specific Blackout Period in effect, any person possessing material nonpublic information concerning the Company should not engage in any transactions in securities of the Company until such information has been made public and absorbed by the market.

Hardship Exceptions. The Company may, on a case-by-case basis, authorize trading in the Company's securities during a Quarterly Blackout Period (but in no event during an Event Specific Blackout Period) due to financial hardship or other hardships only after:

- i. The individual trading has notified the Chief Financial Officer in writing, at least three business days prior to the proposed trade(s), of the circumstances of the hardship and the amount and nature of the proposed trade(s); and
- ii. The individual has certified to the Company in writing, no more than two business days prior to the proposed trade(s), that he or she is not aware of material nonpublic information about the Company.

A hardship exception may be granted only if the Chief Financial Officer *and* either the Chairman, Secretary or the Chief Executive Officer conclude, based on information provided by the requesting individual, that such individual is not in possession of material nonpublic information about the Company. None of the Chief Financial Officer, Chairman, Secretary or Chief Executive Officer is under any obligation to grant a hardship exception. In the case of financial hardship or other hardships of the Chief Financial Officer, the hardship exception may be granted only if the Chief Executive Officer (if not the same person as the Chief Financial Officer, and if the same person as the Chief Financial Officer, then the Secretary) and the Chairman or Secretary conclude, based on information provided by the requesting individual, that such individual is not in possession of material nonpublic information about the Company.

Rule 10b5-1 Plan. Blackout periods shall not prohibit transfers of Company securities made pursuant to a written contract, letter of instruction or plan that (a) complies with the requirements of SEC Rule 10b5-1 (a “**Rule 10b5-1 Plan**”), and (b) has been approved by the Company’s Chief Financial Officer (or in the case of a Rule 10b5-1 Plan adopted by the Chief Financial Officer, by the Chief Executive Officer, and if the Chief Financial Officer and Chief Executive Officer are the same person, by the Secretary) at least two weeks prior to the first trade under the Rule 10b5-1 Plan. In order to receive such approval from the Company’s Chief Financial Officer, Chief Executive Officer or Secretary, as applicable, a Covered Person must certify in writing that (i) such Covered Person was not in possession of material nonpublic information about the Company at the time the Rule 10b5-1 Plan was adopted, (ii) that all trades made under the Rule 10b5-1 Plan will comply with Rule 10b5-1 Plan and applicable securities laws, and (iii) the Rule 10b5-1 Plan complies with the requirements of Rule 10b5-1. No such approval by the Chief Financial Officer, Chief Executive Officer or Secretary shall be considered any such officer’s or the Company’s determination that the Rule 10b5-1 Plan satisfies the requirements of Rule 10b5-1. It shall be the sole responsibility of the person establishing the Rule 10b5-1 Plan to ensure that such plan complies with the requirements of Rule 10b5-1.

In order to be afforded the defense of using a trading plan, Covered Persons and other persons have a mandatory cooling-off period between Rule 10b5-1 Plan adoption and execution of a trade, as noted below:

- Directors and officers (as defined in § 240.16a-1(f) (Rule 16a-1(f) of the Securities Exchange Act of 1934, as amended) of the Company – The mandatory cooling-off period is the later of (i) 90 days following plan adoption or (ii) two business days following disclosure of the Company’s financial results for the fiscal quarter in which the plan was adopted (maximum of 120 days).
- Key Employees and All Other Persons – 30 days following plan adoption.

Post-Termination Transactions

If you are aware of material nonpublic information when you terminate service as a Covered Person, you may not trade in the Company’s securities (or any other company’s securities, whether or not that company is a public company) until that information has become public or is no longer material. In all other respects, the procedures set forth in this Trading Policy will cease to apply to your transactions in the Company’s securities upon the expiration of any Quarterly Blackout Period or Event-Specific Blackout Period that is applicable to your transactions at the time of your termination of service.

(f) Permitted Transactions Under Company Plans

Share Option Exercises. This Trading Policy does not apply to the exercise of an employee share option, or to the exercise of a tax withholding right pursuant to which you elect to have the Company withhold shares subject to an option to satisfy tax withholding requirements. This Trading Policy does apply, however, to any sale of shares as part of a broker-assisted cashless exercise of an option, or any other market sale for the purpose of generating the cash needed to pay the exercise price of an option.

Policy for the Recovery of Erroneously Awarded Compensation

Effective: November 8, 2023

1. Introduction

The Board of Directors (the “**Board**”) of Globus Maritime Limited (the “**Company**”) has adopted this policy, which provides for the recovery of certain executive compensation in the event of certain accounting restatements (the “**Policy**”).

This Policy is designed to comply with Section 10D, as implemented by Rule 10D-1, of the Securities Exchange Act of 1934, as amended (the “**Exchange Act**”) and is made in accordance with the applicable listing rules (the “**Nasdaq Rules**”) of the Nasdaq Stock Market (“**Nasdaq**”).

2. Covered Executives

This Policy applies to the Company’s current and former executive officers, as determined by the Committee (as defined below) in accordance with Section 10D of the Exchange Act and the Nasdaq Rules, who, for the avoidance of doubt, will include, at a minimum, executive officers identified pursuant to 17 C.F.R. 229.401(b), as well as the principal financial officer and principal accounting officer (or, if there is no principal accounting officer, the controller), and such other senior executives/employees who may from time to time be deemed subject to the Policy by the Committee (“**Covered Executives**”).

This Policy shall be binding and enforceable against all Covered Executives, as described herein, and, to the extent required by applicable law or guidance from the United States Securities and Exchange Commission (the “**SEC**”) or Nasdaq, Covered Executives’ beneficiaries, heirs, executors, administrators or other legal representatives.

3. Recovery of Erroneously Awarded Compensation

In the event the Company is required to prepare an Accounting Restatement of its financial statements, the Remuneration Committee (if composed entirely of independent directors, or in the absence of such a committee, a majority of independent directors serving on the Board) (the “**Committee**”) will determine the amount of Erroneously Awarded Incentive Compensation (defined below) and the Company will promptly notify each Covered Executive who received Erroneously Awarded Incentive Compensation of the amount of Erroneously Awarded Incentive Compensation received by such Covered Executive and will require reimbursement or forfeiture of not less than the full amount of any Erroneously Awarded Incentive Compensation received or deemed received by any Covered Executive, except to the extent determined impracticable in Section 7 below.

Any such recovery shall apply to Incentive Compensation Eligible for Recovery paid during the three (3) completed fiscal years immediately preceding the Restatement Date and, if the Company changes its fiscal year, any transition period of less than nine months within or immediately following those three completed fiscal years (the “**Recovery Period**”).

Incentive Compensation shall be deemed received in the Company's fiscal period during which the Financial Reporting Measure specified in the Incentive Compensation award is attained, even if the payment or grant of the Incentive Compensation to the Covered Executive occurs after the end of that period.

Any recovery under this Policy shall be made reasonably promptly and in accordance with the Exchange Act and Nasdaq Rules.

4. **Incentive Compensation and Financial Reporting Measures**

For purposes of this Policy:

"Accounting Restatement" means an accounting restatement due to the material noncompliance of the Company with any financial reporting requirement under the securities laws, including any required accounting restatement to correct an error in previously issued financial statements that is material to the previously issued financial statements (a "Big R" restatement), or that would result in a material misstatement if the error were corrected in the current period or left uncorrected in the current period (a "little r" restatement).

"Financial Reporting Measures" are measures that are determined and presented in accordance with the accounting principles used in preparing the Company's financial statements, and all other measures that are derived wholly or in part from such measures. Share price and total shareholder return (and any measures that are derived wholly or in part from share price or total shareholder return) shall, for purposes of this Policy, be considered Financial Reporting Measures. For the avoidance of doubt, a Financial Reporting Measure need not be presented in the Company's financial statements or included in a filing with the SEC.

"Incentive Compensation" means any compensation that is granted, earned, or vested based wholly or in part on the attainment of a Financial Reporting Measure, including, but not limited to, the following:

- (a) Annual bonuses and other short- and long-term cash incentives;¹
- (b) Stock options;
- (c) Restricted stock;
- (d) Restricted stock units; and
- (e) Performance shares.

“**Incentive Compensation Eligible for Recovery**” means Incentive Compensation received by a Covered Executive:

- (f) after beginning service as a Covered Executive;
- (g) who served as a Covered Executive at any time during the performance period for the applicable Incentive Compensation (regardless of whether such individual is serving as a Covered Executive at the time the Erroneously Awarded Incentive Compensation is required to be repaid);
- (h) while the Company had a class of securities listed on a national securities exchange or a national securities association;
- (i) during the applicable Recovery Period; and
- (j) on or after the effective date of the applicable Nasdaq Rules (i.e., October 2, 2023).

“**Restatement Date**” means the earlier to occur of (i) the date the Board, a committee of the Board or the officers of the Company authorized to take such action if Board action is not required, concludes, or reasonably should have concluded, that the Company is required to prepare an Accounting Restatement, or (ii) the date a court, regulator or other legally authorized body directs the Company to prepare an Accounting Restatement.

5. **Erroneously Awarded Incentive Compensation – Amount Subject to Recovery**

The amount to be recovered will be the excess of the Incentive Compensation Eligible for Recovery paid to the Covered Executive based on the erroneous data over the Incentive Compensation Eligible for Recovery that would have been paid to the Covered Executive had it been based on the restated results (calculated without regard to any taxes paid), as determined by the Committee (the “**Erroneously Awarded Incentive Compensation**”).

If the Committee cannot determine the amount of Erroneously Awarded Incentive Compensation received by the Covered Executive directly from the information in the Accounting Restatement (i.e., the Erroneously Awarded Incentive Compensation is not subject to mathematical recalculation directly from the information in the applicable Accounting Restatement), then it will make its determination based on a reasonable estimate of the effect of the Accounting Restatement. The Company shall maintain documentation of the determination of such reasonable estimate and provide the relevant documentation to Nasdaq.

The Company shall promptly notify each Covered Executive with a written notice containing the amount of any Erroneously Awarded Incentive Compensation and a demand for repayment or return of such compensation, as applicable.

6. **Method of Recovery**

The Committee will determine, in its sole discretion, the method for recouping Erroneously Awarded Incentive Compensation hereunder which may include, without limitation, any of the following or combination thereof:

- (a) requiring reimbursement of cash Incentive Compensation Eligible for Recovery previously paid;
- (b) seeking recovery of any gain realized on the vesting, exercise, settlement, sale, transfer, or other disposition of any equity-based awards;
- (c) offsetting the recouped amount from any compensation otherwise owed by the Company to the Covered Executive;
- (d) cancelling outstanding vested or unvested equity awards; and/or
- (e) taking any other remedial and recovery action permitted by law, as determined by the Committee.

Except as set forth in Section 7 below, in no event may the Company accept an amount that is less than the amount of Erroneously Awarded Incentive Compensation in satisfaction of a Covered Executive’s obligations hereunder. To the extent that a Covered Executive fails to repay all Erroneously Awarded Incentive Compensation to the Company when due, the Company shall take all actions reasonable and appropriate to recover such Erroneously Awarded Incentive Compensation from the applicable Covered Executive. The applicable Covered Executive shall be required to reimburse the Company for any and all expenses reasonably incurred (including legal fees) by the Company in recovering such Erroneously Awarded Incentive Compensation in accordance with the immediately preceding sentence.

To the extent that the Covered Executive has already reimbursed the Company for any Erroneously Awarded Incentive Compensation received under any duplicative recovery obligations established by the Company or applicable law, it shall be appropriate for any such reimbursed amount to be credited to the amount of Erroneously Awarded Incentive Compensation that is subject to recovery under this Policy.

7. **Impracticality**

The Company shall recover any Erroneously Awarded Incentive Compensation in accordance with this Policy, unless such recovery would be duplicative of compensation recovered by the Company from the Covered Executive pursuant to Section 304 of the Sarbanes-Oxley Act or would be impracticable, as determined by the Committee in accordance with Rule 10D-1 of the Exchange Act and the Nasdaq Rules, and any of the following conditions are satisfied:

- (a) The Committee has determined that the direct expenses paid to a third party to assist in enforcing the Policy would exceed the amount to be recovered. Before making this determination, the Company must make a reasonable attempt to recover the Erroneously Awarded Incentive Compensation, documented such attempt(s) and provide such documentation to Nasdaq; or

(b) Recovery would violate home country law where that law was adopted prior to November 28, 2022, provided that, before determining that it would be impracticable to recover any amount of Erroneously Awarded Incentive Compensation based on violation of home country law, the Company has obtained an opinion of home country counsel, acceptable to Nasdaq, that recovery would result in such a violation and a copy of the opinion is provided to Nasdaq; or

(c) Recovery would likely cause an otherwise tax-qualified retirement plan, under which benefits are broadly available to employees of the Company, to fail to meet the requirements of Section 401(a)(13) or Section 411(a) of the Internal Revenue Code of 1986, as amended, and regulations thereunder.

8. No Indemnification

The Company shall not insure or indemnify any Covered Executive against the loss of any Erroneously Awarded Incentive Compensation that is repaid, returned or recovered in accordance with the terms of this Policy, or for any claims relating to the Company's enforcement of any of its rights under this Policy.

The Company shall not enter into any agreement or arrangement that exempts any Incentive Compensation that is granted, paid or awarded to any Covered Executive from the application of this Policy or that waives the Company's right to recover any Incentive Compensation Eligible for Recovery, and this Policy shall supersede any such agreement (whether entered into before, on or after the Effective Date of this Policy).

9. Other Recovery Rights

The Committee intends that this Policy will be applied to the fullest extent required by applicable law. Any employment agreement, equity award agreement, compensatory plan or any other agreement or arrangement with a Covered Executive shall be deemed to include, as a condition to the grant of any benefit thereunder, an agreement by the Covered Executive to abide by the terms of this Policy.

The Committee may require that any employment agreement, equity award agreement, or similar agreement entered into on or after the Effective Date shall, as a condition to the grant of any benefit thereunder, require a Covered Executive to agree to abide by the terms of this Policy.

Any right of recovery under this Policy is in addition to, and not in lieu of, any other remedies or rights of recovery that may be available to the Company under applicable law, regulation or rule or pursuant to the terms of any similar policy in any employment agreement, equity award agreement, or similar agreement and any other legal remedies available to the Company.

10. Disclosure Requirements

The Company shall file all disclosures with respect to this Policy required by applicable SEC filings and rules.

11. Interpretation

The Committee is authorized to interpret and construe this Policy and to make all determinations necessary, appropriate, or advisable for the administration of this Policy, and for the Company's compliance with Nasdaq Rules, Section 10D, Rule 10D-1 and any other applicable law, regulation, rule or interpretation of the SEC or Nasdaq promulgated or issued in connection therewith. It is intended that this Policy be interpreted in a manner that is consistent with the requirements of Section 10D of the Exchange Act and any applicable rules or standards adopted by the SEC or Nasdaq.

12. Amendment and Termination

The Committee may amend or terminate this Policy from time to time in its discretion; provided, that, no amendment or termination of this Policy shall be effective if such amendment or termination would cause the Company to violate any applicable federal securities laws, SEC rule or Nasdaq Rule.

13. Effective Date

This Policy shall be effective as of November 8, 2023 (the “**Effective Date**”) and shall apply to Incentive Compensation that is approved, awarded or granted to Covered Executives on or after October 2, 2023.

14. Policy Administration

This Policy shall be administered by the Committee, and any determinations made by the Committee shall be final and binding on all affected individuals.
